Majestic Meadows' Pursuit of Perfection Continues ... Your Cool Bull Source!

Majestic Lightning 717 – He is still raising the bar. And he's still the first to get all his cows covered. Proudly owned with von Forell Ranch, Wheatland, Wyo.

Majestic Gran Torino Z40 – Here is a bull you need to study as a potential outcross. We've got a lot of it but not everyone does. No Canadian influence. Giant footed super sound this Dixie National grand champion is proudly owned with Ty-Bee Farms Newburn Tenn.

3 Aces Sideways – He is still our go-to heifer bull on Lightning daughters and they make gorgeous cows. In Majestic Zulu Warrior B33 he may have sired that great son. Sideways is proudly owned with 3 Aces Cattle Co. Clinton, Tenn.; TC Reds, Ringle, Wisc.; and von Forell Ranch, Wheatland, Wyo.

Majestic Lion Heart A25 – You really have to see him to believe him. It's shocking how good a bull can be. If he breeds as true as his sire, this bull will put his stamp on the beef industry for years to come. Proudly owned with J6 Inc., Gibbon, Neb.; Crossroads Cattle Co., Crossroads, Pa.; Heavican Genetics, Rogers, Neb.; JK Red Angus Aberdeen, N.C.; Presnell Red Angus, Shelby, N.C.; and von Forell Ranch, Wheatland, Wyo.

Welcome!

As I sit down to write an introduction to this sale offering, I think how about how quickly time flies.

This is our sixth online heifer sale and as I always say, I think our best offering to date. It seems like yesterday that a majority of our heifer calves were ET. Now, a majority are IVF. What next, I'm not sure, but I know it's coming fast.

Our red heifers speak for themselves. Our Rangefires are beginning to look like what we had anticipated they would and we have offered what I believe is a fine sampling of those. We are selling a few open yearlings and bulls which is new for our spring sale and we hope you like them.

We will do our best to have heifers transferred in time for the NAJRAE event and ownership deadline of May 15, and I believe we will have that done. That being said, we are reminded yet again how fragile cloud and data based systems can be. With the Red Angus system down for nearly a week now, it has made it very difficult to put together a sale book. Yet again, a reminder of why we are thankful we breed them with our heart and why we are really only concerned about their registration number. That being said, these heifers have all been DNA tested and we encourage you to ultrasound them.

The only objective data that goes into our matings is mine. This has served us well as our weights continue to soar near the black breed or better in most cases. Our milk and udder quality continues to get better. Our foot continues to get high heeled, dark and hard, and leg structure is second to none.

I would be remiss if I didn't thank my wife Beth and sons Stewart and Thomas for their patience, Jason Andrews and many others for their hard work, Erin Lockhart, Jeremy and Jenny Haag, and especially Tracey Koester for putting this information together. The heifers have been sheared out again this year. They are extremely gentle, broke to tie, and have all been led a little. We welcome you to come see the sale offering anytime between now and May 12. The riots in Baltimore really are not that bad. Remember, they're not shooting at you.

Full sister to the Denver Grand Champion Female, Kieffers Lulu Y55. A cow family so rich in history that just a footnote can't begin to tell the story. Leachman Lana, Whitestone Lana 4110, Whitestone Lana V150, Trowbridge Lana P707 and Majestic Lana B119, the high-selling female in our fall sale to Heavican Genetics of Rogers, Neb. B131 does nothing to disappoint and has been a favorite since birth – long spined, huge hip, deep bodied, glides like a cat and perhaps the prettiest fronted of this mating to date. She has a wonderful disposition and will be a sure-fire standout in any show barn or your junior's heart. Take her home and make her a champion. Majestic Meadows will be retaining 1/2 embryo interest only in this spectacular female.

As we could not hide her, we will be retaining 1/2 embryo interest in this rare and valuable female.

Rarely do I combine footnote even on full sibs, but as these two are so similar I felt compelled to do so. They are full sisters to Emma Kate Foster's many-times champion, Majestic Peek A Boo A120. Cowboy Cut has done a masterful job of putting rib shape into our heifer calves. These two Peek A Boos are demonstrative of this shape and structure. Stunners in the field, deep, dark, big topped, sound and hairy (though sheared now)! These full sibs are available in the entirety, as we retained half embryo interest in Emma's many-time champion, Majestic Peek A Boo A120.

