# WELCOME

Little did I realize when I ended last year's sale catalog letter with the words, "If you can't make it to the sale, be sure to watch on DV Auction." that we would have a complete white-out blizzard on sale day with 38 people in the stands, which included family and the sale crew, auctioneer and some ringmen. However, 743 of you logged on to DV Auction to watch the sale and you can bet that I have looked that list over many times in the past few months wondering just what you thought as you saw the cattle come through the ring with so much snow packed on them they could hardly see. The one thing I can say is, we can't thank you enough for your support! It is truly appreciated and we are humbled by the whole experience.

Right now as you are reading this letter, I hope that you will join me in raising your hand above your shoulder and give yourselves a pat on the back. We have all survived this past year – from blizzard after blizzard, to droughts, fires and sever summer storms across the country. We also need to remember that we are so lucky to live the lives we lead involved in the agriculture industry. I was reading an article on a family the other day that stated how, as farmers and ranchers, we have so much faith and may not even realize it. We have faith that tomorrow will be better, we will get enough rain, that we can make it through another blizzard, drought or flood, that

*After last year's sale*

the sun will shine, the crops will grow and livestock will survive. We often forget how important a role we play in the world and that our "job" is just as important as everyone else's. We need to be proud of what we accomplish every day of the year and take a little time to reflect on how much we have survived on pure faith, whether you realized it at the time or not.

Like I said, last year I could talk about the cattle markets or what we think of the cattle in the sale, but as we stated last year we wouldn't have a sale if we didn't believe in these cattle. Our son Alex (who enjoys judging livestock for SDSU) keeps trying to pick the top show heifer prospect out of the group of heifers and last weekend he finally came to this conclusion: "I think you could throw a halter on any one of those heifers and be competitive. You may not win every show, but you will compete." The best part about it is we know these girls will also make good cows.

The sale will be held at the Ramada Inn via video. The cattle will be on display at the ranch the days prior to the sale. We realize that it is a little different to buy cattle via video when they aren't located at the auction site, however we wanted to make it more family-convenient by having the whole day's activities at the hotel. If you are flying into Aberdeen and need transportation to the ranch, please give us a call. We encourage you to come out and look at the cattle and pick out your top cattle and then have some alternates in mind in case you don't get the ones you wanted. If you have questions or comments, please call one of us.

We invite you to spend the day and evening with us even if you aren't interested in purchasing cattle. What more could you want than to spend New Year's Eve with your friends and fellow ag enthusiasts. We know you are busy just as we are, but you never know what tomorrow will bring, so take a little time and enjoy yourself on New Year's whether it is with us or at home with your families.

Our passion for cattle runs deep as we both grew up on farm/ranch operations. We work at our dream job and rely on our faith for the rest! The sale will be broadcast on DV Auction. See you in Aberdeen!

The Lazy J Bar Ranch Crew

**Watch & bid online for FREE at**

**DVAuction**  
Broadcasting Real-Time Auctions

**Can't make the sale? Bid from home with DV Auction's "real-time" internet bidding service!**

**Buying online is as easy as 1, 2, 3...**

1. Create an account at [www.dvauction.com](http://www.dvauction.com) under the "register" tab and watch our online bidding tutorial
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make your purchases!

After the sale, contact the sale manager or owner to arrange transportation and payment. **High speed internet** is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

**Proxy Bidding**-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

**Having troubles?** Call Tami at (308) 870-3661 or email [tami@dvauction.com](mailto:tami@dvauction.com)  
Our full-time support team can also always be reached at (402) 474-5557.

8:30 p.m. Dance with music provided by Peter Franck

### HERD VETERINARIANS

Hosmer Veterinary Clinic, Hosmer, S.D. .... 605-283-2278

Dr. Cassie Holtz and Dr. Holly Roe-Johnson

### DEVELOPMENT, VACCINATION RECORD AND DELIVERY ARRANGEMENTS

The bulls and heifers were pasture weaned on an Accu-ration mix and grass. They stayed at the ranch until November 4th when they were brought home and put on a 48 MgCal TMR ration consisting of ground hay, silage, corn, protein and Rumensin supplement. All the calves have been vaccinated with Inforce and Ul-trabac 7 as baby calves, boosted at spring pasture turnout with Bovishield BVD, Inforce 3, Haemophilus, Mycoplasma, 7-Way and Dectomax injectible. Prior to weaning they were vaccinated with Haemophilus, IBR, BVD, BRSV, PI3, 7-Way & Mycoplasma. They were all poured with Cydectin Pour-On on December 8th.

