# WELCOME

What an exciting time to be in the Red Angus business! Twenty-three years ago when I was first buying red cattle, and I would sell my steers or cull heifers at the local auction barn, the order buyers would sort the reds out. Every time they did, the calves weighed more than the average of the group they were pulled from, but would bring a lot less money. The owner of that barn at the time would tell me, "Steph, you just sit back and wait. These red cattle will outsell all the others before too long."

Well, I can tell you, it seemed like way too long as a teenager, twenty-some years ago, getting started in the cattle business to see that turn around, but boy has it turned around now. That auction barn owner passed on before he got to see the "Red Revolution" but he is one of the main reasons I stuck with this breed of cattle. These Red Angus cattle are a hot commodity today. Of course, I don't need to be telling you that because your interest already lies with Red Angus cattle.

You will notice as you look through the catalog that all the heifers are offered again this year, but there will be a little different sale format. You can read more about them by Lot 3 in the catalog. We did 50K test quite a few of the females and some bulls. We specifically tested the E.T. calves and then just randomly picked some out to test after that. You will also notice that we are offering the first of limited semen packages on the \$70,000 LSF RAB Performance 2772Z bull that we own in partnership with Kaup Red Angus, Kurtz Cattle Co., R.A. Brown Ranch and Origen. We are really excited about seeing his offspring hit the ground in a couple months. We AIed to him as well as used him as a clean up bull on about 100 head of cows. He came home

in great shape, then went to stud and froze semen. He will be a future breed changer. Don't miss out on this genetic opportunity.

We invite you to spend New Year's Eve with us. The sale will be held at the Ramada Inn, Aberdeen, S.D. via video. The cattle will be sorted up in display pens on Dec. 30 and 31. You are more than welcome to stop anytime before that to view cattle. If you are flying into Aberdeen and need transportation to the ranch, please give us a call. We would encourage you to come to the ranch and view the cattle prior to the sale. We suggest that if you are interested in bidding on cattle that you pick out a couple alternate lots as the cattle will be located 20 miles from the hotel site.

We cannot stress enough that this IS a FAMILY event so please, bring your spouse and children. There will be display booths at the hotel to check out, plus the hotel has a pool and what kids don't love to dance? We like to travel with our kids and want you to feel comfortable doing the same if you so choose.

We would love to see you on New Year's Eve. We know how hectic and crazy everyone's schedule is this time of year. We never know what tomorrow will bring and spending time with Red Angus family and friends is always a good time. If we can be of any assistance please don't hesitate to call and, if John doesn't answer the phone, call Steph - he's always talking on it!

Hope to see you in a couple weeks!

*Steph and the rest of the Lazy J Bar Ranch crew  
- John, Alex, Brooke, Kale and Jacob*

**Watch & bid online for FREE at** **DVAuction**  
Broadcasting Real-Time Auctions

**View the Auction Live!  
Bid Online... you're ringside  
right at your desk!**

Buying online is as easy as 1, 2, 3...

1. Create an account at [www.dvauction.com](http://www.dvauction.com) under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make your purchases!

**High speed internet** is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

**Proxy Bidding**-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

**Having troubles?** During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

Hosmer Veterinary Clinic, Hosmer, S.D. .... 605-283-2278  
Drs. Cassie Holtz, Holly Roe-Johnson and Tim Kruse

## **DEVELOPMENT, VACCINATION RECORD AND DELIVERY ARRANGEMENTS**

The bulls and heifers were pasture weaned on an AccuRation/corn mix and grass. They stayed at the ranch until Oct. 10 when they were brought home and put on a TMR ration consisting of ground hay, corn silage, high-moisture corn and a liquid protein and Rumensin supplement. All the calves have been vaccinated, starting at birth, again at grass turnout, weaning and post weaning. Vaccinations include 7-way, clostridial type A, IBR, BVD, PI3, BRSV, mycoplasma, haemophilus somnus, pastuerella and Dectomax injection this spring, and Dectomax Pour-on this fall. If you would like specific dates and details on the products, please give one of us a call.

The bull calves were weighed on Oct. 19 and again on Dec. 6. The average weight on Dec. 8 was 884 lbs. with an average gain of 3.55 lbs. per day. The bull calves will be sold as guaranteed breeders according to the RAAA sale terms and conditions. We will keep all bull calves free of charge until March 1, 2014, at which time they will be semen tested and delivered or picked up. You can arrange to continue having the bulls fed at a rate of \$3.50 per day with all bulls needing to be delivered by April 1, 2014.

