Including 30 18-month-old bulls
from Koester Red Angus

Friends,

Welcome to our 30th Annual Production Sale.

The drought of 2012 has had a significant impact on nearly everyone. We were fortunate to have good grass carry over from 2011 to get us through.

Weaning weights were somewhat lower, but the cows maintained good condition and bred up well which hopefully is related to many years of selection for efficiency.

Our bull-development ration has been adjusted to accommodate lower quality forages this year, but the genetic strength for performance is still evident.

We hope everyone takes time to evaluate and understand the new multi-breed EPD model jointly developed by Red Angus and Simmental. Please study the explanation on page 4 and evaluate the new EPDs as they correlate with the corresponding breed rank.

Our offering this year includes a strong group of 18-month-old bulls from Koester Red Angus, as well as a few F1 Red Angus/Simmental bulls.

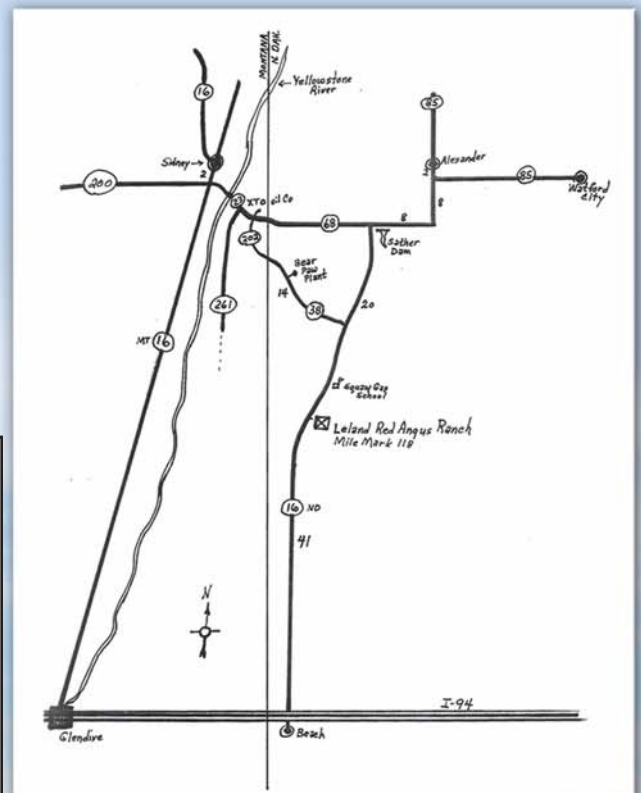

Our program continues to emphasize quiet, manageable dispositions, and we have 13 years of carcass ultrasound evaluations to identify end-product value

We're happy to assist our customers with selections or special needs, and guarantee confidentiality and lowest bid on any sight-unseen purchases.

*Best wishes from all of us at
Leland Red Angus & Koester Red Angus*

IMPORTANT CHANGES RELATED TO UNDERSTANDING NEW MULTI-BREED EPD EVALUATIONS

Red Angus and Simmental EPDs are calculated using the same multi-breed model. This attempt to identify breed traits in comparison with another breed is a first for our industry. Because there are some significant changes in the EPDs and to adjust to this new concept, producers need to evaluate the EPD as it correlates with the corresponding breed rank until we can mentally adjust to these newly appraised values.

DVAuction Broadcasting Real-time Auctions

We are pleased to offer the Leland Red Angus Sale broadcast "live" over the Internet through DVAuction Services.

First Time Users:

- Visit the DVAuction web site at www.dvauction.com
- Click on the "Register" tab.
- Complete "Registration" and "Applying to Bid" at Leland Red Angus.
- Please view the tutorial available on our home page for bidding instructions.
- Proxy bidding is available before sale day and during the auction.
- You will be assigned a buyer number once you purchase.

We will be contacting your bank to verify information.

DVAuction will contact you to let you know that you have been approved to bid and buy at the sale "live" from your computer at home.

After the sale:

- Contact Leland Red Angus for delivery or pickup and payment arrangements.

Note: You must have high-speed internet access (DSL, T-1 or Broadband) to be able to bid during the sale. Any questions: Contact Tami with DVAuction at (308)-870-3661, tmcintosh@dvauction.com.