The bull calves were weighed on November 21st and averaged 864 lbs. with an average of 3.7 lbs.-per-day gain. The bull calves will be sold as guaranteed breed-ers according to the RAAA sale terms and conditions. We will keep all bull calves free of charge until March 1, 2012, at which time they will be semen tested and delivered or picked up. You can arrange to continue having the bulls fed at a rate of \$3.50 per day with all bulls needing to be delivered by April 15, 2012.

The heifer calves have been brucellosis vaccinated and will be sold as guaranteed breeders according to the sale terms and conditions of the RAAA. Open heifers and cows need to be picked up or delivered by January 10, 2012. Shorthorn cows will be confirmed bred by vet prior to sale day and fall calving cows have been AI'd back to High Capacity 224 and the clean up bull Brown-Rice Proud Bandit X2014 (#1393801) was turned in on 11-28-11.

Deliveries will be coordinated to the least possible cost to the buyer. If you are not hauling your own cattle, we will collect trucking fees at time of purchase settle-ment. Delivery will begin January 2, 2012, on females and March 1, 2012, on bulls. If you are bringing a trailer and want to haul for others, we will gladly line you up with trucking in your direction at the fee structure below. We will offer the first 1,000 miles trucking on every animal at the following rates.

1-4 head @ \$0.25/mile/head

5-9 head @ \$0.20/mile/head

10 head or more @ \$0.15/mile/head

All animals will be handled at the buyer's risk. We highly recommend insuring your purchases.

# WELCOME

## Welcome to the New Year's Eve Extravaganza!

One of the most memorable and exciting auctions of my 2010 season was the Lazy J Bar Ranch inaugural New Year's Eve Sale. Even with a raging blizzard and limited attendance, DVAuction and the internet were loaded with over 700 viewers and bidders! Last year was a great sale – even in a white-out blizzard!

John & Stephanie have a passion for Red Angus cattle and have built one of the most exciting herds in North America. December 31st will showcase this event and I urge you to come to the ranch and look over some of the most explosive and “loaded for growth” Red Angus cattle you will find anywhere on the North American continent. Sons and daughters of the legendary UBAR High Capacity 224, the \$77,500 Mojito, Equals Thunder, Majestic Lightning, Halfmann Hustler, JDRA Vaquero 636 and more will thrill even the most timid of cattlemen. I will repeat my earlier statement – these calves are explosive!

If you haven't purchased your 2012 show heifer, there will be plenty to choose from in Aberdeen December 31st but most importantly, these

heifers have the Red Angus genetics to make great cows. Also, what better way to spend your New Year's Eve than getting your bull bought now and leave them at the Lazy J Bar Ranch until next spring!

This year, the cattle will be available for viewing at the ranch on Friday and Saturday morning but the auction will take place in the comfort of the Ramada Inn via video. Please make advanced plans to come early and study the cattle on Friday. This is one set of bulls and heifers you don't want to miss!

I visited the Lazy J Bar Ranch in early September and will be back through them prior to the auction. If you can't make it to the sale, feel free to give me a call for an unbiased opinion of the cattle. Most of all, I hope you come and join the New Year's celebration – and don't forget you can date your check either Dec. 31, 2011, or Jan. 1, 2012, for your tax conveniences.

I look forward to seeing you there.

Happy Holidays!

*Kyle Gilchrist*

When you see this picture you will realize that she speaks for herself. We have had her at our place since April 2009 and she has not been fed grain just a bale of hay or grass depending on the season. Ok, I will admit she does see some grain but that is a handful when I am trying to get her in the corral, it is easier to lead her with a bucket than try and chase her in. She doesn't seem to want to be very wild!! CopperQueen is deep bodied, feminine, free moving and carries plenty of natural muscle with excellent udder structure. We demand that our donor cows produce like the rest of our herd and that they are all treated the same. She stands in the top 1% for Milk and TM. This photo of 2657 was taken June 13, 2010, ten days after she calved.

