*Welcome*

Welcome to Klain Simmental Ranch's  
32nd  
Annual  
Production  
Sale!

Welcome to our  
32nd Annual  
Production Sale!

Durnell, Darcy, Tyler, Dalyce and Trey & Klain

It has been a  
great year to

be in the beef industry and an even better year to be raising Simmental and SimAngus™ genetics! Fall prices were good and continue to strengthen throughout the winter. Profit and demand should continue to grow for a considerable time still.

The American Simmental Association and their progressive Total Herd Enrollment program for collecting and processing data have set the highest standard for the beef industry. With these tools along with structure, disposition, gainability, carcass merit and visual analysis, we at Klain Simmental offer you the most complete, uniform, powerful and profitable set of cattle ever.

The herd bulls at Klain Simmental have never been more elite. Commandero and Soloman, our red herd sires, are the top of their class and we look forward to seeing their calves year after year! KSR Total Package is our high-growth SimAngus™ bull that we retained in our herd. Preferred Value, Ellingson W948, KSR 787U and KSR Shear Force 889W are our black Simmental bulls that excel in calving ease and high growth. Matrix rounds out our herd as our purebred Angus bull that brings in carcass and marbling.

You are welcome to visit and look at the cattle on the farm anytime! They will be at the sale barn in Turtle Lake on January 28 until sale day.

Thanks from all of us at KSR!

Durnell, Darcy, Tyler, Dalyce and Trey

A very balanced, complete herd sire prospect from a superior cow family going back to the great Tosica 180K cow. A super maternal, high-indexing, dark-red son of Solomon with very good EPDs. I really like his dam and the 80 cow family. 980A has a very unique depth of flank, square hip and depth and width of quarter. You will like this bull from behind and his daughters will make great, productive females!

A never-miss cow family, Blazer is from the powerful Tosica cow family. Here is a real spread bull – 109% BW ratio to 107% WW ratio. Soggy middle, bold rib, deep flank, strong top – this bull is very easy and fun to look at. He ranks in the top 10% for WW and TI, and top 20% for YW. He has a real performance and maternal pedigree – power in the blood.
