HEART RIVER RANCH & OPEN A ANGUS

Annual Production Sale

Wednesday, March 9, 2016

The Feedlot • Belfield, ND • 1 p.m. MST

HD 50K

DVAuction Broadcasting
Real-time Auctions

Dear Friends,

2015 certainly had a hot start in late March when a combination of a mild dry winter and remnants of 2014 tinder from an exceptional grass year was combined with an unknown source to create an unusual early season fire in SD at the ranch. The Sheep Draw fire consumed 14,000 total acres and half of the ranch was burned by a quick fire fueled high winds. Thanks to good neighbors and help from the fire community, no one was hurt and the fire was brought under control in a few days. Minus some fence and a few cat cuts and disk tracks, the burn transformed into a prairie golf course like no other in a matter of weeks with the cooperation of mother nature's timely spring rain. Rains continued throughout the summer on a regular basis, highly unusual for this area, providing abundant grass and ample hay. We are still winter grazing at press time. Not quite the same scenario for ND as periods of dryness kept production of grass and hay at average levels or less. However, we were fortunate for cool temps and a wet fall and mild winter thus far. The cattle did well in these conditions and we are grateful for the many blessings of 2015.

This year marks Heart River Ranch/Open A 10th annual production sale. We have been in the register cattle business since 1996 and our aspirations to provide functional, efficient cattle that can be sustained in any environment have not changed. We appreciate the many customers over the years that have been loyal to our program. Your interest and patronage drives us to find the type of cattle that will provide genetics to work efficiently in less than optimal conditions. Your friendship is a valued treasure and it has been a pleasure to be part of the beef cattle business where the people involved are the salt of the earth.

Video, carcass ultrasound and other sale information will be posted on www.openaangus.com and www.heartrivergenetics.com as we approach sale day. Feel free to contact us if you have any questions. Bulls are available for inspection at the development lot 4 miles south of Belfield on Highway 85 and then ½ mile west on 40th St SW. We welcome your visit any time. Let us know if we can provide any assistance or answer any questions you have concerning the bulls. Our goal is to know that you, our customers are getting a sustainable return for your operation by investing in our bulls.

You are also invited to join us on Tuesday afternoon to listen to guest speaker, Dr. Tom Noffsinger, who is an international know speaker, talking on the topic of cattle handling. Then stay around for a social and a complimentary prime rib supper at the development lot sale barn on March 8, 2016. We look forward to having you as our guest on March 8 and 9, 2016. Thank you for your friendship, your loyalty and past patronage.

Sale Location

Open A Angus/Heart River Ranch Feedlot, Belfield, ND

The bulls will be on display in pens outside of the barn. The sale itself will be a video auction in the warmth and comfort of the barn.

A DVD will be available upon request and bulls can be viewed online at heartrivergenetics.com and openaangus.com after Feb. 24, 2016.

Sale Order The sale order will be catalog order.

DV Auction The sale will be available online on DVAuction.

Phone Numbers

If you would like to bid on the telephone please call 701-290-6424 or 701-290-9745 to make arrangements to be on the telephone for bidding or to have someone look at the cattle for you. The main office phone number to call us on sale day is 701-290-9745. Please call in advance to make arrangements to call in during the sale.

701-260-4630 **Chuck's Cell**
701-260-0412 **Tellan's Cell**
701-290-6424 **Wes's Cell**
701-290-9015 **Jim's Cell**
701-290-9745 **Office Cell**

Internet and Absentee Bids

We would prefer to visit with our customers in person but realize that not everyone can be at the sale; therefore we have made arrangements to bid through telephone or internet. Bids will be handled in strict confidence by any of the publication representatives or the respective ranches. If you would like to discuss the sale offering call us preferably several days before the sale, and we can help select your genetics. Keep in mind that we are sure that we have a bull that will fit your needs. After the sale you will need to contact Annette at 701-575-8145 or 701-290-9745 to make arrangements for payment of telephone purchases.

