# Welcome ...

to our annual production sale. We have been breeding Red Angus seedstock for over 30 years. Our goal has always been low birth weight, easy-calving, highly maternal cows. We manage our cattle as a herd in a range environment with a “no excuses” rule.

*Alyse, Larry, Jean, Kevin, Alisa and Sallie*

## **SALE DAY SCHEDULE:**

Kevin.....970-222-6094  
Sallie .....970-371-0214  
Myron Edelman.....307-351-6032

We would like to welcome you to the Croissant Red Angus annual production sale. This year we have an excellent set of bulls in the sale. The genetics that are presented here are a culmination of over 25 years of a balanced trait selection with profitability in mind.

This year has been an exciting year in the beef industry. Record high calf prices. According to Cattle Fax and LMIC there is no predicted change in the near future. This is a great time to invest in high quality genetics that will create highly maternal cows with the ability to handle the hardships that Mother Nature can throw at us. Plus, produce calves that will excel in the feedyard and on the rail.

There has been a new exciting opportunity for Red Angus calves recently. Tyson has recognized the quality of Red Angus and has established a new pricing grid that pays premiums for choice, upper 2/3 choice, and prime. Take a look at the end of the catalog for more details on this, or better yet talk with Myron Edelman, Red Angus Director of Breed Growth, while you are at the sale. He would be happy to share the information with you.

As always, we are very honored to work with the great cattlemen and women of our industry. We take our part in providing genetics that will work throughout the beef supply chain very seriously. If you have questions about anything we are always here to help.

Please enjoy the coffee and sweets in the morning. After lunch we will begin the sale at 1 p.m. MDT.

Thank you for the trust and confidence in our program. We look forward to being your partner in the beef industry.

Sincerely,

The Croissant Red Angus Family

*Larry, Jean, Kevin and Sallie*

**Lot 1 and his dam  
this summer**

**OUR GOAL:** Produce functional cattle for our short grass semi-arid environment and provide honest value and service to our customers.

**OUR PROGRAM:** Our program is founded on balanced trait selection using proven sires. We put the emphasis on Carcass, Maintenance, and Reproductive traits including low birth weight and do not chase extreme growth. These traits add value through carcass quality, lower maintenance costs, increased longevity of the females, and reduced labor inputs with the added benefit of the accompanying “convenience traits”. The growth traits do require extra inputs. We focus on fertile, easy handling females with mothering ability.

The cattle presented here are out of cows that are bred to work within our limited resources, producing calves that excel at weaning, perform in the feedyard and add value on the rail. We hold our females to a “no excuses” production criteria. If they can’t raise a calf every year in our environment they are culled from the herd.

**PROGENY EVALUATION:** The Red Angus breed was founded on progeny testing, and we believe in using all the tools available to increase selection accuracy. Calves from our cow herd stay on our ranch and are evaluated to end product, be it seedstock or feeder cattle.

Keeping contemporary groups of significant size is one of the most important aspects of performance testing. We manage our cows to keep large contemporary groups. We use this large group data to select our replacements and bull candidates. After weaning, the groups are split into seedstock and feeder groups. The seedstock groups are evaluated with yearling weights, growth measurements, and ultrasound. The feeders all get yearling weights taken and the real carcass data is identified back to both the sire and dam. All the bulls in the sale have had the RA50K, which produces the genomically enhanced EPDs. This improves the genetic predictability of the bulls and cow herd.

**Check our website for the videos and color pictures.**

***CroissantRedAngus.com***

**DEVELOPMENT PROGRAM:** The bulls were developed on the ranch. After weaning the bulls are grazed out on pasture for a month and then fed a high quality roughage ration with a vitamin-mineral supplement to gain 3.25 lb/day on average. The bulls are kept in a large dry pen, which gives plenty of exercise. We do not target 1300 or 1400 lb yearling weights. The development program is designed for the bulls to make their own way on the range and hold up to the rigors of their first breeding season.

