North Dakota Red Angus Association Red Select Sale

Welcome!

Welcome to the 2014 N.D. Red Angus Select Sale. This is the largest offering we've had consigned in many years and what a tremendous set of females we have. Jeff Thomas selected all of the consignments and we have a very high-quality set of bred and open heifers, as well as some very exciting embryos packages. This is a great opportunity to purchase some of the northern region's top genetics to advance anyone's program.

Red Angus is showing unprecedented growth as a breed and in popularity among commercial producers, feeders and packers alike. With cattle prices at an all-time high, it is an exciting time to be offering this elite set of females.

This year we are happy to share the sale day with the N.D. Simmental Association's State Sale that will follow the Red Select Sale. While each breed is maintaining its own identity, we think it reflects the cooperative effort of the two breeds' national collaboration. We also think this will be a tremendous opportunity for buyers who utilize both breeds.

I would like to thank Jeff Thomas for his tremendous job of cattle selection and for his guidance in managing this sale. I would also like to thank the entire board for all of the work they have put into planning and managing this year's Red Select Sale. Thanks also to Tracey Koester of Cow Camp Promotions for a great job of advertising and catalog design.

We are pleased to welcome Larry Keenan, RAAA director of breed improvement, to our annual meeting and banquet. Larry will discuss the new HerdBuilder and GridMaster Indices and be available to answer members' questions.

Plan to join us on Friday at 2 p.m. CST at the Ramada for our annual meeting, social at 5:30 p.m. and banquet at 6:30 p.m. The Red Select Sale starts Saturday at 12:00 p.m. CST sharp.

Hope to see you on sale day!
Todd Leland, NDRAA President

Greetings!

It has been a pleasure to be involved with the development of the 2014 N.D. Red Angus Association Red Select Sale. The consignors have been great to work with and are presenting you an excellent set of genetics to choose from.

You will notice a new venue to this year's event with the N.D. Red Angus Association sharing the sale date and sale location with the N.D. Simmental Association and their sale. The Red Select Sale Starts at noon with the Simmental sale following after. There are two great sets of cattle for both of these events!! The two breeds compliment each other very well and the consignors have been great to work with!

There has never been a better time to be involved in the beef industry! The cow numbers are at an all-time low and we are continuing to see record prices for feeder calves. Commercial producers all over the country are searching for top-end genetics to use in their programs to take advantage of the times. As seedstock producers you will find the offering of this sale provides the source for those top-end bulls and females that will assist you in providing those genetics to your customers.

If you are looking for bred heifers to produce bulls for the commercial and seedstock industry, this offering has a lot of opportunities for you. The open heifers in the offering have some outstanding show heifer prospects for Junior programs – there will be something to fit your needs that will make tremendous cows as they develop.

If you have any questions regarding the offering don't hesitate to give a call or send a note; and remember the sale will be broadcast on DV Auction if you would like to participate over the Internet.

Sincerely,
Jeff Thomas

 Bid Online... you're ringside
 right at your desk!

Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make your purchases!

High speed internet is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

Bull Selection – Simplified.

Red Angus stakeholders have enjoyed the capability of selecting bulls based on economically relevant traits (ERTs), such as Heifer Pregnancy or Stayability, that truly impact their operations profitability. While these ERTs allow for efficient selection decisions, the growing number of ERTs and EPDs has resulted in confusion as producers attempt to estimate a sire's overall impact. In response, RAAA has developed the HerdBuilder and GridMaster indices, which answer the question:

“What impact will each potential sire have on my operation’s profitability?”

HERDBUILDER

Producers selecting bulls to develop profitable replacement females and maximize the value of non-replacement marketed progeny should incorporate the HerdBuilder Index into their selection decisions.

The HerdBuilder Index is built using the following scenario:

- Red Angus bulls mated to cows and heifers
- Replacement heifers retained from within the herd
- All remaining progeny sold on a quality-based carcass grid

Given that replacement heifers are retained, significant influence is placed on the obvious maternal ERTs of Stayability, Heifer Pregnancy and Calving Ease. Additionally, with all remaining progeny sold on a quality-based carcass grid, Marbling, Yield Grade and growth EPDs also impact the HerdBuilder Index.