Co-owned with Jacobson Red Angus.

High Capacity's 2006 NWSS Pen of Three Heifers were Grand Champion. Not only can 224 sire superior phenotype, but in 2008, his sons dominated bull tests across the country including the \$17,500 half-interest Gilchrist Dr. Hoss bull in the Red Alliance Sale in Okla. He sired the 2008 National Champion Female in Fort Worth and the 2009 National Grand Champion Female (at the '08 NILE) for Solution Genetics of Iowa. We purchased High Capacity as a 6-year-old for \$51,000. As a rule, the 224 calves we have had on the ground have had great dispositions and easy to handle. If you want to use one of the most multi-dimensional bulls in the breed today, here he is. At print time, 224 was in the top 25% for six traits and only possesses a 1.7 BW EPD. He is tested OS free. This photo was taken July 29, 2010. High Capacity is now deceased. Limited semen available.

Mojito sold to 10 progressive Red Angus breeders at the 2006 NWSS Mile High Classic Auction for \$77,500. He has proven to be the growth powerhouse in the breed with extreme length, dark color and ample maternal traits for calf production. We have his daughters in our herd and they are proving to be top producers with excellent udders and great dispositions. Mojito has been at our place off and on for a couple years and is a pleasure to be around. You can catch him in the pasture and lead him in a trailer. He passes this great disposition to his calves. Mojito has sold numerous sale toppers including the 707 to Star G and Jerry Henderson for \$18,000; 753 that Steph purchased for \$7,000 before we married; and 721 to Jerry Kaup for \$5,500; and many heifer calves too numerous to mention. He is tested OS free. Mojito presently resides at our ranch.

We acquired Thunder from the 2008 Star-Studded Event. Kyle Gilchrist first discovered this bull in Reno at the 2003 Bet On Red Sale. Thunder had excellent style, performance, calving ease and a great disposition. The great thing about this bull is the calves come out small but they aren't just some little babies that don't grow. The calves we currently have on the ground express plenty of muscle and stand correct on their feet and legs and possess a stylish look. What more could you want from a pedigree that combines No Equal and Larson Red Lightning.

Here is a Mojito son that John convinced Steph to buy from him before they were married. We can't say enough about this boy either - he stamps his calves with that deep, dark red color, length and thickness. He has a wonderful disposition and enjoys being around people about as much as his sire does. 753's dam has produced top-selling bulls and females for the former "JD Red Angus."

# OPEN HEIFERS - U PICK 'EMS

## GROUP 1: LOTS 1 - 5

Here is our first group of five for the U-Pick-'Ems by High Capacity out of "Toast's" dam. All we will say is good luck! We bought eight of these embryos from McKenzie in the Denver sale and put them all in and got six heifer calves. We thought we would offer pick of two of the five heifers, the other three come home to the Lazy J Bar Ranch. This set of heifers has Alex scratching his head trying to figure out which is the best one. In fact, I think the judging team is possibly coming here to try and figure it out.

These five girls are just about as close a match as you can get. Stylish, deep-bodied, broody, future money makers. We put these embryos in at the neighbor's and when we finally got around to see them in August we just wanted to hide them until the sale was over. The only way you will appreciate the growth and power in this feminine of a package is if you are here the end of December to see them for yourself. This won't be the last time you see or hear about these girls.

## UBAR HIGH CAPACITY 224

2002 -2011

*This morning while doing chores I was just thinking about High Capacity and how he was always in the way when we were feeding cattle. He kinda got special treatment during the winter and resided with the bred cows in the calving barn. He had his favorite spot in the shed where he laid every night and you just expected to see him there.*

*When it warmed up last spring, we moved him to a pen where he couldn't get in the barn every night. Don't think he didn't try to get there! He was a good-sized bull but he could sneak in and out of the fenceline bunk alley faster than any of the other cattle. We would see him laying up on his mound in the lot with not a care in the world, but as soon as you turned your back, there he was in the way trying to sneak in the gate to get to what he thought was better feed.*