The heifer calves have been brucellosis vaccinated and will be sold as guaranteed breeders according to the sale terms and conditions of the RAAA. Open heifers need to be picked up or delivered by Jan. 10, 2014.

Deliveries will be coordinated to the least possible cost to the buyer. If you are not hauling your own cattle, we will collect trucking fees at time of purchase settlement. Delivery will begin Jan. 2, 2014, on females, and March 1, 2014, on bulls. If you are bringing a trailer and want to haul for others, we will gladly line you up with trucking in your direction at the fee structure below. We will offer the first 1,000 miles trucking on every animal at the following rates.

1-4 head @ \$0.25/mile/head • 5-9 head @ \$0.20/mile/head  
10 head or more @ \$0.15/mile/head

All animals will be handled at the buyer's risk. We highly recommend insuring your purchases.

*Lazy J Bar Ranch will reserve the right to retain 25% semen interest on all of the bulls offered in this sale.*

# BULL MORTALITY *and* LOSS OF USE INSURANCE

## Insurance Coverage

### Underwritten By:

Aegis Security Insurance Company  
PO Box 3153, Harrisburg, PA 17105-3153  
**A.M. Best Rating: A VI**

### Option 1: Bull Mortality and Loss of Use Coverage

- Values:** Bulls valued up to \$25,000, not to exceed purchase price.
- Term:** One Year Policy Term
- Premium:** 12% of the Purchase Price  
Premium Fully Earned  
\$150 Minimum Premium Per Animal
- Testing:** All bulls must be tested, certified and listed in the official catalog of a herd sale.

#### Full Mortality:

**100%** of the value of the bull in the event of death or life-threatening injury.

#### Loss of Use:

**80%** of the value of the bull, less salvage value, of in the event of Loss of Use from an accident, illness, or disease that can clearly be diagnosed or identified to have occurred on a specified date.

**25%** of the value of the bull in the event of Loss of Use from an accident, illness, or disease if there is a diagnosis consistent with an accident, illness, or disease but no real evidence that provides clear diagnosis or identification.

### Option 2: Bull Mortality Coverage

- Values:** Bulls valued up to \$25,000, not to exceed purchase price.
- Term:** Renewable One-Year Policy Term for Bulls 6 Month - 7 Years of age.
- Premium:** 5.5% of the Purchase Price  
Premium Fully Earned  
\$150 Minimum Premium Per Animal
- Testing:** Veterinarian examination and signed statement of health required for all bulls for which coverage is requested.

#### Full Mortality:

**100%** of the value of the bull in the event of death or life-threatening injury.

# WELCOME

Welcome to the New Year's Eve Extravaganza!

I am not sure whether to approach this auction as the end to a fantastic 2013 fall auction season or the beginning of an exciting Red Angus 2014. I think I will do both. Looking back, the Lazy J Bar Ranch's New Year's Eve Extravaganzas have been some of the most fun auctions we attend every year. The cattle have been extremely high quality and I have had the chance to purchase two future donor matrons from their line-up the past two years. When I was in John and Steph's pastures this August, the quality continues to be at the top of the Red Angus game. I again saw some cattle that I would love to bring back to southern Iowa. As you study the catalog, pay particular attention to the diversity of genetics offered. John & Steph are constantly acquiring some of the top herd bulls in the country and using A.I. to bring in some of the freshest and most exciting genetics into their herd. I would challenge you to find the quality of cattle offered in this sale anywhere else in the country!

Looking forward to 2014 and the New Year, the momentum of the Red Angus breed and the excitement being created by these RED-hided cattle makes the future very bright. Within the beef industry, the fastest growing breed is certainly Red Angus and the market across the nation is far from saturated. I believe the "RED REVOLUTION" is just getting started as

more and more commercial programs are turning their herd base to Red Angus for efficiency and conversion of grass and feed to beef. Whether you are a beginning Red Angus program or a 50-plus-year operation, be sure and make the New Year's Eve Extravaganza a priority for your Red Angus genetics selection. There will be donor-caliber females and top nationally ranked seedstock bulls in this offering!

Finally, let's talk about having fun. The beef business demands so much of our time that once in a while isn't it nice to just have some fun? Well let me tell you that the New Year's Eve Extravaganza is the FUN SPOT for New Year's Eve especially if you are a cattle producer. The ballroom at the Ramada Inn will be the place for some awesome prime rib, dancing and festivities with the amazing Peter Franck (a.k.a. Peter Frampton) entertaining until the wee hours of the morning. In the unfortunate event that you cannot make it to Aberdeen for the auction, please tune in via DVAuction.com and place your bids in complete confidence that the Jung's will deliver you a sight-unseen purchase that meets your expectations. If I can be of any assistance to you in regards to making cattle selections or purchases, please feel free to give me a call.

