Once again, Brad and Paula, Helen and I want to welcome you to our annual sale. We realize that the new location is not as convenient for some of our customers, but felt it was the time to get the sale closer to Brad and Paula.

As before, the bulls will sell in catalog order. Except for the first few bulls, they were lot tagged at random as they came through the chute, so not all the top bulls are at the front of the sale. We'll again mark some bulls we feel would be safe to use on heifers. Like you, we appreciate calving ease. (Last year Brad and Paula calved 108 heifers and assisted only 3).

I would encourage you to study the numbers on these set of bulls. I think you will be hard pressed to find another group of bulls with as much spread from birth to growth, combined with very low ME.

The heifers are bred to calve around the middle of February and the cows about two weeks later. The heifers are synchronized and AI'd for five days and then run with clean up bulls for another 35 days. Approximately one third of the cows are AI'd for one cycle and then are with clean-up bulls for about forty days. The rest of the cows get about 60 days with the bulls. They are then summered in the hills with no supplement other than salt and mineral. Our pastures are big and rough so we have to run multiple sire groups so the calves are DNA tested at weaning to identify sires.

The calves are weaned about the second week of October. The bulls go to Darr for their gain test. They are fed to gain about three pounds per day for a period of 90-100 days, when the final weights are taken and the process begins to get them ready to sell.

The cow weights and BCS (Body Condition Score) are taken at weaning. The cows go back to pasture where they graze until calving time, with protein supplement (cake) about three times a week. Our cows work for a living – they never have a chance to get fat.

If you have any questions or comments don't hesitate to give us a call.

Hope to see you in North Platte on the 5th of March.

– Lamoine

LANCE was one of the top-performing and top-selling bulls in Buffalo Creek's '06 sale. The bulls are thick and deep and the heifers are easy fleshing, moderate and productive. His mother is one of the top cows in the Buffalo Creek herd. Her sire, Dynamics, in the long-time Genex sire known for calving ease, good uddered, easy fleshing females. LANCE also has strong carcass numbers with a REA Ratio of 122. Lance sired the top-selling bull and had the top-selling sire group in the 2009 sale. Semen Available.

When I found LANCER in the pens at Buffalo Creek's 2006's sale he caught my eye right away. He is very correct, smooth and stylish - just what I was looking for to use clean up on heifers. Turned out I wasn't the only one that found him and he ended up one of the top selling bulls in the sale. He has done everything I expected him to do. He is super easy calving. Combining Beckton Lancer and Dynamics also add carcass traits and low maintenance, easy fleshing females. LANCER also had an IMF Ratio of 129 & REA Ratio of 104. Semen Available.

## Terms & Conditions

The terms of the sale are cash and settlement must be made immediately after the completion of the auction.

The auctioneer will settle any disputes on bids and his decision will be final.

Phone bids will be accepted and will be handled in strict confidence.

Each animal becomes buyer's risk after being sold by the auctioneer.

All bulls are guaranteed to be breeders by the seller and sell fully guaranteed as outlined in the RAAA Code of Ethical Sale Practices.

A certificate of registry for each animal will be transferred to the buyer at the seller's expense.

Everyone attending this sale does so at their own risk. The owners, sale barn, auctioneer, sale manager, clerks and other helpers do not assume responsibility, legal or otherwise, for damages of any kind.