*The morning we did chores and didn't see him on the mound, we knew something was wrong. We walked in the shed (still wondering how he got in) and there he was laying dead in his favorite spot.*

*It's funny how you get attached to certain animals and he was one of those bulls for us. High Capacity 224 is missed but his progeny live on. He sires those long, deep-bodied cattle that have superior phenotype and great dispositions. You have to appreciate him for everything he passes to his offspring.*

Here is another heifer that we would love to keep. In fact if we didn't need money to make the banker happy, none of these heifers would leave the place. It makes it awful hard to part with them. This heifer has a Mulberry dam that goes back to one of Steph's favorite cows. This heifer has a higher BW EPD but it wouldn't bother us to use something with some power and look at that Milk EPD!

If I had my way, this heifer wouldn't be in the sale offering at all but John started the deal many years ago that he offered all the heifer calves and we are sticking by that much to my disapproval. This is the only embryo that stuck out of the Presser cow we bought. Here is a thick, soggy, correct-made heifer that has brood cow written all over her. Expect great things from this Winchester heifer.

We bought this package of embryos out of the Denver tank to benefit the JRA but it may have just been to our benefit that we bought it. We have raised some top-notch calves out of that tank. Hats off to those that donated in 2009. This heifer is out of the legendary Panhandle Robin cow from the Cross Diamond herd and the Halfmann Hustler bull will blow you away. Just show up the end of December to see for yourself.

Here are two stylish Spotlight twin heifers out of a great Equal Thunder daughter we purchased from Mike Hein in Iowa. This heifer raised these two babies all on her own and weaned off over 1100 lbs. of calf. The combination of Red Lightning, Bieber Design and No Equal 1174 - let's just say here is a set of cow makers.

A February High Capacity heifer out of a great cow originating in the Campbell herd. Kyle said in his opening letter that these cattle are explosive and didn't mean their disposition. He was talking about growth and this heifer will have it, gaining 3.2 lbs.-per-day since weaning; and keep in mind they ran on 80 acres of grass until Nov 4th. I don't think she will disappoint you.

Here is a square-made, deep-bodied, broody female that Alex thinks will make one heck of a cow. He is on the SDSU judging team and has been blurting out all kinds of things as we walked through the heifers but for some reason I can't get him to sit down and type up all these footnotes. This is a Norseman King granddaughter you will like better every day you own her.

*This was one of Kyle's favorite heifer calves when he was here in September. At the time I had a few others that were on the top of my list, but after the boys got her clipped up, she turned my head. She is dark red, showy and ready to make you a great brood cow when she is all done. Her dam has always been one of my favorite cows and the last time we mated her to Mojito, we had a sale topper.*

*John decided to grab some Chief Joseph out of the tank when this cow came in the chute and, of course, I didn't like it because it wasn't a planned out mating. But maybe I should let him grab some surprises from the tank more often (just don't tell him that). Here is a heifer calf that will make a mark on the industry even if she doesn't have the perfect set of EPDs. Her style and class will turn your head on sale day.*

This is a typical Mojito daughter with the dark red, deep-bodied, thick-made, stylish look. Mojito stamps them all the same and with EPDs like this girl and the pedigree to go with it, you can't go wrong.

Gesmer

Kale won Grand Champion Meat Goat at the S.D. State Fair!

This heifer is out of one of my favorite cows that my dad purchased from the late Tony DeToy herd. I wish they were both here to be able to see them now. Wouldn't they be surprised at how good they turned out! We bought those cows at an all-AI sale at the Watertown Sale barn years ago. I think after seeing the prices of calves these days, we should have bought them all instead of just a few of them.

Here's another call out of the legendary Panhandle Robin 4135 from the Cross Diamond herd. She isn't the biggest framed heifer but definitely puts it all together. I am guessing if Kim and Scott could have seen how good these calves would be, they would have wanted to keep the embryos.

Can you say "Cow Power?" Here is a heifer that is long bodied and good hipped. She is deep chested and carries it all the way through the center portion of her body. She is sound and has some width of dimension. There is no doubt in my mind that she will go produce just as her mother has every year.

