Selling in Catalog Order:

**150 Bulls
50 Heifers**

Including 18-month-old bulls
from Koester Red Angus

Friends,

Welcome to our 29th Annual Production Sale.

We're encouraged by the strongest demand for Red Angus genetics that we've seen in the 46 years we've been breeding Red Angus. This is exemplified by the expanding market for commercial Red Angus females as our industry recognizes the value of a functional and efficient cowherd. Developing that cowherd is more attractive considering we have the best cattle market in history.

Although we endured a long winter and trying spring, the wet summer and long, warm fall has certainly been a nice reprieve. We're grateful to everyone who braved the blizzard on sale day last year and thankful there were no casualties. That storm seemed to spawn others, and the spring blizzard at the end of April and first of May was extremely stressful for cattle, contributing to considerable losses for many producers. With 2 inches of rain followed by 1½ feet of snow at 60 MPH for 15 hours, it's a wonder more cattle weren't lost.

We're pleased with our sale offering this year that includes the strongest set of 18-month-old bulls ever from Koester Red Angus. We're again offering a few F1 hybrid Red Angus/Simmental bulls for those needing some genetic variation.

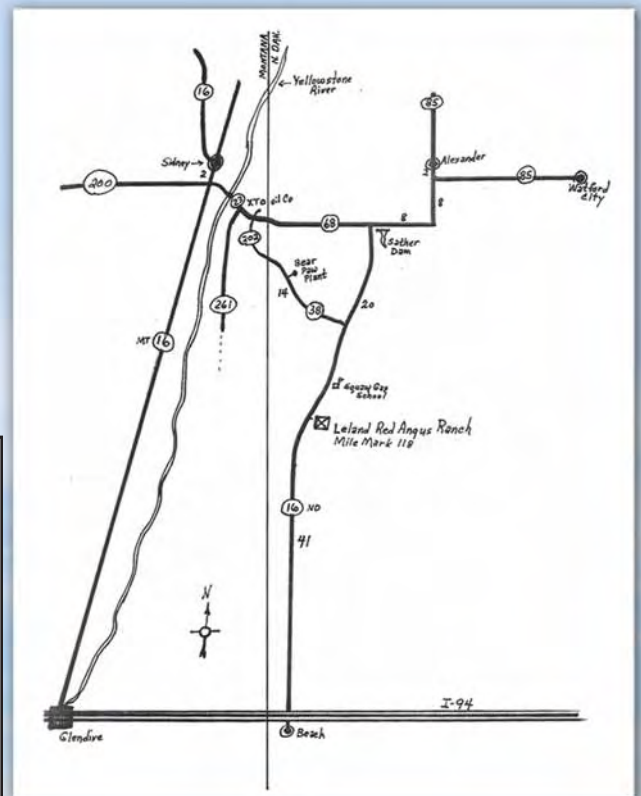

Our program continues to emphasize quiet, manageable dispositions and we have 12 years of carcass ultrasound evaluations to identify their end-product merit. We congratulate those producers who have capitalized on this value and are receiving attractive premiums and Grid Master Awards.

We're always happy to assist our customers with selections or special needs, and we guarantee confidentiality and lowest bid on any sight-unseen purchases.

*Best wishes from all of us at
Leland Red Angus & Koester Red Angus*

IMPORTANT CHANGES RELATED TO UNDERSTANDING NEW MULTI-BREED EPD EVALUATIONS

Red Angus and Simmental EPDs are calculated using the same multi-breed model. This attempt to identify breed traits in comparison with another breed is a first for our industry. Because there are some significant changes in the EPDs and to adjust to this new concept, producers need to evaluate the EPD as it correlates with the corresponding breed rank until we can mentally adjust to these newly appraised values.

DVAuction Broadcasting Real-time Auctions

We are pleased to offer the Leland Red Angus Sale broadcast "live" over the Internet through DVAuction Services.

First Time Users:

- Visit the DVAuction web site at www.dvauction.com
- Click on the "Register" tab.
- Complete "Registration" and "Applying to Bid" at Leland Red Angus.
- Please view the tutorial available on our home page for bidding instructions.
- Proxy bidding is available before sale day and during the auction.
- You will be assigned a buyer number once you purchase.

