## Discover Lowlines WEEKEND

**GREAT FRIENDS | GREAT CATTLE | GREAT FUN!**

Friday and Saturday,  
**June 3 - 4, 2011**  
Bismarck, ND

# Effertz EZ Ranch Discover Lowline Weekend

## OFFERING 56 LOTS OF LOWLINE CATTLE

Friends,

Try Lowlines - See Rapid Growth!

What? Lowlines equal rapid growth? That's right. First of all, Lowlines are the most rapidly growing breed registry in the United States...more members, more registrations and even more importantly, more transfers which is the best indication of more sales being made by more breeders! More sales across the country are producing more opportunity for breeders to market their seedstock.

But why, you ask? Because cattlemen across the country are starting to see the growth in their bottom line when they moderate their cow size and take the labor out of calving. They are also seeing tremendous financial benefit from a "no stress" birthing process yielding higher breed back rates and eliminating huge expenses from treating scours and calf pneumonia. By moderating their cow size and doing a better job of rotational grazing, they are able to run more cows per acre and improve their total pounds of weaning weight for a higher price per pound! Now that's real growth.

But why should I use a smaller bull on my cows and expect to grow my profit you ask. You shouldn't. You should use a Lowline bull on your first calf heifers to eliminate calving difficulty and then keep those first cross Lowline heifers as replacements. Over time, about 5 - 6 years using a 15 - 20% replacement rate, you can replace each big, old high maintenance cow culled with 1.5 to 2 Lowline cross heifers and thereby moderate your cow size while simultaneously increasing your cow numbers. If you couple that strategy with moving your calving dates a little later, you will be astounded by the labor reductions, lower feed supplementation and improvement in your bottom line.

We welcome you to our 5th Discover Lowlines Weekend. We hope you find it educational and enjoyable. We sure do enjoy having you here. We hope you see some cattle you like. Please let us know if we can help you in any way.

Thank you for your interest.

Neil and Jan Effertz

# EZ Ranch Discover Lowlines Production Sale

**Saturday, June 4, 2011 • 1:00 PM**

On the ranch, Bismarck, ND

**Sale day phone: 701-223-5202 • 701-471-0153**

## BREEDING PRIVILEGES:

For each female lot purchased, the buyer will be entitled to two straws of semen from any Effertz EZ Ranch herd bull for use on that female. The certificate to register one calf out of the female purchased at the sale will be provided to the buyer at no additional cost. For more details, refer to the inside back cover.

## DIRECTIONS TO THE RANCH:

Effertz EZ Ranch is about 16 miles north of Bismarck, ND on Highway 1804. From Bismarck, take Highway 83 north for 4 miles to the junction of Highway 1804. Stay on Highway 1804 for 12 miles as you go west then north along the Missouri River. The ranch is on the west side of the road between mile markers 95 and 96.

## SALE HEADQUARTERS:

Kelly Inn  
1800 N. 12th St. • Bismarck, ND  
701-223-8001  
We have a block of rooms held until May 25.  
Request the Effertz EZ Ranch block of rooms.

## SPECIAL REPRESENTATIVES:

**STEVE KOESTER**, SPECIAL ASSIGNMENT  
701-400-1611 CELL  
**DEAN PIKE**, AMERICAN LOWLINE REGISTRY  
303-810-7605 CELL

If you are unable to attend the sale and would like to discuss the sale cattle, we urge you to call Dean Pike. He is an experienced cattleman and field representative and a new valuable resource for Lowline breeders. He will discuss the sale cattle with you and help you with your selections. You are also welcome to call Steve Koester or Neil.

## HERD HEALTH:

Open heifers and cows have all been calfhood vaccinated for bangs. The open heifers have had our preweaning vaccination program of Virashield 6 plus Somnus and Ultrabac 7. Post calving, the cows have had Bovashield Gold FP5-VL5. All cattle have been poured with a generic ivermectin for insects. All calves have been vaccinated with moraxilla bovis for pinkeye.

## ONLINE UPDATES:

Please refer to our website [www.loala.com](http://www.loala.com) for video of some of the sale cattle. **New photos** will be posted as well.

## CAN'T ATTEND THE SALE? WATCH AND BID ONLINE!

LIVE ON THE INTERNET. LIVE AUDIO. VIDEO. BIDDING.  
**LiveAuctions.TV**

Real-time bidding is available via the internet for this sale. Live audio and live video will allow buyers to bid on animals just as if they were present at the sale. Buyer accounts must be created two days prior to the sale. Please visit [www.LiveAuctions.tv](http://www.LiveAuctions.tv) to create a free account, request a buyer number and familiarize yourself with the bidding procedure. If you have difficulty during the sale, call the sale day phone 701-223-5202 or 701-471-0153.