Happy New Year and here is to a fantastic Red Angus 2014!

*Kyle Gilchrist*

We had been searching for a new herd sire to add to our line-up when I saw this guy. We were looking for something that had calving ease, performance and carcass qualities. Steph was headed to Idaho to pick up a Boer goat buck and wanted to stop in and check out the bulls on Ludvigson's sale that we had picked out of the catalog.

As she was looking through the pen, this Lot 3 "Performance" bull kept catching her eye (one that we hadn't circled in the catalog). Without looking at the catalog she knew this was the bull we needed, and when she did look at the numbers behind him, all she said on the phone was, "Get some people together. We NEED this bull. I don't care what you do. He needs to come home with us!" Well \$70,000 and a partnership with Kaup Red Angus, Craig Kurtz, R.A. Brown Ranch, Brown Family Genetics and Orion Beef Group International, this guy made it home to South Dakota.

**A 20 STRAWS OF SEMEN**

**B 20 STRAWS OF SEMEN**

**C 20 STRAWS OF SEMEN**

I could write about Performance, or "Rynell" as we call him, all day long. He is in the top 15% for CED and still the top 3% for WW, 5% for YW and 1% for Marbling. Wow! There is true performance! We held off marketing semen on him until we could use him to breed cows.

Here is your chance to buy limited semen packages on Performance. We will only offer these three packages on our sale this year, one package of 20 straws in the Red on the Rocks Sale and another package of 20 straws on the Mile High Classic during the National Western Stock Show in Denver, CO.

If you want to have an opportunity to obtain exclusive profit-driven Performance genetics, then don't pass up this chance on Performance 2772Z.

Well there is just no way to describe this heifer other than she is just plain good. She definitely deserves to be No. 1 in the sale. She has been shown four times and each time shown she has been named division champ or overall champion. We had a club calf producer over the other day that was thoroughly impressed with her. There are two reasons this heifer is even offered in the sale, first because she is co-owned with Gary and second because I turned Gilchrist down this fall and told him to wait until sale day. Guess there is actually three reasons – John offers every female we have. I will have to warn you though to not be surprised if you see Lazy J Bar bidding on this heifer. We only own two females out of Copperqueen and seeing as this is her dam's last year of flushing here this may just be the heifer that needs to stay. The fair way to put a value on a heifer of this caliber is to offer her at auction. If you're looking for a heifer that can compete in a show and go on to be a great cow, then raise your hand and don't stop until the gavel falls! Co-owned with Jacobson Red Angus.

Well, don't read too much into the lot order on these heifers. Lot 1 definitely is a stand out but as for the rest of these heifers, they are just randomly placed pretty much by birth order in the catalog. 3204 has the who's who in her pedigree from Yardmaster, High Capacity 224 and Mulberry. Wow! You can just sit back and visualize an attractive, dark cherry red heifer with plenty of eye appeal, broodiness, adequate bone and a good disposition. Full sister to Lot 3E.

Jacob and Kale putting the finishing touches on Lot 1  
 Lazy J Bar Ranch New Year's Eve Extravaganza

# THE COMPROMISE PEN

Here is something a little different than what we have done in the past. Let's just call it a compromise between a husband (who has always offered and sold every heifer calf that hits the ground) and a wife (who would keep replacements from her own females.) In the past we have offered some "U-Pick-Em" lots so that we could still offer all the females but yet be able to sample a little of our own genetics.

**Let's just say for the sake of compromise we are offering this pen of heifers for sale, however each heifer has a minimum starting bid of \$12,000.** I know that seems like a lot but here is our explanation. We think nothing of spending at least \$8,000 on an open heifer. By the time you run her for two years you have about another \$1,200 in her, then you get one calf out of her and the \$12,000 is pretty easily explained. These heifers were picked mainly because we don't have many or any females in the herd out of their dams. Their dams or granddams have been no-miss cows in our herd. They may not have always had a sale topper but they have always had a good average on the progeny sold. Some of these were kept in the pen for pure sentimental reasons – yes that happens in the cattle industry, especially here.

I can tell you that when these calves were picked there were no numbers to look at, there were no weights to see and most of them were picked simply because of the dam they are out of. We needed to stick with what we have always done by offering every registered heifer.