Storm Date

In case of postponement please listen to the Northern Ag Network, KLTC 1460 AM or go to northernag.net, ndstockmen.org, heartrivergenetics.com or openaangus.com for any postponement announcement. Postponement sale date is set for pre-sale activities: March 9, 2016, 6:00 p.m. and sale March 10, 2016, 1:00 p.m.

Transportation

Belfield, ND and Dickinson, ND are both served by bus. Dickinson, ND is also served by United, Delta and Frontier Airlines. Please call 701-575-8145 or 701-290-9745 if you need transportation from the bus or airport.

Announcements

Errors discovered in the catalog will be corrected by announcements from the auction block at sale time and such corrections will take precedence over the printed matter in the catalog.

Liability

All persons who attend the sale do so at their own risk. Neither the owners, management, sales staff, facility or any person connected with this sale assume liability, legal nor otherwise, for property loss or for any accidents that may occur.

Delivery

Free Delivery to central points up to 500 miles. Balance will be at cost. We will make every effort to assist in deliveries of greater distance or by private arrangements and volume purchases. Delivery will be made at our convenience and efforts will be made to have bulls delivered by April 1.

Feeding and Development of Bulls

All bulls of HRR and Open A were weaned in late October and did not receive creep feed with the exception of a few Open A bulls that were ET calves produced at a recipient herd. Calves received their pre-weaning and weaning vaccinations and were handled in every respect as all natural. Bulls were fed to gain 2.5lb per head per day on a 1% grain and by product rotation. Bulls were fed free choice mineral, salt, and hay. We took yearling weights at approximately 105 days post weaning with no post weaning adjustment period or warm up period. Our intent was to grow out the bulls for maximum longevity and integrity of the bull.

Historic Photos

Most of the historic photos in this catalog were taken by Inez Kessler, Annette's great grandmother between 1905 and 1908 in the Gaylord, ND area. Inez was the only person to have a camera in the area and as a result she took pictures of many people and events. The town of Gaylord was located about 13 miles south of Belfield, ND along US Highway 85. The Gaylord Post Office and store was a stop for travelers going south. This building still stands at the Curt Molm place.

Sale Terms & Conditions

The terms of the sale are cash. No release will be given until satisfactory settlement has been made. All settlements will be made with the clerks of the sale immediately after the sale. We reserve the right to withhold animals from shipment for whom payments have not been received prior to departure date. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. All Sales are subject to an acceptable semen examination. Semen evaluation certificates will be furnished to the buyer at delivery.

Bulls were carcass ultrasounded on February 25, 2016.

Updated EPD information, carcass ultrasound, and 50K data will be provided at the sale and available at www.heartrivergenetics.com or www.openaangus.com. This information will be available as soon as it is received from the Red Angus Association of America or the American Angus Association.

All bulls have been tested using the Zoetis 50k genomic test and parent verified.

Health certificates and brand releases will be furnished for shipment anywhere in the United States.

Each animal carries a readable tattoo or freeze brand.

Insurance

Ownership risk to purchaser commences when the auctioneer's hammer falls. Insurance will be available sale day. It is recommended that buyers insure their purchases for safe delivery. Purchaser assumes the risk of death or injury to their livestock immediately after the sale.

Heart River Ranch and Open A Angus

Loss of Use Policy

2016 optional loss of use policy: Heart River Ranch and Open A Angus are striving to offer the best options not only in beef animal genetics but also loss of use protection for bulls and/or females we offer to our customers. We would like to introduce our customers to the Stockman's Insurance Policy which to the best of our knowledge and research offers the best protection to you, our customers.

Heart River Ranch/Open A Angus will pay 4% of sale price toward the Stockman's Insurance policy. The balance of the policy will be paid by the customer. If the customer chooses to decline the policy, Heart River Ranch or Open A Angus has no obligation to cover any losses due to injury, sickness or death. Heart River Ranch/Open A Angus does guarantee all cattle to be sound the day of the sale. All bulls will be semen tested by the Wibaux Vet Clinic in March/April 2016.

