Dear Friends and Cattlemen,

We would like to start by thanking everyone for their support and friendship over the years. It is an honor to be able to present this sale offering for you to evaluate. We feel this is an excellent set of yearling bulls and heifers.

We are doing things a little differently this year. On sale day the animals WILL NOT be ran through the ring. We will have a video auction with monitors set-up around the sale ring. Everything else will remain the same with the bulls on display in the same pens as years past. We encourage you to take a little extra time walking through the pens prior to the sale to ensure you find the right bull for your program. If you have any questions on the bulls or would like to discuss the offering, we would be more than happy to answer your questions. The videos of the sale lots will also be available for viewing on the DV Auction website. We really hope you can make it to the sale, but if you can't, this is a nice option to have to do your bidding and buying. If you are looking to bid through DV Auction, be sure to pre-register if you are unfamiliar with their website. If you have any questions about the service, feel free to call Justin Dikoff with DV Auction or contact one of us.

The bulls have been developed slowly to ensure soundness and longevity. We weaned them in October and they remained at home while we finished construction on our bull development pen. They were on a wheat mid pellet through weaning. We then added silage to it and fed them that through the middle of January when they were moved to the newly constructed pen. Once they were moved we went to a full TMR with chopped hay, silage, peas, and Vita-Ferm concept aid mineral supplement. Switching feed on them twice significantly hampered their adjusted yearling weights, but they more than made up for it once they got adjusted to the ration. The ration never got above 48 Mcal, the peas were an excellent source of energy and protein without having to add any additional corn. We have had excellent results with the Vita-Ferm mineral. All the yearling calves have been fed Vita-Ferm as well as the cow herd.

We feel the quality and depth of this offering is very impressive. From top to bottom this set of bulls is functional, eye appealing, and performance oriented. By far the stoutest set of bulls we have ever had to offer. The set of heifers is also the highest in quality we have ever offered.

The cow herd is ran like a commercial herd wintering on chopped hay and mineral. Not pampering the cow herd helps identify superior individuals. We ask a lot of our cows. They have to calve on time, raise a heavy eye appealing calf, hold their condition, and do it again the next year.

As always, ultrasound data will be available prior to the sale. Scrotal information will also be available closer to sale day. If you have any questions or just want to chat we encourage you to give us a call. We stand behind these cattle 100% and we believe they will add quality and payweight. We look forward to seeing you!

Sincerely,

*The Carters*

*Herd bull with a lot of stretch and grow. He came off the cow the biggest at weaning at a whopping 994 lbs. He's a big-framed, attractive son of Density with a big foot and a lot of meat and muscle. The Density cattle are known for their maternal traits and, coming from his Crossover dam, the cow power behind him is very promising. Have a set of feeder calves buyers will fight over, and a set of replacement heifers anybody would be proud to own.*

Herd Bull by Hammer. He's been a favorite since birth. He's a big-footed, powerful bull with a lot of volume and muscle. Big-topped bull with a long, level hip and abundant quarter. He couples that with a lot of volume and a really soft look. He gets out and moves well and has a really easy-going disposition. I can't speak highly enough of his mother – she is an absolute standout. She raised the high-seller last year by Upward and her first calf was the second-high seller in the 2010 sale by Final Answer. Performance, muscle, phenotype and maternal right here.

## Can't make the sale?

We are pleased to bring you real-time Internet bidding and a live broadcast of this sale through DV Auction. To watch or bid online, simply complete the following steps:

- 1) Visit the DVAuction web site at [www.dvauction.com](http://www.dvauction.com)
- 2) Click on the "Register" tab
- 3) Enter a user name, password and your contact information.
- 4) Click on "Apply for Bidding."
  - Select the sale from the list of other auctions and click "Apply".
  - Complete the process by filling out the Banking & Lending information requested.
  - Be sure to include a personal contact at your bank, we will contact them in order to get a credit reference.
  - If you would prefer to be approved using your credit card, call (402) 316-5460.
  - Please be sure to apply for bidding at least a day in advance of the sale-every effort will be made to process your application in a timely manner.

DVAuction will contact you once you have been approved to bid. We do not provide buyer numbers until you have purchased a lot in the sale, and that number is only usable for that auction. After the sale contact the sale owner or manager to make arrangements for payment and delivery of your online purchases.

**Please Note:** High speed Internet access (DSL, T-1, or Broadband) is required to be able to bid successfully during the sale. If you have any questions, please contact DVAuction at (402) 316-5460 or (402) 474-5557 or email [support@dvauction.com](mailto:support@dvauction.com).

**Proxy Bidding:** If you can't access a computer during the sale, you can now place a "proxy bid" through DV Auction. Simply follow the instructions listed above, and as the sale date nears there will be a "Proxy Bidding" link under the sale listing on the main page of DV Auction. You can then place the maximum amount that you'd like to bid, and our system will represent your bid just as if you were there.