**Web Address** ..... <http://www.LiveAuctions.tv>

## TRUCKING:

We will assist buyers in coordinating transportation.

## INSURANCE:

Livestock insurance will be available at the settlement desk for those buyers wanting to insure their purchases. We ask any buyers who leave their purchases at the ranch more than a day or two to insure them.

## 5th Annual Discover Lowlines Schedule of Events

### FRIDAY, JUNE 3

#### 2:00 P.M. BREEDERS' SEMINAR

Over the last year we have attended seminars and met with leaders in the grass-fed beef industry. Many of these experts have touted the efficiency and fleshing ability of frame score 4 cattle which are exactly what halfblood to three-quarter-blood Lowline genetics produce. We have heard over and over that some of the best females to use in a grass-fed operation are halfblood Lowline cows. Consumer demand for all-natural, source-verified, grass-fed beef is soaring. Our Discover Lowlines Weekend Breeder Seminar will feature experts in several phases of grass fed beef production:

**Karl Dallefeld**, manages Prairie Creek Seed near Worthington, IA. Karl has been in the sustainable/biological-based farming industry for the last 12 years – both professionally as a forage specialist for Barenbrug USA and Midwestern Bio-Ag, and personally as a livestock producer raising grass-fed beef. It is his belief that farms should be

profitable and that the quality of life should make farming enjoyable. He will speak about "Raising Quality Beef from Grass."

**Gabe Brown** is a purebred operator in central North Dakota. He is adamant that a successful ranch starts with healthy soils. The Browns have worked hard to develop a planned grazing system that has both increased the bottom line of the ranch and paid great dividends to the environment. They use livestock to manage the cropping systems and

increase soil health. Gabe will speak on "Grazing Strategies and Techniques."

**Tracey Koester**, Cow Camp Promotions, believes one of the most powerful tools to promote livestock is a good photograph. During her interactive session, she will discuss what attributes make a good livestock shot and share key tools and techniques to help producers take promotional photos of their cattle.

**Dr. Kris Ringwall**, with eight years of research experience utilizing Lowline cattle at the NDSU Dickinson Research Center, will summarize the use of Lowline genetics in strategic breeding systems to lower your maintenance costs and improve profitability.

#### 6:00 P.M. LOWLINE BEEF SUPPER & SOCIAL

### SATURDAY, JUNE 4

#### 9:00 A.M. PRE-SALE HOSPITALITY

Have a cup of coffee, look at the sale cattle and visit with fellow cattlemen.

#### 11:30 A.M. LOWLINE BEEF LUNCH

#### 1:00 P.M. 5TH ANNUAL DISCOVER LOWLINES SALE

Following the sale be sure to stay for ranch tours and supper. It's time to relax!

- Appertarra Renee

Jackaroo was the Supreme Lowline Champion at the 2008 Melbourne Show and the Grand Champion Bull at the 2010 Sydney Royal Easter Show. He weighed 752# at 11 months with a 11.16" ribeye for a whopping 1.48 REA/CWT. In Sydney he weighed 1522# at 2-1/2 years of age with a 16.5" ribeye. His calves consistently garner rave reviews. They are competitive!

EZ Sweet Jackie Babe is an ultra feminine, fullblood Jackaroo heifer, the best we've raised. Her dam, a fantastic Panmure daughter, is long bodied and really a good milker with a tremendous udder that has produced 4 calves that have averaged \$7,938. Jackie Babe has been developed on a hay only diet until a few weeks ago and that is the first time she has seen any grain and she already looks like a show heifer. We will retain a successful flush or half interest in two successful flushes on this great heifer at the buyer's convenience. If the buyer choses to share in two flushes, we will provide semen and certificates on any of our bulls, including Beau Lad and Utah. Sweet Jackie Babe is truly sweeeeeet! She will compete and make a great donor cow!

Mugga Petula 2nd P037

Lot 3

Union Jack 1Y is an extremely stylish, solid-built son of the 2010 Sydney Royal Grand Champion Bull, Jackaroo. He is deep ribbed, deep flanked and will be a full-bodied beef bull with above breed average performance. His brother, Captain Jack, topped last year's sale at about the same age and has established himself as one of the leading young herd bull prospects in the breed. He's out of a tremendous proven Union Pacific donor cow - one of only a handful in the world.

