

CROISSANT RED ANGUS

The Gold-Buckle Event

**Bulls that will provide the gold into
your operation from cows that are built
for longevity and low maintenance.**

Join us for our Annual Production sale on

**SATURDAY
MARCH 23, 2013**

1 p.m. MDT • At the Ranch • Briggsdale, Colorado

62 BULLS ON TEST • 30 YEARLING PRO-COW HEIFERS

Sale will be broadcast on
CattleInMotion.com

All bulls will have
50K genomically
enhanced EPDs

It's the cows that make the difference in our bulls!

One Herd  One Brand

Welcome ...

to our annual production sale. We have been breeding Red Angus seedstock for over 30 years. Our goal has always been low birth weight, easy-calving, highly maternal cows. We manage our cattle as a herd in a range environment with a “no excuses” rule.

Alyse, Larry, Jean, Kevin, Alisa and Sallie

SALE DAY SCHEDULE:

Cattle Viewing9 am – 1 pm
Coffee & Sweets.....9 am – 11 am
Lunch.....11 am – 1 pm
SALE.....1 pm
Loadout after sale 3 pm on

SALE DAY PHONES:

Larry970-590-4981
Kevin.....970-222-6094
Sallie970-371-0214
Myron Edelman.....307-351-6032

We would like to **welcome** you to our annual production sale and treat you to coffee and sweets in the morning, lunch at noon, and an excellent offering of **Red Angus** cattle. We would offer any assistance you desire in understanding the information presented in this catalog and evaluating the bulls and females.

OUR GOAL: Produce functional cattle for our short grass, semi-arid environment, and provide honest value and service to our customers.

OUR PROGRAM: Our program is founded on a balanced-trait breeding model. The seedstock are managed in a range environment with moderate-framed cows bred for cowherd building traits with optimal growth and superior carcass traits while maintaining a no excuses culling criteria. If a cow can't raise a calf every year in our environment, they are culled from the herd. We do not chase extreme growth as the growth traits require extra inputs. This balanced-trait breeding model adds value through carcass quality, lower cow maintenance costs, and increased longevity of the females with the added benefit of the accompanying "convenience traits."

The cattle presented here are a result of a multi-generational commitment to quality. The cows are bred to work within our limited resources, producing calves that excel at weaning, perform in the feedyard, and add value on the rail.

PROGENY EVALUATION: The Red Angus breed was founded on progeny testing and we believe in using all the tools available to increase selection accuracy. Calves from our cow herd stay on our ranch and are evaluated to end product, be it seedstock or feeder cattle.

Keeping contemporary groups of significant size is one of the most important aspects of performance testing. We manage our cows to keep large contemporary groups. We use this large group data to select our replacements and bull candidates. After weaning, the groups are split into seedstock and feeder groups. The seedstock groups are evaluated with yearling weights, growth measurements, and ultrasound. The feeders all have yearling weights taken, and the real carcass data is identified back to both the sire and the dam. This improves the genetic predictability of the cow herd.

Check our website for the videos and additional pictures.
CroissantRedAngus.com

DEVELOPMENT PROGRAM: The bulls were developed on the ranch. After weaning the bulls are grazed out on pasture for a month and then fed a high quality roughage ration with a vitamin-mineral supplement to gain 3.25 lb/day on average. The bulls are kept in a large dry pen, which gives plenty of exercise. We do not target 1300 or 1400 lb yearling weights. The development program is designed for the bulls to make their own way on the range and hold up to the rigors of their first breeding season.

NO BULLS HAVE BEEN PRE-SOLD OR HELD BACK.

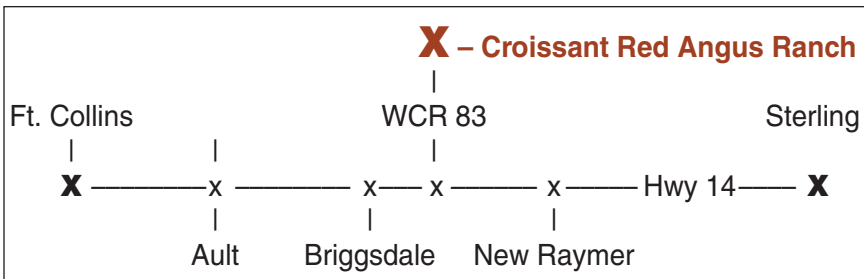

If you are in the market for Red Angus Bulls, we provide an exceptional value for a high quality product.

