EZ Update 16U

Selling half interest and full possession!

Angus
BACK TO THE FUTURE

These Fullblood Lowline cattle have been assembled and bred by a cattleman with years of experience in the registered Angus business. They will be well presented and are very well bred. There are some exceptional bloodlines in this sale as Dave used tenacious scrutiny when he assembled this herd. Other business interests are taking way too much time from his cattle breeding operation and so he has no other choice but to sell this terrific Lowline herd, lock, stock and barrel! It is only in a dispersal of this kind that these superior quality cows, bred to tremendous herd sires, in the heart of their most productive years, ever get offered for sale. Don't miss this opportunity to put the very best Lowline breeding stock into your Lowline herd.

www.auctioneffertz.com

into the Lowline business in 2009. Following Dave's dispersal in October of 2008 of his registered Angus herd, he has steadfastly pursued establishing a high quality registered Lowline herd in the hills of southern Ohio. He recognized the value of a benchmark herdbull to anchor his breeding program. After assembling several donor quality fullblood Lowline females and some top notch semen to flush them to, Dave purchased half interest and full possession in one of the best breeding sons of the great Australian herdsire Neron, EZ Update 16U. This bull has blessed the Southern Hills herd with some outstanding offspring that excel not only in eye appeal and structural correctness but also in the real low input beef producing capabilities that are the real reason for the existence of Lowline cattle in America.

Although we are extremely sorry to see Dave get out of the Lowline business because of time constraints from his other business interests, this is a rare, excellent opportunity for new and existing Lowline breeders to add some cattle to their herds that would normally never be offered for sale. It is only in a dispersal sale of this type that a breeder will relinquish possession of such high quality cattle.

Dave is a one man cattle operation whose time is divided between his farming and computer business. Cattle photography at this point has presented an unanswered challenge. Video of the sale cattle will be online at www.auctioneffertz.com or www.southernhillslowlines.com in mid March. We also hope to update the websites with photos of these excellent, high quality cattle between now and sale time. Pay careful attention to the updated supplement sheet information including birthdates of new calves born between now and sale time on the websites.

Please feel free to contact me if I can be of any assistance in evaluation of the sale cattle, livestock transportation or other questions.

I look forward to seeing you on March 23.

Sincerely,

Neil Effertz

Friends,

It is with mixed emotions that I invite you to attend the Southern Hills Lowline Complete Dispersal Sale, on the farm south of Hillsboro, Ohio, on March 23. It has been a pleasure to do business with a quality conscious cattleman like Dave Ditmer since he got

Southern Hills Lowlines
3764 Harriett Road
Hillsboro, OH 45133

Dear Fellow Lowline Breeders,

I would like to invite you to our dispersal sale on March 23, 2013. After much thought and consideration we have decided to liquidate our herd. My computer business (www.Dalco.com) has been very good and continues to grow while demanding more and more of my time. At first computers and cows mixed, but as time passed, both needed more hours than I could give to do the job right.

I am very proud of the group of cows we have assembled. Many strong cow families are represented and have been very successful for us. Our cows have been very well taken care of and are in excellent health with many productive years ahead.

The cattle will be available for viewing the evening of March 22 and March 23 up until sale time. We would like to invite everyone to join us on sale day for a complimentary lunch and look forward to meeting with you. I am available anytime to answer any questions you may have on the cattle or to assist you in any way.

Warmest Regards,

Dave

WD LO/HP COMM COW

Here is a third halfblood September Update son of a non registered Lowline cross cow. They could make excellent Lowline cross stocker beef steers.

Fullblood Embryos

- 1 EMBRYO Sexed heifer semen, EZ Update 16U X EZ Fantasia 20J, 2000 National Champion Female
- 1 EMBRYO EZ Update 16U X EZ Fantasia 20J, 2000 National Champion Female
- 2 EMBRYOS Beau Lad X Brambletye St. Louise S208, mother of Captain Jack, Lexus and EZ Torch 23T.
- 2 EMBRYOS EZ Lisbon 29L (powerful carcass genetics, 19' ribeye, sire of the 2009 Houston Champion Lacey) X EZ Fantasia 20J
- 1 EMBRYO EZ Lisbon 29L X EZ Tayla 38J (fabulous, sound uddered Rouseabout daughter)

15 Straws of Jackaroo Semen

What are they good for?

1. Calving ease on first calf heifers. Halfblood calves average weights of 60-70 pounds at birth will vary depending on the genetics of the heifers. They will be in the frame score 4 to 5.5 range again depending on the frame score of the heifers. These vigorous healthy calves will weigh right at or just slightly below the average of your regular calves especially if you start calving your heifers a few weeks earlier than your main cow herd as is common practice. The extra calves you wean (no death loss at birth) will more than make up for any loss in individual weaning weight. These first cross calves will sell right with your regular calves at no discount.

