Sale Information

(Left to right) Cody, Glen, Diane, Jessica and Chad Halfmann

Welcome all our Red Angus friends!

What an exciting time it is to be in the livestock industry! Demand for quality genetics is getting stronger and Red Angus feeder calves and replacement heifers are highly sought. Demand for U.S. beef continues to grow as cow inventories remain at 60 year record lows and global demand for protein continues to rise.

Cattle are bringing record prices. 550-800 pound steers are recently selling for \$800-\$1000 per head. I'm looking at a packer sheet as I write and heavy weight cattle are selling for \$1.44 on the rail; 2000 pound bulls bring around \$1600 and heavy cull cows \$1100. Take advantage of these prices by trading up aging bulls and older problematic cows for young productive herd sires and quality replacement heifers from Halfmann Red Angus.

We are proud to offer a great set of bulls and females in this year's sale! We believe that the money you spend on our Red genetics is a great investment in your herd's future. This set of bulls has been developed for longevity on a high-roughage forage ration to allow them to naturally express their genetic potential for roughage conversion and carcass quality. The females are fancy, functional and AI bred to Red Angus' top calving ease sire. We also have a superior set of guest consigned Sim-Angus influenced females bred to Red Angus sires.

Halfmann Red Angus supports the commercial cattleman by providing cost-reducing genetics, adding value to calves, and furnishing a wide range of marketing options. We're open to assist our customers with selections or special needs and we guarantee confidentiality on any sight-unseen purchases.

We invite you to view the cattle anytime between now and sale day. Please join us October 7th to view the cattle and on October 8th for the sale (free lunch provided) either on the ranch or online at DVAuction.com.

Dennis and Clifford Halfmann

See you at the sale!

Sale Location:

At the Ranch

From San Angelo, Texas, head east on US 67 to Miles, proceed through Miles for 2.4 miles. Left onto County Road 357 to ranch.

From Ballinger, Texas, head west on US 67 to Rowena, proceed through Rowena for approximately 6 miles. Turn right onto county road 357 to ranch.

Airline Info:

American Airlines flies into San Angelo, Texas (15 miles from us).

Continental and Southwest Airlines fly into Midland, Texas (125 miles from us).

Hotel Accommodations:

Best Western, San Angelo
3017 West Loop 306(325) 223-1273

Holiday Inn Express, San Angelo
4613 W Houston Harte Expressway(325) 223-2200

Comfort Suites, San Angelo
4450 W Houston Harte Expressway(325) 944-8600

Hampton Inn, San Angelo, 2959 Loop 306(325) 942-9622

Executive Inn, Ballinger, 1005 Hutchins Ave(325) 365-5717

Trucking:

All total bull sales from one buyer of **\$12,500 OR MORE** will be delivered to a central location **FREE** of charge. We will deliver all other bull sales at cost; we guarantee no bull will cost more than \$300 per head for delivery in the lower 48 states. We can arrange delivery for heifers at cost. Please provide a facility where we may unload and reload several bulls. You may also need to accommodate a semi-truck either at your place or by making arrangements with a neighbor, sale barn, etc. We will make every effort to get your purchase as close as possible. All deliveries are at buyer's risk.

All Animals Will Be Handled At Buyer's Risk:

We highly recommend insuring your purchases. If you are not hauling your cattle, we will collect these trucking fees at time of cattle check-out and begin delivering on Monday following the sale.

Mortality Insurance:

We highly recommend insuring your purchases. Insurance will be available to purchase on sale day at checkout.

Feeding:

Please arrange to pick up or receive your purchases. HRA will begin shipping on the Monday following the sale. We will hold cattle if needed for 10 days following the sale. Afterwards, purchased cattle will be assessed for feed.

Phone Bids:

We guarantee Sight Unseen Purchase Satisfaction. Contact us or one of the livestock representatives before the sale. Your bid will be handled confidentially.

Herd Health:

All animals have been tested negative for BVD PI. All animals are current on vaccinations of "Triangle 9 + Type II BVD" and "Vision 7 Somnus with SPUR". All females of age are calf-hood vaccinated. All the bulls will have a general health and fertility examination by sale day. Breeding information will be available on sale day. Interstate health papers will be furnished for each animal in accordance with Federal Regulations.