GRIDMASTER

Use the GridMaster Index if your operation’s primary goal is maximizing profitability of feeders in the feedyard and on the rail.

The GridMaster Index is built using the following scenario:

- Red Angus bulls mated to cows
- All progeny sold on a quality-based carcass grid

Marbling, Yield Grade and growth EPDs are the traits of primary importance in the GridMaster Index.

While the process of calculating an index is very complex, the resulting selection tool is very simple to implement.

HerdBuilder and GridMaster are expressed as differences in profitability per exposure.

HerdBuilder Example:

30 cows x 5 years breeding = 150 exposures

Bull A has a HerdBuilder Index of 175: $175 \times 150 = \$26,250$

Bull B has a HerdBuilder Index of 100: $100 \times 150 = \$15,000$

\$11,250 Difference in Profitability

Ranch Tested. Rancher Trusted.

HBR Miss Rambo 723-4181 is a complete Rambo U292 daughter from one of our top MPPA cows. Dam LDCC 723 has sound feet, good udder structure and a 106 MPPA on six calves. 4181 is dark, cherry-red, feminine and functional. Rambo daughters have good mothering abilities and desirable udder structures. We agreed with Jeff in this being a good selection.

Ms Kaylee 3017 is a dark-red, thick-made female that catches our eye every trip to the pasture. Her young Big Sky dam is developing into one of the good ones for us, and is a productive cow with a beautiful udder. Make note of the strength of her pedigree and its maternal value combined with a solid set of numbers to boot. Calves out of C-Bar Anticipation have performed well for us, including one of the sale-topping bulls in our 2014 production sale. This is a great female prospect with a lot of future potential.

A.I. bred to C-Bar Anticipation 101W (#1361141) on 5/29/14. Pasture exposed to Feddes Big Horn Z150 (#1516301) from 6/16/14 to 8/15/14. Ultrasound confirmed for a 3/13/14 calf.

We are offering one of our very best bred heifers again this year. The dam of Ms Highlight 3145 is becoming one of our most productive young cows with some outstanding stats. She ranks in the top 7% HerdBuilder, top 16% GridMaster, top 11% BW and Milk, top 1% HPG and top 5% Stay. 3145 has some of the best female-makers of the breed in her pedigree. Her sire, Red Lazy MC Cowboy 26X, comes from a very reputable Canadian program, Lazy MC Angus. He has an excellent disposition and definitely passes on added thickness and style as you can see in this outstanding young mistress. On top of that, she is A.I. bred to PIE Code Red 199. We feel Ms Highlight 3145 is a very complete package and has great potential for her new owner.

A.I. bred to PIE Code Red 199 (#1483973) on 5/29/14. Pasture exposed to Feddes Big Horn Z150 (#1516301) from 6/16/14 to 8/15/14. Ultrasound confirmed for a 3/17/14 calf.

What can I say? She has it all! Frenzel Ida 404 has been a standout since day one! She is backed by the Messmer Ida cow line, and let me tell you, this line is some of the best in my book! I am very impressed with her sire, 5L Solitaire 3769-33Y. You will not want to pass her up. She is going to be a tough one to part with.

Her actual weight on Oct. 1, 2014, was 880 lbs. coming from an 80-lb. BW. Her sire is a Canadian-bred son of Red Lazy MC CC Detour 2W, and her dam is a daughter of Red Fine Line Mulberry 26P. Her dam is in our donor program and produced our high-selling bull in 2014 at \$10,000 selling to Bailey Ranch of Towner. This heifer has the look of a show heifer and the genetics to produce.

GM Miss Sam 404 is a fancy, thick and stylish-made heifer that could win in any show ring. Miss Sam has the look of a show heifer but still displays the power and ability to bring home a calf each fall with pounds. Her dam, DBAR Miss Bo U823, has been a no-miss cow for us and actually had twin heifer calves out of Samurai that weaned at a total of 1,250 lbs. Jeff chose this one to consign and we will be watching her in the future. We know she will be a great cow in anyone's herd.