2. Halfblood and first cross Lowline steers will finish at 1,150 to 1,275 pounds if backgrounded on a high roughage diet.

They will work extremely well to run as yearlings on grass and then these yearlings will gain very well and very efficiently in the feedlot. They will finish in a much shorter feeding period saving high corn costs and yardage. Because of their heavy muscled Angus heritage they will yield excellent carcasses with high rib eye area per hundredweight and a high quality grade. The Lowline cross beef is noticeably fine textured and very tender.

3. Use Lowline cross cows to moderate your cow size. Run more cows per acre and wean more pounds per acre. Sell that total pounds of weaning weight for a higher price per pound. This is especially true from the 2nd year of production and beyond when you can breed the Lowline cross females to a larger framed but easy calving bull of another breed to make a smaller cow be all she can be. Thus she weans a higher percent of her body weight and optimizes her lower annual maintenance costs.

4. Sell Lowline seed stock. There are an increasing number of Lowline sales across the country to allow you a place to market your registered Lowlines. There is also a great demand for Lowline cross replacement heifers. They make excellent recipients for some embryo transplant programs.

5. Lowline cross steers are ideal for the emerging "Grass Fed Beef" market.

We find that 1/2 to 3/4 blood steers are very well suited for this purpose.

6. High percentage Lowlines are optimum for selling locker beef. Their smaller carcass size is much more well suited to the modern American family. Their smaller yet fine textured cuts of flavorful beef will gain you rave reviews from your customers and some great "word of mouth" advertising. We are even breeding some of our higher percentage Lowline cows to lower percentage bulls which gives us terrific weaning weights as a percent of the cows body weight.

Terms and Conditions

Terms: Terms of the sale are cash or check payable immediately upon conclusion of the sale and before animals will be moved. Seller will reserve the right to require a certified check as settlement before releasing any cattle.

Insurance of Purchases and Risk: All animals are the seller's risk prior to their sale and become property of the buyer as soon as declared sold by the auctioneer. Arrangements will be made to have insurance available when making settlement.

Bidding: All animals sell to the highest bidder. Any disputes or challenges regarding bids will be settled by the auctioneer and his decision will be final.

Health and Export: A vet will be on hand to write interstate health certificates.

Registration and Transfer: All animals sell with registration papers from their respective breed Association and will be transferred after the sale at the seller's expense. In the case of dual registered cattle, both registration papers will be transferred.

Announcements: Any errors or changes of information contained in the catalog will be announced from the auction block and such announcements shall take precedence over information contained in the catalog.

Breeding Guarantee: Every effort will be made to make the most up-to-date information regarding pregnancy check available to the buyers. This is a dispersal sale and, for the Southern Hills Lowlines cattle, no further guarantee applies.

For the Riverwood Farms and University of Findlay consignments, the open heifers selling are guaranteed to be breeders. If a female appears to be a non-breeder within 6 months of the sale (or within 6 months of when she reaches breeding age) she may be returned to the seller at the buyer's expense. The seller will then reserve the right to prove the animal a breeder within a six month period, using any fullblood registered Lowline bull of his choice through AI or natural service. If successful,

seller will return animal to buyer, again at buyer's expense. Should the animal fail to prove a breeder, the seller at his option may either return the purchase price to the buyer or replace the animal with another of equal value in full settlement and satisfaction of all claims. In no event shall the seller be responsible for more than the purchase price. In case the animal in question should develop to be a problem breeder due to negligence or improper management by the buyer or if the female has been subjected to any hormonal or surgical reproduction techniques, the seller's guarantee does not apply. No guarantee is given that bred females will deliver a live calf. No guarantee is given that a female will produce eggs suitable for transplant.

Liabilities: All persons who attend the sale do so at their own risk and Auction Effertz, Ltd. and Southern Hills Lowlines and the sale consignors assume no liability for any accidents that may occur. Neither does Auction Effertz, Ltd. or Southern Hills Lowlines and the sale consignors assume any liability for loss or injury to livestock due to theft, mysterious disappearance, sickness, improper handling or Act of God. It is also to be clearly understood that Auction Effertz, Ltd. acts only as a medium between the buyer and the seller. They are not responsible in any way for any failure on the part of the buyer and the seller to live up to their obligations of for the truth of any warranties or representations, express or implied. Neither does Auction Effertz, Ltd. assume any financial obligation to collect or enforce collection of monies between parties. Any legal action that may in exceptional cases be taken, must be between the buyer and the seller.

Contract: The above terms and conditions shall constitute a contract between the buyer and the seller of each animal sold.

Mail bid: Mail or wire bids may be furnished. Bids must be in the hands of the sale manager in ample time prior to the sale and will be handled in strict confidence.