This has been John's favorite heifer since birth. He just loves those 636 calves and I can't disagree with him. They are balanced all the way from the EPDs to the physical appearance. She is one that you are lucky enough to have offered to you - we would love to keep her ourselves. Her full sib sister went to Gary Jacobson last year as one of our "U Pick 'Em" lots and he sure knows how to pick 'em.

This ET heifer is on the top of my favorite list simply because she did this all by herself. Her mother died of hardware in May before we turned cows to pasture and this heifer wouldn't nurse off a bottle so she fended for herself. She has always had that stylish appearance and I would say that weaning off at 545 lbs. all on her own is quite the accomplishment. Her dam is the mother of Supervision and her sire is the great OS-free Grandcanyon son that C Bar T and von Forells own.

This is the cow we basically stole from Jacobson's sale in 2010. Her dam came in the ring in high gear and everyone was afraid to bid... however their loss was our gain. The cow has been just fine ever since - she may have just been upset about leaving Gary's! She has one of the most perfect udders and had one heck of a heifer calf and, as I stated many times throughout the notes, I wish we could keep them all. Do I really have to say more than that?

Here she is!!! The April show heifer to buy. It will be hard to find another heifer to beat her in class. When we were taking pictures I was wondering where this heifer came from. She is a stout, cool-fronted, cherry-red female that has the eye appeal and show ring presence, along with her big hip and bone, big body and added spring of rib. The only way to sum it up is she is, "Good"!!!

54

This bull was Kyle's pick in September, however I am glad that I don't have to pick now. These bulls are coming on strong and everyday I feed I try and pick the best one and I can't narrow it down more than about the top 10. I think we need to buy more cows so we can keep a bunch of these boys just to see what they can do. His dam is a deep-bodied, good-footed, great-uddered female that originated from the Ed Artz herd, and this bull's maternal grandsire was purchased in a blizzard during the Watertown Farm Show from Albert Erdmann. The King Rollo sire was purchased with Gill Red Angus as our pick from the Sanderson herd. As Bryan Gill stated, great genetics and cattle can be found in small herds in your backyard! This is probably the longest bull that we have, however he doesn't give up any depth of body. If you are looking for a herd sire prospect that can do it all, here he is.

Here is a full ET brother to our junior herdsire, High Voltage. His Chateau-bred dam has been a mainstay in our program. When we originally bred 3002 to Lightning and saw what "Volt" looked like, we knew we had to have more of his kind. You will notice the BW on the calf but you need to remember he is an ET calf and that will play a part of this weight. His full ET brother had an 82-lb. BW. His dam has an MPPA of 104.4.

*This bull calf out of Kale's first-calf heifer is no slouch. He has a higher BW EPD but I wouldn't let that scare you away. Did you see his YW EPD of 100? Plus he weighed in at 928 lbs. in November. This bull calf is one that you shouldn't let get away. He is dark red, deep bodied and full of muscle. With the "Who's Who" of dams and sires in his pedigree, you can't go wrong.*

*Here is one of the only 721-sired calves in the offering. His sire was one of the high-sellers in the 2007 production sale but was prematurely injured, however we had some semen collected by that point. This bull calf is long and possibly has the best muscle expression in his hind quarters of all the bull calves. I know that I keep saying these bulls are long but they are long and deep. You will notice the Mojito calves typically have a little higher BW but when you add that extra couple of inches of length, you gain a lot of BW. These calves have been our high sellers the past two years. Don't let this one get away if you want to sell calves by the pound or start a herd of replacement females.*

Combining the high-selling cow from the Oates Dispersal with the legendary High Capacity 224, this bull calf will put money in your pocket. They are easy on the eyes and don't give up anything. They are long bodied, deep sided, carry plenty of muscle down into the stifle, and are correct on their feet and legs. You will have to see them in person to appreciate them.

Spotlight 122 or "Franck" as we call him was in our State Fair show pen. We Al'd his dam to Spotlight hoping for a heifer calf because we sold one of those to Barb Carruthers who now has that cow in her flush program. We got Franck instead, but don't get us wrong – we aren't upset with his appearance or performance. His moderate BW and average WW will make him eligible to use on heifers. His no-miss dam has an MPPA of 102.7 and has sold sale-toppers every year.