**Lot 4** - Selling one successful flush in Mugga Lee 9L (4 grade 1 or 2 freezable embryos) to the bull of your choice - either your bull or we will include 2 straws of semen and 4 certificates from our herd bull battery, even including Beau Lad and Utah whose semen has been removed from the open market. Mugga Lee 9L is a big bodied, sound uddered cow that always stays in great shape and always weans a very nice calf. She has produced 4 daughters that have been sold for an average of \$5,700 and her dam, Mid Mugga 05J has produced three daughters that have averaged \$6,833 per head. This is a great opportunity to flush a very nice, rare Union Pacific daughter and there will be no more of them as there is no longer any Union Pacific semen available.

**Lot 12A:** Purebred belted heifer calf EZ Bonnie Belt 702Y sired by EZ Templeton 4T FM6297, born March 30, BW: 50#.

More full belts on mother and daughter. This 3/4 blood first calf heifer has a really nice purebred, full-belted heifer calf. The cow has an outcross pedigree on the top side, tracing to Australian greats like Quambi Magician, Night Crawler, Athanlee Herman and even Lisbon's dam, Olivia 15G. A very well-bred pair.

Commodor J001  
Brambletye Brownyn J308

Ultra is an ultra long-sided, extremely clean-fronted grandson of Utah whose dam is an own daughter of Utah's dam, Bronwyn M051, making him linebred to one of the most consistent Lowline herdsire-producing cows in the breed. He will keep the front ends clean in his calves with extra extension.

If you are looking for a sure calving-ease sire that will produce show calves with tremendous muscle and eye appeal, Wesson is the bull for you. His clean front, straight top, super correct feet and legs, balance and attractive look make him one of the top herd sire prospects in our 2011 sale. He could be used to bring first-calf heifers into beef production with no problems, and he could be used on 3/4 blood females to maintain the ideal grass-fed beef production blend of a 3/4 Lowline, and he could be used on 1/4 blood Lowlines to build show-quality halfbloods.

Lot 48

Spanky is an extremely attractive, uniquely colored multi-generational purebred whose sire Rascal was one of the high-selling bulls in last year's sale. He is a beautiful black baldy bull with panda bear eyes that is long sided, straight topped, structurally correct and will most assuredly sire show calves with a little added chrome. He's cool and he knows it.

Winchester is a maternal half brother to our 3/4 herdsire EZ Buster 303U who is doing a great job. His sire, Pistol, sired the 2011 Houston Grand Champion Female. He is a long framed, well built 3/4 blood that is ready for heavy service.

This big-framed, long-sided 3/4 blood is a cinch for calving ease and will add a little more grow power than most 3/4 bulls. He is a long-framed bull out of one of our biggest framed halfblood cows whose mother is one of the biggest framed Salers X Angus cows in our foundation herd.

EZ Gringo 319X is a stretchy Gus son who could be carrying the red gene. He's long and straight and has been developed on a hay and forage diet.

## What are they good for?

### 1. Calving ease on first calf heifers.

Halfblood calves average weights of 60-70 pounds at birth will vary depending on the genetics of the heifers. They will be in the frame score 4 to 5.5 range again depending on the frame score of the heifers. These vigorous healthy calves will weigh right at or just slightly below the average of your regular calves especially if you start calving your heifers a few weeks earlier than your main cow herd as is common practice. The extra calves you wean (no death loss at birth) will more than make up for any loss in individual weaning weight. These first cross calves will sell right with your regular calves at no discount.

### 2. Halfblood and first cross Lowline steers will finish at 1150 to 1275 pounds if backgrounded on a high roughage diet.

They will work extremely well to run as yearlings on grass and then these yearlings will gain very well and very efficiently in the feedlot. They will finish in a much shorter feeding period saving high corn costs and yardage. Because of their heavy muscled Angus heritage they will yield excellent carcasses with high rib eye area per hundredweight and a high quality grade. The Lowline cross beef is noticeably fine textured and very tender.

### 3. Use Lowline cross cows to moderate your cow size.

Run more cows per acre and wean more pounds per acre. Sell that total pounds of weaning weight for a higher price per pound. This is especially true from the 2nd year of production and beyond when you can breed the Lowline cross females to a larger framed but easy calving bull of another breed to make a smaller cow be all she can be. Thus she weans a higher percent of her body weight and optimizes her lower annual maintenance costs.

### 4. Sell Lowline seed stock.

There are an increasing number of Lowline sales across the country to allow you a place to market your registered Lowlines. There is also a great demand for Lowline cross replacement heifers. They make excellent recipients for some embryo transplant programs.

### 5. Lowline cross steers are ideal for the emerging "Grass Fed Beef" market.

We find that 1/2 to 3/4 blood steers are very well suited for this purpose.

