Annual Production Sale

Wednesday,

## April 4, 2012

Farmers Livestock Exchange

Bismarck, ND

### Six Mile Wind Chill 828W

Wind Chill has an exceptional set of sons selling in our 2012 Production Sale. He is an outcross bull to the Red Angus Breed. He is sired by a black bull tracing back to TC Freedom 104. We are really excited about his sons as they exhibit the same characteristics that attracted us to Wind Chill. They are long and deep with extra muscle packed on a moderate frame with lots of eye appeal and very clean lines. His numbers show calving ease and his daughters are truly beautiful.

### Six Mile King Ranch 721W

King is a real calving ease son of 5L Norseman King that has performance written all over him. If you want to add pounds the King Ranch sons will do it. He is extra thick, long and deep sided. Our first set of sons sell on April 4th in Bismarck at our Production Sale. They look just like their sire and have that extra performance you are looking for. Lots of maternal power in this pedigree.

This sale will be broadcast live on the internet.

## Leland Red Angus ... Paying attention to details.

### 5L Red Direction 691-6046

An easy-fleshing, meat machine with great feet, quiet disposition and super daughters.

Any program can breed cattle by the numbers using computer generated evaluations ... but how many select for the details beyond the numbers? It's been said, "the devil is in the details."

For several decades, the Leland Red Angus cowherd has been genetically scored for economic traits not measured by the computer—structure, feet and legs, udders, disposition, fleshing ability, motherhood and storm survivability on the range.

### There is a difference!

And it  
all  
starts with  
working  
class herd  
bulls.

### Leland Right Direction 8242U

A powerful Red Direction son that stamps his progeny with performance and detailed quality. His sons have exceptional thickness and fleshing ability.

### 5L Cold Sign 551-6337

Some bulls do about everything right without any hiccups. Cold Sign covers all the bases from calving ease to the dinner table, leaving top daughters on the way.

# Genetics For Generations

At Koester Red Angus, we focus on optimums, not maximums, to produce cattle that are balanced in all traits. We strive to develop efficient, maternal cattle that combine performance, structural soundness and phenotype from the moment their progeny hit the ground until they hang on the rail. By blending trait-leading genetics with proven outcross lines, we enhance economic traits to keep us all in the beef business for this generation and generations to come.

# VITAFERM®

with the AMAFERM® advantage

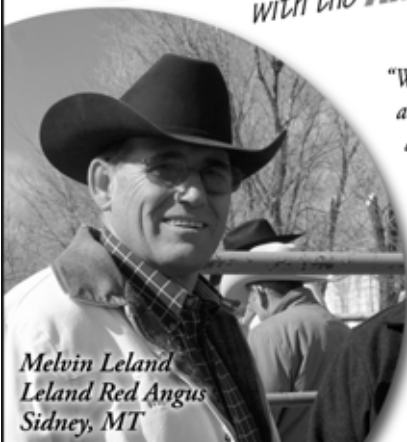

*"It's doing the job!"*

*"We've used the product for five years and we've seen an improvement in the efficiency of our bulls. Our area has significant molybdenum which ties up the phosphorus, zinc and copper. Amaferm seems to correct this problem reducing fall lameness. They eat it heartily - it's doing the job."*

My  
boots  
aren't  
polished.

In fact, my work boots are downright dirty! That's because my family ranches for a living and I understand the cow business all the way from newborn calves to serving my family high-quality beef.

With over 20 years of promoting livestock, I realize the importance of creating and portraying a positive and innovative image for your ranch and the beef industry.

My boots might be a little scuffed, but my designs are polished!

Napoleon Livestock is located in the heart of North Dakota cattle country, selling 100,000 fancy northern cattle yearly. With a new sales pavilion built in 2009, it is the area's most modern, up-to-date and technologically advanced marketing agency. We are the only livestock barn in North Dakota that offers buyers throughout the U.S. the convenience not only to view our sale live but to bid and buy livestock from their home or office computers. We also offer direct marketing of cattle with internet sales.

Napoleon Livestock is a family-owned business for over 30 years. It is a reputable marketing agency that prides itself on honesty and integrity. If you have cattle to sell or are looking for a reliable source for ranch-fresh northern cattle, give us a call. We would like to visit with you.

# WE STAND BEHIND OUR CATTLE ...

... because our reputation depends on how they perform. Customer satisfaction is No. 1 with us – we know our customers and our customers know us. Our family has been raising Red Angus since 1961. We strive to produce stout, long-made, heavy-muscled cattle while maintaining efficient, productive females with sound feet and udders. Our herd is strictly culled for these valuable traits.

*Broken Heart Ranch genetics have made sense for 50 years ...  
and they make sense for your future.*

# Quality Genetics Built on a Heritage of Commitment.

We have developed our genetics – both red and black – over the years by using bloodlines that fit our environment and produce both bulls and females that earn their keep.

We are stringent in selecting for sound structure, correct feet and legs, and superior udders – traits that are essential for our cowherd to function and survive in our rough terrain.

We recognize performance is essential for profitability in the sale barn, feedlot and on the rail. Our commitment to efficiency, gainability, quality and yield is substantiated by carcass data from our own commercial herd as well as that of our customers'.

Our dedication to producing quality performance cattle is a continuing commitment to our customers ... and our heritage.
