Quality Red Angus Cattle Bred to Function Efficiently

Welcome

Cattle Producers:

We would like to take this opportunity to thank you for your interest in our program and taking the time to look at this catalog. We welcome you to view the information that we have assembled through this catalog as well as additional material on our website such as videos of the bulls and carcass ultrasound information. The additional information was not available at the time that this catalog was printed so we are attempting to get that information to you as easy as possible. We want to make any information that will help you in your selection of genetics available to you in the easiest possible way.

As we look back over the 2011 year what a banner year it has been for agriculture and especially the cattle industry. With the record prices that we have seen over the past 9 months it at times appears that there is no end in sight as to where these prices are going to level out at. Most of you who have been in this industry long enough know that what goes up must come down at some point but the low cattle numbers seem to indicate that we may enjoy some profitable years to come. With the price level that we are at on all classes of cattle it is hard to determine the value of genetics this bull season. As the reports of the early bull sales are being published it seems that averages are \$1,000 to \$1,500 increased over last year. When I look at the prices for slaughter bulls and calves today, which are almost double of what they were four years ago, it is easier to see that the cost/pregnancy has not changed that much.

With the mild winter this year the bulls have outgained what the nutritionist said the ration would do. We have had to reduce the amount of grain twice as the bulls have gained more than the 2.5 pound average daily gain that we shoot for. We hope that by sale day the bulls will have the condition needed to be ready to go to work in breeding pastures and not be too fleshy.

The 2012 offering has more width, depth, and thickness along with uniformity than we have ever offered. Over 30 of the bulls in the offering are going to be able to be used on heifers with confidence. We still believe that the strongest part of the bulls that we are offering is the females behind them. We will again have the cows displayed the day of the sale so that you may be able to look through the cows to see their feet and legs, udder structure, fleshing ability and dispositions which we feel are a necessity as well as a convenience.

We look forward to this time of year as it gives us an opportunity to meet many new people as well as visit with old friends about their challenges and goals in their cattle operations. We are blessed to be able to share common interests in this cattle industry with so many good people.

God Bless You!

Sale Information

Milk Creek Reds Bull Sale

Saturday, March 17, 2012

1 p.m. MDT • Milk Creek Reds Ranch • Plevna, MT

Selling:

81 Yearling Red Angus Bulls

SALE DAY LUNCH:

Complimentary lunch and pie will be served at 11:30 a.m.

SALE LOCATION:

At the Ranch (see map on page 2 for directions)
2093 Plevna Road South, Plevna, Mont. 406-778-3819

CATTLE VIEWING:

The bulls can be viewed at Bruce & Eric Bowman's feedlot 1 mile south of Rhame, N.D., until March 14th. After this time the bulls will be at the ranch.

SALE VIDEO

The video of the sale cattle will be available to view at www.milkcreekreds.com or www.billpelton.com by March 1, 2012. If you don't have high speed internet or are unable to view the video over the internet contact us for a DVD on the sale cattle.

SALE FORMAT:

Once again we will be offering the bulls through a rancher's auction. We will have an auctioneer that will auction the sale in a relaxed atmosphere. Each interested buyer will be able to bid on the bull of their choice with low pressure and the ability to be comfortable.

PHONE ORDERS

Buyers unable to attend the sale may call or send their bids to the owners, Bruce or Tena Ketchum. If you would like to discuss the sale offering, call us and describe your needs and budget and we can select your genetics for you. We can bid on the animal for you and you pay only the bid price established by the auction. Bids are handled in confidence on all orders. If there are several people needing to use this method for the sale we will set up a conference call for you to call into during the sale. Please call a few days in advance if this is needed so that we may set this up and get you the necessary phone number and information ahead of sale time.

