Sale Headquarters:

Prairie Hotel, Yelm, WA 360-458-8300

Directions to the sale site:

From Seattle, take I-5 about 37 miles south to exit 127. Take WA 512E 2.5 miles to WA 7. Turn right (south) on WA 7 5 miles to WA 507. Follow WA 507 13 miles. Turn left onto Vail St. SE and go 5.2 miles. Turn right onto 153rd Ave SE and go .4 miles on the left. Lazy G Lowlines is just past Bornstein Lane SE. Watch for the signs.

Lunch will be available at the sale.

Online updates:

New breeding information and photos and other catalog updates will be available on the Auction Effertz website: www.auctioneffertz.com.

Insurance:

Livestock insurance will be available at the settlement desk. If you are leaving your cattle at Lazy G Lowlines more than a day or two, you should insure your purchases.

Trucking:

We will coordinate trucking to keep it as efficient and economical as possible.

Breeding privileges:

For each Lazy G open female purchased, Glenn and Nancy will offer 2 straws of semen on any Lazy G herdsire. The certificate to register one calf out of the female purchased at the sale will be provided at no cost.

Terms & Conditions:

The sale will be conducted under a standard set of terms and conditions. A copy can be found in the supplement sheet, online and at the sale.

www.auctioneffertz.com

Friends,

The second annual Red October Sale will be even bigger and better than the last one. Glenn and Nancy Chapman have been the leaders in the red fullblood Lowline business. After several importations from Australia and a strategic line breeding program, coupled with aggressive embryo transplant, they can offer North American Lowline breeders this fantastic opportunity to select both black and red genetics from this high-carcass quality influenced herd.

With guest consignments from the leading breeders in the west this sale promises to offer buyers the best diversity of very high quality genetics available. We have fullbloods, both black and red and several black/red carriers who will offer increased genetic diversity to the red fullblood gene pool. Several excellent red percentage cattle are offered, both bulls and heifers, and these cattle have been selling at the very top of the market in sales all across the land.

We are offering several big time herd sires with truly awesome earning potential from semen sales and the genetic influence that they can bring to your herd.

We will be organizing livestock transportation to all parts of the US after the sale. Feel free to call me and let me know if you need assistance with trucking arrangements.

Opportunities abound in this sale for Lowline seedstock and commercial producers alike. Be on the seats for cattle that can increase your efficiency, lower your costs and improve your bottom line with genetics perfectly suited for easy fleshing, well-balanced cattle that will produce high quality, high yielding carcasses in a forage based beef production system.

Please call if I can be of any assistance.

Neil Effertz

Murrumbong LGL Bluey FM4064, the foundation sire of red fullblood Lowlines in North America. Many sons and daughters sell.

SC Gus S10 FM 4352, the "outcross" red factor bull with tremendous muscling. His service sells.

Yarra Ranges Jackaroo FM8279, the popular black fullblood sire of champions, at the 2012 National Show, 6 Jackaroo sons or daughters were Grand or Reserve Grand Division or Overall. Not only that, his daughters will be some of the best cows you'll ever own. His service and progeny sell.

SM Buford, red halfblood bull by Bluey out of a Red Angus cow. He has been a good, consistent breeder and has produced some nice daughters for Gordon.

This double halfblood should be great. His mother is a super cow and was Reserve Champion at the 2010 NW Lowline Classic.

Lot 78

Why Raise Red Lowlines?

Red-hided cattle reflect 13% to 15% of the sunlight they are exposed to while black-hided cattle only reflect 2% to 5%. Dr. Jan Bonsma, noted South African animal behavior expert, stated that in open country and in warmer climates, black-hided cattle are a no-no. There are great opportunities to market red-hided seedstock both nationally and internationally. These Lazy G cattle incorporate tremendous fleshing ability and carcass quality with their unique color genetics and can make a significant contribution to forage-based beef production in a significant part of the world.
