Printed by United Printing • 701-223-0505

Welcome and thank you for your interest in our program. We have been breeding Gelbvieh cattle for 28 years now and continue to be thankful for the great people that we have been associated with in this business.

We are very pleased with our offering this year. Our goal continues to be to provide you with the best Gelbvieh and Balancer genetics available, with calves sired by top AI sires and National Champion bulls. We also are firm believers in balanced trait selection, putting emphasis on many different areas including disposition, calving ease, performance, maternal traits, structural soundness, eye appeal, EPDs and carcass traits. We believe the Gelbvieh breed offers the best combination of disposition, maternal excellence and growth of any breed. This year we are again offering both purebred Gelbvieh and Balancer bulls, along with 12 Balancer bred heifers.

The late spring and ample moisture made for a very busy summer, but the great production of almost all crops and strong prices made for a very rewarding year for almost everyone. The calves did exceptionally well this summer with lower birth weights and higher weaning weights than last year. Our summer feeding program remained the same as in the past, with no creep feed being used. We continue to feed a total mixed ration of homegrown feeds and distillers grain for a moderate rate of 3.25 to 3.5 lbs. average daily gain after weaning that will keep the bulls sound and maintain longevity.

Watch for Dams of Merit and Distinction in the footnotes. These are high-producing cows identified by the AGA. Less than 5 percent of Gelbvieh cows achieve Dam of Merit status and less than 1 percent achieve Dam of Distinction status.

The sale schedule will run the same as last year. At 10:30 a.m. the bulls will be penned for viewing and the complimentary lunch will be served at noon. The sale will be at 1 p.m. in the heated sale barn, with telephone bidding available for those unable to attend.

Our policy regarding keep of the bulls will be to take \$50 dollars off of each bull hauled away sale day; or pay half on sale day and we will feed the bulls free until April 1.

Complete Igenity DNA profiles and homozygous black information will be available online as soon as we receive it, as well as on sale day. Please call or come early to select your bulls. We enjoy visiting with you about your program and will do our best to assist you in making your selections. Videos are available and we guarantee satisfaction on all sight unseen purchases. Please call if we can assist you with these services.

Again, thank you for your continued interest and confidence in our breeding program. Give us a call, visit our website at www.gustinsdiamonddd.com or e-mail us at gustindd@wildblue.net for information or a catalog. We look forward to seeing you on sale day.