In the essence of time, I'm combining this footnote too. With the passing of their dam, TCB Luanna 08S, and through the progress of IVF, these full sibs will likely be the last two direct daughters to sell at Majestic Meadows. When we saw Trooper in Denver as a calf we knew we had to use him, and these daughters are stunning. Dark cherry red, dark footed, cool legged, smooth jointed and smooth shouldered with gentle dispositions. Trooper is a bull that does everything as well as any bull since Lightning. Luanna 08S, a 4L Supervision daughter, and Denver Reserve Grand Female provided the shape and scale, and we think you'll love this set a full sibs. They are selling in their entirety.

From a flush mate to Majestic Peek A Boo X19, the X24 daughters appear to be poised to make a major impact. You can never have too many Peek A Boos and here is why. The extension of neck and height at which it comes out of the top of the shoulder is beyond compare, other than maybe the Saugahatchee x Georgina neck set in the black deal. B51 has a triple dose of this, Peek A Boo, 9088 and Chateau. Getting into a younger division, this heifer has the ability to be as good as anything in this offering. Green as a gourd, weaned early, but a very good show and donor cow prospect.

B207 has a slightly heavier weaning weight than B206 and, perhaps is the cowy-er one. She's a little more refined, but rocket fronted, big hipped and glides like a cat. And if you're breeding for clubbier and can't find bone or hair on the sire, then you're already in trouble. She was definitely on a weaker recipient cow but is charging forward hard. When we were taking pictures we noticed a touch of white so she will be re-categorized to a Category 2. She is an extremely good heifer and her pedigree reads like a Who's Who of the Red Angus world. She is sired by Majestic Lightning 717 SGMR, the Triple Crown winner, and out of LSF Rebella UR8245. I would go on and on about her numbers and pedigree but I can't because our Red Angus system is down again. That's why we breed them with our heart. It'll be up sometime and I'm sure the numbers will impress those who are impressed by those sort of things.

A phenomenal brood cow prospect here. Sideways has made nothing short of phenomenal females. Her dam is a direct daughter of the female maker SSS Boomer and out of the famous Bullis Creek donor LCC Tilly. Breed this one to Lionheart and don't ever look back.

Our Competition are Making Maximum Genetic Progress:

	Day 43	Day 57	Day 71	Day 85
1957 Chicken Genetics				
2001 Chicken Genetics				

Chickens today grow faster, yield more meat on one-third the feed. I borrowed this from Lee Leachman to illustrate the genetic progress we strive to make in our Pursuit of Perfection.

All of these heifers are eligible for the NAJRAE Futurity.

When we weighed this bull up we were a little surprised at his 1,455-lb. actual weight. He has a massive top, huge testicles, pie-plate dark foot, long hip and his neck comes out of the top of the shoulder like only 9088 can do. His dam is the unforgettable 2009 National Champion Female Majestic Blockana 728. He is a natural calf sired by Mulberry, and may be as good a Mulberry son as we've seen. He has not been halter broke but is very gentle. I'm betting he can win your state fair. Selling 2/3 interest and full possession.

Beef bull here. He has a little leather but from a carcass-value standpoint few bulls in the breed will compare – high marbling, high efficiency, heavy beef bull. From the famous LCOC Firefly UA001 by the show bull of the year, Lightning McQueen, the bull the cat tore up. A full brother, Majestic Superfly A119, is working in the Heavican Genetics program with phenomenal results. Retaining 1/3 semen revenue sharing interest.

As the name implies its Allgood! Out of a phenomenal young female from the storied Feddes Ranch. She was our pick of the heifer calves in 2012. We probably picked the wrong one but we like her. 0.0 birth to 112 yearling EPD spread. His actual birthweight is in the low 70s and actual yearling weight is gonna be around 1,250. He is a really, really nice heifer bull first and foremost with a gorgeous front end, smooth shoulder, adequate birth weight but at 74 lbs. they shouldn't freeze to death. He's light enough to work on those "fish" rear-ended females (we also end up with one or two, you're not the only one). Selling 2/3 interest and full possession.