SALE CONTACTS:

Milk Creek Reds
Bruce and Tena Ketchum 406-778-3819 (Home)
406-978-3819 (Cell)

Rapid City, S.D. 190 Miles
Bismark, N.D. 230 miles

LIABILITY

All persons who attend the sale or view the cattle do so at their own risk. The owners assume no liability, legal or otherwise, for any accidents that occur on the sale or viewing premises.

ACCOMODATIONS:

Baker, Mont.

(If planning to stay please reserve early as the oil field activity can cause room shortages.)

Montana Motel 406-778-3315 or 800-779-8353
Roys Motel 406-778-3321
Sagebrush Inn 406-778-3341

Miles City, Mont.

Comfort Inn 406-234-3141
Holiday Inn Express 406-234-1000

TERMS

The terms of the sale are cash. All settlements will be made with clerks of the sale immediately following the conclusion of the sale and before any cattle will be released. We will follow the Terms and Conditions set forth by the Red Angus Association of America. Announcements made by seller on sale day take precedence over any statements printed in this catalog or advertisement.

DELIVERY

We will provide delivery up to 300 miles. Over 300 miles we will work with the buyer to make arrangements on delivery. A \$50 credit per bull will be applied to the purchase price of the bull if the new owner picks up the bull(s) on the day of the sale. Delivery of the bulls will start the week after the sale.

BULL HEALTH PROGRAM

The bulls received Vision 7 at branding and then are pre-conditioned in September with Pfizer One Shot Ultra 7, Bovishield 5 Gold. The bulls were poured with Dectomax in November and boosted with Bovishield 5 Gold. In December the bulls were given the first shot of Fusiguard. The Fusiguard was boosted in January and they were poured with Ivermectin at this time. Semen evaluations are performed by Don Beck of the Fallon Co. Vet Service prior to the sale with all evaluations available sale day.

BULL DEVELOPMENT

The bulls are fed on a ration to develop them into sound functional useable bulls for big country. They are fed to gain 2.5 lb per day. The ration consists of whole kernel corn(7.0 lbs), distiller's grain(2.0 lbs.), silage and chopped grass/alfalfa hay. This ration is developed to use 1% of the feed base being grain to reach our goal of 2.5 lb gain. The bulls are in a 20-acre pasture to ensure adequate exercise. They have been developed at Bruce & Eric Bowman's feedlot which is located 1 mile south of Rhame, N.D.

SEMEN INTEREST

Milk Creek Reds is retaining one-half revenue-sharing semen interest in all bulls in the sale. The retained semen interest by Milk Creek Reds allows us to collect semen, use semen on the bull in our herd, as well as share in semen revenue if the bull would develop interest to be used in other herds or semen marketing companies. Any semen collection would be at the buyer's convenience in the off-season use. Full possession and full salvage value sells on all bulls in this sale..

Sale Information

WATCH AND BID ONLINE AT DVAuction.com

Can't make the sale?

We are pleased to bring you real-time Internet bidding and a live broadcast of this sale through DV Auction. To watch or bid online, simply complete the following steps:

- Visit the DVAuction web site at www.dvauction.com
- Click on the "Register" tab
- Enter a user name, password and your contact information.
- Click on "Apply for Bidding."
- Select the sale from the list of other auctions and click "Apply".
- Complete the process by filling out the Banking & Lending information requested.

Be sure to include a personal contact at your bank, we will contact them in order to get a credit reference.

If you would prefer to be approved using your credit card, call (402) 474-5557.

Please be sure to apply for bidding at least a day in advance of the sale-every effort will be made to process your application in a timely manner.

DVAuction will contact you once you have been approved to bid. We do not provide buyer numbers until you have purchased a lot in the sale, and that number is only usable for that auction. After the sale contact the sale owner or manager to make arrangements for payment and delivery of your online purchases.

Please Note: High speed Internet access (DSL, T-1, or Broadband) is required to be able to bid successfully during the sale. If you have any questions, please contact DVAuction at (402) 474-5557 or email support@dvauction.com.