### 6. High percentage Lowlines are optimum for selling locker beef.

Their smaller carcass size is much more well suited to the modern American family. Their smaller yet fine textured cuts of flavorful beef will gain you rave reviews from your customers and some great "word of mouth" advertizing. We are even breeding some of our higher percentage Lowline cows to lower percentage bulls which gives us terrific weaning weights as a percent of the cows body weight.

# LOWLINE Egg Baskets

Seven Embryos

Seven Embryos

55 Egg Basket

56 Egg Basket

Each egg basket will contain 7 embryos. The successful bidder can select from 2 to 6 embryos from each basket. If the buyer selects 6 embryos, the seventh embryo is free. All AI certificates necessary to register the calves from these embryos will be provided to the buyer at no additional cost.

These embryos will represent the very best of our genetics and breeding program. The matings will be announced on our website [www.loala.com](http://www.loala.com) about a week before the sale and, of course, on sale day. Call us if you want us to send you a list.

# Terms and Conditions

**Terms:** Terms of the sale are cash or check payable immediately upon conclusion of the sale and before animals will be moved. Seller will reserve the right to require a certified check as settlement before releasing any cattle.

**Insurance of Purchases and Risk:** All animals are the seller's risk prior to their sale and become property of the buyer as soon as declared sold by the auctioneer. Arrangements will be made to have insurance available when making settlement. Cattle left at Effertz EZ Ranch after the sale must be insured by the purchaser.

**Bidding:** All animals sell to the highest bidder. Any disputes or challenges regarding bids will be settled by the auctioneer and his decision will be final.

**Health Papers:** Our vet will be on hand to write interstate health certificates.

**Registration and Transfer:** All animals sell with registration papers from the American Lowline Registry and will be transferred after the sale at the seller's expense.

**Announcements:** Any errors or changes of information contained in the catalog will be announced from the auction block and such announcements shall take precedence over information contained in the catalog.

**Breeding Guarantee:** Bred females in the sale have been pregnancy examined by a veterinarian and found to be safe in calf. Bred females and females with calves at side are considered to be breeders and no further guarantee applies. The open heifers selling are guaranteed to be breeders. If a female appears to be a non-breeder within 6 months of the sale (or within 6 months of when

she reaches breeding age) she may be returned to the seller at the buyer's expense. The seller will then reserve the right to prove the animal a breeder within a six month period, using any fullblood registered Lowline bull of his choice through AI or natural service. If successful, seller will return animal to buyer, again at buyer's expense. Should the animal fail to prove a breeder, the seller at his option may either return the purchase price to the buyer or replace the animal with another of equal value in full settlement and satisfaction of all claims. In no event shall the seller be responsible for more than the purchase price.

In case the animal in question should develop to be a problem breeder due to negligence or improper management by the buyer or if the female has been subjected to any hormonal or surgical reproduction techniques, the seller's guarantee does not apply. No guarantee is given that bred females will deliver a live calf. No guarantee is given that a female will produce eggs suitable for transplant.

All bulls are semen tested. No guarantee is given that a bull will produce semen that will freeze.

**Liabilities:** All persons who attend the sale do so at their own risk and Effertz EZ Ranch assumes no liability for any accidents that may occur. Neither does Effertz EZ Ranch assume any liability for loss or injury to livestock due to theft, mysterious disappearance, sickness, improper handling or Act of God.

**Contract:** The above terms and conditions shall constitute a contract between the buyer and the seller of each animal sold.

**Mail bid:** Mail or wire bids may be furnished. Bids must be in the hands of the sale staff in ample time prior to the sale and will be handled in strict confidence.

# Effertz EZ Ranch Breeding Privileges

Each female lot in the sale sells with breeding privileges to any Effertz EZ Ranch herdsire. Effertz EZ Ranch will provide two units of semen and one AI certificate for one calf out of the cow purchased in this sale. Shipping costs for the semen will be the buyer's responsibility. Buyers are welcome to bring their semen tanks to the sale and pick up semen then. Because of the extremely limited supply, Beau Lad semen will not be available for breeding privileges. The sexed heifer calf Lexus semen will not be available for breeding privileges and

Jackaroo semen is not available for breeding privileges.

Pictured here are many of our herdsires. Complete pedigrees are available on our website, [www.loala.com](http://www.loala.com), or call us for more information.

Semen is available on these bulls for \$25/straw. If you need to purchase semen and want to save shipping expenses, call ahead so we are sure we have what you need here in our tank and you can pick it up sale day.