Sale Day Lunch:

Meal provided day of sale.

Cattle Viewing:

Cattle will be available for viewing at 2 p.m. on the Friday before the sale.

Auction Format:

Selling in catalog order by recorded video. Cattle available to view on the ranch.

Online Supplemental Information:

Color photos, supplement information, videos and color catalog available at: www.halfmannredangus.com

View the auction live online and bid at your own desk!

- 1) Visit the DV Auction website to register at www.dvauction.com
- 2) Complete "Registration" and "Applying to Bid"
- 3) DVAuction will contact you to let you know that you have been approved to bid and buy at the sale "live" from your computer at home

Note: You must have high speed internet access (DSL, T-1, or Broadband) to be able to bid during the sale.

Any questions, contact Dan Broz with DVAuction at 402-649-3172 or 402-474-5557, dan@dvauction.com.

We recommend that you register by October 8, 2010, for on-line bidding. Every attempt will be made to complete your application even if it is on sale day.

Please visit our website, www.halfmannredangus.com for supplement information.

"Thank you to our past customers"

Great businesses that make ours successful...

FOCUSING ON THE BOTTOM LINE

Profit has two sides to the equation, Income & Expense. For many years, some cattlemen have concentrated on how to maximize income, while not paying attention to expense. When times get tough, as we are currently experiencing, businesses of all industries tend to become more efficient and focus on reducing expenses. The Red Angus Association recognized this early on and developed unbiased scientific methods to measure economically relevant traits to help cattlemen become more efficient. The most economically relevant traits are Calving Ease Direct (CED), Birth-weight (BW), Maintenance Energy (ME) and Stayability. BW is highly correlated to mature cow size; use of lower birth-weight bulls on cows is the surest way to keep moderate-sized cows. Complete information on EPDs is available in the "Rancher's Guide to EPDs".

THE IMPACT OF BIRTHWEIGHT & CALVING-EASE

The foundation of animal breeding is fertility and calf survival. Without cows breeding up and weaning a calf every year, producers will incur an economic loss. By introducing practices such as set breeding seasons and pregnancy checking, producers can become more efficient by eliminating cows that do not breed up and calve every year (eliminating the cost of carrying open cows). A residual benefit to having a calving season is having more uniform groups of calves that can be managed and marketed together. Also, using lower birth-weight, calving-ease bulls that have good weaning and yearling weights will insure a higher percentage of weaned calves and more total pounds of calves weaned. For example, suppose you use a higher birth-weight bull that adds 20

more pounds per calf at weaning. If the calves wean at 600 pounds and you lose one calf at birth, the cost of losing one calf is equivalent to the additional 20 pounds of gain on 30 calves. Maintaining a high weaning percentage should be a high priority.

USING EPDS & RATIOS

A common misconception is that EPDs will tell us which animal of several being compared is 'best'. EPDs are merely a description of each animal's genetic make-up. It is up to us to determine which animal is best for us. Selecting for single traits is not always the most effective choice. When selecting a bull, take into consideration all traits that are relevant for your program. By correctly using EPDs, we can each determine which animal best fits our programs, or moves them in a direction we want to go.

Ratios are used for comparing within a single contemporary group. Selecting between contemporary groups with actual or adjusted data can be inaccurate and could lead to selection or culling errors! Performance measurements such as growth and marbling may vary greatly between contemporary groups depending on how they are managed and fed. For example, grain-fed animals are more likely to have higher marbling scores than forage-fed animals. However, forage-fed animals may be genetically capable of producing higher marbling scores, but are not fed high-grain rations for other management reasons. When selecting within a contemporary group, ratios are useful in comparing an individual's performance over others.

We bought Hustler R588 in the 2006 Beckton sale. Among all proven sires, Hustler R588 is proving to be the top calving-ease bull in the breed with growth. Replacement females are very hard working and good uddered. Sons across the U.S. are highly demanded as they are consistent top sellers in our sale as well as for Cross Diamond in Nebraska. In addition, R588 sires the most stylish, attractive calves you will find in the breed. Here's a rare bull that will let you sleep at night!