Proxy Bidding: If you can't access a computer during the sale, you can now place a "proxy bid" through DVAuction. Simply follow the instructions listed above, and as the sale date nears there will be a "Proxy Bidding" link under the sale listing on the main page of DVAuction. You can then place the maximum amount that you'd like to bid, and our system will represent your bid just as if you were there.

This is the sixth bull crop out of the R397K sire. Through the years his sons have been well received because of the depth, thickness, and performance that they offer in a moderate frame. His daughters have also done a good job for us as you will see by some of the bulls in the offering that were produced by them.

9127 was purchased in our 2010 sale by Ross Knott and Paul Birnie of Nebraska. We used the bull AI on heifers and cows and think that you will appreciate the depth of body and fleshing ability of these moderate-framed, high-performance bulls.

Impressive is a Genex sire that was produced by Joe and Connie Mushrush in Kansas. He is very moderate yet thick and deep. I think you will appreciate some of the lower quarter thickness in some of his sons.

We bought 951 in Beckton's 2010 sale to use on heifers. His dam is the Lana G760 cow of Tongue River which produced a herdsire at Mushrush Red Angus in Kansas called TR Julian LT 142 which we used AI and really like the females that he produced. His sire was purchased by Leachmans the same year and went on to be a high-carass bull.

924 was purchased at the 2010 Midland Bull Test to continue the genetics that we began with the TR Julian LT 142. 924 is a full ET brother to the LT 142 bull and was purchased as an embryo package by Holden Red Angus at the 2009 NILE and consigned to the Midland Test and sale. I think you will like the low birth weight and good performance that his sons offer.

9141 is a bull that we retained out of the 2009 calf crop to replace his sire 5L Grand Express. He is a very attractive, moderate-framed bull that packs a lot of muscle and depth. He is also very easy fleshing and this picture was taken one month after he came out of pasture with 80 head of cows.

8171 was purchased in our 2009 sale by Select Sires of Ohio. We have used him on heifers for 3 years now and like the calving ease and performance of his calves. His dam has always brought in calves at the top of the group.

1100 combines four generations of sires that we have used for calving ease. By stacking this type of sires over the generations it gives us more confidence to recommend bulls like 1100 for heifers.

1103 is another calving ease bull that has low birth weight, CED and BW EPD backed by four generations of calving ease bulls that we have personally used on heifers. His maternal sister was the high selling bred heifer at the 2011 NILE going to Crump Red Angus WY. (Maternal sister picture MLK CRK Sheba 048)

National Junior Red Angus Board of Directors in Nashville at the 2012 Youth Beef Industry Congress

1122 is an Express 9127 son that caught the attention of people who viewed the cattle this past summer. He is a very complete bull with a lot of balance of thickness and depth and carries it in a very moderate frame package. His dam is a top easy keeping Shoco Data daughter who has had all heifer calves until now. Her performance includes a 97 BWR, 107 WWR, 105 YWR in a 362 day calving interval.

1195 is one of the first Redstone sons to sell. He spreads the birth to growth curve well yet puts it together in a moderate framed package that is eye appealing. He is the type of bull that can work well on heifers or cows or both. (1195 picture)

1210 & 1211 are ET full brothers that are moderate framed, deep and thick. We purchased their dam in the Bootjack dispersion as a bred heifer and her first calf was the Cornerstone bull which produced many great females that sold in our female sale.

1231 is hard to miss when you look at his performance numbers and EPD's but he is more than just a number bull. We purchased his sire at the 2010 Midland Bull test sale because he was an ET full brother to the TR Julian LT 142 bull that we have been using AI. His dam sold in our Female sale to David Oxendahl of MT as the 2nd high selling cow.

1233 is a Epic son that we missed getting weighed at birth as the cow got into a pasture and calved with 200+ pairs. As you look through our birth weights of our calves we are not trying to hide a big birth weight but didn't want to just guess on this bull's birth weight so we left it blank.