Breeder's Guarantee: All bulls are guaranteed to be breeders. All claims for adjustment or refund must be made in writing within six months of the sale date. In the event a bull is claimed to be a non-breeder, the purchaser may return the animal to the ranch of the seller if in good condition and complying with the health requirements of the Seller's state. The Seller will be entitled to six months trial following the return of the animal in which to prove that the animal is a breeder. If at the end of six months, the Seller shall be obligated to replace the animal with another of equal value or to refund the purchase price. The return of the full purchase price shall in any case be deemed full satisfaction and settlement. If the Seller proved the animal to be a breeder, it shall be the obligation of the purchaser to take delivery of the animal at the purchaser's expense.

Implied warranty: Except for those stated in the terms and conditions, there are no warranties or implies, as to merchantability or fitness for a particular purpose with respect to the cattle being sold in this auction. The warranties set forth in the terms and condition are in lieu of all other warranties, either expressed or implied and the remedies provided therein shall be the sole and exclusive remedy of the buyer, or any party claiming through the buyer, for any breach of warranty or guarantee therein provided and all other obligations or liabilities.

Health

Bulls and heifers were treated with Enforce at birth and branding and were calfhood vaccinated with 4-way and 7-way. At weaning, calves were given a 5-way, 7-way and One Shot, boosters were also given. Calves and cows were poured with Dectomax in the spring, fall and late winter. All bulls will be vaccinated and dewormed prior to delivery. All females are Bangs vaccinated and on a fall vaccination program.

Semen Tests: Bulls will be semen tested after the sale.

Semen Interests:

Heart River Ranch and Open A Angus are each respectively retaining 50 percent revenue-sharing semen interest in every bull selling in this sale. Full possession and full salvage value sells on all bulls. If a buyer chooses to collect and market semen, the seller will share proportionately in the collection costs and revenues earned. In the event that the seller chooses to collect semen for "in herd" use, it will be done at the seller's expense and at buyer convenience. Semen will be made available to buyer at cost.

Volume Discounts

We are pleased to give a volume buyer discount. You will receive 5% off of purchases of 5 to 9 bulls, and 10% off of 10 or more bulls. Please notify the clerk when you check out to receive your discount. This is another way to say "Thank You" for your trust in our program.

Buy a Bull – We'll Buy Your Tags!

If you purchase a bull from us, we will purchase one bag of FCCP or Allied Access tags per bull for you.

All you need to do is call the Red Angus Marketing Department, answer a few management questions, and enroll your calf crop for free. Then start reaping the premiums through Red Angus' marketing programs!

Feeder Calf Certification Program (FCCP) "yellow tags" are for bull customers using ONLY Red Angus bulls. FCCP cattle are accepted into the Choice+ Grid and Pro-Cow Program. Cattle enrolled in FCCP are USDA genetic, source and age verified.

Allied Access "green tags" verify source and age for bull customers utilizing halfblood bulls in their planned crossbreeding program.

RedAngus.org • (940) 387-3502

Bull Selection – Simplified.

Red Angus stakeholders have enjoyed the capability of selecting bulls based on economically relevant traits (ERTs), such as Heifer Pregnancy or Stayability, that truly impact their operations profitability. While these ERTs allow for efficient selection decisions, the growing number of ERTs and EPDs has resulted in confusion as producers attempt to estimate a sire's overall impact. In response, RAAA has developed the HerdBuilder and GridMaster indices, which answer the question:

"What impact will each potential sire have on my operation's profitability?"

HERDBUILDER

Producers selecting bulls to develop profitable replacement females and maximize the value of non-replacement marketed progeny should incorporate the HerdBuilder Index into their selection decisions.