**NO BULLS HAVE BEEN PRE-SOLD OR HELD BACK.**

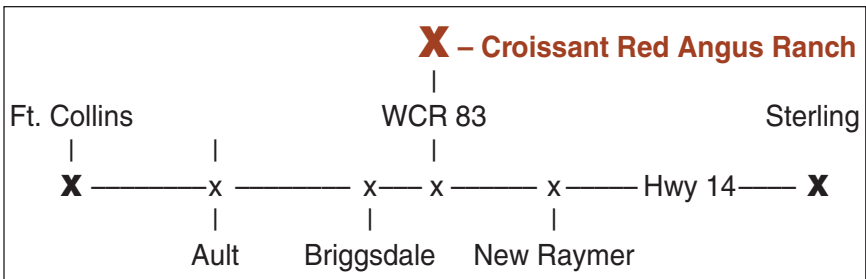

If you are in the market for Red Angus Bulls, we provide an exceptional value for a high quality product.

You are welcome to come and evaluate our cattle prior to the sale. This allows more time for us to assist you with your selections. If you can't make the sale, we can be reached at the numbers below and will be live on the internet at CATTLEINMOTION.com. All bulls sold on the phone or internet come with a sight unseen guarantee.

**YOU ARE WELCOME ANYTIME!**

Your trust & confidence in our cattle, our program, and us is appreciated and taken with the utmost sincerity. *Larry & Jean – Kevin & Sallie*

**RANCH DIRECTIONS:** We are located halfway between Sterling & Ft. Collins on Highway 14, then 5 miles north on Weld County Road 83. We have a sign pointing north at road 83's intersection with Highway 14.

**INTERNET VIEWING & BIDDING at CattleInMotion.com**

**HEALTH:** The cow herd is vaccinated at Prebreeding time with PregGuard Gold FP 10. Precalving vaccinations are Vision 7, Clostridium Type A, Scour Bos 9, plus parasite control.

The heifers have had their branding, preconditioning, and weaning shots of 5 way BRD, Pasteurella, 7 -way Somnus, and a parasite control. They have had their Bangs vaccination, StayBred VL5, plus a Prebreeding exam & PregGuard Gold 10 FP. They are ready to breed!

Bulls are given the same calthood vaccinations as the heifers, and recently a StayBred VL5. Dr. Shoemaker will Fertility Test all bulls and the results will be provided for each bull sold.

### **THEY ARE GUARANTEED BREEDERS & READY TO WORK!**

**CATALOG INFORMATION:** All EPDs, including carcass, have been updated to reflect the latest performance data including Ultrasound and **50K DNA GENOMIC PANELS**. Percentile rankings are listed below the EPD table. The measurement data with their in-herd performance ratios are listed in a table just to the right of the pedigree. Scrotal measurements will be on a supplement sheet available sale day and posted on our website as soon as fertility testing is completed.

We present all the data on all the bulls to make your selection easier and more complete!

Sale day announcements will take precedence over the catalog information.

Extended pedigrees can be seen on the Red Angus website (RedAngus.org). Enter the Reg. # in the table accessed by the “Animal Search” button.

**SELECTION:** We do supply all the raw measurement data and in-herd performance ratios; but when making your selections, more reliance should be put on the EPDs. The EPDs have already factored in each animal’s performance ratios, including the carcass ultrasound data, and 50K panels. To aid in your interpretation and application of the RAAA EPDs, the Red Angus Association has published “Ranchers Guide to EPDs.” You can get a brochure by calling the Association (940-387-3502). This is an excellent source of information and is worth requesting a copy. Of course we will help you interpret any of the information in this catalog.

## **SALE TERMS:**

- Animals are unconditionally guaranteed to be sound and to be breeders for the first breeding season. Bulls are guaranteed to have libido and heifers are guaranteed to cycle. We do not guarantee against injury or illness.
- Each animal will be at the buyer's risk as soon as sold, but will be cared for by the seller for a reasonable time after the sale. Animals need to be picked up by **April 15th**.
- The bulls and heifers will have passed a Breeding Soundness exam before sale day.
- Free delivery of bulls for the first 250 miles. After 250 miles delivery will be charged at cost. Deliveries will be scheduled as soon after the sale as possible. We do not offer free delivery on heifers but will work with the buyer to arrange delivery if needed.
- **A \$50 credit will be given to purchasers who pick up their bulls by April 15th.**
- A \$50 credit will be given to purchasers of multiple bulls.
- We will be retaining a 1/3 interest in bulls we designate or wish to collect and use in our herd. They will be noted in this catalog. Semen collection is at buyer's convenience. **Buyer has full possession & full salvage value.**
- Registration papers will be transferred to the buyer which provides eligibility for the **RAAA FCCP**.
- Announcements from sale block take precedence over printed catalog.