Wow! Now here is a natural-service calf that will add some power to your herd. With Mojito, Logan and Julian in his pedigree he should sire offspring that will have some growth and carcass ability.

94

## LAZYJ MOJITO 191-R5035

This moderate-BW Mojo calf will have you liking him more every day you own him. His sire sold for \$18,000 in our 2007 sale and then resold for \$5,000 as a mature bull to Kaup Red Angus last year. Mojo is the longest bull I have ever seen. His calves are just flat good.

Alex and Kale showing at S.D. State Fair

# FALL BRED PAIRS

The only reason the fall cows are offered for sale is because the fall calving doesn't work so great in our country when the winters can get so long and cold. Don't get us wrong – we love calving them out in August but to try and keep the calves gaining weight in the cold winter months doesn't seem to work as well in northeast South Dakota. You will notice that most of these cows are spring-bred cows in a fall program ... they aren't just a bunch of non-breeding slackers.

We ran into a bull wreck a couple years in a row. The first year we sold the open cows. The second year I couldn't stand to part with them – they were the top producers in our herd. We had

a bull that semen tested good, appeared to be breeding cows and when we pulled the bull 45 days later we started seeing all kinds of signs that we weren't going to like preg check time.

We made the decision when these girls came up open that we would hold them over to breed for fall calvers. We will reserve the right to flush any of these cows at the buyer's convenience.

They were AI bred to High Capacity 224. All fall cows cleaned up to BROWN-RICE PROUD BANDIT X201 (#1393801) from 11-28-11 to sale day.

This is Kyle's pick of the fall calvers and I can't argue with him. With the pedigree behind her and the way she catches your eye, you won't be disappointed in her. She is a moderate-framed, deep-bodied, broody female with tremendous dimension and width. She has a picture-perfect udder and years of production left in her future. We will reserve the right to flush this cow at the buyer's convenience. AI'd to High Capacity 224 on 11-22-11.

709's dam originated in the Campbell herd and when we mated her to Rebellas Robinhood I did not realize that we would get such a great cow. This cow puts it all together and you will be impressed with her calves. From this point forward, John will have to write the footnotes on these cows or else they won't be in the sale. I said it was hard to part with them and the further down the list of cows we get the harder it gets. These girls were our top producers and that is why they were put with the bull we thought was going to be a good clean up on them. But when he didn't breed them, we were just about sick and I am getting that really sick feeling again. Al'd to High Capacity 224 on 11-22-11.

An OS-free daughter out of the 6126 foundation cow. This is the last calf out of 6126 as she died shortly after giving birth. 863 was bottle raised and kept for her genetics. She may not look like much, but she'll raise one. Al'd to High Capacity 224 on 11-22-11.

Mia is a very moderate female that has produced some top-selling calves. She had numerous bull calves that were sold through the Watertown Winter Show Sales and her females were usually reserved in the herd because we think so much of her. She is dark cherry red, long sided, deep bodied and has sound feet and legs and a good udder for a 10-year-old cow. I would take a thousand of these cows in a heartbeat. AI'd to High Capacity 224 on 11-22-11.

MISS BROKE BAR

"Deuce" (WY Clods Nu Drifter) is a 2008 Broadaxe Ranch gelding that is going to be a good sized gelding with a lot of substance. He is a beautiful blood bay color with just enough "chrome" to make him stand out.

He is sired by Broadaxe Ranch's fancy gray stallion, GBH SMOOTHWOOD CASH, who is a grandson of NU CASH and also shows prominent sires such as LONE DRIFTER, JET SMOOTH, and traces to DRIFTWOOD many times in his pedigree. GBH Smoothwood Cash is an extremely consistent sire whose colts are low-headed, athletic, well-muscled, have a lot of speed, and are natural stoppers. Nu Cash was a NRCHA Snaffle Bit Futurity World Champion and, as of 2010, was the #4 Reined Cowhorse Sire. Lone Drifter was owned by Mel Potter of Arizona and was one of the last remaining grandsons of Driftwood. Lone Drifter is known to be a phenomenal broodmare sire as well as a great sire of rope horses with pleasant dispositions. Jet Smooth was a AAAT AQHA World Champion running horse and was a full brother to AQHA Hall of Fame running horse, Easy Jet.