You are welcome to come and evaluate our cattle prior to the sale. This allows more time for us to assist you with your selections. If you can't make the sale, we can be reached at the numbers below and will be live on the internet at CATTLEINMOTION.com. All bulls sold on the phone or internet come with a sight unseen guarantee.

YOU ARE WELCOME ANYTIME!

Your trust & confidence in our cattle, our program, and us is appreciated and taken with the utmost sincerity. *Larry & Jean – Kevin & Sallie*

RANCH DIRECTIONS: We are located halfway between Sterling & Ft. Collins on Highway 14, then 5 miles north on Weld County Road 83. We have a sign pointing north at road 83's intersection with Highway 14.

INTERNET VIEWING & BIDDING at CattleInMotion.com

HEALTH: The cow herd is vaccinated at Prebreeding time with PregGuard Gold FP 10. Precalving vaccinations are Vision 7, Clostridium Type A, Scour Bos 9, plus parasite control.

The heifers have had their branding, preconditioning, and weaning shots of 5 way BRD, Pasteurella, 7 -way Somnus, and a parasite control. They have had their Bangs vaccination, StayBred VL5, plus a Prebreeding exam & PregGuard Gold 10 FP. They are ready to breed!

Bulls are given the same calthood vaccinations as the heifers, and recently a StayBred VL5. Dr. Shoemaker will Fertility Test all bulls and the results will be provided for each bull sold.

THEY ARE GUARANTEED BREEDERS & READY TO WORK!

CATALOG INFORMATION: All EPDs, including carcass, have been updated to reflect the latest performance data including Ultrasound and **50K DNA GENOMIC PANELS**. Percentile rankings are listed below the EPD table. The measurement data with their in-herd performance ratios are listed in a table just to the right of the pedigree. Scrotal measurements will be on a supplement sheet available sale day and posted on our website as soon as fertility testing is completed.

We present all the data on all the bulls to make your selection easier and more complete!

Sale day announcements will take precedence over the catalog information.

Extended pedigrees can be seen on the Red Angus website (RedAngus.org). Enter the Reg. # in the table accessed by the “Animal Search” button.

SELECTION: We do supply all the raw measurement data and in-herd performance ratios; but when making your selections, more reliance should be put on the EPDs. The EPDs have already factored in each animal’s performance ratios, including the carcass ultrasound data, and 50K panels. To aid in your interpretation and application of the RAAA EPDs, the Red Angus Association has published “Ranchers Guide to EPDs.” You can get a brochure by calling the Association (940-387-3502). This is an excellent source of information and is worth requesting a copy. Of course we will help you interpret any of the information in this catalog.

SALE TERMS:

- Animals are unconditionally guaranteed to be sound and to be breeders for the first breeding season. Bulls are guaranteed to have libido and heifers are guaranteed to cycle. We do not guarantee against injury or illness.
- Each animal will be at the buyer's risk as soon as sold, but will be cared for by the seller after the sale. **Animals need to be picked up by April 15th.**
- The bulls and heifers will have passed a Breeding Soundness exam.
- Health papers will be provided by Dr. Shoemaker.
- Free delivery of bulls for the first 250 miles. After 250 miles delivery will be charged at cost. Deliveries will be scheduled as soon after the sale as possible. We do not offer free delivery on heifers but will work with the buyer to arrange delivery if needed.
- A \$50 credit will be given to purchasers who pick up their bulls by April 15th.
- A \$50 credit will be given to purchasers of multiple bulls.
- We will be retaining an interest in bulls we designate. They will be noted in this catalog. Any semen collection is at buyer's convenience. Buyer has full possession & full salvage value.
- Registration papers will be transferred to the buyer which provides eligibility for the RAAA FCCP.

SALE PROCEDURES:

- Animals are always available for inspection at the ranch.
- Bulls & heifers will be penned in small groups on sale day.
- The opening bid is listed with each lot in this catalog. This is not a private treaty price if the bull does not sell on sale day.
- Each animal sells in catalog order.
- We will have an auctioneer but will keep a low-pressure pace.
- Bids will be accepted:
 - Live at the auction.
 - On one of the sale day phones.
 - On the Internet at CATTLEINMOTION.com. No buyers fee.
 - Sight Unseen bids. Call Larry or Kevin for help. All bids will be handled in strict confidence and be treated as if you were present.
- **Absentee bidders please register before sale day!**

Nothing is more dependable
for early prediction of
genetic potential.

GE-EPDs powered by HD 50K for Red Angus.

Red Angus breeders and their customers now have access to genomic-enhanced expected progeny differences (GE-EPDs) powered by High-Density 50K (HD 50K).

