The Pederson Family

Welcome to our 35th Annual Production Sale. 2012 represented the 50th year Broken Heart Ranch has been in the registered Red Angus and Quarter Horse business. We appreciate the confidence our customers – many who are close neighbors – have had in our programs in the past. We are certainly looking forward to the next 50 years of being in the Red Angus and Quarter Horse business!

Cattle prices continue to be strong, and it looks like that trend will continue into the foreseeable future, with the United States cowherd inventory at a historically low level. As well demand and exports are both strong. Both the domestic and international consumers continue to want to eat high-quality beef! These economic factors have combined to provide good times for commercial cattle producers across the country. High prices have been recorded for both steers and replacement heifers. Red Angus females are highly sought after by cattlemen coast-to-coast and border-to-border. This is a testament to the tremendous female the Red Angus genetics offers. For 50 years our ranch has prided ourselves in breeding females that are feminine, highly maternal, with outstanding feet, legs and udders, and a nice, quiet disposition. They are deep sided, soft made cattle with plenty of length,

muscle and bone. For us, these females offer a lot of longevity and the ability to raise market-topping steer calves who are efficient, high-gaining cattle in the feedyard, and hang high-quality grading carcasses in the packing plant. They also produce no-fuss, low-maintenance, efficient replacement females.

The calves were weaned in October. We will carcass ultrasound the bulls in late February and a supplement sheet will be available on our website, www.pedersonbhr.com. On sale day, the supplement will include carcass data, scrotal circumferences and updated EPDs. As well, we will be adding videos and color photos of the cattle to the website. After the first eight bulls, the cattle are listed in birth order in the catalog. A sale order will be available sale day.

The heifers have come out of the heart of our replacement pen. The bred heifers were ultrasounded by Dr. Pat Bierman, Mandan Veterinary Clinic, last fall and their due dates are noted in the footnotes of the sale catalog. We will be selling the open commercial heifers (lots 131-195) first, then the bulls, and end the sale with our registered heifers.

We'd like to thank our hired man, Tim Johnson, for his help through the past year. Tim is a valuable asset to our ranch team, and we don't know how we could get everything done without him. Our great grandson/grandson/nephew, Logan Pederson, once again was here this past summer. Logan was a huge amount of help and we appreciate his assistance.

If you have any questions, or if there is any way we can assist you, please don't hesitate to contact us. The cattle can be viewed at the ranch anytime. Stop in and have a cup of coffee with us; we'd love to have you. Check out website, www.pedersonbhr.com, for videos, color photos and further information.

We look forward to seeing you on March 6th.

Pederson's Broken Heart Ranch – 1

Sale Information

DELIVERY:

It is our policy to assist in delivery to your ranch or to central locations on major highways within 300 miles. Bulls or bred heifers picked up within three or four days will receive a \$50 hauling refund. We will keep the bulls until April 1 at no charge but we will not be responsible for sickness or injury. However, we will keep you informed if anything turns up. We would like to start delivering bulls as soon as weather permits. We're giving a 5% discount on 5 or more bulls to the same ranch and a 10% discount for 10 bulls to the same ranch.

HEALTH:

All cattle are on a complete vaccination program and are BQA Certified. The bred heifers have been ultrasounded by the Mandan Veterinary Clinic. The open heifers have been Bangs vaccinated and will have had two shots of Fusaguard. Oahe Veterinary Clinic, (605) 845-3634, is our primary veterinarian and will also be available on sale day. None of the cattle have had creep feed.

COMMERCIAL HEIFERS:

The commercial heifers have been sorted into three groups and will sell in groups of 10 head with the option to take as many as the buyer would like. There is no delivery on the commercial heifers, but we will assist in coordinating trucking as much as possible.

INSPECTION OF CATTLE:

Cattle will be available for inspection at any time prior to the sale.

BREEDING GUARANTEE:

We guarantee all bulls to be breeders although we recommend you have the bull's semen tested a couple of weeks before turn out time. If after two tests a bull is found to be a non-breeder, we will replace the bull or allow credit toward next year's sale. This guarantee is void if there is evidence of improper management in caring for the animal, or the bull's inability to breed is due to sickness or injury which was incurred after being sold. The bull shall be returned by the purchaser or other arrangements made with us. Scrotal measurements and ultra sound data on the bulls will be available on sale day. All bulls are born and raised on this ranch.

LIABILITIES:

All persons who attend the sale do so at their own risk. The owners assume no liability, legal or otherwise, for any accidents which may occur.

SEMEN INTEREST:

Broken Heart Ranch is retaining a 1/3 semen interest in all bulls and selling full possession, full salvage, plus 2/3 semen revenue. This means any semen sold on any of the bulls, Broken Heart will receive 1/3 the selling price per unit. We also reserve the right to collect semen on any of the bulls, for our own use. This semen will be collected at our expense and the buyer's convenience.

We are also retaining the right to one in-herd flush interest in all females to be collected at the seller's expense and the buyer's convenience. Please contact us if you have any questions.

Watch & bid online for FREE at

DVAuction
Broadcasting Real-Time Auctions

View the Auction Live!
Bid Online... you're ringside
right at your desk!

Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make your purchases!

High speed internet is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

Drifter is doing a marvelous job as a herd bull for us. He not only offers us some different bloodlines, he is also siring calves that are very eye appealing and packed with performance. This is our second set of calves and they aren't disappointing us. You will definitely see Drifter calves in our lineup for several years.

Durango was our top selling bull in our 2007 sale. We have used him on heifers and cows and we are impressed with the thickness and length of body he is putting into his calves. Durango is a long bodied and a larger framed bull. His dam is an awesome cow with sound feet and legs and has an incredible udder. Semen is available from Genex.

Hector is a half brother to Messmer Packer. He is siring calves that are wide topped, deep bodied and heavy muscled. If you are selling calves off the cow or back grounding them they have the eye appeal and pounds that will attract order buyers. Hector cattle are the type and kind that will generate profit for your operation.

The King calves are impressive. They are structurally correct, heavy muscled cattle that are deep and soggy. These types of cattle are hard to find and we feel with his growth and carcass merit he is one of a kind. We are very excited to utilize him in our program. The female factor in King's pedigree is the added bonus for the cattlemen who retain heifers. He is stacked with great maternal genetics on the top and bottom of his pedigree.

995 is a sound-footed bull that is smooth shouldered. He is an absolute calving-ease machine. His sons should follow that same calving ease pattern that we have seen from Colossal. He is also the service sire to some of the bred heifers offered for sale.

BHR Golden Boy 854B was our high selling bull in our 2009 sale. He consistently produces cattle that are in the top of their contemporary groups. One of his daughters was a top seller last year. He combines some great genetics which include Golden Boy, Logan 734B and the LSF Red Fay cow – the dam of BHR Durango and BHR Big Ben 748. This pedigree is loaded with maternal and carcass traits.

We just can't say enough about the Logan 734B females. He sires cattle that are sound and functional. His daughters have awesome udders and always seem to bring in the good ones. 734B is a 1997 model bull and some of his first daughters are still strong producers in our herd.

In Memory ...

Judy Bickel

This past year, we lost our great friend and neighbor – Judy Bickel – to cancer. We are fortunate for having Judy Bickel as our neighbor and we are proud and honored to consider her our friend.

Judy spent countless hours throughout her life volunteering and organizing church and community events. For the past 20 years she has helped with our bull sale. She did more for us on sale day than just help with the meal preparation. Judy had the special ability of calming everyone's nerves before the sale. She probably didn't even realize it, but her optimism and smile gave us that little bit of encouragement we needed. This is just the type of genuine person she was. After a visit with Judy and one of her hugs you always felt better.

Judy's favorite Bible passage is Philippians 4:6-7

Do not be anxious about anything, but in everything, by prayer and petition, with thanksgiving, present your requests to God. And the peace of God, which transcends all understanding, will guard your hearts and your minds in Christ Jesus.

We dedicate our 2013 sale to Judy Bickel. Thank you for everything and our thoughts and prayers will always be with the Bickel family.

Profit \$implified...

Multi-breed EPD base simplifies selection

Since 2010, the Red Angus Association of America (RAAA) and the American Simmental Association (ASA) have combined their growth and carcass datasets to provide commercial producers with the most reliable EPDs in the beef industry. In the summer of 2012, RAAA and ASA adopted a common base for Growth (BW, WW, YW, Milk) and Carcass (MARB, YG, CW, REA, FAT) EPDs so that all animals registered in either RAAA or ASA can be directly compared – regardless of breed makeup.

What is BASE?

For decades, each breed association has presented EPDs in their own language (the base). Base is no more than a reference point for any trait against which subsequent generations of animals are compared. The establishment of a base ensures that the population future generations are compared to remains stable, which allows the breed's genetic trend to be accurately identified.

Raw Genetic Value + Base Adjustment = Published EPD

Study Percentile Ranks...

Percentile ranks are an easy reference and therefore a powerful tool to assist you in becoming accustomed to the new multi-breed base. Red Angus EPD percentile ranks are presented along with all active animals' EPDs, and reference how animals compare within their respective Red Angus subpopulations, i.e. Sire Summary Sires, Active Dams, Non-Parent Bulls, etc. It's important to realize that although the multi-breed base allows for the direct comparison of Red Angus and Simmental EPDs, the percent ranks for Red Angus animals will continue to simply compare the genetics of Red Angus animals against other Red Angus. Thus, an animal that was in the top 10% for growth under the old Red Angus base will still be in the top 10% for growth in the new Red Angus multi-breed base.

Example:

In the past, you preferred to purchase bulls that had a -2.0 or lower BW EPD.

Since a -2.0 on the old RAAA base represented the top 20% for BW, you now need to use -2.7 as your critical selection threshold as that represents the top 20% for BW on the new multi-breed base.

