Welcome!

Quality Genetics Built on a Heritage of Commitment

Dear Friends,

Welcome to our sixth "Gathering in the Badlands" sale to be held in Medora on March 14, 2012. After two winters to remember, this past one thus far has been one we will remember for awhile as well all but for different reasons. Stark reality on how fast things can change. Another good grass year and abundant hay with additional winter grazing have certainly been a blessing and a savings to cost. You will note the bulls enjoyed the warmer winter days as well with better conversion given the same ration we have always fed.

This group of bulls features many calving-ease bulls that are critical to starting an efficient production cycle with survivability, minimal labor and heifers being able to mother, nurse a calf and breed back quickly. In any environment less intervention is a win-win for cow and man alike. Take stock of the opportunity to find productive efficient bulls that provide that option. We also continue to strive to breed fertility, strong feet and legs and udder structure to take the work out of the job of raising the next calf crop. In addition, all of the bulls represented here today were raised in a badlands environment where the cow and calf need to be able to travel after grazing and water with no creep or supplemental feed, in most cases, in thousand acre plus pastures. Rigid culling makes for seed stock that has to perform in all aspects to be able to make the next breeding season.

Ultrasound information will be available prior to the sale upon request via email or mail or a printed copy will be available sale day. If we can assist you will pre sale selections, please feel free to contact us or one of the sale reps. **Bulls will be available for viewing prior to the sale at a development lot 4 miles south of Belfield on Highway 85 and then west on 40th street SW ½ mile by March 1st.** Don't hesitate to call with any questions you may have on the cattle. We always look forward to the opportunity to visit with old and new friends. We will have a social, supper and short marketing and animal health program on the evening of March 13th. So mark your calendars and plan for good food and a good time. We look forward to seeing you all in historic Medora.

General Information

Directions to Heart River Ranch

All of the Heart River Ranch cows have been relocated to our summer grazing lease in SD where they will be run year round and managed by our son Tellan. Stop by Heart River Genetics any time 7 miles south of Belfield right off US Highway 85 or 52 miles north of Bowman, ND on US Highway 85 and look for the Heart River Genetics sign.

Directions to Open A Angus

Cows are located 6 miles north of Belfield, ND on US Highway 85, 1 mile east, then take first right going south and then first left east.

Offering

42 Yearling Red Angus Bulls
43 Yearling Black Angus Bulls

Cattle Viewing

All bulls will be at a development lot for viewing prior to the sale after March 1, 2012, 4 miles south of Belfield off US Highway 85, then a ½ mile west. The sale offering will be available for viewing in the parking lot behind the Medora Community Center in Medora on Tuesday, March 13, 2012.

Schedule of Events

Tuesday, March 13, 2012

Medora Community Center, Medora, ND

Cattle available for viewing thru late evening

No-Host Social 6:00 PM (MT)

Complimentary Prime Rib Dinner 6:30 PM (MT)

Sponsored by Pfizer Animal Health

Wednesday, March 14, 2012

Medora Community Center, Medora, ND

Complimentary Coffee & Rolls 7:00 AM (MT)

Complimentary Lunch 11:00 AM (MT)

Sale 1:00 PM (MT)

Complimentary refreshments available Monday and Tuesday

Sale Location

Medora Community Center, Medora, ND

701-623-4530 Sale Day Phone

701-623-4531 Sale Day Phone

The bulls will be on display outside of the Medora Community Center. The sale itself will be a video auction in the warmth and comfort of the Medora Community Center.

A DVD will be available upon request.

Emergency Phone Numbers

In case you need a phone number to call us on sale day. Please call in advance to make arrangements to call in during the sale

701-290-9745 **Annette's Cell**

701-260-4630 **Chuck's Cell**

701-290-9015 **Jim's Cell**

Sale Order

The sale order will be catalog order.

Mail & Telephone Bids

Bids will be handled in strict confidence by any of the publication representatives or the respective ranches. If you would like to discuss the sale offering, call us, preferably several days before the sale, and we can help select your genetics. After the sale you will need to contact Annette at 701-575-8145 to make arrangements for payment of telephone purchases.

Transportation

Quality Genetics Built on a Heritage of Commitment – 1

Belfield, ND, and Dickinson, ND, are both served by bus. Dickinson, ND, is also served by major airline. Please call 701-575-8145 if you need transportation from the bus or airport.

Sale Headquarters

Please mention that you are attending the Heart River Ranch Bull Sale when making reservations for the best rate.