GM Lakota 417 is an exceptionally thick, stout, broody heifer that has been a stand out all summer. Her dam sits at the top of our herd posting an MPPA of 104.3 and she goes back to the Milk Creek Lakota family. She has excellent milk with a perfect udder. Her sire is Rouse Samurai who is making his mark in the Red Angus breed. Samurai females are some of the best we have seen, and Gene Rouse considers his dam the top cow in his herd. GM Lakota 417 has excellent EPDs with a tremendous 205-day-weight of 687 lbs. without creep. Her genetics and power will put her at the top of anyone's herd. Check out her EPDs!

CHOICE OF
26A - PICK OF FOUR ET BULL CALVES OR 26B - PACKAGE OF THREE EMBRYOS

Kipp purchased Julia in the 2010 Soo Line dispersal. She was a top maternal cow and sired two show calves for Soo Line. Her three natural bull calves have average 205-day-weight of 834 lbs. with a 116 WW ratio and Adj. YW's of 1,341 lbs. with a 106 YW ratio. Her daughter, Julia 9136, won her class three times in Canada before winning the North Dakota State Fair for Lodoens and sired the high-selling Game Face son this past spring. Her calves have easy-fleshing ability,

extremely long bodies and loads of rib shape and depth from end to end. Julia's dam is recognized as an elite dam in Canada and was flushed for overseas.

Cardshark needs no introduction and this mating should be a homerun. Kipp has flushed Julie every year with great success and has four ET bulls and two ET heifer calves due March 20, 2015.

Purchase of three embryos with guarantee of one pregnancy if implanted by a certified technician. Embryos are stored at Knutson Embryo Transfer, Volga, S.D. FOB.

What a combination! Glacier Fritz 501 is a female-making machine! Gary Jacobson of Hitterdal, Minn., is stockpiling all her females except one – Jacobson Razzberry 8014 – that we own and who is the dam to herdsire and high-seller Koester Chivas 005. This cowline is moderate in frame but exceptional in length, volume and productivity. Brown 3K Stakeholder X7870 is the high-performance son of Beckton Nebula P P707 that just does everything right. He ranks in the top 4% HB and GM, 15% CED, 2% WW, 1% YW, 18% HPG, 6% St, 13% MB, 2% CW. Recent kill data from the Carcass Progeny Test Program indicated exceptional performance on the carcass side of the equation, and his daughters in production are living up to our expectations. They are great mothers with nice udders and are sound footed and easy fleshing. Buy with confidence.

Take a look at this fancy, dark-red bred heifer. Phenotypically, she is a very uniform, deep-ribbed, feminine heifer. She has a pedigree stacked with performance leaders like Packer, Destination and Chateau. Her dam and maternal granddam both have very correct udders and good foot structure. Take note of her HerdBuilder Index ranking in the top 23% of the breed and her GridMaster Index ranking in the top 10%. Her HPG ranks in the top 3% and carcass EPDs MARB, YG and REA rank her as one that will produce sons that sire good feeder cattle.

Ultrasound confirmed to Bieber Get Current A107 (#1616973) for a 4/5/15 heifer calf.

This stout C-T Grand Statement 1025 daughter goes back to Bieber New Day 7247 (son of Bieber Make My Day 981) that will make an exceptional brood cow. Our program puts a lot of emphasis on maternal traits and efficiency without a lot of feed. This heifer combines those traits, ranking in the top 27% for HPG and top 8% for MARB. Her GridMaster index is in the top 20% and indicates she will also produce on target for the feeding industry and grid marketing.

Pen bred to Beckton Nebula Y253 03 (#1451205) on 5/12/14. Ultrasounded confirmed to 5/12 breeding date.

Three embryos of each mating. Guarantee one pregnancy if work is done by qualified embryologist.

Here is a rare opportunity to add some top-end genetics to your program. The P707 semen is hard to come by and the donor dam is a tremendously deep, broody female that is very sound and complete. Take advantage of the opportunity to put some strong foundation genetics to your program.

This beautiful female has it all – “all the right stuff in all the right places,” and reads great on paper: 5.91 %IMF and 11.8 REA (Adj. 12 mo.). Her dam, 42T, is a power producer – 104+ MPPA, great udder and front pasture look. She has a production record second to none with 7 calves in 6 years raised by her. Her bulls sold in our sale: \$5,500 and twin in 2012 at \$7,000 and \$5,750 (raised by her). Her heifer calf sold in this sale at \$4,500 and one daughter is retained in our herd. This female should stay at OHR! She will be the last female to sell out of her dam. Her sire is Global Trust 21T, which doubles her value in our humble opinion. Trust offspring work in all programs. 80A is definitely donor quality – she has all the qualification. If you need to add a really special female to your program, take a close look at Trista Sharee 80A. We will retain one flush (or share three flushes) resulting in a minimum of six #1 eggs.

