Greetings from all of us at Brenner Angus,

What a year it's been. In June we got an addition to the family. Trampis and Aricka welcomed their third child, Augustus Flint Brenner, to the family. Haying season was short, due to the lack of moisture. Other than it being really dry, the year went well and the bulls look great.

We would like to say "Thank You" to those of you who purchased bulls from us in the past year. Your confidence in our program is greatly appreciated.

This year we will be offering 14 2-year-olds and 103 yearlings. The bulls are fed a ration of chopped hay and Hubbard Express 30, striving to have a 3-lb.daily gain. The bulls are fed and kept in a 30-acre lot so they get plenty of exercise to build muscle. Due to the drought this summer and the shortage of grass, the bulls average 56 lbs. lighter than last year.

The powerful set of Red and Black Angus bulls have a strong set of EPDs that will be great for you and your program.

We invite you to join us on Saturday, February 23, 2013, at 2:00 CST at Kist Livestock in Mandan, N.D. If you have any questions, don't hesitate to call us or even come take a look at the bulls at the ranch. Hope to see you at the sale!

Best Wishes,

*The Brenners and the Werners*

## Profit \$implified...

### Multi-breed EPD base simplifies selection

Since 2010, the Red Angus Association of America (RAAA) and the American Simmental Association (ASA) have combined their growth and carcass datasets to provide commercial producers with the most reliable EPDs in the beef industry. In the summer of 2012, RAAA and ASA adopted a common base for Growth (BW, WW, YW, Milk) and Carcass (MARB, YG, CW, REA, FAT) EPDs so that all animals registered in either RAAA or ASA can be directly compared – regardless of breed makeup.

#### What is BASE?

For decades, each breed association has presented EPDs in their own language (the base). Base is no more than a reference point for any trait against which subsequent generations of animals are compared. The establishment of a base ensures that the population future generations are compared to remains stable, which allows the breed's genetic trend to be accurately identified.

**Raw Genetic Value + Base Adjustment = Published EPD**

#### Study Percentile Ranks...

Percentile ranks are an easy reference and therefore a powerful tool to assist you in becoming accustomed to the new multi-breed base. Red Angus EPD percentile ranks are presented along with all active animals' EPDs, and reference how animals compare within their respective Red Angus subpopulations, i.e. Sire Summary Sires, Active Dams, Non-Parent Bulls, etc. It's important to realize that although the multi-breed base allows for the direct comparison of Red Angus and Simmental EPDs, the percent ranks for Red Angus animals will continue to simply compare the genetics of Red Angus animals against other Red Angus. Thus, an animal that was in the top 10% for growth under the old Red Angus base will still be in the top 10% for growth in the new Red Angus multi-breed base.

#### Example:

In the past, you preferred to purchase bulls that had a -2.0 or lower BW EPD.

Since a -2.0 on the old RAAA base represented the top 20% for BW, you now need to use -2.7 as your critical selection threshold as that represents the top 20% for BW on the new multi-breed base.

#### Other Examples:

Previous Selection Threshold Old RAAA Base		New Selection Threshold New Multi-Breed Base	
EPD	% Rank	EPD	% Rank
36 WW EPD	40%	58 or higher WW EPD	40%
0.08 MARB EPD	50%	0.38 or higher MARB EPD	50%
0.24 REA EPD	20%	0.30 or higher REA EPD	20%

# DV Auction Bidding Information

*Thank you for your interest in our program.*

*The Brenner and Werner Families*

**Watch & bid online for FREE at**

***DVAuction***  
Broadcasting Real-Time Auctions

**View the Auction Live!  
Bid Online... you're ringside  
right at your desk!**

**Buying online is as easy as 1, 2, 3...**

1. Create an account at [www.dvauction.com](http://www.dvauction.com) under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make you purchases!

**High speed internet** is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

**Proxy Bidding**-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

**Having troubles?** During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.
