1 Beckton
Red Angus
Foundation Herd of the Red Angus Breed

Welcome

On behalf of Halfmann Red Angus and Beckton Red Angus, I would like to welcome you to our 2013 Joint Production Sale! We are very proud to have our long-time friends at Beckton Red Angus selling along with us here in Texas. We are offering you 117 combined years of superior genetics!

Why and how we are driven to manage our cattle the way we do is very simple. Global & domestic trends are changing the dynamics of our cattle management and ideals: increase in global population, decline of the U.S. cowherd, droughts & rainfall, cattle prices and high feed & land costs. Therefore, it is critical for us to raise more pounds of beef with fewer cattle by breeding for more efficient, higher producing females who require less maintenance energy yet can raise very marketable calves each year.

Halfmann and Beckton are both family operations that have unsurpassed reputations in improved beef production. The Beckton operation continually raises sires that impact the entire cattle industry as trait leaders in numerous economically relevant traits (including calving ease, stayability and maintenance energy). Our programs are very similar in that we don't pamper our cattle. We develop our heifers and run our cows in rough, rocky, native mesquite pasture. The Beckton heifers are developed unpampered and then run at high altitudes in the Big Horn Mountains of Wyoming as mature cows.

Our herds are very maternal with low maintenance and excellent stayability. When weaning our calves, we weigh our cows and take a body condition score at that time. We require our females to wean calves that are 50-60% of their own body weight every year. We found that the medium-sized females raising heavy calves net us more money at the end of the day, without the added cost of supplemental feeding

Trish & Cam Forbes

Our programs breed for great overall body structure with good feet and legs as our bulls go to work in various environments. They must be able to move freely to travel through rough country. We emphasize sound udders and good teat placement in our females. Our bulls are ultra-sounded for carcass traits including marbling and rib-eye as yearlings to identify the superior genetic animals.

We have always focused on the commercial cattleman's needs. So if you are breeding heifers, raising calves to market at weaning, or retaining calves through the feedlot we are here to help you maximize your profits!

You are invited to view the animals anytime between now and the sale. All of the bulls are at Halfmann's in Texas along with 50 registered females and 65 commercial heifers. The remaining females are at Beckton's in Wyoming including: 60 registered heifers and the 255 head of commercial females.

Please join us on Wednesday, October 2nd at the ranch in Miles, Texas for a free lunch and the sale at 1:00 p.m. Central Standard Time. You can also use RFD-TV or go online with Superior click-to-bid and watch and bid from your own home.

Information

Halfmann-Beckton Joint Production Sale

WEDNESDAY, OCTOBER 2, 2013

1 p.m. CDT • At the Ranch, Miles, Texas

Viewing: All bulls are at Halfmann Red Angus, Miles, TX;

Halfmann females are at Miles, TX • Beckton females are at Sheridan, WY

Halfmann-Beckton Contacts:

Glen Halfmann.....Cell: 325-895-0544
 Cody Halfmann.....Cell: 325-245-8928
 Chad Halfmann.....Cell: 325-374-6116
 Cam Forbes.....Cell: 307-674-6095 or Home: 307-674-8162

Selling 535 Red Angus:

- **125 Coming 2-Year-Old Bulls**
From Halfmann and Beckton
- **120 Spring-Bred Registered Females**
Including 75 heifers.
- **240 Spring-Bred Commercial Females**
Including 60 heifers. Selling in load lots.
- **50 Ready-To-Breed Commercial Heifers and Cows**
Selling in load lots.

Auctioneer:

Roger JacobsBillings, MT
 Cell: 406-698-7686

Livestock Representatives:

Chelsea Tomascik
 Red Angus Marketing Programs Coordinator
 Cell: 254-697-1156, Office 940-387-3502

Ralph Meens *Weekly Livestock Reporter*
 Cell: 817-235-9708

 Cell: 817-992-7059

Scott Farmer *Gulf Coast Cattleman*
 Cell: 817-597-1731

Commercial Females

Free Delivery first 400 miles. Additional miles at cost. Delivery will be from female's location.

Please provide a facility where we may unload and reload several bulls. You may also need to accommodate a semi-truck either at your place or by making arrangements with a neighbor, sale barn, etc. We will make every effort to get your purchase as close as possible. All deliveries are at buyer's risk. We recommend insuring your purchases.

Insurance:

Insurance will be available to purchase on sale day at checkout.