Announcements

Errors discovered in the catalog will be corrected by announcements from the auction block at sale time and such corrections will take precedence over the printed matter in the catalog.

Liability

All persons who attend the sale do so at their own risk. Neither the owners, management, sales staff, facility or any person connected with this sale assume any liability, legal or otherwise, for property loss or for any accidents that may occur.

Delivery

Free delivery to central points up to 500 miles. Balance will be at cost. We will make every effort to assist in deliveries of greater distance or by private arrangements and volume purchases. Delivery will be made at our convenience.

Feeding and Development of Bulls

All bulls of HRR and Open A were weaned in late October and received no creep feed with the exception of a few Open A bulls that were ET calves produced at a recipient herd. Calves received their preweaning and weaning vaccinations and were handled in every respect as all natural. Bulls were fed to gain 2.5# per head per day on a 1% grain and by product ration. Bulls were fed free choice mineral, salt and hay. We took yearling weights at approximately 105 days post weaning with no post weaning adjustment period or warm up period. Our intent was to grow out the bulls for maximum longevity and integrity of the bull.

Historic Photos

All of the historic photos in this catalog were taken by Inez Kessler, Annette's great grandmother, in the early 1900's (1905-1908). Inez was the only person to have a camera in the area and, as a result, she took pictures of many people and events. The town of Gaylord was located about 13 miles south of Belfield, ND, along US Highway 85. The Gaylord Post Office and Store was a stop for traveler's going south. This building still stands at the Curt Molm place.

FCCP Tags

Customers purchasing a Red Angus bull will be eligible to receive one bag of Red Angus Feeder Calf Certification Program ear tags per bull purchased at seller's expense. Each customer must complete paperwork to receive the tags. If the customer would like additional tags it will be at the customer's expense.

Storm Date

In case of sale postponement please listen to the Northern Ag Network, KLTC 1460 AM or go to northernag.net or ndstockmen.org for any postponement announcements. Postponement sale date is set for pre-sale activities: March 14, 2012 and Sale: March 15, 2012. In the event of having to postpone to another sale date please go to the NDSA website at: www.ndstockmen.org.

Sale Terms & Conditions

The terms of the sale are cash. No release will be given until satisfactory settlement has been made. We reserve the right to withhold animals from shipment for whom payments have not been received prior to departure. Every animal sells to the highest

bidder and in cases of disputes, the auctioneer's decision will be final.

All sales are subject to an acceptable semen examination. Semen evaluation certificates will be furnished to the buyer.

Bulls were carcass ultrasounded February 22. Data sheets will be provided at the sale.

Health certificates and brand releases will be furnished for shipment anywhere in the United States.

Each animal carries a readable tattoo or freeze brand.

All bulls sell fully guaranteed to be fertile and reproductively sound according to the terms and conditions of the Red Angus Association of America and the American Angus Association.

Breeder's Guarantee: All bulls are guaranteed to be breeders. All claims for adjustment or refund must be made in writing within six months of the sale date. In the event a bull is claimed to be a non-breeder, the purchaser may return the animal to the ranch of the seller if in good condition and complying with the health requirements of the Seller's state. The Seller will be entitled to six months trial following the return of the animal in which to prove that the animal is a breeder. If at the end of six months, the Seller shall be obligated to replace the animal with another of equal value or to refund the purchase price. The return of the full purchase price shall in any case be deemed full satisfaction and settlement. If the Seller proved the animal to be a breeder, it shall be the obligation of the purchaser to take delivery of the animal at the purchaser's expense.

Implied warranty: Except for those stated in the terms and conditions, there are no warranties or implies, as to merchantability or fitness for a particular purpose with respect to the cattle being sold in this auction. The warranties set forth in the terms and condition are in lieu of all other warranties, either expressed or implied and the remedies provided therein shall be the sole and exclusive remedy of the buyer, or any party claiming through the buyer, for any breach of warranty or guarantee therein provided and all other obligations or liabilities.

Health

Bulls and heifers were treated with Enforce at birth and branding and were calfhood vaccinated with 4-way and 7-way. At weaning, calves were given 5-way, 7-way and One Shot, boosters were also given. Calves and cows were poured with Dectomax in the spring, fall and late winter. All bulls will be vaccinated and wormed prior to delivery. All females are bangs vaccinated and on a fall vaccination program.