We recommend that you register by March 7, 2013, for on-line bidding. Every attempt will be made to complete your application even if it is on sale day.

GENERAL INFORMATION

FRIDAY, MARCH 8, 2013

Sale will begin at 1:00 PM MST.

LUNCH

A free noon lunch will be served on sale day.

TRANSPORTATION

Sidney is served by Gulfstream Int'l. Airlines. We will meet planes on request.

ACCOMMODATIONS

Sidney: Sunrise Inn, (406)482-3826
Lone Tree Motor Inn, (406)433-4520
Park Plaza Motel, (406)433-1520
Richland Motor Inn, (406)433-6400

Golden Prairie Inn, (406)433-4560
Holiday Inn Express, (406)433-3200

Beach: Buckboard Inn, (701)872-4794
Outpost, (701)872-4717
Westgate, (701)872-4521

Watford City: McKenzie Inn, (701)444-3980 • 1-800-842-3989
Roosevelt Inn, (701)842-3686 • 1-800-887-9170
The Watford Hotel, (701)842-2945 • (701)842-6800

MAIL & TELEPHONE BIDS

Bids will be handled in strict confidence by any of the publication representatives or the Ranch. **Capabilities to bid by phone on sale day are limited.** To do so, please make prior arrangements to participate on a conference line. Bidders may also log on to DVAuction.com to bid online. Please see additional information on Page 1.

HEALTH

All the bulls will have a general health and fertility examination by sale day and will be cleared for interstate transportation. Scrotal measurements will be available on sale day. All heifers are bangs vaccinated.

FERTILITY

Yearling and 18 month old bulls will have a breeding soundness evaluation and semen test. Yearling heifers are guaranteed open and breedable.

DELIVERY

Free delivery to central points up to 500 miles. Balance at cost. Heifers in load lots or by arrangement. We will cooperate in any way to assist in deliveries of greater distance or by private arrangements and volume purchases.

Profit Simplified...

Multi-breed EPD base simplifies selection

Since 2010, the Red Angus Association of America (RAAA) and the American Simmental Association (ASA) have combined their growth and carcass datasets to provide commercial producers with the most reliable EPDs in the beef industry. In the summer of 2012, RAAA and ASA adopted a common base for Growth (BW, WW, YW, Milk) and Carcass (MARB, YG, CW, REA, FAT) EPDs so that all animals registered in either RAAA or ASA can be directly compared – regardless of breed makeup.

What is BASE?

For decades, each breed association has presented EPDs in their own language (the base). Base is no more than a reference point for any trait against which subsequent generations of animals are compared. The establishment of a base ensures that the population future generations are compared to remains stable, which allows the breed's genetic trend to be accurately identified.

Raw Genetic Value + Base Adjustment = Published EPD

Study Percentile Ranks...

Percentile ranks are an easy reference and therefore a powerful tool to assist you in becoming accustomed to the new multi-breed base. Red Angus EPD percentile ranks are presented along with all active animals' EPDs, and reference how animals compare within their respective Red Angus subpopulations, i.e. Sire Summary Sires, Active Dams, Non-Parent Bulls, etc. It's important to realize that although the multi-breed base allows for the direct comparison of Red Angus and Simmental EPDs, the percent ranks for Red Angus animals will continue to simply compare the genetics of Red Angus animals against other Red Angus. Thus, an animal that was in the top 10% for growth under the old Red Angus base will still be in the top 10% for growth in the new Red Angus multi-breed base.

Example:

In the past, you preferred to purchase bulls that had a -2.0 or lower BW EPD.

Since a -2.0 on the old RAAA base represented the top 20% for BW, you now need to use -2.7 as your critical selection threshold as that represents the top 20% for BW on the new multi-breed base.

Other Examples:

Previous Selection Threshold Old RAAA Base		New Selection Threshold New Multi-Breed Base	
EPD	% Rank	EPD	% Rank
36 WW EPD	40%	58 or higher WW EPD	40%
0.08 MARB EPD	50%	0.38 or higher MARB EPD	50%
0.24 REA EPD	20%	0.30 or higher REA EPD	20%

We purchased this Norseman King grandson from a high MPPA dam because of his promising growth, maternal and carcass qualities. He has not disappointed us and always sires some of the thickest, most attractive performance sons in our sale. His daughters in production exhibit great udder structure and maternal character. Notice that he ranks in the top 1% of the breed for YW, 2%WW, 5%TM and 20% REA. Because of his extreme growth, we mate him to moderate females. His bulls av. 85BW 695WW(100) Heifers av. 78BW 616WW(98). Co-owned with 5L Red Angus, MT. Semen available.

