WELCOME

Wow! What a year it has been to be in the cattle business. We are seeing historical prices, but mostly I just feel blessed. Blessed to be in the business that we can have so many people we call friends and Red Angus family. Blessed to be able to wake up in the morning, drink my coffee and watch God's creation in a brand new day. When is the last time you took time, I mean really literally took a few moments to just let it all soak in. The actual beauty in a sunrise or sunset. How about the sounds of nature on a still day. Listen to the cows waking up, making noises while they eat or moo to each another. What about the thundering hooves of the horses as they come running up the lane to drink at the water trough? The sounds of the birds. What about the smell of a spring rain? What about just pure and simple quiet? Yes, again I say we are blessed to be able to live the life we do where all of our family's livelihood is based in the livestock industry. We are a true family-run ranch with John and myself doing the brunt of the work and the kids helping out when school and time allows. We truly understand every aspect of this business and don't take any of it for granted, especially you, our friends and customers.

Now that we have you thinking about how lucky you are, we invite you to spend New Year's Eve with us. Take a part of a day, come look over the cattle and then help us "ring in the new year." I am pretty sure you will find something you like. It took us a little while this year to pick out our favorites. For one, the calves are about on average twelve days younger than previous years and second they are a more uniform set of calves. Third of all we have been so busy that we didn't really take the time to really study them. As

I sit and look at the heifers I pick more favorites every day, and don't get me started on the bull calves. I am starting to think we should buy more cows and use a bunch of these guys ourselves.

The sale will be held at the Ramada (by the Hitchin' Post) in Aberdeen via video. The cattle will be sorted up in the display pens on Dec. 30 and 31. You are more than welcome to stop any time before and view the cattle, just give us a phone call. If you are flying into Aberdeen and need assistance or transportation to the ranch, please call. We suggest that if you are interested in bidding on cattle that you pick out a couple alternate lots as the cattle will be located 20 miles from the hotel site.

We cannot stress enough that this IS a FAMILY event so please, bring your spouse and children. The hotel has a pool and what kids don't love to dance? We like to travel with our kids and want you to feel comfortable doing the same if you so choose.

We know how crazy and hectic everyone's schedules are this time of year so if you need assistance with purchasing cattle please give us a call, watch the video, bid on DV Auction or call one of the sale consultants or auctioneer.

Hope to see you in a few weeks and have a very Merry Christmas!

Steph and the rest of the Lazy J Bar Ranch crew – John, Alex, Brooke, Kale and Jacob

Watch & bid online for FREE at **DVAuction**
Broadcasting Real-Time Auctions

**View the Auction Live!
Bid Online... you're ringside
right at your desk!**

Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make your purchases!

High speed internet is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

DEVELOPMENT, VACCINATION RECORD AND DELIVERY ARRANGEMENTS

The bulls, heifers and steers were pasture weaned Sept. 13th on an AccuRation/corn mix and grass. They stayed at the ranch until October 16th when we brought them home and put them on a TMR ration consisting of ground hay, corn silage, earlage and a liquid protein/rumensin supplement. All the calves have been vaccinated starting at birth, again at grass turnout, weaning and post weaning and poured/dewormed. Vaccinations include 7-way clostridial, IBR, BVD, PI3, BRSV, mycoplasma, haemophilus somnus, pastuerellas. If you would like specific details on products please give one of us a call. The bull calves were weighed on September 13th and again on Dec. 5th. The average weight on Dec. 5, 2014 was 874 pounds with an average gain of 3.25 lbs. per day since weaning.

The bull calves will be sold as guaranteed breeders according to the sale terms and conditions of the RAAA. We will keep bulls free of charge until March 1, 2015 at which time they will be semen checked and need to be picked up or delivered. You can arrange to have the bulls fed at \$4.00 per day until April 1, 2015 at which time you need to come pick them up as we need pen space for cow/calf pairs. The two herd bulls sold in the sale will need to be picked up or delivered by Jan 3, 2015

The heifer calves have been brucellosis vaccinated and will be sold as guaranteed breeders according to the sale terms and conditions of RAAA. Females need to be picked up or delivered by Jan. 3, 2015.