Feeding:

Please arrange to pick up or receive your purchases. HRA will begin shipping on the Monday following the sale. We will hold cattle if needed for 10 days following the sale. Afterwards, purchased cattle will be assessed for feed.

Phone Bids:

We guarantee Sight Unseen Purchase Satisfaction. Contact us or one of the livestock representatives before the sale. Your bid will be handled confidentially.

Herd Health:

We have a comprehensive herd-wide health program which includes vaccinations for 7-Way, IBR, BVD, PI3, BRSV, Lepto, and ivermectin. The heifers are also vaccinated for bangs and vibrio. All Halfmann animals have been tested negative for BVD PI. All the bulls will have a general health and fertility examination by sale day. Breeding information will be available on sale day. Interstate health papers will be furnished for each animal in accordance with Federal Regulations.

Sale Day Meals:

Breakfast will be served on sale morning. Lunch will be provided prior to the sale.

Cattle Viewing:

Cattle will be available for viewing at 2 p.m. on the day before the sale. All bulls are at the Halfmann Ranch in Miles, TX. All Halfmann females are also at the Halfmann Ranch. All Beckton females are at Beckton Red Angus in Sheridan, WY.

Auction Format:

Selling in catalog order by recorded video. Cattle available to view on the ranch in Miles, Texas. Female lots 127-133 & 187-242 available to view in Sheridan, Wyo.

Online Supplemental Information:

Color photos, supplement information, videos and color catalog available at: www.halfmannredangus.com

Catalog & Promotion:

Tracey KoesterCow Camp Promotions, 701-475-2736

Online Bidding is available though Superior Livestock:

Read full instructions on Page 2 to get registered to bid.

Sale Location:

At the Ranch

From San Angelo, Texas, head east on US 67 to Miles, proceed through Miles for 2.4 miles. Left onto County Road 357 to ranch.

From Ballinger, Texas, head west on US 67 to Rowena, proceed through Rowena for approximately 6 miles. Turn right onto county road 357 to ranch.

Geographical location: 31.610411,-100.144257. Scan the QR code to receive directions on your mobile device.

Airline Info:

American Airlines flies into San Angelo, Texas (15 miles from us).

Continental and Southwest Airlines fly into Midland, Texas (125 miles from us).

Hotel Accommodations:

Holiday Inn Express has a block of rooms under "Halfmann Red Angus"

Holiday Inn Express, San Angelo
 4613 W Houston Harte Expressway 325-223-2200

Best Western, San Angelo
 3017 West Loop 306 325-223-1273

Comfort Suites, San Angelo
 4450 W Houston Harte Expressway 325-944-8600

Hampton Inn, San Angelo, 2959 Loop 306 325-942-9622

Executive Inn, Ballinger, 1005 Hutchins Ave 325-365-5717

Delivery (400 miles FREE):

Rebate

Bring your trailer on sale day and receive a \$50 rebate for each registered bull or female, and a \$25 rebate on commercial females.

Registered Bulls and Females

Free delivery first 400 miles or 100 miles per head purchased, whichever is more. Additional miles at cost. Delivery will be measured from Miles, TX, or Sheridan, WY, whichever is closest to buyer.

Please visit our website, www.halfmannredangus.com for supplement information.

HOW TO PARTICIPATE ON THE PHONE OR ONLINE

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. **Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.**

HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock and is the suggested process for anyone who does not have excellent, high-speed internet. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form, fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Turn in Bids Over the Internet through Click-To-Bid. This is Superior's newest way to buy cattle! **PLEASE NOTE THAT HIGH SPEED INTERNET IS REQUIRED – THIS IS NOT FOR SATELLITE INTERNET OR DIAL-UP INTERNET.** Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy – just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved by the ranch you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction. The sale will be broadcast via satellite on Dish Network channel 231 and DirecTV channel 345. *Please note that there is a short delay if you are watching the auction on television so call in two lots ahead of the lot you are interested in bidding on.* The sale will also be broadcast live on the internet at www.superiorclicktobid.com – just go to the home page and select the auction. Remember you can call in to bid whether you watch on the TV or on the internet, but you must be a member of www.superiorclicktobid.com to "click-to-bid". Your computer must have Flash Media Player installed to view the auction.

Bidders who are successful in making purchases via satellite or internet will be contacted by the ranch after the sale to settle payment and make shipping arrangements.

