Majestic Lightning 717 SGMR, Reg. #1155775

**Majestic Lightning 717** – our pride and joy. We are very fortunate to have bred, shown and turned out such an individual. But even more blessed to have had the friendship of our partners on him, the von Forell family. Blockanna R227, Lightning’s dam, is the \$1425-whim purchase – we owe you big time.

When Hardy von Forell and I purchased half of 3 Aces Sideways from 3 Aces and TC Reds as a calf in Denver, we did so, not to change Lightning’s progeny but accentuate the powerful foot and leg structure, udder quality and maternal strength he could bring to the table. His first calf crop has been stellar. Three out of four head won their

division in Hutchinson, Kan., at the NAJRAE Show. Hip tag #839 was third-high ADG at the Midland Bull Test with a -3.5 RFI. And to think we only used Sideways on heifers. Three daughters sell in this offering, we think you’ll be impressed with their uniformity, dark foot, and overall structural design!

Hip Tag #839 – Midland Bull Test

Welcome,

In an effort to clarify, the cattle will be available for inspection 24/7 from now until October 2 sundown. We will welcome you to be with us on Saturday, September 29, for an open house. We will have plenty of fresh Maryland seafood, plenty of good beef, and top shelf beverages. Come early and stay late, don't be shy, and don't hesitate to call – we can arrange airport pickup and hotel accommodations nearby.

We are not one of the storied ranches of the west and we are not one of the founding fathers of the breed, but it's not our first rodeo either. Our children are tenth generation here in Maryland and we purchased our first Black Angus cattle in the 1920s. We take great pride in bringing you this offering of spectacular Red Angus females – many with a recent shot of black to bring you, in our estimation, a wonderful set of females. We'd love to keep them all, as they truly represent the finest we have to offer!

We think so much of each and every female in this offering that we retain the right to a future flush should we feel necessity arises. The flush would be at the buyer's convenience and seller's expense and we hope to obtain six viable embryos.

*Game On may be as exciting of a bull calf that has come along in awhile. Sired by VGW Game Plan 508, the Westphal, Pieper and von Forell herd sire that is recently deceased but not before siring the \$50,000 Pieper high seller, Code Red and numerous others for Piepers and Westphals. 4L Visionary will debut this winter, a great son of Game Plan at von Forell's. Game On combines the thickness and shape of Game Plan 508 with the beauty, power and length of Majestic Blockana 728 "Buttercup." Game On's disposition is superb. His structure and hock is flawless. A smart outfit would be content to park him at a stud. We think he's a masterpiece and we can't wait to show him off. His EPDs are outstanding, too! The superlatives could go on and on, but suffice it to say, we will retain half interest and half possession.*

When we bought BJR Windsong 2269 from Harmony Hills a few years ago, we completely expected her to have a major impact on our program. I'm not sure we know yet the impact but this pair could begin to blaze the new trail. 2269 is an extraordinary embryo producer, producing over 100 eggs in three flushes this year. This is important for two reasons: 1) It makes the per-embryo cost almost the cost of freezing (they are less expensive than semen.); 2) Embryo transplant is still the greatest tool available for turning generations quickly and thus insuring the greatest possible progeny from each mating, which in turn create exceptional individuals. Exceptional individuals create the opportunity for true breed and beef industry advancement.

With a birth-to-yearling spread of 110.5 lbs. and a 58 TM, I think we have done the hard work for you. If that's not enough, these dark-footed heifers will knock 'em dead in the show ring.

## MAJESTIC BLOCKANA X43

MAJESTIC BLOCKANNA 728 SGMR

PERKS ADVANCER 9088  
MAJESTIC BLOCKANNA 715

*A great junior heifer here – or pet – from the great Blockana line. Her dam is a Louisville Reserve Division Champion (standing reserve in division to Peek A Boo). Her granddam is the 2009 National Champion female at Louisville. Her great granddam is a sister to Lightning, also a Louisville grand champion. I completely expect her to be in the hunt next fall – guess where? She has a super-sweet disposition and a good, dark foot.*

WHITESTONE BLOCKANNA R227

WHITESTONE SIZABULL M131  
BLOCKANA 0143 OF WSRA

Another old-school mating here, sired by BJR Make My Day, an out of Lightning's maternal sister. She is the maternal to Majestic Blockana Z121 "Butterberry," the 2009 National Spring Heifer Calf Champion and Majestic Blockana 728 "Buttercup" the 2009 NAILE National Champion Female I wouldn't count this one out next fall either. She is a little greener than most, coming from our cooperator in West Virginia, but she has really come on and she is as long-bodied of a heifer as there is in the offering. She is the maternal sister to Blockana Z121 the 2009 National Spring Heifer Calf Champion. When they are red out of this cow, she doesn't miss. I bet this one won't either.

## MAJESTIC EMBRYOS

Majestic Meadows embryos are stored at Trans Ova Genetics in Iowa or Maryland, and they can be picked up or shipped from either facility. They may be implanted at the Iowa facility if you wish, at buyer's expense. The embryos sell in groups of three, three times the money bid, and there is a guarantee of one pregnancy if implanted by a certified embryo technician within one year of the sale date.

Chickens today grow faster, yield more meat on one-third the feed. I borrowed this from Lee Leachman to illustrate the genetic progress we strive to make in our Pursuit of Perfection.

*BJR Windsong 2269 is a great cow that is easy to mate, as she is massive. She had a 205-day weight of 783 lbs. in 2002 and was the heaviest calf in her calf crop. There's not many places where you can get embryos with the BJR prefix top and bottom. She recently produced the 2012 NAJRAE Bred-and-Owned Grand Champion Female for Nicholas Andrews at Hutchinson, Kan. Studs and breeders alike often talk about using sires because they are an outcross. We believe in using sires where they work.*