We will be contacting your bank to verify information.

DVAuction will contact you to let you know that you have been approved to bid and buy at the sale "live" from your computer at home.

After the sale:

- Contact Leland Red Angus for delivery or pickup and payment arrangements.

Note: You must have high-speed internet access (DSL, T-1 or Broadband) to be able to bid during the sale. Any questions: Contact Tami with DVAuction at (308)-870-3661, tmcintosh@dvauction.com.

We recommend that you register by March 8, 2012, for on-line bidding. Every attempt will be made to complete your application even if it is on sale day.

GENERAL INFORMATION

FRIDAY, MARCH 9, 2012

Sale will begin at 1:00 PM MST.

LUNCH

A free noon lunch will be served on sale day.

TRANSPORTATION

Sidney is served by Gulfstream Int'l. Airlines. We will meet planes on request.

ACCOMMODATIONS

Sidney: Sunrise Inn, (406)482-3826
Lone Tree Motor Inn, (406)433-4520
Park Plaza Motel, (406)433-1520
Richland Motor Inn, (406)433-6400

Beach: Buckboard Inn, (701)872-4794
Outpost, (701)872-4717
Westgate, (701)872-4521

Watford City: McKenzie Inn, (701)444-3980 • 1-800-842-3989
Roosevelt Inn, (701)842-3686 • 1-800-887-9170

MAIL & TELEPHONE BIDS

Bids will be handled in strict confidence by any of the publication representatives or the Ranch. Capabilities to bid by phone on sale day are limited. To do so, please make prior arrangements to participate on a conference line. Bidders may also log on to DVAuction.com to bid online. Please see additional information on Page 1.

HEALTH

All the bulls will have a general health and fertility examination by sale day and will be cleared for interstate transportation. Scrotal measurements will be available on sale day. All heifers are bangs vaccinated.

FERTILITY

Yearling and 18 month old bulls will have a breeding soundness evaluation and semen test. Yearling heifers are guaranteed open and breedable.

DELIVERY

Free delivery to central points up to 500 miles. Balance at cost. Heifers in load lots or by arrangement. We will cooperate in any way to assist in deliveries of greater distance or by private arrangements and volume purchases.

DETACH AT THE PERFORATION

Red Direction sires long, thick patterned progeny with moderate frames. He ranks strong for calving ease, milk, TM, heifer pregnancy, stayability and carcass value. We've used him successfully on first calf heifers, and his daughters in production are easy fleshing with correct foot and udder structure. As Red Direction matures, he continues to exhibit easy fleshing, nice muscle expression and a very mild, docile disposition.

Right Direction was our high selling bull in 2009 selling for \$33,000 to Broken Heart Ranch, SD and Barentsen/Bullinger Red Angus, ND. Newly developed DNA testing later revealed that he was a carrier for Osteopetrosis(OS) a genetic defect in beef cattle. We repurchased the bull and are testing his progeny to identify OS free animals. OS free animals will not pass OS on to their offspring. Only OS free animals are offered in this sale. His progeny are impressive with exceptional volume and thickness. Notice his top breed rank for WW, YW, MILK, TM, HPG, CEM and REA. Bulls av. 83BW 685WW(101) Heifers av. 88BW 631WW(99)

We purchased this Norseman King grandson from a high MPPA dam because of his promising growth, maternal and carcass qualities. He has not disappointed us and always sires some of the thickest, most attractive performance sons in our sale. His daughters in production exhibit great udder structure and maternal character. Notice that he ranks in the top 1% of the breed for WW and YW, 2%TM, 21% marbling and 7% REA! Because of his extreme growth, we mate him to moderate females. His bull av. 87 BW 673WW(100) Heifers av. 75BW 643WW(105) Co-owned with 5L Red Angus, MT. Semen available.

Leland Cool 9229W

We chose this Cold Sign 6337 son to use predominantly on heifers. His progeny have been born totally unassisted, and we're happy with the consistent phenotype that follows Cold Sign's pattern. His dam has superb foot and udder structure and a 77lb. av. BW with 103 "WR on 4 head. Maternal sisters to this sire are proving the same consistency for calving ease and performance. His bulls av. 84BW 671WW(98) Heifers av. 78BW 636WW (101).