Bred Cows will be pregnancy checked again prior to the sale. They are brucellosis vaccinated and on the same herd health program as the heifer calves.

Load out on females and herd bulls will start at 8:30 a.m. Jan 1st. Deliveries will be coordinated at the least possible cost to the buyer. We will charge whatever it costs us to deliver from our place to wherever we meet you. If you are not hauling your own cattle we will collect trucking fees at time of delivery.

All animals will be handled at the buyer's risk. We highly recommend insuring your purchases.

Lazy J Bar Ranch will reserve the right to retain 25% semen interest on all of the bulls offered in this sale.

OPEN HEIFER CHOICE LOTS

Welcome to the Lazy J Bar Ranch sale offering. If you were here for last year's sale then you know the story about the "Compromise Pen" if not then let me tell you how it came to be.

John has always offered every heifer calf born for sale and Steph grew up raising her own replacement heifers so after a few years of trying to decide what to do we came up with the "Compromise Pen" idea. We had a pen of heifers that we wanted to keep but offered them in the sale with a starting bid of \$12,000. Kyle had strict orders to ask for that amount and quickly move on – hopefully before anyone decided they wanted them for that price.

Well, let's just say that with today's prices I am not sure what price we would put on a pen of keepers so they will not be offered. There are seven head of registered Red Angus females that we raised that will not be for sale this year. I will be more than happy to show them to you on sale day so you can see that you are still offered plenty of quality heifers in the sale. We kept one that had foot rot, one that is a June calf, one that lost her mother, one Jacob showed at the fair, two out of Copperqueen and one out of the Bonnebelle cow. We just wanted you to be aware that ALL the heifers aren't offered but I will be glad to show those seven head to you sale day.

We felt that we needed to keep some of the females from

our flush cows and by "we" it's all Steph. The time has come that we need to move some older cattle and need replacements for them. We make our living strictly from the livestock industry so sometimes we have to do what is right for our own operation whether John likes it or not!

Buy with confidence that you are getting to see the good, the bad and the not-as-good-as-the-rest-of-our-herd heifers. We realize there are some heifers that you may not like and we are fine with that. You get to see it all.

The first four heifers (Lots 1A, 1B, 1C and 1D) will sell as a choice lot. The winning bidder will be able to choose one heifer and the other three head will reside here at the ranch. Kyle Gilchrist, pay close attention there will not be a here-after story on these lots. Steph has made the decision that we are keeping some heifers and there is no changing her mind.

We wanted to keep some heifers out of Performance so I picked some of our top-producing cow families and bloodlines that have stood the test of time in our operation. In fact, the first time that I really checked the EPDs on these heifers was when we started to write footnotes. You can rest assured that whatever the numbers tell you, these females will perform for you. We will retain the right to flush or IVF the female that you buy at our expense and your convenience.

Ms Brier 494 is out of one of John's all-time favorite cow lines, the Soffi 122 family. Jerry Kaup seems to end up bidding on almost all of her progeny, bull or females. If you don't know Jerry well then you need to come to our sale and get acquainted with him. He buys some of our top heifers every year and has been doing so since 2002. If you are looking for a heifer that has a great birth-to-yearling spread with plenty of carcass to back it up in a moderate package that you can take home and mate any way you want, then you best be putting your hand in the air and bidding on her. If you would like mating options we would be more than glad to give you some ideas.

Here is the lot where Steph starts getting nervous that you will pick one of her favorite cow families. 4126's dam boasts a 109.3 MPPA. If you want cow power and performance, then here is your heifer. Don't pay any attention to that BW EPD as we assist less than 0.5 percent of our births all year including first-calf heifers. When you stack this much cow power into a calf you will get a little more birth weight but in this cold climate we like those calves in that 85-lb. range on up. Can I write more negative comments to keep you away from this lot? Hmmm! I am a little disappointed that she is in the sale but you know we offer up our heifers for you to take advantage of.