The HerdBuilder Index is built using the following scenario:

- Red Angus bulls mated to cows and heifers
- Replacement heifers retained from within the herd
- All remaining progeny sold on a quality-based carcass grid

Given that replacement heifers are retained, significant influence is placed on the obvious maternal ERTs of Stayability, Heifer Pregnancy and Calving Ease. Additionally, with all remaining progeny sold on a quality-based carcass grid, Marbling, Yield Grade and growth EPDs also impact the HerdBuilder Index.

GRIDMASTER

Use the GridMaster Index if your operation's primary goal is maximizing profitability of feeders in the feedyard and on the rail.

The GridMaster Index is built using the following scenario:

- Red Angus bulls mated to cows
- All progeny sold on a quality-based carcass grid

Marbling, Yield Grade and growth EPDs are the traits of primary importance in the GridMaster Index.

Ranch Tested. Rancher Trusted.

The 2016 Heart River Ranch Sale is offering our second set of calves from the now deceased, Crowfoot Moonshine 8081U. Moonshine offers added growth with extra length.

XO CROWFOOT 0102X

XO Crowfoot 0102x first set of calves did not disappoint us, except for the fact that 75% came black. His offspring are as consistent as any bull we have ever used. He is a moderate frame 5 bull with perfect feet that consistently puts extra rib and top in cattle. In 2015, we used Crowfoot 0102x again in our AI and ET programs after we seen his first offspring.

FEDES MONTANA X44

Feddes Montana X44 is a complete performance sire that has provided sale toppers for Heart River Ranch the past few years. His daughters are moderate, feminine, easy fleshing and have a lot of balance and mass. Montana X44's pedigree goes back to the top maternal Blockana females at Feddes Red Angus in Montana.

This 2016 sale offers our third set of bulls from 5L Legend 1553-425V. We have come to appreciate the ability of the bull to sire dark red, uniform phenotype cattle that have calving ease and yet still have performance. He will perform right with bulls with higher EPDs but his calves are moderate in size. His daughters are doing a nice job and have excellent udders.

TRIBUTE TO HRR RAYMOND 975

HRR RAYMOND 975

HRR Raymond 975 was a black red carrier bull we raised going back to the cow, Sodak Paula 6139 that was flushed at Heart River Genetics by Raymond and Kris Lee, Rhame ND. We fortunately had a chance to flush Paula to Shoco Data 102.

Our friend, Gary Steen, purchased Raymond for \$1,800 because he needed an extra bull. Gary used him with other bulls and slowly whittled his cow herd down to 50 or so head and decided that Raymond would be the only bull to go forward with his herd.

Raymond was a stout, moderate-boned bull with great feet and weighed about 2,200# at maturity. His disposition was like a lap cat and you could walk up and scratch his back anytime, anywhere, much like his sire, Data 102. Gary gave us the chance to lease his ranch and at that time Gary had some mature cows and 22 heifers out of Raymond. We had the opportunity to purchase those cows and have used them as recipient cows since.

We used Raymond for two years as cleanup on the other recipient cows and kept every one of his daughters. They really made good cows. With Tellan and Kayla having a later calving season, we took Raymond after our clean to their ranch to cleanup as they needed another bull to cover the Badlands terrain of SW North Dakota.

SODAK PAULA 6139

One hot late-July day moving cows to the next pasture in the rotation, I was amazed to see Raymond as a 6-year-old crest the ridge of a butte and take notice of a cow in heat about ¼ mile ahead. Raymond broke out in a trot and when he arrived, proceeded to clear out the competition to take over where the others left off.

He was as maintenance-free a bull as you could hope for. As it turned out, he might have been too aggressive in that 10 bull clean up pasture as he came home this fall with a hip down. We are glad to have his daughters to carry his strength in our commercial herd and can only hope that all Heart River Ranch bulls work as well as he did.

There is nothing noteworthy about Raymond's EPDs; fact is they are pretty average ... but sometimes numbers can't define an animal.