Leland Fire 9002W

Fire 9002W is a son of performance leader, 5L Firebrand T22. He sold in our 2010 sale as Lot 2 to Wedel Red Angus, KS, and his top performance follows the predictions of his EPDs. Ranking in the top 1 and 2% of the breed for WW, YW and TM and backed by very strong carcass values, this young sire was among our most consistent high indexing sires. His sons av. 88BW 712WW(105) and heifers were 70BW 706WW(108).

This thick, stout Destination son has a very quiet and gentle disposition. His dam is a strong producer that has raised four bulls in a row with an av. 85BW 756WW(109). Notice the top breed rank of this bull in growth, maternal and carcass traits and he is still in the top 1% for CEM. He has 88BW 690WW(100) av. on bulls and 81BW, 696WW(108) on his heifer progeny.

This powerful purebred Simmental sire was used to develop a few F1 hybrid bulls to accommodate the outcross demand from some of our long-time commercial customers. Beef King is a son of the Beef Maker sire we used last year who was very well received. Beef King sons have exceptional thickness and should compliment any Red Angus program. His sons av. 89BW 771WW(111) and heifers av. 79BW 621WW(95).

Royal Norse 9120 is a stylish son of the popular Norseman King. He was the top selling bull at Feddes Red Angus in 2010 and seems to sire consistent to his EPDs with a low av. BW of 75lbs. on bulls and 83BW on his heifers. Expect good carcass values to complement his phenotype. *Co-owned with Feddes Red Angus, MT.*

Red Angus Feeder Calf Certification Program Tag Voucher

Age and Source verify your feeder calves free or at minimal cost to increase potential for premiums in the Red Angus Feeder Calf Certification Program.

Leland and Koester Red Angus Ranches will help you with this easy process.

1. Call Red Angus Association at 1-940-387-3502 to answer a few questions to enroll.
2. Calves sired by Leland and Koester bulls qualify for the FCCP and Red Angus will invoice the cost of the tags to us at the rate of one bag of 25 tags per bull purchased in 2011 and/or 2012.
3. If additional tags are needed, they can be purchased by the bag for 99¢/tag but must be used only in calves that qualify for certification.
4. The FCCP tags are serial numbered at the bottom leaving space on both the front and back for additional ID numbers desired. This is the lowest-cost system in the industry to USDA Age and Source Verify your cattle.

WHAT ABOUT BIRTH WEIGHT and CALVING EASE?

University studies in Wyoming and data from Montana and Colorado lend credence to the following conclusions:

1. The birth weight itself influences calving ease by 65%.
2. The female has 60-70% influence on the birth weight of her calf.
3. The bull has 30-40% influence on the birth weight of his progeny.
4. Pelvic measurement and angle as well as the shape of the calf has 35-40% influence on calving ease.
5. Length of gestation greatly affects birth weight. A fetus can gain over 1 pound per day in the last days of gestation.
6. Weather and temperature the last 30 days affect the length of gestation.
7. Size and maturity of the heifer influences calving ease.

At Leland Red Angus we would also include the following observations:

Most commercial producers do not take birth weights. Guessing is as inaccurate as driving with a broken speedometer - what's thought to be 55 mph may in fact be 65 or 70 mph, and what's

Birth weights are taken with two people on all of the calves born at Leland Red Angus to maximize accuracy. We believe in accurate measurements and accurate reporting. At no time are weights ever estimated.

thought to be 70-80 lbs. may actually be 80-90 lbs.

Remember, everything is relevant. Increased growth, frame and performance will increase BW. A longer bodied calf will likely weigh more. If a calf is expected to have genetics for growth, it will display this prior to birth as well as after.

As a rule of thumb, it takes a calf weighing 85 lbs. at birth to finish at 1200-1250 lbs. A cow should easily give birth to a calf weighing 8% of her own body weight. Thus, a 1200 lb. cow should give birth to a 96 lb. calf with ease.

Calves weighing 80-90 lbs. have a better storm survival rate than 60-70 lb. calves because of body mass.