Ultrasound confirmed to OHRR Gold Trust 98A (#1651077) for a 2/10/15 heifer calf.

Ms Dakota 89A is another top choice from our replacement pen. She has eye appeal, numbers and a phenomenal maternal pedigree as well. Her dam 16W and her twin sister, 17W, were the first calves out of Lady Chief 213T, a full sib to the very popular RBJR Advance A709 (both 16W and 17W are some of our best young cows). 213T is the dam of our top-selling 2014 female, Gemma 37A, who sold to Lodoens of Westhope for \$7,250. Also golden on Ms Dakota's pedigree is her sire, 203T by McIntosh 344 and out of the dam of Dakota Copper 29K. 89A's actual carcass at 12 mo. of age was 4.76 %IMF and 9.3 REA. Her sire, VGW Tremor 112 (#1444917), was our choice of The Right Kind U199 bulls at Westphal's sale two years ago. His dam earned an MPPA of 103+ on him – her first calf. He was a standout in the sale, in our opinion, and started the sale that day. Ms. Dakota 89A should be another excellent cow!

Ultrasound confirmed to OHRR Gold Trust 98A (#1651077) for a 3/13/15 calf.

* Parental EPDs. OHRR 211T Dakota Lana 41B is one of our stoutest and best-bred 2014 heifer calves. Her dam, 211T, is an ET daughter of PIE Avalanche and Olivia 9502, dam of the popular ABS sire, Dakota Copper 29K. 211T has two daughters producing in our herd so we are happy to share this one. Copper 29K females are popular across the country because they make superior cows. Sire OHRR Dakota Landmark 5T was phenotypically awesome. His dam, 48L, was another wonder cow that was angular, perfectly uddered and long bodied with a 105 MPPA. 41B should make a great cow!

* Parental EPDs. Ms Mahogany 77B is a direct granddaughter of our super cow, Mahogany 63G. 110T, the dam of 77B, was her last calf. A maternal sib to 110T sold in a past Santa Sale for \$14,500. We have three outstanding daughters of 56N in our herd and eggs in our tank. Ahogany females are the best of our best – not often do we give one up! Game Plan sired the two top-selling heifers in our last bull sale and we retained a number of replacements. His dam was an excellent donor cow at Pieper Red Angus with an MPPA of 111. This female will show well and will have a great future as a cow.

Prairie Pride Annie 332 is a female that can be summed up as follows; enough of everything without too much of anything. She is moderate with generous depth of rib and flank. She is easy fleshing yet still retains style. She is naturally thick and plenty long. Her dam – who is a highly attractive 2003 model with an outcross pedigree – sports a 104.7 MPPA. Look for Annie 332 to be a long-lived female with a productive career.

RCRA lacey 32B is from the most productive cow family at Rock Creek Red Angus. Her mother, Lacey 16Y, is a full sister to lacey 11X who has produced two herd bulls (with a potential third) on her first three calves. Her grandmother, Lacey 10T, is a power cow. Many who have seen her wonder if she is for sale. Sired by Flying W Xtra 111X, this heifer combines the Fireberry and Lacey cow families. These ultra-proven clans are at the forefront of the Rock Creek and Flying W programs. RCRA Lacey 32B is very complete, eye appealing, sweet fronted and robust. Don't miss the chance to own one of the first Lacey calves to be offered for your appraisal.

Here is a HXC Conquest 4405P daughter out of a Six Mile Win-Chester 745W (Red Towaw Indeed 104H) cow that is a top-notch mamma cow - Wow! We purchased 302A's dam from Gene Scott as a bred heifer in the 2012 ND Red Select Sale. Gene said you buy her and bring her calf right back to this sale next year - she'll be that good! He was right. I just skipped a year and bred her to our new \$21,000 herdsire, Bieber Rough Country A523. This calf will have calving ease galore!