- GE-EPDs combine pedigree and performance data from the Red Angus Association of America (RAAA) with genomic predictions from the industry's first and only 54,000-marker panel.
- Nothing delivers greater dependability to help predict the genetic merit of young, unproven Red Angus cattle. HD 50K for Red Angus enhances the scope of selection for difficult, time-consuming and hard-to-measure traits.

The RAAA EPDs you trust are now even better

- Combines pedigree information, performance data from the animal, its relatives and progeny, and HD 50K genomic information
- A single GE-EPD value for each trait enables simple, dependable comparisons of genetic merit among Red Angus animals
- Includes accuracy values that range from zero to one
 - Enhances EPD accuracy values for young animals

Together, more dependable predictions for more profitable decisions

- HD 50K information, when integrated into RAAA EPDs, provides the most accurate and complete picture of the animal's genetic potential
- Enhances selection, mating and marketing decisions to accelerate genetic progress and expressed productivity

Multi-breed EPD base simplifies selection

Since 2010, the Red Angus Association of America (RAAA) and the American Simmental Association (ASA) have combined their growth and carcass datasets to provide commercial producers with the most reliable EPDs in the beef industry. In the summer of 2012, RAAA and ASA adopted a common base for Growth (BW, WW, YW, Milk) and Carcass (MARB, YG, CW, REA, FAT) EPDs so that all animals registered in either RAAA or ASA can be directly compared – regardless of breed makeup.

What is BASE?

For decades, each breed association has presented EPDs in their own language (the base). Base is no more than a reference point for any trait against which subsequent generations of animals are compared. The establishment of a base ensures that the population future generations are compared to remains stable, which allows the breed's genetic trend to be accurately identified.

Raw Genetic Value + Base Adjustment = Published EPD

Study Percentile Ranks ...

Percentile ranks are an easy reference and therefore a powerful tool to assist you in becoming accustomed to the new multi-breed base. Red Angus EPD percentile ranks are presented along with all active animals' EPDs, and reference how animals compare within their respective Red Angus subpopulations, i.e. Sire Summary Sires, Active Dams, Non-Parent Bulls, etc. It's important to realize that although the multi-breed base allows for the direct comparison of Red Angus and Simmental EPDs, the percent ranks for Red Angus animals will continue to simply compare the genetics of Red Angus

animals against other Red Angus. Thus, an animal that was in the top 10% for growth under the old Red Angus base will still be in the top 10% for growth in the new Red Angus multi-breed base.

Example:

In the past, you preferred to purchase bulls that had a -2.0 or lower BW EPD.

Since a -2.0 on the old RAAA base represented the top 20% for BW, you now need to use -2.7 as your critical selection threshold as that represents the top 20% for BW on the new multi-breed base.

Other Example:

Previous Selection Threshold Old RAAA Base		New Selection Threshold New Multi-Breed Base	
EPD	% Rank	EPD	% Rank
36 WW EPD	40%	58 or higher WW EPD	40%
0.08 MARB EPD	50%	0.38 or higher MARB EPD	50%
0.24 REA EPD	20%	0.30 or higher REA EPD	20%

Pro♀-Cow

30 PRO-COW OPEN HEIFERS

These are an excellent set of replacement heifers with built in heterosis and ready to go to work for you. They come from long time Croissant Red Angus customers, Lazy H Ranch and Bob Hill. Both are well managed operations with a focus on cowherd building traits without jeopardizing carcass merit. We have had the pleasure to feed calves from both operations over the years and they are top quality.

We will be selling them in groups of 5 with buyers option on more. They will be sold as gate cut.

These are outstanding heifers, so don't miss out on the opportunity to increase the genetic merit in your herd.

ACKNOWLEDGEMENTS

Tyler Kanode – Our auctioneer.

Dr. Wade Shoemaker – Semen testing bulls, health papers and general herd health program.

The Cattle in Motion crew – for excellent videos, web site postings and sale day broadcasting.

Family & friends — Sale day brings neighbors & friends, kids & grand kids, mom, brothers & sisters, and nephews & nieces.

Myron Edelman, RAAA Director of Value Added Programs – He will be here sale day to assist our customers and answer any and all questions regarding the Red Angus Association's commitment to the commercial beef industry.

Tracey Koester of Cow Camp Promotions – She does an outstanding job on the catalog and our advertising program throughout the year.

Alyse Wenstrom – She is the only non-family person who works on the ranch. She may not be family but she has the same alma mater as all the family. CSU of course.

Last, but not least, our Great Loyal Customers!