Continued selection for light birth weights will ultimately reduce the mature size and performance of your cattle.

As we research effects of BW at Leland Red Angus, we found that after the cold, prolonged winter of 1996, birth weights increased 6 lbs. over 1995 with no ration difference. In addition, 10% of our bulls were from identical matings, yet the birth weights averaged 15 lbs. heavier than their full brothers in 1995.

CARCASS ULTRASOUND

This is the 12th year we have used ultrasound technology to evaluate carcass characteristics. Weather permitting, we will have carcass ultrasound information available on all bulls just prior to the sale that can be accessed on our web site. This information will be available for our customers upon request and more importantly it will be used for more meaningful genetic evaluations in the future as it contributes to carcass EPDs.

Max.	24	7.8	78	130	39	62	21	23	21	1.22	1.06

Carcass ultrasound is taken on all of the sale bulls when they are old enough for the data to be calculated in the system. Todd clips and oils in preparation as Dr. Hovde scans each location in the second chute.

INTEREST RETAINED

Several bulls will be sold as interest retained and full possession selling. This means purchaser buys the bull for what he bids and gets 100% possession and 100% resale value of the bull when he sells him. It does give Leland Red Angus the option to collect, use and market semen from the bull and does not restrict purchaser from doing the same. This collection, unless agreed otherwise, would be done at the expense of Leland Red Angus and at the purchaser's convenience. Leland Red Angus would assume full liability for the bull's welfare at the purchase value during transportation and collection unless it is a joint venture with the purchaser. In such a case, liability would be proportionately assumed.

SCROTAL CIRCUMFERENCE MEASUREMENTS and FERTILITY

All bulls will have a breeding soundness evaluation and semen test. Scrotal measurements are taken at 10½ to 11 months of age and adjusted to 365 days of age. Scrotal measurements and frame score will be available sale day.

Genetics for Generations

At Koester Red Angus, we focus on optimums, not maximums, to produce cattle that are balanced in all traits. We strive to develop efficient, maternal cattle that combine performance, structural soundness and phenotype from the moment their progeny hit the ground until they hang on the rail.

The bulls will be semen tested and receive a complete soundness exam before delivery. Scrotal measurements, frame scores and weights were taken Feb. 9, 2012.

We thank you for your past confidence in our program and look forward to working with you in the future. Feel free to contact us with any questions.

The Koesters:
Steve, Tracey, Shaye and Kacey

Chivas has been a standout since birth. We liked him well enough to breed a select group of our own heifers to. He scanned a 3.93 IMF and 13.3 REA at 1,161 lbs. and he is packed with muscle and volume in a moderate calving-ease package. His 2-year-old dam is moderate framed, long sided, deep ribbed and easy fleshing with great foot and udder structure. She has an outstanding High Yield bull calf at side this year, and is showing great reproductive efficiency by breeding back 25 days postpartum AI. Chivas 005 combines two great female sires – Chateau 744 and the popular outcross sire, Red Fine Line Mulberry 26P. His maternal ancestry is loaded with great females. His MGD (101.2 MPPA) is a donor at Jacobson Red Angus. His MGGD (101.8 MPPA), sold to Brazil and went into a flush program, and MGGGD (MPPA 101.6) is the dam of Glacier Cub 446. Behind every great bull is an even greater female – Chivas has four just on the bottom side. Expect Chivas to sire consistent to his type and strong on performance. He is a **HERD BULL!!!**

Selling ½ semen interest and full possession

HEIFERS

These heifers were wintered on a high roughage ration. They are penned in comparable groups but will sell individually. All heifers will sell as registered unless stated otherwise or announced from the block.

They are all bangs vaccinated and guaranteed open.