You needed to know that we don't hold any top heifers back, but in doing that year after year we don't have the first-hand knowledge of what some of these females can do.

Now John will argue that fact and state that we can drive to Jerry Kaup's at anytime and see most of the half sisters to these girls in production and that is partly the reason for this pen. When we were AIing for Jerry and as each female came thru the chute, I looked up registration numbers and realized that this man had the set of cows that I want and the only way to get that is to try and keep the females.

Since John started this crazy (sorry just Steph's thoughts) idea of offering each and every female, we had to come up with a plan to incorporate both our ideas. This is what we came up with. After you look at them you may think we are crazy because there are a lot more stylish heifers in the sale lots than these in this pen. There may even be one in here that you would say, "What the heck are they keeping her for?" But let me assure you, they are all kept strictly on what their mama's have produced. These girls are all offered for sale, however we will reserve the right to flush Lots 3A-3L at our expense and buyer's convenience should you choose to take one home sale day.

Now comes the hard part ... writing footnotes like I want to sell these girls!

Here is a female that had a granddam that I just can't talk enough about. Her dam was Grand Champion Red Angus heifer at the Sioux Empire Farm Show. 307 is probably the most showy-looking heifer of this group but then that doesn't surprise me coming out of Yardmaster and the 124 cow family. Guess you will just have to make up your mind on sale day, but you won't break my heart if you don't want her!

This heifer was actually John's pick to put in the pen, not that I don't like her, but imagine him picking a heifer with such a balanced set of traits! She doesn't even have a high BW EPD. Like I said, these heifers were picked by dam's merit but when you see her line-up of numbers, she will definitely be a trend-setter. New Trend, MLK CRK Cub and Chateau – there is the foundation of good broodcow coming from a dam with an MPPA of 103.4.

These embryos were bought a couple years ago at the Reds On Ice sale. We figured since we wanted the embryos so badly that we should retain the female out of the eggs we bought. It's not too late for you to take her home.

I told you earlier that some of these were kept just purely for reasons such as this. Her dam was bred to Destination and calved twins out on Feb. 14, 2010, then the next year she was bred different. Last year she was bred to Destination again and you see it – yep she calved on Valentine's Day again. We thought this heifer was destined to be here. I guess that when you look at her carcass numbers you won't be disappointed.

Of all the heifers in this pen, this is the one that I really wish you WOULDNT buy because if you do, you will break one little 5-year-old's heart. He is bound and determined to not be left home from the NAJRAE show this year and this one was his pick to take. They are buds and she lets him do anything with her. He pretty much broke her to lead by himself. He definitely washes her by himself, even when you tell him not to, and takes her out in the yard to play. If you think you really need to own her, that's fine, but we will reserve show rights ownership through October 2014 on this heifer. Do I think she is going to go out and win every show? Heck no. But what price to you put on something that a 5-year-old has such a passion for? Showing at NAJRAE is all he has talked about since last June so I guess 3214 is offered because we offer them all, but no one ever said that we can't beg you NOT to buy her.

Jacob and Lot 3E playing in the yard

Jacob and Lot 3E at the wash rack

3222's dam was the high-selling dam in the Oates dispersal selling to StarG/Johnson. We acquired N460 thru one of Kyle's female sales. We also acquired some of her embryos. This heifer had footrot on a front foot this summer and still walks a little tender on it. We are willing to take the risk and make a cow out of her as we lost the N460 cow is gone now. Her full sib sells as Lot 33.

Here is a heifer calf that comes from a black-outcross pedigree. Her granddam put another calf on the ground last year at the age of 16. I think that is simply enough reason to want to keep a heifer out of this cow family.

Before John and I were married I used to be able to keep some of my favorite cow lines. The dam to 3124 was one of the cows we have in production out of this granddam that I think so much of. Jerry Kaup doesn't think twice about snatching up these offspring either, so I guess that tells me she should be a keeper.

360 is one of those heifers that you keep because you simply don't have many from that cow family. We only have one granddaughter. Her dam has been a solid producer and carries a prefix of EEA which means the world to me. Ed Artz gave me a start in the Red Angus industry 23 years ago. He sold me good, solid-producing cows that would put calves on the ground that you could be proud of. This girl is a double-bred Artz cow and you just can't get any more of them, so yes, here is one in the pen for sentimental reasons. Lot 3G's dam, 115, is the granddam to the third bull in the sale, Lot 103. Sorry Jerry Kaup, you are just going to have to pay a little more to get this one this year!