Semen Tests:

Bulls will be semen tested after the sale

Semen Interests:

Heart River Ranch and Open A Angus are each respectively retaining 50 percent revenue-sharing semen interest in every bull selling in this sale. Full possession and full salvage value sells on all bulls. If a buyer chooses to collect and market semen, the seller will share proportionately in the collection costs and the revenues earned. In the event that the seller chooses to collect semen for "in herd" use, it will be done at the seller's expense and at buyer convenience. Semen will be made available to buyer at cost.

Insurance

Ownership risk to purchaser commences when the auctioneer's hammer falls. Insurance will be available sale day. It is recommended that buyers insure their purchases for safe delivery. Purchaser assumes the risk of death or injury to their livestock immediately after the sale.

Volume Discounts

We are pleased to give a volume buyer discount. You will receive 5% off of purchases of 5 to 9 bulls, and 10% off of 10 or more bulls. Please notify the clerk when you check out to receive your discount. This is another way to say "Thank You" for your trust in our program.

Kneeling (l to r): Wes and Mike Obrigewitch
Standing (l to r): Duane Obrigewitch, Annette Steffan, Bud & Cecilia,
Allen Obrigewitch, Lynn Arthaud and Joan Martin

Jim, Lynn, Grace and Hudson Arthaud

A special thank you to all of our friends and neighbors for all of your help and support.

Thank You ...

... to all the people who have made this sale work!

IN LOVING MEMORY OF CECILIA OBRIGEWITCH

SEPTEMBER 21, 1942 – OCTOBER 20, 2011

Our beloved mother, wife, sister and friend. Cecilia passed away one year after being diagnosed with colon cancer.

Thank you so much to all who prayed for her and our family, visited her, brought food, sent money etc. during this last year. Your support encouraged us and lifted her up ... God Bless all of you!

*The Lord bless you and keep you!
The Lord let his face shine upon you,
and be gracious to you!
The Lord look upon you kindly and give you peace!
Numbers 6:24-26*

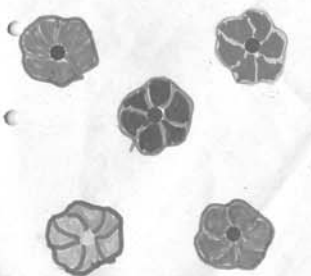

A Special Person
There is a person in my life that words cannot describe. This person is so marvelous and this I say with pride.

This special person is the one who guides me through my life and gives me all the love I need. Much more than can suffice.

Besides the love this person gives comes kindness understanding and trust. And these qualities of which I speak are definitely a must.

Now I must thank dear God above for sending me no other, but for blessing me with just one left. The life that is my mother.

Thanks again to the doc in room when he was a little boy.

7153 was run clean-up on 100 head of cows this summer in 1000- to 2500- acre pastures. We were taking pictures and video one day and it literally took a four wheeler to keep up with him as he was working cows in June. He has great feet and legs, can travel like a cat and gain condition on pasture. Backed by a moderate tank of a dam, she is the kind you would like all your herd bulls to go back to. Both of the two sons he sired for us are in the offering as we got a bunch of heifer calves last spring. "McKnight," as we call him, sires length of body, balanced phenotype and great feet and legs. Daughters coming into production show promise to be long, moderate, good-uddered dams.

Owners: Heart River Ranch, Belfield, ND, Diamond B Ranch, Big Horn, MT, and Milk Creek Reds, Plevna, MT.

This bull and his dam didn't miss many turns coming to sale day. Balanced performance. The "523" bull we used on heifers and then by AI for years. 523 did a great job on females and sired exceptional carcass cattle. Going back to the great Blockanna cow family twice on the dam side, he should be a female maker.

RED ANGUS FEEDER CALF CERTIFICATION PROGRAM TAG VOUCHER

Age and Source verify you feeder calves free or at minimal cost to increase potential for premiums in the Red Angus Feeder Calf Certification Program.

1. Call Red Angus Association at 1-940-387-3502 to answer a few questions to enroll.
2. Calves sired by Heart River Ranch bulls qualify for the FCCP and Red Angus will invoice the cost of the tags to us at the rate of one bag of 25 tags per bull purchased in 2012.
3. If additional tags are needed, they can be purchased by the bag for \$99/tag but must be used only in calves that qualify for certification.
4. The FCCP tags are serial numbered at the bottom leaving space on both the front and back for additional ID numbers as desired.

Commercial bull.

