THE TRADITION

Some folks just don't get it.
They think owning cattle makes no sense.
It takes too much time, too much equipment,
Not to mention the expense.

But the fondest memories of my life
-they might think sound funny-
Were made possible by Mom and Dad,
'cause they spent the time and spent the money.

You see, the most important lessons
Helping values grow so strong,
Come from loving cattle
And passing that tradition on.

-Author Unknown

Welcome to the 34th Annual Production Sale of Lodoen Cattle Co. and Huber EY Cattle

After having 33 production sales here at Lodoen Cattle Co., it gives us great pleasure to be able to join with Emmy (Lodoen) and her husband Bryan Huber. This family has been involved in the registered cattle industry for 58 years now and we are truly excited that our families continue to work together to provide, you, our customers, genetics that you can use in your own operations.

We all believe that to produce a great bull, you must first have an outstanding female. Our herd has been built around outstanding females so that we might pass along some fine herd sires to our customers. Soundness, udder conformity and quiet disposition are all very important characteristics that our dams must possess.

We will have carcass data, scrotal measurements and fertility testing results available on sale day. The bulls have been grown on a whole-oat ration until the middle of January and then fed a commercial ration until sale day. The bulls were not overfed by any means and will be ready to go to work for our customers.

We would love the chance to visit with you at either ranch before April 1st to show off our cows and calves already on the ground, along with the bulls in the sale. But if that doesn't work into your schedule, join us in Bismarck on April 6th at 1 p.m. at Farmers Livestock Exchange for your chance to bid on this outstanding offering.

If you'd like to bid on a bull but cannot attend the sale, give any of us a call and we'll do our best to help you out.

We look forward to visiting with all past customers and are excited at the opportunity to meet new ones. Many wishes for a successful calving season and we truly hope to see you on April 6th.

Sincerely,

*Len, Matt and Jennie, Ben, Rylee,
Molly, Maddy, Wyatt and Zane*

Greetings from Huber EY Cattle,

We hope this finds you all having a safe and healthy spring. Our focus in our herd remains the same, breeding efficient cattle with structural soundness, high maternal traits and good dispositions.

Our bulls were weaned in October. We do not creep feed, allowing us to determine how our dams are performing. We ask you as cattlemen to look at our bulls within their own contemporary group. We calve earlier trying to avoid our unforgiving spring mud. Our calves don't see grass until the end of May. We feel this affects our adjusted 205-day WW, but you can be assured these bulls have surfaced to the top. After weaning, the bulls are separated from the group and fed a ration with the goal of gaining 3 lbs./day.

This year we are offering several calving ease bulls. We are also selling a selected group of commercial replacement quality yearling heifers.

Thanks to our past buyers and for trusting in our program, we truly appreciate your support. Also, thanks to Dan, Joe and Garrett, our extra hands, for helping us to keep things rolling. We do – and will continue to – stand behind our cattle. Please call with any questions or stop by anytime to visit and view the bulls. Hope to see you at the sale.

God Bless,

Bryan, Emmy, Isaac, Alex and Betsy Huber

Lodoen Cattle Co./Huber EY Cattle

Lodoen Cattle Co. & Huber EY Cattle

34th Annual Bull Sale

Wednesday, April 6, 2011 • 1 p.m. CDT

**Farmers Livestock Exchange • Bismarck, ND
(701) 223-6550 • 1-800-932-8868**

Sale Day Phones

Matt	(701) 263-1330
Jennie	(701) 263-1016
Len	(701) 263-1327
Emmy	(701) 320-1995
Bryan	(701) 320-8054

Selling

**55 Powerful Yearling Red Angus
6 Horned Hereford Bulls
20 Red Angus-Hereford Cross Heifers
10 Red Angus Commercial Heifers**

Cattle Viewing

Lodoen cattle can be viewed at the farm ½ mile north of Westhope and Huber cattle can be viewed 5 miles north-west of Jud prior to April 3rd.

Auctioneer

Seth Weishaar..... (605) 210-1336

Ringmen

Terry Robinson, Farm & Ranch Guide (701) 471-5153
Kris Petersen, Cattle Business Weekly (701) 339-0305

Announcements

Announcements made sale day and from the auction block during the sale take precedence over printed materials associated with this sale.

EPDs

EPDs in this catalog are from the Spring 2011 National Cattle Evaluation for all animals.

Breeding Soundness Guarantee

The bulls will be semen tested prior to the sale but we recommend testing the bull before turning out for breeding. If a bull is tested as a non-breeder, the seller has 180 days before making an adjustment. If the bull is declared a sound breeder by a competent veterinarian, he will be returned to the buyer at the buyer's expense. If case an adjustment is required, the bull will be replaced with one of similar quality if possible, or the purchase price will be refunded if the animal is returned in the same body condition.

Herd Health

Herd health is excellent. Health papers can be available to go anywhere. All animals have been poured with Dectomax and are on a full, annual vaccination program. The Lodoen herd is cared for by Dr. Russ Behm, Minot Vet Clinic at (701) 852-4831, and the Huber herd by Dr. Hogan, (701) 320-2856.

Terms and Conditions

- As soon as any animal is sold, it becomes the responsibility of the purchaser. We will discount \$50 per bull taken home by the customer on sale day. After April 15th, a \$2.50-per-day feed cost will be charged.
- All sales are in the U.S. dollar. Each animal is to be sold to the highest bidder. The auctioneer shall settle any disputes as to bids. All cattle are to be paid for by the purchaser during or immediately after the sale and will not be removed until after settlement has been made unless prior arrangements have been made with the Lodoens or Hubers. Farmers Livestock Exchange would like the animals removed from their facility as soon as possible. Insurance is available for a nominal fee.
- Registration certificates of the animals will be transferred to the buyers at the expense of the seller. Heifer registrations will be transferred on heifers that sell for at least \$1,000.
- All persons attending the sale do so at their own risk. Lodoen Cattle Co. and Hubers EY Ranch assume no liability, legal or otherwise, of any accidents which may occur.