Here is a heifer out of the dam to one of our herd bulls. This summer we had a visitor to the ranch that looked through all the calves. Our herd bull, High Voltage, (a maternal half brother) was in the first pasture. As the day went on, every calf he liked was sired by Voltage. We have flushed 3123's dam and we have a daughter in the herd. With her mother being 11 years old, it's time to put a couple replacements in the pasture. Also, we aren't afraid to keep younger heifers.

This little heifer is out of John's all-time favorite cow, 122. With bloodlines like Chief Joseph, Strathe Onward and the added power of Mojito, where can you go wrong? Her half-sister - out of the same dam - sold to the Mann Ranch a few years ago and they seem pleased with her. This is one cow that we have been lucky enough to pair up her calves in the past U-Pick-Em pens with other heifers that have been picked. We do have a full sib to her in our herd and a half-sib bred heifer. Here is your chance to own a heifer out of John's favorite cow.

These Cowboy Cut females are deep bodied and broody with a ton of power stacked in their genetics. If you are looking for performance, then this is your heifer. Did you look at those ME numbers! But that isn't surprising when her dam can gain weight on air, at least according to Johnny but I usually see her eating grass! Co-owned with Jacobson Red Angus.

Here's a black, red carrier Kodiak daughter that has the look, design and the added maternal rib shape and dimension she needs to developed into a tremendous cow. Her dam has been a great cow for me and never has been a disappointment.

308 is sired by the outcross sire, Entense, and out of a dam going back to some good foundation bloodlines such as No Equal and Hvn or Bust. She should be a calving-ease deluxe. We convinced Harley Moser to get us some semen from the sire and have been impressed with the quality of the calves every time we use him.

If you like your heifers stylish with a lot of growth and great disposition then you better get your hand in the air on this one. She was the feature heifer in our ad in the December ARA Magazine and she would work to throw a halter on and show. Eight traits in the top 25% – apparently Steph wasn't paying attention when this one didn't get cataloged in Lot 3. Here is one heck of a heifer with the phenotype to back up the numbers. If you are looking for a future donor cow, here she is. Lazy J Bar Ranch will retain the right to flush this heifer at our expense and the buyer's convenience – one flush or eight eggs – splitting the eggs after that.

Well, in writing footnotes, John hasn't had much input so far until this heifer. "Oh, I really like her!" Here's another CopperQueen ET calf that has maternal power and growth. You won't have trouble seeing this girl on sale day - she kinda sorts herself out. Co-owned with Jacobson Red Angus.

"Holy Hell!" John says, "Why isn't she in Lot 3." This outcross pedigree has plenty to offer. John says she has so much growth and carcass that she will crap out ribeyes. Personally, I think this genetic gem was a product of the one who sits up at night looking at pedigrees and planning AI matings, however here is your opportunity to take home one of the top heifers in the sale. Retaining one flush or eight eggs on this heifer at our expense and your convenience.

Thanks to Stuart Gilbert, this one has short ears - or at least that is John's excuse. Stu was here looking at cattle the morning she was born and this one didn't get hauled into the warmer soon enough, but those of you that have bought from us before know that John gets his ear brand on a few every year!

Another heifer that we really wanted to put in Lot 3 but then Jerry Kaup would have been horribly disappointed. So just for you, Jerry, we put her later in the sale. I'm pretty sure Jerry has snapped up about every heifer born out of this cow. Growth, maternal, ribeye and that High Capacity 224 depth of body and eye appeal. Alex's words were, "just plain COW POWER."

Here is a really nice, maternally made female that has a tremendous amount of rib shape and dimension - one that I would truly like to keep back as a replacement of my own, but I found out that I actually have to pay back my student loans and college wasn't free. So, here she is - "no disappointments." Heifer owned by Alex Jung.

Circle this one in your catalog! I can't say enough about this awesome heifer right here. I really like her for her easy-fleshing, attractive look and design. A female that has the length, look and power any cattleman can truly admire. Make sure you mark this one. Heifer owned by Alex Jung.

This cow hits a homerun every year with her calves. She is one of our top producers and Kaup seems to know that. A very well-balanced set of EPDs with 50K results to add some accuracy. The only reason that she isn't in Lot 3 is that her dam is going to the donor pen.

Feminine, power and, what I really like about her, is her tremendous depth of body and spring of rib. She will add power to her future progeny.