Bud and Wes Obrigewitch of Belfield, N.D., won the prestigious Grid Master Award for raising and feeding Red Angus cattle that meet and exceed strict carcass quality specifications. The Red Angus Association of America (RAAA) awarded a record-setting 47 Grid Master Awards to Red Angus breeders and feedlots at the RAAA's national convention in Durham, N.C., Sept. 15 – 16.

Obrigewitches fed their cattle at Century Feeders of Goodland, Kan., and harvested them on the U.S. Premium Beef grid. The lot of 68 head graded 97.1 percent Choice with 4.5 percent Premium product, 62.5 percent Yield Grade 1 or 2 and only 1.6 percent Yield Grade 4 carcasses. Grid score: 104.

Red Angus ranches and feeders achieved a new level of excellence this year as an outstanding 64 loads of cattle – over 2,500 head – reached tremendous yield and quality combinations to earn Grid Master status. This is the largest number of Grid Masters ever awarded in the eight-year history of the award. Century Feeders has earned 20 Grid Master Awards.

“The RAAA presented a challenge to breeders, commercial ranches and feed yards to harvest Red Angus cattle at tighter quality and yield specifications than ever before,” said RAAA Director of Value Added Programs Myron Edelman. “Not only did Red Angus producers hit a more difficult target, they exceeded the Grid Master record for the third consecutive year.”

In order to achieve Grid Master status, Red Angus or Red Angus-influenced cattle enrolled in the Red Angus Feeder Calf Certification Program (FCCP) must achieve a specified level of carcass excellence. Both conventional- and natural-fed cattle are eligible for Grid Master consideration.

Conventional-fed cattle must meet the following requirements:

- Minimum of 30-head lot size
- Minimum 85 percent Choice or higher
- Maximum 5 percent Yield Grade 4
- Minimum Grid Score of 100

To account for the different finishing characteristics of natural-fed cattle, they must meet the following criteria:

- Minimum of 30-head lot size
- Minimum 90 percent Choice or higher
- Maximum 10 percent Yield Grade 4
- Minimum Grid Score of 100

All four major packers – U.S. Premium Beef, JBS USA, Tyson and Cargill – harvested Red Angus Grid Master qualifiers in 10 different plant locations. Myer Natural Angus reported the largest number of Grid Master winners with 30 lots, and the Painted Hills Natural Program also harvested award-winning Red Angus cattle.

“Challenging those who produce and feed Red Angus cattle has proven to only make them rise to the level of the task,” said Edelman. “This has strengthened the value of Red Angus by building reputations of cattle that we know have proven maternal traits, the ability to efficiently convert feed and produce a valuable end product.”

EPD DEFINITIONS:

- CEB:** Calving Ease Direct EPD – percentage of unassisted births with the more positive number indicating greater calving ease.
- BW:** Birth Weight EPD– the birth weight of a bulls progeny when compared to the breed average, in pounds.
- WW:** Weaning Weight EPD– the adjusted weaning weight of a bull's progeny when compared to the breed average in pounds.
- YW:** Yearling Weight EPD– the adjusted yearling weight of a bull's progeny when compared to the breed average, in pounds.
- MLK:** Milk EPD – The expected difference (due to milk production alone) in weaning weight of calves out of a bull's daughters compared to calves from daughters of a bull with a zero EPD for maternal milk. Expressed in pounds of calf weaned.
- TM:** Total Maternal EPD– each of these terms measures a sire's ability to transmit milk production and growth rate through his daughters.
- Stay:** Stayability EPD – The expected difference in probability of daughters staying in the herd to at least six years of age. The EPD is primarily a measure of sustained fertility in female offspring.
- MARB:** Marbling EPD– The expected difference in marbling score (on a scale of 2 to 10) of a sire's progeny. Higher values tend to be associated with higher USDA quality grades on slaughter progeny.
- REA:** Rib-Eye Area EPD – The expected difference in rib eye area (cm²) measured between the 12th and 13th rib of a sire's progeny. Higher values may be an indication of higher lean meat yields on slaughter progeny.
- FAT:** Fat EPD – The expected difference in fat thickness (inches) measured between the 12th and 13th rib of a sire's progeny.
- %IMF:** Percentage Intramuscular Fat – Percentage of fat in the rib-eye area muscle (marbling).
- REA:** Rib-Eye Area – Area of the longissimus muscle measured in square inches at the 12th rib interface on the beef forequarter.
- Marbling** – The specks of fat (intramuscular fat) distributed in muscular tissue. Marbling is usually evaluated in the rib-eye between the 12th and 13th rib.