A heavy-muscled, strong-topped, wide-based L416 son that we have high expectations of. Dividend is solid footed and travels exceptionally well in the pasture. He excels in all categories of from birth to growth and carcass. Great all-around bull with EPDs at the top of the breed. You really have to see this bull to appreciate how well he is put together. Semen available.

Chateau L416 was purchased from Jim Shirm, Oates Land & Cattle, prior to their dispersal. Jim used him on his heifers. Possibly the best Chateau 744 son, L416 raised heavy muscled good topped bulls and moderate sized high producing females. His calves are low birth weight, high maternal traits with excellent marbling. L416 sired two of our current herd sires, Chateau L610 and Dividend U398. Semen available.

Big footed, stout cherry red Avalanche son we used naturally in 2011. W415 has a strong Chiefline pedigree on the maternal side and sired by the great PIE Avalanche from Piepers. If your looking for high growth and large ribeye, look no further! He finished breeding a week before the photo.

This dark red, well-balanced bull also carries a great balanced set of EPDs! Moderate birth, great growth along with carcass and maintenance! He is the best combination bull for carcass as he scanned in the top for Marbling and the best for Ribeye in this offering. This bull really does it all! He is sired by the Mission Statement son that we sold to Vic Westphal of Montana. He is out of a maternal Hustler daughter that goes back to Sandman. The D502 cow was still producing calves for us at 16 years old.

This Mission Statement son has been a standout since he was a calf. He started out at a modest 72 lbs. and grew out as good as any bull in the sale (top 11% of the breed for YW). Replacement heifers will be worth A LOT and this guy should produce some really nice daughters! His dam is a moderate L416 daughter who is putting it all into her calves (MPPA: 109.1).

We have sold a lot of really good Hustler sons and here is another. Check out the spread from birth to yearling! PLUS, he put up a 110 ratio on Ribeye! Not too bad for being sired by a calving-ease bull.

Lot 16

Big-spread, smooth-moving bull with carcass. X526's dam sold last year to Silver Spur Ranch of Wyoming. Cheramie of Silver Spur noted that his dam raised one of the best bull calves in their herd this year (sired by our Chateau L610 sire).

Heavy-muscled, big-footed, stout Mission Statement bull! Top 18% for YW and 1% for ribeye. He comes from a strong maternal line – Grande and L303. Chiefline pedigrees did great things for our program early on. His dam has a 104.9 MPPA.

Nebula x Hustler. Low birth, high marbling and low maintenance! Check out the spread from birth to growth, plus he is the highest scanning bull in the offering for marbling. We liked this bull so much we used him on our heifers this year. Should make great daughters! Great job by his Hustler dam, who raised him as a first-call heifer.

Nebula x Choctaw 373. Low birth, high marbling and low maintenance! The lowest ME bull in the offering out of an original Choctaw Chief 373 daughter! Like the last bull, we liked this one so much we used him on our heifers this year to produce more great replacement females.

A great Mission Statement son by our Alexis donor cow. This bull has been a knockout from day 1. We used him heavily in our program this spring as we expect him to produce great daughters. We sold embryos in our 2009 sale to the Ravenscroft family in Nebraska. They raised a flushmate sister who won Reserve Grand Champion over all breeds.

This fancy heifer was the pick of all our heifers by Angelo State University's judging coach while they were practicing with our cattle. He noted that she was possibly the best Red Angus he has seen. Good topped, big ribbed heifer that will do a great job!

Cooperator and Guest Consignors

Cooperator – MADA RANCH

MADA Ranch of Eldorado, Texas (owned by Heidi Gardiner) purchased several sets of females and bulls from Halfmann Red Angus over the past years. MADA runs cattle on native pasture near Christoval, Texas, with minimal supplement feeding. We are blest to have a great friend, cooperator and MADA ranch manager, Mike Vaughn, supporting our program. MADA's cattle are from the heart of our program and they are designated with the prefix MADA.

Rx Simbrah – Sally Buxkemper

Guest Consignor – RX SIMBRAH

Rx Simbrah of Ballinger, Texas, is owned and operated by Sarah J. (Sally) Buxkemper. Mrs. Buxkemper believes in applying the science of genetics to cattle improvement. Building a heat tolerant composite that blends the best qualities of Simmental, Red Angus, and Brahman is her program. As a graduate in Animal Science from Oklahoma A & M (now State U.) who also earned a masters in Molecular Biology, she uses tools such as AI, ET, and DNA marker technology to reach goals.

