Selling

**92 YEARLING BULLS
40 COMMERCIAL HEIFERS**

Thiessen's REGENCY ACRES

Welcome to the 2014 Regency Acres annual production sale.

It is our pleasure to invite you to be our guest on Friday April 11th for lunch at 11:30 A.M. with the sale to follow at 1 P.M. Coffee and doughnuts will be available throughout the morning while you browse through the bulls and heifers. As always you are welcome to stop by the ranch anytime before April 10th to look through the cattle. We would be happy to show you the bulls and the cows behind them.

First and foremost we would like to thank all past customers for their support of our program. Without you none of this would be possible. Nothing says more about a business, whether it be a ranch or store, than repeat customers. We would also like to welcome new and future customers. It's always a pleasure to meet many fellow ranchers.

Regency Acres has been raising registered Angus for 57 years. That's 57 years and 3 generations of education and experience. The definition of experience is being able to recognize a mistake when you make it again! While I haven't been in the business for 57 years, a wealth of knowledge has been passed down. It seems like the first thing to get passed on is what NOT to do. We learn from our mistakes and also from our forefathers mistakes. With this in mind the program will continue to follow our mission statement: To propagate genetics that will return the most dollars per acre for our customers.

The bulls selling were developed on a high roughage ration designed for a 2.75 lb gain. This allows the bulls to develop and grow at their own pace without causing structural damage. They have been freeze branded, carcass ultrasounded, fertility tested, and given two rounds of foot rot vaccine. The heifers are also freeze branded and will have their yearling shots prior to the sale.

Thank you for taking time to review the catalog. We look forward to seeing you on April 11th.

Russ, Jill, Tea and Tyler Thiessen

Guarantee

Regency Acres is providing a first-year breeding season guarantee on all bulls selling for \$2,500 or more. Breeding season is defined as the 90-day period following turnout. All bulls selling for \$2,500 or more will be given 50% of the value of the injured bull – minus any salvage value – in a future sale or toward a replacement bull if one is available. All injured bulls must be diagnosed by a licensed veterinarian. Please notify Regency Acres as soon as possible should injury occur and prior to the injured bull being sold for salvage. **All claims must be made by September 1st.**

Example 1:

A \$5,000 bull is injured and can't return to service. Salvage value is \$1,250. A credit of \$2,500-\$1,250=\$1,250 will be given to the buyer.

Example 2:

A \$2250 bull is injured and cant return to service. No credit is given and buyer retains all salvage value.

This is NOT a mortality guarantee. Mortality insurance will be available through Bill Pelton and John Goggins, American Insurance Co.

- 4 Star – Very little, if any, assistance should be necessary
- 5 Star – Very easy calving; no assistance should be necessary

Helpful Hints for Care of Herdbulls ...

Having herd bulls adapt to the environment they will be in is very important to the success of a breeding program. Whenever possible, the bulls should be fed the same type of forage they will eat in the breeding pasture for a minimum of two weeks before turnout. Their rumen operates with little bugs to break down the diet and different forages each have their own little bugs. About two weeks is the time required for the rumen to adjust to a different diet. When a bull is turned out, he isn't thinking much about eat-

ing, so any advantage that you can give him will be beneficial to younger bulls.

Another trick for having a virgin bull ready is what we call "Jump-starting." If you have a cow or a heifer around that is cycling, put the bull with her. If he seems disinterested, put another bull in with the cow for him to observe. This should trigger his brain. When the bull appears interested, let him in and remove the other bull. Make sure a bigger bull doesn't start whipping on him, or that could defeat what you are trying to accomplish. It is rare that this procedure is necessary, but it is good insurance and, once the bull gets a taste of what his job is, he will be ready for those heifers.

When breeding season is finished, a reconditioning program for yearling bulls is good as they change their teeth at 18 to 24 months of age.

Uncommon was the high-selling bull in the 2010 Sitz fall sale and was admired by many as the most complete Angus bull to come along in a long time. This is a bull that will put the jump muscle back into the breed. He will sire extra capacity, length and volume. We are calving the first Uncommon daughters now and they are amazing. Quiet, nice uddered, easy calving, moderate framed and have great maternal instinct.