3114's dam was Steph's pick out of the R.A. Brown sale. John made a terrible amount of fun of me for bringing home this little heifer that wasn't used to the cold northern climate and blah, blah, blah. Well look what she did here. Y7816 (the dam) weighed in at 954 lbs. on weaning day with a calf weaning weight of 696 lb. I'm pretty sure that this cow is going to be a future donor. Oh, and by the way, John really likes this calf so guess mom knows how to pick her cows! If you want a heifer calf that is capable of making your donor pen, here ya go.

A female that has that added width and dimension and maternal sweep from fore rib to flank to give her that cow power look. This cow is owned by Kurtz Cattle Co., Craig Kurtz. Her dam was also run in our pastures and calved during the time we swapped out clean-up bulls that were 100% 1A Red Angus. We should have parentage results by sale day. Look on our website for a supplement sheet.

# BRED HEIFERS

These bred heifers are consigned by Dave Kemen from Minnesota. We wanted to be able to offer some bred heifers in the sale and these heifers fit the bill.

We aren't going to write footnotes for every lot, but these heifers were hand-picked by us and Dave out of all his bred heifers. You are getting the best of the best.

I think as you look through the pedigrees you will be impressed with the calving ease, growth, performance and carcass – well, gosh, the only thing left to impress you is the visual appearance and that won't disappoint you either.

Dave brought these girls to us right after Thanksgiving

so we have had the chance to work through them and can tell you that they have calm dispositions as well.

Due to inclement weather at catalog time, we didn't get a chance to photograph these girls. They will all be on video for you to watch.

Don't hesitate too long to bid on these girls. We have bought heifers from Dave in the past and can attest to the fact that they make great brood cows. If you have any questions on them, please do not hesitate to call us or Dave at the numbers listed in the beginning of the catalog.

See you on sale day!

Dr. Who

If you're looking for a darn good, dark, cherry-red Red Angus steer that will sweep any Red Angus show and take home banners, this is the one. He's got a tremendous amount of muscle, shape and dimension, plus that show steer look to catch any judge's eye. Oh - and the best part - a ton of hair to work with, so if you like to fit, bid on him and, if you're not a clipper or fitter, well we know a pretty good one that will do a great job for ya, so bid. Check out the video on our website or DVAAuction.

## 95 CREAM STEER

LEACHMAN RIGHT TIME  
MISS WIX 6151 OF MC CUMBER

3/4 Red Angus, 1/4 Char (comm)

Oh boy! Another steer is up for grabs and qualifies for Red Angus shows. This steer is out of Jacob's cow Creamy. For some odd reason this cow hits a home run every year no matter what she's bred too. We bred her to Eye Candy last year and she had a sweet little black market heifer we showed and had a lot of fun with. But this cream color steer is just out of one of our herd bulls and is even better than the clubbies. He's stout, big boned and footed and has the look and design to make him an awesome fat steer. Any young exhibitor would love to string this calf around.

*This bull is an excellent individual to start a bull sale. He is an ET calf out of the famous Copper-queen cow family. This herd sire candidate has it all – depth of rib, a big square hip, wide top and plenty of style. He will definitely sire calves that will push down the scales and, if you want to retain females, he will definitely make the right kind. Co-owned with Jacobson Red Angus.*

*This guy has been a stud all summer long. You have to appreciate him for his depth of flank and explosive top. He is patterned much like his sire. His dam boasts an MPPA of 104.6. He ratioed 97 at birth to a 114 at weaning. He is your go-to bull if you're looking for a new one to add to your herd bull battery. You definitely have to appreciate his attitude on photo day – he needed to be pushed around the pen and set into position. He has had this awesome personality since birth.*

*If you are looking for a sire to add pounds and performance, then take a look at this boy. He is a smooth-made, deep-flanked bull with plenty of rib. His sire topped our 2007 bull sale selling to Jerry Kaup. If you don't believe what the 636 calves are like, you just ask Jerry about the tear in his eye the day he had to sell 636. Star G was contending bidder on this calf's sire and will snatch any female out of 636. 317's dam goes back to a foundation Ed Artz female that is also the dam to the Lot 3G heifer. Jerry, you better take a second look at this boy. He may just be better than his daddy.*

3211 is another ET calf out of Copperqueen and Absolute Power, the bull that Rich Red Angus had in Denver. Kurt definitely thinks a lot of the Phyllis cow family and, when you combine that with the power of this calf's dam, you will get maternal power like none other. When you cross Mulberry with New Trend you get unlimited possibilities. He is a full brother to Lot 105. Co-owned with Jacobson Red Angus.