Congratulations, Sally, for being inducted into the Cowgirl Hall of Fame!

Guest Consignor – MALLET SIMMENTALS

Mallett Simmentals of Lampasas, Texas is owned and operated by Mike and Connie Mallett of Lampasas, Texas. The registered operation, which began in 1989, currently consists of 115 Simmental and SimAngus cows. Their program's focus is on performance and carcass traits, without sacrificing maternal characteristics. They collect ultrasound and carcass data on all bulls and heifers. Enrollment in ASA's Carcass Merit Project has strengthened the carcass emphasis of their program. Mr. Mallett is currently serving his second term as a trustee for the American Simmental Association and serves on the executive committee. A member of TSCRA and NCBA, Mike has participated in BIF meetings, in addition to attending the annual TAMU Beef Cattle Shortcourse, where he recently addressed traits for bull selection, with emphasis on calving ease, growth, and carcass.

An attractive long-spined bred heifer that should develop into a nice brood cow. Her paternal sibs are doing an excellent job in raising calves in this current drought. Her udder attachment and teat size should be ideal. If you need more muscle in your herd she should fit the bill as she is in the top 3% of the Simmental breed for REA. AI'd 4-24-2011 to 5L Norseman King. PE to the calving ease bull RX Cinnamon X1309S (ASA # 2533655) from May 5 though June 26, 2011.

A deep red, high-volume bred heifer that has brood cow written all over. Her sire is Mallett Keynote U847 2SA is enrolled in the American Simmental Association's Carcass Merit Project. These "Keynote" calves really perform! Out of a first calf heifer with a pedigree stacked for CE and Carcass Merit without sacrificing Performance. She is top 15% of the breed for BW and the top 5% for WW and YW. For carcass traits she is in the top 15% for CW, 1% for Marb, and 27% for REA. In ASA's Economic Indexes she is in the top 3% for All-Purpose (maternal) and 1% for Terminal. AI'd 4-24-2011 to 5L Norseman King and pasture exposed to the calving ease bull RX Cinnamon X1309S (ASA # 2533655) from May 5 through June 26, 2011.

Commercial Females

OFFERING ABOUT 60 COMMERCIAL BRED HEIFERS. SALE PROCEDURE IS DEFINED BELOW.

Offering about 60 fancy bred heifers. These high percentage Red Angus females are current with vaccinations and BVD-PI tested. AI'd to Beckton Halfmann Hustler R588, due

2/3/12. Clean-up sires X464, X493, X510 (Lots 18, 19, 43) due 2/12/12 – 4/28/12. Heifers will be pregnancy tested by sale day. The winning bidder has the option to purchase minimum 3 head up to a maximum 20. The heifers are very uniform in size, color and breeding. Heifers will be gate cut.

The Rancher's Guide to EPDs

Courtesy of the Red Angus Assn. of America. For more information on EPDs, visit redangus.org.

EPDs: Expected Progeny Difference – How an animal's future progeny will perform compared to the progeny performance of the average animals in the breed, assuming similar environments and matings of the same genetic value. EPDs in this catalog for sale lots are Fall 2011 non-parent EPDs without accuracies. If accuracies were listed, they would be very low.

(ACC) Accuracy – An expression of reliability of an animal's EPDs. The higher the rating, the more accurate the EPD.

CEM (Calving Ease Direct) EPD: Predicts the probability of calves being born unassisted out of 2-year-old heifers.

BW EPD: Predicts the difference, in pounds, for birth weight, and is also used in the calculation of Red Angus' Calving Ease Direct (CED) EPD.

WW EPD: Predicts the difference, in pounds, for weaning weight (adjusted to age of dam and a standard 205 days of age).

YW EPD: Predicts the expected difference, in pounds, for yearling weight (adjusted to a standard 365 days of age).

Milk EPD: Predicts the difference in maternal production of an individual animal's daughters as expressed by the weaning weight of their calves.