Deuce's mother is a big, soggy mare with a lot of eye appeal and speed to burn. She has DASH FOR CASH, PARKER'S TROUBLE, and GO MAN GO breeding. Dash for Cash is a legend among race horse sires and an AQHA Hall of Fame horse. Go Man Go was also inducted into the AQHA Hall of Fame and was a 3-time World Champion Racing stallion. You can also further investigate Deuce's extended pedigree at [www.allbreedpedigree.com](http://www.allbreedpedigree.com) by entering his registered name, "WY CLODS NU DRIFTER".

Deuce comes from the Broadaxe Ranch breeding program in Central South Dakota. You can go to [www.broadaxeranch.com](http://www.broadaxeranch.com) to gather more information on the Broadaxe Ranch, its history, and their breeding program. Deuce has been used extensively on the ranch, dragging calves at brandings, pasture doctoring, and sorting. This gelding has a good mind, muscle, good feet, and a laid back disposition with speed and cowsense.

SUPER VINITA

If you are looking for a ranch-broke mare then you don't have to look any farther. This coming 6-year-old has gathered cattle, been rode around the ranch, hauled, and trimmed. She is used to being around dogs and children. "Rose" is easy to catch, has a good disposition and a willing attitude. We bought her as a weanling from Gary Jacobson and we never mailed in her registration papers. Did you look at the pedigree behind her with Hickory, Peppy San Badger and Doc Bar? You know she is handy and can read a cow.

For more info on her you can call Alex at 605-216-7622. She has been his project while attending college at SDSU.

Our horses are "kid" broke!

# SEMEN

**Consigned by Scott Wagner, Vermillion, S.D. For more info call him at 605-670-1481.**

## SALE TERMS & CONDITIONS

**TERMS:** Terms of the sale are cash, check, sight draft or other terms agreed to in writing between seller, buyer, and sale manager payable immediately upon conclusion of the sale and before animals will be moved. Sale manager reserves the right to require a certified check as settlement before releasing any cattle.

**PURCHASER'S RISK:** All animals are the owner's risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer.

**BIDDING:** Any disputes or challenges regarding bids or tie bids will be settled by the auctioneer and his decision will be final.

**ANNOUNCEMENTS:** Any errors or changes in information contained in the catalog will be announced from the auction block and such announcements shall take precedence over information contained herein.

**HEALTH:** All animals are eligible for interstate shipment. Interstate health papers prepared by an accredited veterinarian will be furnished on each animal sold. Arrangements for International Shipments should be made with the sale manager prior to the auction. All efforts for the exportation of cattle can be arranged through sale management.

**BREEDING GUARANTEE:** All animals are guaranteed by the seller as outlined in the Red Angus Association of America Code of Ethical Sale Practices. Guarantees will be handled on an individual basis, with credit towards another animal.

**LIABILITIES:** All persons who attend the sale do so at their own risk. The seller and sale manager assume no liability for any accidents that may occur. Neither does the seller or sale manager

assume any liability for loss or injury to livestock due to theft, mysterious disappearance, sickness, improper handling or Act of God. It is to be clearly understood that the sale manager and its representatives act only as a medium between the buyer and seller.

They are not responsible in any way for the failure on the part of the buyer and seller to live up to his obligations or for the truth of any warranties or representation, express or implied. Neither does the sale manager assume any financial obligations to collect or enforce collection of monies between parties. Any legal action, that may in exceptional cases be taken, must be between the buyer and seller. This catalog has been prepared by the Sale Manager from pedigrees and information supplied to them by sources deemed reliable; however, the sale manager will in no way guarantee the pedigree, percentage of the animals selling, or data included in this catalog. Any exceptions taken are between buyer and seller.

**CONTRACT:** The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction.

**MAIL BIDS:** Mail or wire bids may be furnished. Bids must be in the hands of the sale manager in ample time prior to sale date and will be handled in strict confidence.

**PHONE BIDS:** Telephone bids will be taken by the sale manager and will be treated in strict confidence.

**SALE DAY PHONE NUMBERS:** Kyle Gilchrist's cell phone, (641) 919-1077.