Other Examples:

Previous Selection Threshold Old RAAA Base		New Selection Threshold New Multi-Breed Base	
EPD	% Rank	EPD	% Rank
36 WW EPD	40%	58 or higher WW EPD	40%
0.08 MARB EPD	50%	0.38 or higher MARB EPD	50%
0.24 REA EPD	20%	0.30 or higher REA EPD	20%

108 is a larger-framed heifer that has a straight top and is long spined. The King cattle are incredible for muscle expression. She combines power and body type that will cross well with almost anything.

She is AI Bred to SVR 221T on June 13 and Ultrasound safe to a March 23 Calf.

A sweet Banker daughter that is very broody and soggy made. Banker is adding a ton of body mass and carcass traits to his progeny. Easy keeping cattle that perform are what the cattle business is all about and she can get it done.

She is natural bred to Colossal and Ultrasound safe for a March 30 calving date.

This is a great opportunity to purchase some top-notch genetics. Packer is influencing the breed with his easy keeping style and Golden Boy will just add extra volume and muscle to the package. She is a moderate framed female that will stand out wherever she goes.

She is AI Bred to Durango on June 14 and Ultrasound safe for a March 23 calf.

2012 Sale

Commercial Red Angus Heifers

131 - 150

GROUP 1
Purple tags

This year we are doing something a little different with our replacement heifers. In the past we have taken them to Mobridge Livestock and sold them in the Red Angus sale in January. This year we are going to sell them here at our bull sale. We will have them sorted into three groups.

151 - 170

GROUP 2
Green tags

We will offer them in groups of 10 and the high bidder will have the option to take a minimum of 10 or as many of the whole offering as they choose. The purple tags will represent Group 1 and their lot numbers will be 131 to 150. Group 1 is comprised of a top cut from our registered herd. Groups 2 and 3 are a mixture of top cuts of heifers from both our registered and commercial herds.

171 - 195

GROUP 3
Yellow tags

Group 2 will have green tags and will represent 151 to 170 and the third group will have yellow tags and will be tagged from 171 to 195.

All of these heifers will sell as commercial and if you are interested in the papers on Group 1 please contact us prior to the sale. A video of these heifers will be available on our website, www.pedersonbhr.com.

AQHA 50-Year Accumulative Award

Broken Heart Ranch, Ralph and Helen Pederson, Firesteel, S.D., By Richard Chamberlain

Ralph and Helen Pedersons' Broken Heart Ranch is a fourth-generation American Quarter Horse and Red Angus ranch operation near the north-central South Dakota town of Firesteel.

Ralph and his bride, Helen, started ranching in the 1930s, and established Broken Heart Ranch at its current location in the mid-1940s, raising Hereford cattle, sheep and grade saddle and work horses. As their family expanded with the birth of sons Gary and Ron, the ranch expanded as well.

The early 1960s were pivotal times for the ranch, with the purchase of their first registered Quarter Horse stallion and mare and their first registered Red Angus cattle. Today, the ranch has a small broodmare band of 15 mares a stallion and a ranch horse string, runs about 450 head of registered and commercial Red Angus cattle, and hosts annual production sales for both their cattle and horse enterprises.

In 1958, Broken Heart Ranch purchased its first registered Quarter Horse stallion, Scamp's Paprika (aka "Pep"). Until that time, the saddle horse string and broodmare band comprised grade horses. Shortly

after the purchase of Scamps Paprika, Ralph bought the good Royal King/Plaudit-bred mare Travel's Blaze to serve as the foundation of the herd. Ralph surprised Helen with Travel's Blaze as her Valentine's Day gift, leading the mare up to

the house with a big bow around her neck! One of her foals, Moxie Bar by Bar's Dream, was the 1974 world champion in junior western riding as well as earning her AQHA champion title the same year.

From the 1960s until 2010, Broken Heart Ranch also raced horses on the track, and has bred the earners of more than \$226,000.

"While Broken Heart Ranch will likely be known for breeding and raising horses with speed, we focused on raising horses with nice demeanors, that are sound minded and sound structured, with muscle, hoof and bone," says Chad Pederson, Ralph and Helen's grandson. "These were all the traits that made great ranch horses. By luck, these very same horses ended up having success on racetracks and in arenas around the country. Quarter Horses have provided our family with great working partners on our ranch, for which we have been beyond blessed."

"Our customers, particularly our ranching customers, and our own need for ranch and competition horses has contributed to our longevity in the AQHA," he continues. "Some of the most memorable experiences raising the American Quarter Horse are the people you meet. Over the past five decades, we have developed long-term friendships with many of our customers and competitors. There is nothing more fulfilling than hearing how one of our horses has been in the same family for years."

"We feel the future of the American Quarter Horse industry is strong and bright," he says. "There will always be a need for sound-minded, sound-made horses. As well, we now have a domestic and international public that has tasted how wonderful a life with horses is. Winston Churchill maybe said it best: 'There is something about the outside of a horse that is good for the inside of a man.'"

"Our American Quarter Horses have been vital to the success of our ranching operation," Chad concludes. "We could not imagine running our ranch without them. They have been our best friends and our best ranch partners. It is deeply satisfying to check our cattle riding our American Quarter Horses."

Lisa and Chad accepted the AQHA 50-Year Accumulative Award on behalf of the Pederson Family.