The old man, Mojito, does it again. His calves consistently come home heavier and stouter made than most sire groups. This bull weaned off at 690 lbs. from an 11-year-old cow that has a 6 Milk EPD. His growth numbers are ranked in the top 15%. There is a reason that a cow sticks around here that long and his dam has been a solid producer. He has a full sister that sold to Don Brooks in Texas in last year's sale.

When I first started in the Red Angus breed, I bought several cows from the Sodak program. These cattle are some of the most practical cows in the breed and the people behind them are second to none. This bull is the result of embryos we purchased from Bullis Creek. You will admire this guy for his overall thickness and uniformity. He is a big-topped bull in a moderate frame. His full brother sells as Lot 111.

Well, here is another bull calf out of one of Steph's favorite cows. His dam has been a no-miss cow since the day she bought her. Jerry Kaup usually snaps up the females and bulls out of her so that pretty much speaks for what this calf is. However, last year her heifer was paired in a U-Pick-Em lot along with one of the other cow families that Jerry really likes, so Steph got to finally keep a female out of 2901 as Jerry picked the other one.

Commercial cattleman, take note. If you are looking for a calf that will add some pounds at weaning time, here he is. Don't let those birth numbers scare you off. His dam is a calving-ease cow and when you consider that this calf was probably a good 4-5 inches longer at birth than the others, it easily makes up the difference in pounds. Out of a 10-year-old cow that has produced some of the top-selling bull calves the past few years. These old Artz cows hit some home runs when you add a little bull power to them. You will like him come sale day, especially you, Bruce Hoffman!

This calf will have sire data by sale day. This dam was raised by Steph and sold at one of the state sales to Gary Jacobson. Then we got her back from Gary in one of his female sales. Out of one of Steph's all-time favorite broodcow lines, this girl nursed twin bull calves all summer and still bred back weighing in at 1,495 lbs., and weaning off 1,298 lbs. I will take a cow family like that any day!

This is the bull that caught your eye as a baby. I had told Dan Johnson all spring we had the one to win Denver. As you analyze this bull, you'll appreciate him for his overall thickness and style. He is very correct on his feet and legs. His dam is a super 11-year-old Campbell cow that has raised several high-dollar, productive females. By the way, he is halter broke.

This guy and Lot 116 are embryo brothers owned with Jacobson Red Angus. Gary had them at his place until the middle of October so they got a little later start than the rest of the bulls. These guys will mature in to big, stout herd bulls. If you need to add some hybrid vigor, then take a look at Lots 115 and 116.

# HELPING FELLOW CATTLEMEN

The South Dakota Rancher Relief Fund (RRF) was established on Oct. 8, 2013, by the SD Stockgrowers Association, SD Cattlemen's Association and SD Sheepgrowers Association at the Black Hills Area Community Foundation to provide support and relief assistance to those in the agriculture industry impacted by the blizzard of October 4-7, 2013.

The funds will be administered by the Black Hills Area Community Foundation in cooperation with the founding livestock organizations for the direct benefit of the livestock producers impacted by the devastating early October blizzard. The Black Hills Area Community Foundation is a 501(c)3 nonprofit and will receive 1% of the fund proceeds plus any direct administrative costs associated with the fund.

For more information, visit [www.ranchersrelief.org](http://www.ranchersrelief.org).

*Lazy J Bar Ranch will be auctioning off four semen packages with proceeds going to the Rancher Relief Fund.*

*We will also auction off the ONLY print of this photo from last year's New Year's Eve Extravaganza revealing the identity of the "smiley cowboy!"*

*Please make all checks to the Rancher Relief Fund.*

*JDB Equals Thunder 302N*

*Equals Thunder is a calving-ease sire that puts ton of maternal in his progeny. We have used him and have been more than happy with both the bulls and females he sires. His progeny have been deep bodied and good hiped with plenty of rib shape and dimension, plus they have awesome attitudes. We have used Thunder in a commercial setting as well as breeding him to numerous heifers. I dont think you will be disappointed in this bull wether you are using him on registered cattle or commercial heifers.*

*224 needs to introduction to the registered world of Red Angus. He was our pick from the UBar sale as a 6-year-old selling for \$51,000. His calves continue to top our sales. He sires both bulls and females that are deep bodied with lots of growth without sacrificing milk and maternal. His progeny are stylish and will definitely catch your eye. When videoing for DV Auction, Justin Dikoff can pick out every one of his calves. He says they just have that added punch and eye appeal that grabs your attention. Don't miss out on your chance to get some semen and help out the Ranch Relief Fund.*

# SALE TERMS & CONDITIONS

**TERMS:** Terms of the sale are cash, check, sight draft or other terms agreed to in writing between seller, buyer, and sale manager payable immediately upon conclusion of the sale and before animals will be moved. Sale manager reserves the right to require a certified check as settlement before releasing any cattle.