Information

FOCUSING ON THE BOTTOM LINE

Profit has two sides to the equation, Income & Expense. For many years, some cattlemen have concentrated on how to maximize income, while not paying attention to expense. When times get tough, businesses of all industries tend to become more efficient and focus on reducing expenses. The Red Angus Association recognized this early on and developed unbiased scientific methods to measure economically relevant traits to help cattlemen become more efficient. The most economically relevant traits are Calving Ease Direct (CED), Birthweight (BW), Maintenance Energy (ME) and Stayability.

THE IMPACT OF BIRTHWEIGHT & CALVING EASE

The foundation of animal breeding is fertility and calf survival. Without cows breeding up and weaning a calf every year, producers will incur an economic loss. Using low birthweight, calving-ease bulls with growth will insure a higher percentage of weaned calves and more total pounds of calves weaned. For example, suppose you use a higher birthweight bull that adds 20 more pounds per calf at weaning. If the calves wean at 600 pounds and you lose one calf at birth, the cost of losing one calf is equivalent to the additional 20 pounds of gain on 30 calves. Maintaining a high weaning percentage should be a high priority. Low birth weight is highly correlated to mature cow size. An added benefit of using low birthweight bulls is the surest way of producing moderate-sized, efficient females for the future.

STAYABILITY

This predicts the ability of a bull's daughters' ability to conceive every year until the age of six. That is how long it takes a female to breakeven given all the expenses of development. Red Angus is the only major breed able to measure fertility in this manner due to the use of THR (Total Herd Reporting).

MAINTENANCE ENERGY

This EPD predicts the relative feed energy requirement for maintenance, for cows produced by a sire or female. 70% of cow herd feed costs are burned up in maintaining weight and condition. Feed costs make up by far the largest proportion of operating costs. The ME EPD is calculated using mature weight, milk and body condition score (BCS). Breeders collect cow weights and BCS at weaning. Maintaining moderate framed and easy keeping females is very crucial in our environment. They require less energy to maintain each year and they also breed back more consistently. Our cows must wean a high percentage of their own body weight to be considered efficient. If you can raise a 600-lb. calf each year with an 1100-lb. cow, why would you want to keep feeding that 1600-lb. cow that does the same thing with more grass & feed?

USING EPDS & RATIOS

A common misconception is that EPDs will tell us which animal of several being compared is 'best.' EPDs are merely a description of each animal's genetic make-up. It is up to us to determine which animal is best for us. Selecting for single traits is not always the most effective choice. When selecting a bull, take into consideration all traits that are relevant for your program. By correctly using EPDs, we can each determine which animal best fits our programs, or moves them in a direction we want to go.

Ratios are used for comparing within a single contemporary group. Selecting between contemporary groups with actual data can be inaccurate and lead to selection or culling errors! Performance measurements such as growth and marbling may vary greatly between contemporary groups depending on how they are managed and fed. For example, grain-fed animals are more likely to have higher marbling scores than forage-fed animals. However, forage-fed animals may be genetically capable of producing higher marbling scores, but are not fed high-grain rations for other management reasons.

The Rancher's Guide to EPDs

Courtesy of the Red Angus Assn. of America. For more information on EPDs, visit redangus.org.

EPDs: Expected Progeny Difference – How an animal's future progeny will perform compared to the progeny performance of the average animals in the breed, assuming similar environments and matings of the same genetic value. EPDs in this catalog for sale lots are Fall 2012 non-parent EPDs without accuracies. If accuracies were listed, they would be very low.

(ACC) Accuracy – An expression of reliability of an animal's EPDs. The higher the rating, the more accurate the EPD.

CED (Calving Ease Direct) EPD: Predicts the probability of calves being born unassisted out of 2-year-old heifers.

BW EPD: Predicts the difference, in pounds, for birth weight, and is also used in the calculation of Red Angus' Calving Ease Direct (CED) EPD.

WW EPD: Predicts the difference, in pounds, for weaning weight (adjusted to age of dam and a standard 205 days of age).

YW EPD: Predicts the expected difference, in pounds, for yearling weight (adjusted to a standard 365 days of age).

Milk EPD: Predicts the difference in maternal production of an individual animal's daughters as expressed by the weaning weight of their calves.

Total Maternal EPD: Predicts the rancher's actual observation of weaning weights of calves raised by an animal's daughters. $TM\ EPD = Milk\ EPD + 1/2\ (WW\ EPD)$

ME (Maintenance Energy) EPD: Predicts a bull's daughters that will require less feed to maintain her body weight and condition; thus increasing profitability.

HPG (Heifer Pregnancy) EPD: Predicts the probability of heifers conceiving to calve at two years of age.