Red Direction sires long, thick patterned progeny with moderate frames. He ranks strong for calving ease, milk, TM, heifer pregnancy, stayability and carcass value. We've used him successfully on first calf heifers, and his daughters in production are easy fleshing with correct foot and udder structure. As Red Direction matures, he continues to exhibit easy fleshing, nice muscle expression and a very mild, docile disposition. Bulls av. 86BW 681WW(100) Heifers av. 84BW 628WW(98). Co-owned with 5L Red Angus, MT. Semen available.

83%	33%	48%	32%	24%	24%	34%	10%	40%	60%	21%	

Long considered King Rob's greatest son, Chateau continues to sire progeny right for the times. His attractive daughters make great cows. Notice how he ranks in the top 1/3 of the breed for most traits. Time tested for accuracy, he can be used on heifers with confidence. He's deceased with very limited semen remaining, and we plan to continue his use as our semen supply allows. His sons in our 2012 sale were very popular with Leland Odyssey Y290 selling for \$30,000 and Koester Chivas 005 selling for \$28,000. Expect progeny from these bulls in next year's offering. This year nearly all of his progeny are out of first calf heifers with the bulls av. 83BW, 706WW(102) Heifers av. 68BW 601WW(96). Co-owned with Glacier Red Angus, MT.

Lorenzen Santiam Encore 8400

This big, cherry red bull ranks high in growth and is in the top 1% of breed for REA. He sports excellent foot structure and his progeny on feedlot and carcass test were the highest return to ranch sire group. We recently sold this bull to new breeders in Iowa, Jim & Kathy Takes. His sons av. 83BW 676 WW(99) and daughters av. 87BW 649WW(103) this year in our herd.

We chose this Cold Sign 6337 son to use predominantly on heifers. His progeny have been born totally unassisted, and we're happy with the consistent phenotype that follows Cold Sign's pattern. His dam has superb foot and udder structure and a 76 av. BW with 101WR on 5 head. Maternal sisters to this sire are proving the same consistency for calving ease and performance. His bulls av. 79BW 710WW(104) Heifers av. 77BW 620WW(101).

This small offering of Beef Maker R13 Simmental progeny is a direct result of requests from several of our volume, longtime commercial customers who have developed a high percentage Red Angus cow herd. Beef Maker was our choice of Simmental bulls to develop these F1 SM X RA bulls because of his homozygous polled, non-diluter qualities that complimented the calving ease, growth, maternal and carcass performance traits of our Red Angus Program. These hybrid bulls were ratioed separately from the Red Angus bulls. Cowmen will appreciate the strong performance potential these bulls offer. R13's bull av. 98 BW 797WW(100) Heifers were 81BW, 676WW(99). ABS Sire.

n/a											

This powerful purebred Simmental sire was used to develop a few F1 hybrid bulls to accommodate the outcross demands from some of our long-time commercial customers. Beef King is a son of the Beef Maker sire. The Beef King sons were well received in last year's sale and they have exceptional thickness, muscle, rib shape and balance, and they develop into very desirable cattle for the industry. These SimAngus™ bulls should compliment any Red Angus program. His sons av. 96BW, 688WW (5/108), 1160YW (5/104).

North Dakota Cowboy Hall of Fame

Modern-Era Ranching Division 2012 Inductee

Melvin & Luella Leland were inducted into the North Dakota Cowboy Hall of Fame in the Modern-Era Ranching Division in June.

The North Dakota Cowboy Hall of Fame honors in its Hall of Honorees – Ranching Division, those individuals, specific ranches or ranch operations that have made significant contributions to the development and promotion of the livestock industry, ranching or western lifestyle.

We are extremely honored and humbled by this distinction. Thank you!

CARCASS ULTRASOUND

This is the 13th year we have used ultrasound technology to evaluate carcass characteristics. Weather permitting, we will have carcass ultrasound information available on all bulls just prior to the sale that can be accessed on our web site.