Ms Brett 4131 is a maternal sister to the heifer that Kale showed all last summer that was one of the heifers in the "Compromise Pen" that we offered and no one had the chance to think twice and bid on and Steph has been happy about keeping those heifers all year! There is plenty of power behind this April-born heifer and judging from past calves out of her dam, you won't be disappointed if you take her home sale day.

Good luck choosing which one of these four girls. 4144's dam has sold sale toppers in our sale every year since we bought her from Milk Creek Reds. This calf has one of the highest WW and YW EPDs in the sale. I said these females were sired by Performance but it doesn't take you long to figure out that we love performance-type cattle. Who would have thought that a breed that used to be only known for calving ease could be filled with so much power and performance?!?! That's one of the many reasons that I chose to raise Red Angus cattle 25 years ago.

BULL MORTALITY *and* LOSS OF USE INSURANCE

**Insurance Coverage
Underwritten By:**
Aegis Security Insurance Company
PO Box 3153, Harrisburg, PA 17105-3153
A.M. Best Rating: A VI

Option 1: Bull Mortality and Loss of Use Coverage

Values: Bulls valued up to \$25,000, not to exceed purchase price.

Term: One Year Policy Term

Premium: 12% of the Purchase Price
Premium Fully Earned
\$150 Minimum Premium Per Animal

Testing: All bulls must be tested, certified and listed in the official catalog of a herd sale.

OPEN SIMANGUS HEIFER CHOICE LOTS

We will be selling choice of two out of these six heifers. Yes, we know that they are black and they are half Simmental/ half Angus but, like we have said before, we like performance cattle. These heifers are packed with performance. This cow was the only Black Angus that Steph ever owned. She bought her for her brother to show in 1998. The dam to these heifers just passed away last spring at the ripe old age of 17. We flushed her at the age of 15 and got all these embryos out of her and, WOW! Did they work. The dam

has been a no-miss dam and is a Pathfinder. Her calves in recent years have been retained in our herd as black red carriers. The Upgrade bull needs no introduction in the Simmental world. If you like functional, deep-bodied, broody, good-footed, big-boned cattle, then you better check these Lot 2s out! Kyle Gilchrist, there is no here-after story on these either, just because they are black hided doesn't mean that Steph is changing her mind and letting more than two of these leave the place!

Seriously, John ought to have his head examined for ever wanting to put this ET heifer in the sale offering. She has been a standout since birth and anyone who stops to look over the cattle has put her on their favorite list. She is a deep-bodied, big-boned, good-footed heifer with brood cow written all over her – and carcass numbers to boot. Her dam was a class winner in Denver in 2006. Enough said. Watch the video, look at the picture, come to the sale and fall in love with her! We will retain the right to flush/IVF this heifer at our expense and the buyer's convenience.

119	51	4	3.1	93	152	16	-2	12	4	11	0.42	0.18	65	0.20	-0.01
32%	28%	46%	99%	1%	1%	77%	28%	18%	56%	40%	51%	97%	1%	31%	20%

This heifer has been on my short list of good ones (if you like performance-type cattle) since day one! Her dam has a MPPA of 109.4. Her dam had twins as a first-calf heifer, came back and stuck A.I. the next year, and now put this bell ringer on the ground this year. Did you see the growth this heifer has with WW and YW in the top 1% while Maintenance Energy is at a -2? At the time of writing

ing footnotes (11-30-14) there were only 12 non-parent females in the RAAA registry that have a 92 or higher WW combined with a 152 or higher YW. If you narrow the search to find non-parent females with those WW and YW in addition to the ME, MARB and REA numbers, there are currently only five head total and if you search active dams with those parameters you return only four cows in the entire registry with that much growth and at least this much carcass. So she has a 3.1 BW EPD – big deal. The more I look at her numbers, you might be lucky if she is still in the sale pen come sale day. We will retain the right to flush/IVF this heifer at our expense and the buyer's convenience.