Pro-Cow

Capturing the Value in Red Angus Influenced Replacement Females

Carcass & Cowherd Traits

*"Our steers graded 95%
Choice and over 70%
qualified for Premium
Products, and that's
on 171 head - every
steer we raised..."*

*but you can't just concen-
trate on carcass or any
single trait. And that's
why we really like the
balance of the Red
Angus breed."*

*Bruce & Lynette Durham,
Ellendale, ND
Discussing the grid
performance of the
Red Angus sired steers
from their Red Angus
x Simmental cowherd.*

Terms and Conditions

- BIDDING DISPUTES:** The auctioneer will settle any disputes as to bids and his decision on such matters shall be final.
- TERMS:** The terms of the sale are cash. All settlements will be made with the clerks of the sale immediately following the conclusion of the sale and before any cattle will be released.
- PURCHASER'S RISK:** Each animal becomes the risk of the purchaser as soon as sold. Insurance will be available sale day.
- CERTIFICATE OF REGISTRY:** A certificate of registry and transfer will be furnished for each animal sold as a registered animal, after settlement has been made.
- ANNOUNCEMENTS:** Changes of information contained in this catalog relating to the animals offered for sale will be announced from the auction box and such announcements shall take precedence. Errors discovered in the catalog will be corrected by announcement at sale time and such corrections will take precedence over the printed matter in the catalog.
- BREEDERS' GUARANTEE:** All bulls are guaranteed to be breeders. All claims for adjustment or refund must be made in writing within six months of the sale date. In the event a bull is claimed to be a non-breeder, the purchaser may return the animal to the ranch of the seller if in good condition and complying with the health requirements of the Seller's state. The Seller will be entitled to six months trial following the return of the animal in which to prove that the animal is a breeder. If at the end of six months, the Seller shall be obligated to replace the animal with another of equal value or to refund the purchase price. The return of the full purchase price shall in any case be deemed full satisfaction and settlement. If the Seller proved the animal to be a breeder, it shall be the obligation of the purchaser to take delivery of the animal at the purchaser's expense.
- SELLER'S SEMEN RIGHTS:** Seller reserves the right to keep a breeding interest in any bull so designated in the catalog or during the auction. In the event Seller elects to collect semen from a designated bull, it will be done at Seller's expense and during such time when purchaser is not using the bull for breeding.
- IDENTIFICATION:** Each animal carries a readable tattoo.
- LIABILITY:** Neither owners, sale manager, clerks nor anyone connected with the sale assumes responsibility, legal or otherwise, for damage of any kind.
- CONTRACT:** The above terms and conditions shall constitute a contract between the buyer and seller of each animal sold.
- IMPLIED WARRANTY:** Except for those stated in the terms and conditions, there are no warranties or implies, as to merchantability or fitness for a particular purpose with respect to the cattle being sold in this auction. The warranties set forth in the terms and condition are in lieu of all other warranties, either expressed or implied, and the remedies provided therein shall be the sole and exclusive remedy of the buyer, or any party claiming through the buyer, for any breach of warranty or guarantee therein provided and all other obligations or liabilities.

Red Angus Recordation

Registered

Category 1A

- Must be 100% Red Angus out of registered Red or Registered Black Angus.
- Must have recognized weaning weights.
- Must be red in color.
- Must have no white forward of the navel or off the underline.
- Must have no scurs or horns.
- Must have red pigmented skin.
- Exact birth date must be provided.

Category 1B

- Must be at least 87% Red Angus.
- Must have recognized weaning weights.
- Must be red in color.
- Must have no white forward of the navel or off the underline.
- Must have no scurs or horns.
- Must have red pigmented skin.
- Exact birth date must be provided.
- Must have specific identifiable sire and dam.

Recorded

Category II

- Animals 87% to 100% Red Angus that do not conform to one or more 1A or 1B requirements.
- Birth year required.
- Progeny of Category II eligible for 1A and 1B if all requirements are met.
- Category II can include disqualified 1A or 1B cattle such as ineligible white, scurs, horns, black pigmentation and multiple sires.

Category III

- Animals that contain less than 87% Red Angus blood.
- The percentage of blood of all breeds represented in Category III animals will be printed on registration certificate.
- Progeny of Category III are eligible for Category II or 1B providing requirements for these specific categories are met.
- Birth year required.
- Multiple-sired cattle qualify only at the lowest level of Red Angus blood in sires used (DNA exception).
- Foundation animals at exact percent Red Angus blood only when ancestry recordation provided.
- Progeny of foundation dams registered only when foundation dam is registered.

NOTE: Each registration certificate will specify the exact percentage of Red Angus blood.