This information will be available for our customers upon request and more importantly it will be used for more meaningful genetic evaluations in the future as it contributes to carcass EPDs.

Red Angus Feeder Calf Certification Program Tag Voucher

Age and Source verify your feeder calves free or at minimal cost to increase potential for premiums in the Red Angus Feeder Calf Certification Program.

Leland and Koester Red Angus Ranches will help you with this easy process.

1. Call Red Angus Association at 1-940-387-3502 to answer a few questions to enroll.
2. Calves sired by Leland and Koester bulls qualify for the FCCP and Red Angus will invoice the cost of the tags to us at the rate of one bag of 25 tags per bull purchased in 2013.
3. If additional tags are needed, they can be purchased by the bag for 99¢/tag but must be used only in calves that qualify for certification.
4. The FCCP tags are serial numbered at the bottom leaving space on both the front and back for additional ID numbers desired. This is the lowest-cost system in the industry to USDA age and source verify your cattle.

INTEREST RETAINED

Several bulls will be sold as interest retained and full possession selling. This means purchaser buys the bull for what he bids and gets 100% possession and 100% resale value of the bull when he sells him. It does give Leland Red Angus the option to collect, use and market semen from the bull and does not restrict purchaser from doing the same. This collection, unless agreed otherwise, would be done at the expense of Leland Red Angus and at the purchaser's convenience. Leland Red Angus would assume full liability for the bull's welfare at the purchase value during transportation and collection unless it is a joint venture with the purchaser. In such a case, liability would be proportionately assumed.

SCROTAL CIRCUMFERENCE MEASUREMENTS and FERTILITY

All bulls will have a breeding soundness evaluation and semen test. Scrotal measurements are taken at 10½ to 11 months of age and adjusted to 365 days of age. Scrotal measurements and frame score will be available sale day.

KOESTER

red angus

Steve & Tracey Koester

2877 47th St SE • Steele, ND 58482

701-475-2736 • Cell 701-400-1611

koester@bektel.com • www.koesterredangus.com

Koester Red Angus genetics have been used all over the U.S. with the same results – THEY WORK! A fall bull from Koester Red Angus has the age advantage to their hold their flesh better than a yearling bull while siring just as many calves. We focus our genetics to sire calves that will weigh up and add pay weight whether you sell off the cow, background your calves or hang them on the rail – without sacrificing your cowherd.

Current weights, scrotal measurements and frame scores will be available on the supplement sheet.

We thank you for your past confidence in our program and look forward to working with you in the future. Feel free to contact us with any questions.

The second set of fall-born bulls begins on page 44 with Lot 98.

The Koesters:
Steve, Tracey, Shaye and Kacey

Lot 29, Koester Packer 169

- *ET – Donor dam has exceptional depth and volume with a 104.6 MPPA
- *Larger-framed, dark red, very high-volumed, thick-quartered bull
- *Good breed rank for REA
- *Selling ½ interest and full possession

*Dam has a 103 MPPA with an 87 BW 724WW(104) on 4 head
 *Ranks strong for WW,YW,TM,CEM, Stay, Heifer Pregnancy and REA.
 *He has a deep bodied performance appearance with good scrotal development.

Lot 77 as a calf, summer of 2012

Bar M Little Joe 0053 as a yearling. Sire of Lot 78

*Although his dam has a 78BW av. on 3 head, we recommend caution about using this bull on heifers.
 *He should be a good performance sire with his 113WR.

*These twin bulls have light BW due to being twins but should qualify for heifers regardless because they come from a pedigree of low to moderate BW on both sides.
 *Ranks in the top 4% for Marbling
 *MGD has 76BW 687WW(104) on 10 calves including 2 selling to Dan Rorvig, ND @\$3000 and \$5000.

*MGD produced Leland Fire 9002W—86BW 784WW(108) T22 son that sold to Wedel Red Angus for \$7250.
 *Pedigree stacked with Chateau, Red Direction & Make Mimi—excellent females with near perfect udders.
 *Notice his dam is only a 2 year old heifer with a 106WR.
 *This heifer bull has a strong breed rank in many traits.
 *A maternal brother to his dam, sold last year to Jay Krank, ND for \$6250.