Pasture exposed to Bieber Rough Country A523 (#1619833) from 4/15/14 to 7/20/14. Ultrasound confirmed to calve early.

Check out the EPD profile on this February C-T DKK Duke open heifer. She is in the top 20% of the breed in HerdBuilder, GridMaster, CED, BW and CEM, and in the top 3% for YW. She is also out of our donor cow, BKT Larkeisa M288 CK which is the donor of both of our Red Select Sale consignments and one of our State Simmental Sale consignments. To top it all off, she is the dam to Beckton Hustler S426 C2, a herdsire for Genex and TNT Simmental/Red Angus. This will also be one of the very first females to leave the yard out of Duke, the high-selling bull at Feddes/C-T's bull sale in 2012. How can you go wrong with an EPD profile and pedigree like hers! Please check out our website at www.RustMountainViewRanch.com to view the video on 438B.

Red Angus Guide to EPDs

Vist redangus.org/genetics/ranchers-guide-to-epds for more information on Red Angus genetic selection tools.

HB HerdBuilder Index – Need bulls for developing a profitable cowherd and maximizing the value of marketed progeny? Select a bull with a high HB value.

GM GridMaster Index – If you market all of your calf crop and want to increase the value of that calf crop, select a bull with a high GM value to maximize your profit.

CED Calving Ease Direct – Breeding Heifers? Select bulls with a high CED to increase the probability that the heifers will calve unassisted.

BW..... Birth Weight – Predicts differences in birth weight. BW is included in the CED EPD, so simplify your decisions by selecting bulls based on CED instead of BW.

WW Weaning Weight and **YW** Yearling Weight – Predicts differences in weight at weaning and yearling. While selection based on these growth measures can increase your payweight, be cautious what the bull's other EPDs are.

Milk Milk – Predicts differences in weaning weight of daughter's progeny due to milk production.

Ranch Tested. Rancher Trusted.

SMJ Lee Joshua Ms A314 is a dark-red, feminine heifer with a great pedigree. Mission Statement, Joshua, Make My Day and Shoco Data – all in one package. Her balanced set of EPDs back up her great pedigree. She sits in the top 28% of the breed in nine traits – WW, YW, HPG, Stay, MARB, YG, CW, REA and Fat.

Ultrasound confirmed to Feddes Oscar X28 (#1368605) for a 3/30/15 calf.

Red Angus Guide to EPDs

ME Maintenance Energy – Selecting bulls with a lower ME EPD will decrease the amount of feed his daughters will require to maintain body weight.

HPG..... Heifer Pregnancy – Retaining heifers? Select bulls with a high HPG to increase the percentage of exposures that result in a calving observation.

CEM Calving Ease Maternal – Another number to pay attention to if you are retaining heifers. Selecting bulls with a high CEM will increase the probability of those daughters calving unassisted.

STAY.... Stayability – The most important trait if your goal is developing cows that stay productive, thus increasing your profitability. Bulls that have a high Stay EPD are expected to sire daughters that remain productive in the herd until at least 6 years of age.

MARB .. Marbling Score – Select bulls with high MARB EPD to increase the number of progeny that grade Choice or Prime.

YG Yield Grade – Marketing calves on a grid? Placing selection pressure on YG EPD will decrease the number of YG discounts on grid-marketed progeny.

CW..... Carcass Weight – Selecting bulls with a high CW EPD will increase the weight of the hanging carcass, which directly impacts revenue.

REA Rib Eye Area – Need to add muscle? Select bulls with a high REA EPD to increase rib eye area, which favorably increases Yield Grade.

FAT Backfat – Need to reduce waste in carcasses? Select bulls with a low FAT EPD to reduce backfat, which favorably increases Yield Grade.

SPR Miss Tune On Me 4004 is right in tune with today's industry as she sports a HerdBuilder Index in the top 16% and a GridMaster Index in the top 13%. Her individual performance numbers back up her indices with a WW EPD in the top 8%, YW 4%, Stay 14%, MARB 21%, CW 5% and REA 20%. Her grandsire, TJS Berry Cherry 8801 is a son of the famous Red Fine Line Mulberry 26P and her dam goes back to HXC Conquest 4405P and our female-maker herdsire, 5L Ben North 1102-6627. Tune in to 4004 on sale day!