Cattle Viewing

We invite you to join us for lunch prior to the sale starting at 11 a.m. at the sale barn. Come early to view the cattle either the morning of the sale or Tues., April 5th.

Accommodations

Anyone needing overnight accommodations should call Jennie to make arrangements. Bismarck is served by Delta and United Airlines. A block of rooms will be reserved at the Ramkota Inn in Bismarck under the Lodoen Cattle Co. Production Sale. Rooms can be booked at (701) 228-7700. A small social will be held on Tuesday evening for anyone staying in town for the night. Please let us know if we can help in any way.

The youngest bull in the sale with a low birth weight. Dam is a good producing daughter of Comanche with a +23 Milk and an MPPA of 101.

Bryan and Betty going for a little ride.

Lodoen Cattle Co./Huber Elf Cattle

20 Commercial Red Angus-Hereford Cross Open Heifers *from Huber Ely Cattle*

These heifers are all home raised and selected out of our replacement pen. Due to our increasing purebred herd, we are unable to breed all our commercial heifers. We utilize the CHAPS program in our herd and this allows us to have beneficial information on all our females. We feel confident they will make their place in anyone's herd. The heifers are Bangs vaccinated and we used the Wean Vac vaccination program this fall.

10 Commercial Red Angus Open Heifers *from Lodoen Cattle Co.*

When going through the replacement heifer pen, it was evident that we didn't have the room to keep all of them. So, in an effort to help grow your herd, we are offering these 10 very fancy, breedable, quiet, purebred red heifers. They are all out of our reference sires listed at the front of the catalog and have all been Bangs vaccinated. We do have full records on each of them so if anyone is interested, they should give us a call.

The BEST VALUE in Age & Source Verification

Real Rancher Solutions:

- USDA approved for Age and Source Verification, plus Traceability to Angus Bloodlines
- Free Feeder Cattle Marketing Services
- Value-Based Marketing Options through Angus America and Meyer Natural Angus
- Available in either a Visual Tag only, or Combination: Visual Tag & RFID Tag

No Enrollment Fee!

Rancher's Guide to EPDs

Courtesy of the Red Angus Assn. of America

For more information on EPDs, visit redangus.org. EPDs, visit redangus.org.

CED Calving Ease Direct – predicts the probability of calves being born unassisted out of 2-year-old heifers.

BW..... Birth Weight – predicts the difference, in pounds, for birth weight, and is also used in the calculation of Red Angus' Calving Ease Direct (CED) EPD.

WW Weaning Weight – predicts the difference, in pounds, for weaning weight (adjusted to age of dam and a standard 205 days of age).

YW..... Yearling Weight – predicts the expected difference, in pounds, for yearling weight (adjusted to a standard 365 days of age).

Milk Milk – predicts the difference in maternal production of an individual animal's daughters as expressed by the weaning weight of their calves.

TM Total Maternal – predicts the rancher's actual observation of weaning weights of calves raised by an animal's daughters. $TM\ EPD = Milk\ EPD + 1/2\ (WW\ EPD)$

ME Maintenance Energy – predicts a bull's daughters that will require less feed to maintain her body weight and condition; thus increasing profitability.

HPG..... Heifer Pregnancy – predicts the probability of heifers conceiving to calve at two years of age.

CEM Calving Ease Maternal – predicts the probability of a given animal's daughters calving unassisted at two years of age.

STAY.... Stayability – predicts the probability that a bull's daughters will remain in the herd until at least six years of age.

MARB .. Marbling Score – predicts differences for carcass marbling score as expressed in marbling score units. Higher marbling scores are positively correlated with higher carcass quality grades.

YG Yield Grade – predicts differences in USDA Yield Grade score, and is expressed in USDA Yield Grade units.

CW..... Carcass Weight – predicts differences in hot carcass weight and is expressed in pounds. Because Red Angus' CW EPD is a multi-trait.

REA Rib Eye Area – predicts differences of carcass Rib Eye Area between the 12th and 13th rib.

FAT 12th Rib Fat Thickness – predicts differences for carcass fat depth over the 12th rib, as expressed in inches.

Reaping the Rewards...

of Red Angus Influenced Replacement Females

The Maternal side of any cow/calf operation collectively has a genetic impact equivalent to that operation's herd bulls.

Additionally, their potential to affect producers' bottom lines through reduced maintenance costs are far greater. However, many cow/calf operations lack a vehicle to reap full value for the superior maternal genetics represented in their Red Angus influenced replacement females. **Pro-Cow** was designed to meet that need by expanding marketing opportunities for the female half of the calf crop.

Trouble Free Replacements are just a click away!

ProCow Entry Qualifications:

- Females must be a minimum 3/8th Red Angus
- Designed for commercial replacement females
- Females must be sired by a Registered bull
- Bred and open heifers, bred cows and pairs

Need Replacements?

Visit ProCow on the web:

- Go to the Red Angus Website at www.redangus.org and click on the ProCow logo.
- Follow the prompt to "View Current Listings".
- Females are listed by State (alphabetically).
- Contact information is provided in each ProCow listing.

Have Females for Sale?

ProCow Listings are Simple & Free:

- Go to the Red Angus Website at www.redangus.org and click on the ProCow logo.
- Follow the prompt to "Submit Listings".
- Females must be completely and accurately described on ProCow Entry form by seller, which is then submitted to RAAA staff.
- Staff reviews entry form and posts Replacement Females on RAAA Website (Free of Charge).
- Website listing can be used whether females are offered private treaty, live/video auctions, or sale barns.
