# Thiessen's REGENCY ACRES

Welcome to the 2013 Regency Acres annual production sale.

This sale will mark an end to an era here at Regency Acres. Jim has retired and Jill and I have bought the rest of the herd from him. While he will still be here for advice (wanted or not) it will not be the same without him. I hope he has taught me as much as he can remember but I still have a long ways to go to fill his boots. He has been a great mentor and I really appreciate the last 20 years working with him. Thanks, Dad, and enjoy your "free" time!

This year has been one of ups and downs. The past winter and summer were very dry and it showed in our weaning weights. This winter has been up and down in the temps and moisture. Currently it looks to be a very good start on spring moisture. That translates to good grass and that makes for happy cows. With the dry summer and fall, the bulls had some ground to make up when they hit the feedlot. The average daily gain is slightly lower than it usually is but the bulls look to be in the best breeding condition of any we have offered. This may be the most consistent set of bulls top to bottom we have produced.

Remember we have many years of data and records behind these bulls so if you need any help in picking out your next herd sire or heifer bull, please contact Dad or me and we will be happy to assist you. If you are unable to attend the sale, buy with confidence as we will guarantee satisfaction on the bull(s) we select for you. Once again the sale will be broadcast on the internet via CattleUSA.com. If you have time stop by the ranch and we will be happy to go through the bulls and cows behind them with you. The bulls will be at the ranch until the morning of Thursday, April 11th when we move them to Sidney.

We look forward to seeing you on April 12th.

## When you buy from Regency you get ...

### Guarantee

Regency Acres is providing a first-year breeding season guarantee on all bulls selling for \$2,500 or more. Breeding season is defined as the 90-day period following turnout. All bulls selling for \$2,500 or more will be given 50% of the value of the injured bull – minus any salvage value – in a future sale or toward a replacement bull if one is available. All injured bulls must be diagnosed by a licensed veterinarian. Please notify Regency Acres as soon as possible should injury occur and prior to the injured bull being sold for salvage. **All claims must be made by September 1st.**

#### Example 1:

A \$5,000 bull is injured and can't return to service. Salvage value is \$1,250. A credit of \$2,500-\$1,250=\$1,250 will be given to the buyer.

#### Example 2:

A \$2250 bull is injured and cant return to service. No credit is given and buyer retains all salvage value.

This is NOT a mortality guarantee. Mortality insurance will be available through Bill Pelton and John Goggins, American Insurance Co.

### Genetic Defects

All cattle selling are free of the genetic defects Arthrogyrosis Multiplex (AM), Neuropathic Hydrocephalus (NH) and Contractural Arachnodactyly (CA). For more information on these genetic defects, visit the American Angus Association's website at [www.angus.org](http://www.angus.org).

### Fertility and Physical Exam

Complete breeding soundness exams and semen evaluations have been conducted by Dr. J.J. Hovde of High Plains Veterinary Clinic. Exam reports are available for inspection.

### Free Delivery

Free delivery up to 500 miles on bulls selling for \$2,500 per lot or more, or, a total purchase of \$3,000 or more. All other purchases will be delivered at cost. **Please be able to take delivery at any time following the sale.** A \$100 credit per bull will be given if you take your purchases home with you sale day. If you prefer, we will take your bull home and feed him for free until May 1. After May 1, we will feed the bulls at \$2.50/head/day until you come and get him. Please make it clear what you want done with your new purchase when you settle up at the front desk. Commercial heifers are the responsibility of the buyer as soon as sold.

### Sight-Unseen Purchase Guarantee

### Calving Ease Scores:

- 1 Star – Use on mature cows
- 2 Star – Use on cows three-years-old and older
- 3 Star – Could be used on heifers but be ready to assist
- 4 Star – Very little, if any, assistance should be necessary
- 5 Star – Very easy calving; no assistance should be necessary

## Helpful Hints for Care of Herdbulls ...

Having herd bulls adapt to the environment they will be in is very important to the success of a breeding program. Whenever possible, the bulls should be fed the same type of forage they will eat in the breeding pasture for a minimum of two weeks before turnout. Their rumen operates with little bugs to break down the diet and different forages each have their own little bugs. About two weeks is the time required for the rumen to adjust to a different diet. When a bull is turned out, he isn't thinking much about eat-

ing, so any advantage that you can give him will be beneficial to younger bulls.

Another trick for having a virgin bull ready is what we call "Jump-starting." If you have a cow or a heifer around that is cycling, put the bull with her. If he seems disinterested, put another bull in with the cow for him to observe. This should trigger his brain. When the bull appears interested, let him in and remove the other bull. Make sure a bigger bull doesn't start whipping on him, or that could defeat what you are trying to accomplish. It is rare that this procedure is necessary, but it is good insurance and, once the bull gets a taste of what his job is, he will be ready for those heifers.

When breeding season is finished, a reconditioning program for yearling bulls is good as they change their teeth at 18 to 24 months of age.