With SPR Miss Redeemer 4026's outstanding pedigree and EPDs, she will be a redeeming factor in your herd. She is sired by the popular Genex sire, Brown JYJ Redemption Y1334, a phenotypically complete bull that is moderate framed, wide based and deep with sound feet and great disposition. On the dam's side she goes back to Schuler Flat Iron 5204R and Glacier Chateau 744. Her HerdBuilder Index is in the top 5% and Gridmaster in the top 18%! Check out her calving ease, performance and maternal EPDs that round out a well-balanced package.

CHOICE LOT 64A OR LOT 64B

Selling choice of these two heifer calves by RRS Stone Cold. All summer long these two calves have always caught our attention going through the pasture. We never planned on selling any open heifers, but when Jeff saw these two he asked if we would sell choice – well here they are. If you are

looking for a show heifer prospect, or brood cow these two are definitely rise to the top. TRCC Lana 34B had a 113 weaning ratio and TRCC Oakie 45B had a 106 weaning ratio. Both dams have 102.9 MPPA. You will want to find these two amazing calves on sale day!

The donor dam of these embryos is truly an amazing cow that has a tremendous udder and great feet. Dahlke Red Girl has stood the test of time as she will be 14 years old this spring and, with a 105.9 MPPA, she has definitely proven herself as a donor. Detour calves are highly sought after, so you now have your chance to buy these embryos.

Selling a package of three embryos, guaranteeing one pregnancy if implanted by a certified technician.

**TURTLE RIVER CATTLE CO. • RON & RYAN CLEMETSON
URIELL RED ANGUS • ED URIELL**

These two embryo packages are out of our donor cow, Seeger Red Sadie 334. She is 11 years old and is as solid as a young cow with an MPPA of 105.8. The first embryo package is by BUF CRK The Right Kind U199 who needs no introduction. 5L Red Angus has used this bull with great success. The second set is again out of Seeger Red Sadie 334 and by LSF Saga 1040Y. Pieper Red

Angus has had many high-selling sons in their spring sale. We can't wait to get calves from both of these matings as they should be awesome.

Selling a package of three embryos in each mating, guaranteeing one pregnancy if implanted by a certified technician.

STRA Lakota 324 has been a favorite since she was a calf. This heifer really shouldn't be leaving the farm. She is a really nice, fancy, deep-ribbed heifer. With Bieber Hughes W109 on the top side, and Shoco Data on the bottom, this heifer is destined to be great. Her dam posts a 106 MPPA. 324 is natural serviced by our new herdsire, Rouse Epitome A33, that we purchased at Bieber Red Angus' Spring Production Sale. He was our pick of the bulls. Epitome is one of the top Beckton Epic R397 K sons to sell in 2014. Check out Epitome's EPDs. We are really excited about these calves coming in the spring of 2015.

Ultrasound confirmed to Rouse Epitome A33 (#1602750) for a 3/31/15 calf.

STRA Cherokee 368 is a bred heifer that always caught your eye in the pasture. She is a fancy, well-put-together heifer. She is sired by our senior herdsire, LSF High Yield 8088U who has done an outstanding job for us. His daughters are all put together correctly and rise to the top. The bottom side goes back to BFCK Cherokee Cyn 4912. This heifer also comes with a great disposition. She will be missed in our herd. She is stuck AI to BIEBER HARD Y120.

Ultrasound confirmed to Bieber Hard Drive Y120 (#1436718) for a 2/21/15 calf.

STRA Miss Bandito 408 is an awesome open heifer sired by Bieber Hughes W109. This heifer is deep ribbed and will be easy fleshing. These Hughes heifers are as consistent as they come. With the dam's side going back to Rambo 502, this heifer should make one great cow. This heifer was a stand out in the pasture all summer. She caught Jeff Thomas' eye when he was here screening cattle and that's why she is here today.

STRA Cherabel 425 is probably one of the nicest heifers I have raised. She is long and thick while still maintaining the feminine look. The genetics in this heifer are outstanding. The mother is one of our donors posting an MPPA of 105, and the sire is one of the great female makers, 5L Norseman King 2291. I told myself I would never sell a heifer out of the Cherabel cow family because they just don't miss and they are all very good. Be sure to look her up on sale day.