American Angus Association \$Value Indexes

\$Values are multi-trait selection indexes expressed in dollars per head, to assist commercial beef producers by adding simplicity to genetic selection decisions. A \$Value has meaning only when used in comparison to the \$Value of another animal. For example, just as with EPDs, variation in \$Values between animals indicates average expected differences in the relative value of progeny if random mating is assumed and the calves are exposed to the same environment.

How do I use them?

\$Values should be used to complement the criteria that producers already use when selecting bulls.

The \$Values are not designed to be driven by a single trait, as an index is multi-trait by design. These selection tools are the result of the application of industry-relevant market values to Angus genetics for preweaning, feedlot, and carcass merit.

The \$W, \$F, \$G and \$B values on individual animals and the Sire Evaluation Report may be viewed at www.angus.org.

American Angus Association
 3201 Frederick Avenue ■ St. Joseph, MO 64506
 816-383-5100
ahir@angus.org ■ www.angus.org

\$Values			
\$W	\$F	\$G	\$B
+21.28	+13.60	+12.53	+25.32

Weaned Calf Value (\$W): an index expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

Feedlot Value (\$F): an index expressed in dollars per head, is the expected average difference in future progeny performance for postweaning performance compared to progeny of other sires.

Grid Value (\$G): an index expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

Beef Value (\$B): an index expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires. The \$B value combines the contributions of \$F and \$G.

HRR Maverick 5212 has been a standout ET calf all summer. He is dark red with black pigment from the Colleen cow family that is represented all the way through this catalog. His dam, HRR Colleen 429, was sold in the 2004 Santa sale to Gary Jacobson. She raised a top selling heifer in Gary's first female sale and then was the top selling cow later in Gary's fall female sale. We took an opportunity to flush her. We really like this bull and feel that he is a HERD BULL PROSPECT.

The XO Crowfoot 0102X sired calves were standouts at birth and you can see why with their muscle shape and depth of body. HRR Crowfoot X 5135 is out of one of Chuck's favorite cows, HRR Bana 833. This is a black/red carrier bull.

HRR Crowfoot X 5138 is a thick made, strong topped bull that could be a surprise down the road. His pedigree is stacked with performance with the famous Blockana cow family included. There is about as much muscle and depth as you could but in a moderate frame with this bull. He is the only red XO Crowfoot 0102X son to sell.

HRR Firesteel 5174 has a ton of mass and body built into this bull for gain and feed efficiency. He had the heaviest weaning weight and the highest yearling gain. We won his dam, Miss BHR Red Select 8113, in the 2009 ND Red Select Sale raffle. It was a great win as she has turned out to be a really good cow with a 106 MPPA. If you need some punch for a herd of cows, he will load the scales.

HRR Crowfoot X 5149 is sired by XO Crowfoot 0102X. He ended out of order in the sale because he was parent verified to XO Crowfoot 0102X and it was too late to move him up. Here is a solid performing calf with a nice profile and balance.

For the eighth year in a row, Home On The Range is participating in the embryo transfer program. Home On The Range has entered into a contract with Open A Ranch (Jim Arthaud) and Heart River Genetics (Annette Steffan). The staff and children bring in the cows, implant the CIDRs (a progesterone impregnated device), inject a shot of GnRH (gonadotropin hormone), remove the CIDRs and, finally, the embryologist transfers the frozen embryo into the cow's uterus.

The children are a little apprehensive at first, never really being around cattle and such a procedure, but once they get comfortable and know what their job is, they take responsibility. They put in ear tags and even learn how to palpate the cow later to see if she is pregnant.

It's a great program for Home On The Range and teaching children about cattle reproductions.

 OPEN A KRYSTLE 69L

NON REGISTERED DAM

Open A8246U Traveler B314 is sired by Open A 8180 179T, who is a natural calf of the powerful Open A Krystle 69L. This bull is long bodied and smooth shoulder and by his physical characteristics should be a heifer bull...you be the judge. He sells as a commercial bull because his dam's parentage is unknown at this time. 1/31/15 WEIGHT: 1320