CEM (Calving Ease Maternal) EPD: Predicts the probability of a given animal's daughters calving unassisted at two years of age.

Stayability EPD: Predicts the probability that a bull's daughters will remain in the herd until at least six years of age.

Marb (Marbling) EPD: Predicts differences for carcass marbling score as expressed in marbling score units. Higher marbling scores are positively correlated with higher carcass quality grades.

YG (Yield Grade) EPD: Predicts differences in USDA Yield Grade score, and is expressed in USDA Yield Grade units.

CW (Carcass Weight) EPD: Predicts differences in hot carcass weight and is expressed in pounds, because Red Angus' CW EPD is a multi-trait.

REA (Ribeye Area) EPD: Predicts differences of carcass Rib Eye Area between the 12th and 13th rib.

Fat (Backfat) EPD: Predicts differences for carcass fat depth over the 12th rib, as expressed in inches.

We are leading the sale off with a direct son of Nebula P707, the most sought after sire in the breed. We used Lot 1 in our program this year and believe he is going to make quite an impact in someone's herd. His dam is a Hustler R588 daughter (the breed leading calving ease sire). This dark red bull is a great prospect for calving ease with excellent growth.

One of the thickest bulls in the offering, this Packer son will add pounds to his calves with more muscle. His maternal brother led off in last year's sale as Lot 1. If your looking for a female that will raise the right type of calves, his dam sells this year as Lot 144. Another Hustler R588 daughter.

This powerful Packer son started out at a modest 69 pounds and put the pounds on. He is very balanced in terms of his records and is in the top 17% and 15% for Marb and REA. His dam raised one of our herd bulls as a first calf heifer. He sells as Lot 21.

Lot 11

This Packer son is one of the bulls we are most excited about this year. We used him extensively in our program this year. His dam like Lot 11's raised one of our herd sires as a first calf heifer. Lot 12 is probably the most balanced bull in the sale ranking in the top 26% for BW, 15% WW, 6% YW, 24% ME, 9% Stay, 24% Marb and 1% for REA. His maternal side is one of the best lines of females in our herd in terms of production, consistency, udder development and mothering ability.

Maternal Grand sire - LJC Mission Statement P27

A high growth bull, Lot 13 really put the pounds on after starting out at only 62 pounds. It's no surprise though as his grand-dam is the dam to Lot 1. The really good bloodlines tend to work their way to the top.

A great herd bull prospect, we used this Nebula P707 son as a yearling and again this year. His first calves look really great and are some of the more moderate, easy keeping, thick made cattle. Out of a more moderate framed K465 daughter who produced her first two calves in the top of this year's sale.

This set of yearling bulls are out of a group of purebred Red Angus commercial cows that we purchased during the drought. Sired by a very balanced Chateau L610 bull who is in the top 20% for Marb and REA. L610 sons exhibit great muscle and balance (these sons are exceptional examples of just that).

Sire – Halfmann Chateau L610

Commercial Red Angus Females

High percentage, solid red. Bred and raised by Halfmann Red Angus and Beckton Red Angus

126 Located in, and delivered from, Miles, TX. First buyer has option to purchase any combination of these lots. Any remaining lots will be auctioned until all are sold.

126A 17 head of Halfmann spring-bred commercial heifers to calve on February 1 by Beckton Halfmann Hustler R588 (Reference Sire B).

126B 17 head of Halfmann spring-bred commercial heifers to calve on February 1 by Beckton Halfmann Hustler R588 (Ref sire B).

126C 17 head of Halfmann spring-bred commercial heifers to start calving on February 20 through March 10 by Nebula P707 sons (Lots 1, 4, 52).

126D 15 head of Halfmann spring-bred commercial heifers to start calving on March 10 through April 20 by Nebula P707 sons (Lots 1, 4, 52).

Lot 126A – Halfmann Spring-Bred Heifers

A uniform set of commercial bred Red Angus heifers developed on our native pastures in west Texas. These females are fully vaccinated, BVD-PI tested negative and vaccinated for Brucellosis. They were time-AI bred to Beckton Halfmann Hustler R588 (the breed's go-to calving ease sire). We then turned in three dark-red Nebula P707 sons to clean-up for uniformity. The heifers were sonogrammed for calving date and sex. Check out the Lot 3 bull if you are interested in what these type of females are capable of producing. He is out of a female just like these heifers from two years prior.

127-133 Located in, and delivered from, Sheridan, WY.