## **SALE PROCEDURES:**

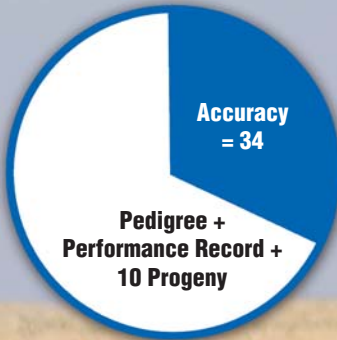

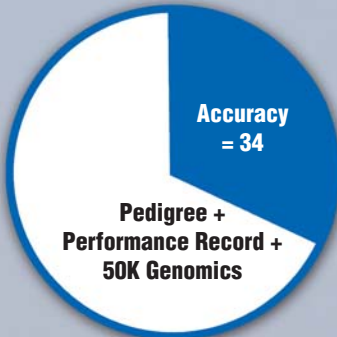

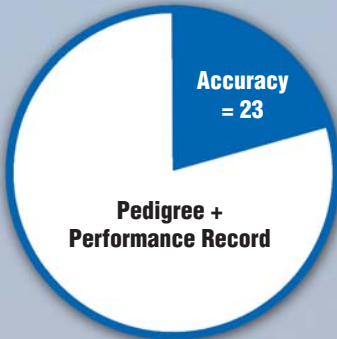

- Animals are **always** available for inspection at the ranch.
- Bulls & heifers will be penned in small groups on sale day.
- The **opening bid** is listed with each lot in this catalog. This is not a private treaty price if the bull does not sell on sale day.
- Each animal will sell in catalog order in a video setting, rather than through a sale ring.
- We will keep a low-pressure, country pace.
- Bids will be accepted:
  - Live at the auction.
    - On one of the sale day phones.
  - On the Internet at **CIMauctions.com** with no buyer's fee.
  - Call Larry or Kevin for help and to leave sight unseen bids.
  - All bids will be handled in strict confidence and be treated as if you were present.
- **Absentee bidders please register before sale day!**

## THE POWER OF 50K

### ACCURACY

EPDs predict an animal's true genetic merit which can be passed on to offspring. As the amount of data included in an animal's EPD calculation increases, ranchers can have more confidence that the

EPD correctly identifies the animal's true genetic merit. This is communicated to stakeholders in the form of "Accuracy", which is printed in conjunction with each EPD and ranges from 0 to 99.

### INCREASED DATA = INCREASED ACCURACY = INCREASED RELIABILITY

The power of 50K is the ability to collect additional genetic prediction data before an animal is selected to enter or exit the herd. Thus allowing producers to achieve their genetic goals at a faster rate, as the genetic predictions used in selection decisions are of higher accuracy.

**CALVING EASE:** **HERD SIRE!** A bull with great body mass, capacity, thickness, and a lot of style. He stood out from day 1. He then did everything right from birth thru ultrasound. His proven mother has established herself in our herd with a 106 MPPA. Maybe the best thing about this herd sire candidate is his full sister and his half-sisters in our first calf heifers. Exceptional udders with good feet & legs plus they act like good mothers. **Retaining 1/3 semen interest.**

# Pro♀-Cow

## 35 PRO-COW OPEN HEIFERS

These are an excellent set of replacement heifers with built in heterosis and ready to go to work for you. They come from long time Croissant Red Angus customers. The heifers come from well managed programs with a focus on cowherd building traits without jeopardizing carcass merit. We have had the pleasure to feed calves from these operations over the years and **they are top quality**.

**We will be selling them in groups of 5 with buyer's option on more. They will be sold as gate cut.**

**These are outstanding heifers, so do not miss out on the opportunity to increase the genetic merit in your herd.**

A grandson of Nebula P707 on both sides. Our ranch name for him is "NEXUS." His calves exhibit great muscle expression, strong tops and deep chests. His first wet heifers are moderate with good structure. They have very nice level udders with small teats and look to be good mothers. An all around herd sire for our program!
