“Cream-Off-The-Top-Of-The-Tank” Sale

Majestic Meadows

Welcome,

This embryo and pregnancy offering is a sampling of the finest we have to offer. As we move forward, we intend to continue to use embryo transfer extensively, but this year we got a little carried away – along with the fact that our in-vitro conception far exceeded our expectations. This allows us to part with progeny such as this.

These matings are truly the “cream off the top of the tank.” Our confidence in 50K and continued success in Louisville and Denver has us believing we are on the right track as the beef seedstock industry progresses. When you look at Enamel, LuLu and R227, you can’t help but see tremendous phenotype. But the structure, the longevity, the meat and muscle are what we are striving for. We are trying to produce the same amount of meat or more in 2/3 the time, on half the feed.

We are always searching for the next great piece to this puzzle and we may have found him in Majestic Gran Torino Z40 – time will tell. His dam is represented here. Dameron First Class has cut a wide swath in the black show ring. His semen alone is bringing \$3,000 a unit if you can get it. His progeny is represented here. R227, the dam of Majestic Lightning 717, is in here with embryos by Cowboy Cut.

Feel free to give us a call, shoot a text or email – we’ll try to help you out. But rest assured these eggs are the best we have to offer.

With the passing of the great BJR Windsong 2269, I can't believe we are parting with one of the pregnancies. But with the advent of IVF, it makes it possible to part with one. This heifer-calf pregnancy out of the powerful BJR Windsong 2269 is sired by 3 Aces Sideways, the bull that continues to make spectacular females. A daughter of 2269 recently topped the Missouri state sale at \$14,000, and Allison Steinger selected Lot 5A in our fall to sale to get her off to a spectacular start on her young show career. The Windsong progeny scan great, perform exceptionally well and eye appeal second to none. IVF heifer calf pregnancy due 9/1/13.

IVF heifer eggs: Four eggs with a guarantee of one pregnancy if implanted within one year by certified embryologist.

Lot 5 - When 2269 was stified, the natural reaction was to send her to Trans Ova to create as many heifer eggs as possible. The results were spectacular. We are offering four Grade 2 sexed heifer eggs sired by Majestic Lightning 717 with a guarantee of one pregnancy. If you like heavy cattle, this is your mating. This mating consistently produces "tanks." Lightning daughters are highly sought after and continue to bring top dollar. Keifer's LuLu, the recent Denver champion brought \$20,000 for half interest.

Lot 6 - Same cow, different bull, same process for embryo production. With the success of Sideways in Hutchinson, Kan., last summer, Louisville in the fall and Denver this winter, this mating should be a no brainer. Everything we love about Windsong is only complemented by Sideways - impeccable phenotype, sound structure and calving ease without sacrificing bone or WDA.

Ravishing Doll 669 and Majestic Lightning 717. Whenever the discussion of the best heifer calf ever produced at Majestic Meadows comes up, I have to throw the full sib to this mating in the mix. Doll herself is a granddaughter of a past Louisville champion for the Tiedman Family and by the ever-popular Louisville Champion, Majestic Lightning. This mating is the perfect storm – Laramie front end of Doll with the power and structure of Lightning. We'll have several of these born which makes it possible to part with these IVF eggs.

Five conventionally frozen eggs, guarantee of two pregnancies if implanted within one year by certified embryologist.

Majestic Blockana 716 is a black, red carrier. Just a massive cow that is good footed, has great carcass data and is a maternal sister to Majestic Lightning. We have used her extensively in our export embryo program. She has been a prolific embryo producer. These eggs by LSF High Yield will complement the most discerning carcass trait enthusiast without sacrificing eye appeal. High Yield was produced from the famous Cover Girl family at Ludvigson Stock Farms.

Lot 9 – If you like heavy cattle, this is your mating. This mating consistently produces "tanks." Lightning daughters are highly sought after and continue to bring top dollar. Keifer's LuLu, the recent Denver champion brought \$20,000 for half interest.

Lot 10 – A little different mating here but very much alike. These BJR Windsong 2269 embryos are by the many-time champion and Show Bull of the Year, Lightning McQueen. With just a few heifer calves to sell to date and averaging a shade over \$6,000, I wouldn't want to be the last person to get in on the McQueen heifers. McQueen is stretching them out, and making them dark, deep, long and pretty.

Look at this mating – Whitestone Blockanna X234 and Red Fine Line Mulberry 26P. We probably shouldn't be selling these either, since Mulberry semen is getting scarce and since we recently sold of half interest in X234 to Ty Be Cattle Co. What an exciting mating! X234 is a direct daughter of the famous Feddes Blockanna 807 and by the lightly used LCC Glance. She is one of our greatest and most prolific young donors. If you've ever sold cattle by the pound or on the hook, these are the kind you want. The highly anticipated mating of the high-selling LCOC Firefly UA001 and the beef bull, Majestic Lightning 717. Due to the popularity of embryos, we are selling the choice of our first two live heifer calves. And no, you can't go two times the money and buy both, however you can elect to go two times the money and get half of both. We believe they are very important to the beef industry as we attempt to make more pounds of beef with less input and more quickly on a great foot. Firefly Z110 was our second-high seller in the fall at \$11,500.