127 Load of 20 head of Beckton spring-bred heifers to start calving February 20.

128-131 Buyer has option to purchase choice of Lots 128-131. Remaining lots will be sold at choice to the next winning bidder until all are sold.

128 Load of 40 head of Beckton young cows (average age 3.5 years) to start calving on March 5. Bred to Beckton Red Angus sires.

129 Load of 40 head of Beckton young cows (average age 3.5 years) to start calving on April 5. Bred to Beckton Red Angus sires.

130 Load of 40 head of Beckton young cows (average age 3.5 years) to start calving on May 5. Bred to Beckton Red Angus sires.

131 Load of 40 head of Beckton young cows (average age 5-7 years) to start calving April 5. Bred to Beckton Red Angus sires.

First buyer has the choice of Lot 132 or 133, or the option to take both at the same price.

132 Load of 20 head of Beckton open heifers, ready for fall breeding. Buyer has option to take Lot 133 at the same price.

133 Load of 30 head of Beckton young open cows (average age 3.5 years) ready to breed.

Another R588 daughter out of the Mattie cowline who raised Lot 53. Matties are very feminine, with great udders and teats and add a lot of marbling. Lot 138's granddam produced the highest marbling calf on our ranch at 5.77% while on a forage ration. These Matties could have an impact in any herd especially in grass-fed operations. Exposed to Reference Sire N, Halfmann Nebula AL Y593, 5/25/13 through 7/31/13.

Terms & Conditions

BIDDING DISPUTES: The Auctioneer will settle any disputes as to bids, and his decision on such matters shall be final.

TERMS: Terms of sale are cash. All settlements will be made with the clerks of the sale immediately following the conclusion of the sale and before any cattle will be released.

PURCHASER'S RISK: Each animal becomes the risk of the Buyer as soon as sold. Insurance will be available sale day.

CERTIFICATE OF REGISTRY: A certificate of registry will be furnished to the Buyer for each animal, after settlement has been made.

ANNOUNCEMENTS: Changes or errors of information contained in this catalog relating to the animals offered for sale will be announced from the auction box and such announcements shall take precedence over printed matter in the catalog.

BREEDING GUARANTEE: All animals sold are guaranteed breeders by the Seller. All claims for adjustment or refund must be made in writing within six months of the sale date. In the event an animal is claimed to be a non-breeder, the purchaser may return the animal to the ranch of the seller if in good condition, free of disease and complying with the health requirements of the Seller's state. The Seller will be entitled to six months trial following the return of the animal in which to prove that the animal is a breeder. If at the end of six months, the Seller shall be obligated, at his option, to refund the purchase price, replace the animal with another of equal value, or grant the buyer credit for use on cattle marketed by the seller. The return of the full purchase price shall in any case be deemed full satisfaction and settlement. If the Seller proved the animal to be a breeder,

it shall be the obligation of the purchaser to take delivery of the animal at the purchaser's expense. All animals are guaranteed to be breeders, with the exception of: a) calves under twelve months of age; or b) animals shown by Purchaser after sale; or c) gross negligence or willful misconduct on the part of the Purchaser.

SELLER'S SEMEN RIGHTS: Seller keeps a 50% revenue-sharing breeding interest without possession, in every bull in this catalog unless otherwise noted in this catalog or in the sale day supplement. In the event Seller elects to collect semen from a designated bull, it will be done at Seller's expense and during such time when purchaser is not using the bull for breeding. Future semen collections of the bull must be made known to all owners prior to collecting. These collections and costs will be divided according to each owner's interest, unless otherwise agreed upon mutually by all owners.

LIABILITY: Neither owners, sale managers, clerks nor anyone connected with the sale assumes responsibility, legal or otherwise, for damage of any kind.

CONTRACT: The above terms and conditions shall constitute a contract between the buyer and seller of each animal sold.

IMPLIED WARRANTY: Except for those stated in the terms and conditions, there are no warranties or implies, as to merchantability or fitness for a particular purpose with respect to the cattle being sold in this auction. The warranties set forth in the terms and conditions are in lieu of all other warranties, either expressed or implied, and the remedies provided therein shall be the sole and exclusive remedy of the buyer, or any party claiming through the buyer, for any breach of warranty or guarantee therein provided and all other obligations or liabilities.

P707 has been setting the Red Angus world on fire as one of the best start to finish bulls in the breed today. Low birth, heavy weaning and yearling weight with high marbling and low maintenance make him a very balanced and herd changing sire. His progeny are very consistent with lots of eye-appeal and thickness. Perhaps his best quality is the quality of females he sires.