**PURCHASER'S RISK:** All animals are the owner's risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer.

**BIDDING:** Any disputes or challenges regarding bids or tie bids will be settled by the auctioneer and his decision will be final.

**ANNOUNCEMENTS:** Any errors or changes in information contained in the catalog will be announced from the auction block and such announcements shall take precedence over information contained herein.

**HEALTH:** All animals are eligible for interstate shipment. Interstate health papers prepared by an accredited veterinarian will be furnished on each animal sold. Arrangements for International Shipments should be made with the sale manager prior to the auction. All efforts for the exportation of cattle can be arranged through sale management.

**BREEDING GUARANTEE:** All animals are guaranteed by the seller as outlined in the Red Angus Association of America Code of Ethical Sale Practices. Guarantees will be handled on an individual basis, with credit towards another animal.

**LIABILITIES:** All persons who attend the sale do so at their own risk. The seller and sale manager assume no liability for any accidents that may occur. Neither does the seller or sale manager

assume any liability for loss or injury to livestock due to theft, mysterious disappearance, sickness, improper handling or Act of God. It is to be clearly understood that the sale manager and its representatives act only as a medium between the buyer and seller.

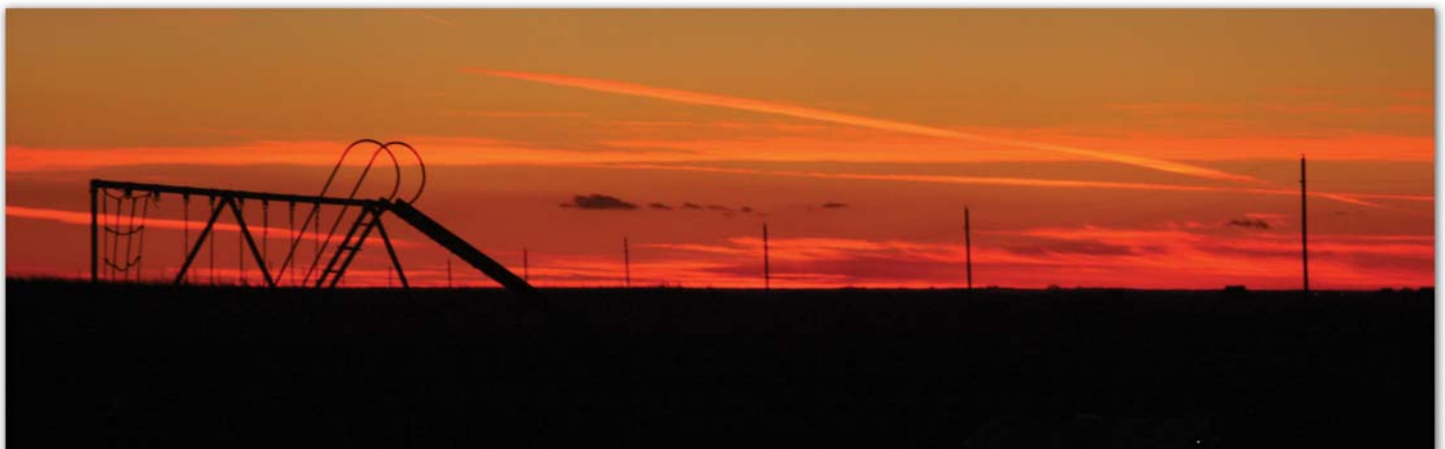

They are not responsible in any way for the failure on the part of the buyer and seller to live up to his obligations or for the truth of any warranties or representation, express or implied. Neither does the sale manager assume any financial obligations to collect or enforce collection of monies between parties. Any legal action, that may in exceptional cases be taken, must be between the buyer and seller. This catalog has been prepared by the Sale Manager from pedigrees and information supplied to them by sources deemed reliable; however, the sale manager will in no way guarantee the pedigree, percentage of the animals selling, or data included in this catalog. Any exceptions taken are between buyer and seller.

**CONTRACT:** The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction.

**MAIL BIDS:** Mail or wire bids may be furnished. Bids must be in the hands of the sale manager in ample time prior to sale date and will be handled in strict confidence.

**PHONE BIDS:** Telephone bids will be taken by the bids will be taken by sale consultants listed on page 1 and will be treated in strict confidence.

**SALE DAY PHONE NUMBERS:** List on page 1.