Total Maternal EPD: Predicts the rancher's actual observation of weaning weights of calves raised by an animal's daughters. $TM\ EPD = Milk\ EPD + 1/2\ (WW\ EPD)$

ME (Maintenance Energy) EPD: Predicts a bull's daughters that will require less feed to maintain her body weight and condition; thus increasing profitability.

HPG (Heifer Pregnancy) EPD: Predicts the probability of heifers conceiving to calve at two years of age.

CEM (Calving Ease Maternal) EPD: Predicts the probability of a given animal's daughters calving unassisted at two years of age.

Stayability EPD: Predicts the probability that a bull's daughters will remain in the herd until at least six years of age.

Marb (Marbling) EPD: Predicts differences for carcass marbling score as expressed in marbling score units. Higher marbling scores are positively correlated with higher carcass quality grades.

YG (Yield Grade) EPD: Predicts differences in USDA Yield Grade score, and is expressed in USDA Yield Grade units.

CW (Carcass Weight) EPD: Predicts differences in hot carcass weight and is expressed in pounds, because Red Angus' CW EPD is a multi-trait.

REA (Ribeye Area) EPD: Predicts differences of carcass Rib Eye Area between the 12th and 13th rib.

Fat (Backfat) EPD: Predicts differences for carcass fat depth over the 12th rib, as expressed in inches.

Terms & Conditions

BIDDING DISPUTES: The Auctioneer will settle any disputes as to bids, and his decision on such matters shall be final.

TERMS: Terms of sale are cash. All settlements will be made with the clerks of the sale immediately following the conclusion of the sale and before any cattle will be released.

PURCHASER'S RISK: Each animal becomes the risk of the Buyer as soon as sold. Insurance will be available sale day.

CERTIFICATE OF REGISTRY: A certificate of registry will be furnished to the Buyer for each animal, after settlement has been made.

ANNOUNCEMENTS: Changes or errors of information contained in this catalog relating to the animals offered for sale will be announced from the auction box and such announcements shall take precedence over printed matter in the catalog.

BREEDING GUARANTEE: All animals sold are guaranteed breeders by the Seller. All claims for adjustment or refund must be made in writing within six months of the sale date. In the event an animal is claimed to be a non-breeder, the purchaser may return the animal to the ranch of the seller if in good condition, free of disease and complying with the health requirements of the Seller's state. The Seller will be entitled to six months trial following the return of the animal in which to prove that the animal is a breeder. If at the end of six months, the Seller shall be obligated, at his option, to refund the purchase price, replace the animal with another of equal value, or grant the buyer credit for use on cattle marketed by the seller. The return of the full purchase price shall in any case be deemed full satisfaction and settlement. If the Seller proved the animal to be a breeder, it shall be the obligation of the purchaser to take delivery of the animal at the purchaser's expense. All

animals are guaranteed to be breeders, with the exception of: a) calves under twelve months of age; or b) animals shown by Purchaser after sale; or c) gross negligence or willful misconduct on the part of the Purchaser.

SELLER'S SEMEN RIGHTS: Seller keeps a 50% revenue-sharing breeding interest without possession, in every bull in this catalog unless otherwise noted in this catalog or in the sale day supplement. In the event Seller elects to collect semen from a designated bull, it will be done at Seller's expense and during such time when purchaser is not using the bull for breeding. Future semen collections of the bull must be made known to all owners prior to collecting. These collections and costs will be divided according to each owner's interest, unless otherwise agreed upon mutually by all owners.

LIABILITY: Neither owners, sale managers, clerks nor anyone connected with the sale assumes responsibility, legal or otherwise, for damage of any kind.

CONTRACT: The above terms and conditions shall constitute a contract between the buyer and seller of each animal sold.

IMPLIED WARRANTY: Except for those stated in the terms and conditions, there are no warranties or implies, as to merchantability or fitness for a particular purpose with respect to the cattle being sold in this auction. The warranties set forth in the terms and conditions are in lieu of all other warranties, either expressed or implied, and the remedies provided therein shall be the sole and exclusive remedy of the buyer, or any party claiming through the buyer, for any breach of warranty or guarantee therein provided and all other obligations or liabilities.