If you did your homework after the footnotes on the last lot, then you will have noticed that one of those 12 non-parent females goes back to this Bonnebelles cow family and the dam of this heifer boasts a 112.0 MPPA. Her dam was a solid producer for powerful, good milking daughters. I think to date we have raised more bull calves out of 289 than females but good commercial cattlemen

like Peter Franck didn't pass up a bull out of her dam. If you are looking for a heifer that has a balanced set of EPDs, the look of a cow maker and the ability to produce herd bulls then look no further – 4218 is your girl.

An ET calf that is a full sibling to our herd bull, High Voltage 003. He has put some really great looking, balanced bulls and females on the ground. This heifer will be a great addition to anyone's herd and out of a now deceased dam with a 106.5 MPPA. This will be the last of the direct offering 3002 calves, so if you want a pedigree that will just plain work for you then here she is. I would mate this heifer to our Performance 2772Z bull.

Here is a heifer owned by Kale. He should probably be keeping her to compete in the Bred-And-Owned Female Division at NAJRAE in Grand Island, Neb., next summer, but just like all other good cattlemen he has cattle loans to pay off yet (actually it is for 402's dam). His loss will be your gain. I would bet some of you may have been hesitant on the last lot's footnotes when I wrote to mate that heifer? Seven traits in the top 25% and a dam with a 104.0 MPPA along with the fact that this heifer calf's great grandmother is none other than Copperqueen 2657 and great grandsire is High Capacity 224. Ms Butterfly 402 has brood cow potential written all over her. Kale will reserve the right to flush/IVF this heifer at his cost and the buyer's convenience.

heifer to Performance 2772Z. Well that is exactly what we did in this mating. Her dam was Kale's show heifer in 2013 and we decided to try mating her to this sire. Have you looked at this dark cherry red

Your last chance to get a full sibling to our herd sire, High Voltage 003. Their dam was a mainstay here at the ranch and the only reason that both these ET heifers were offered is that Steph kept the natural-born heifer out of this dam. The 3002 cow goes back to that good old Ed Artz breeding where you knew that you were going to get functional, broody, good-footed cows with awesome dispositions and mothering ability.

PICK OF JERRY KAUP'S OPEN HEIFERS

Jerry Kaup's bred heifers

16

Well this has taken some talking and convincing to get Jerry to put a pick of his heifers in the sale. Jerry has been buying females from us since 2002.

He isn't afraid to spend the money on heifers or herd bulls even if they will only be raising commercial heifers for his own use. If you want to see a whale of a set of cattle then let's drive to Hoven, S.D., and take a look. He was supposed to be one of our cooperator herds, however getting him to part with his heifers is just as hard as getting Kurt and Jane Rich at Rich Red Angus in Iowa to part with one of their heifers. Sometimes you call those sorts of people hoarders but in this case it is a good thing because if I had that option to not sell the females, I wouldn't either.

There will be a handful of heifers on display at the Lazy J Bar Ranch on December 30 & 31st. In the meantime if you would like to go through Jerry's herd, give us a call and we will line it up for you.

If you need someone's opinion about the cattle, give Kyle Gilchrist a call. He has seen what Jerry buys and has been through his females. Buy with confidence!

This heifer is sired by the Highlight bull we raised and sold to Jordan Rhodes of Faulkton, S.D. Jordan has been so impressed with her sire. He can't say enough about her sire and how he puts functional bulls and females on the ground. This heifer was one of his favorites when he stopped here to look at sale cattle. Of course, when I look at her pedigree and the Ed Artz breeding and High Capacity 224 show up, I could probably breed a goat to it and get a good heifer!

OPEN HEIFERS

Fitting the Reserve Champion heifer at the SD State Fair.

crop every year, but things are slowly changing and this pedigree is double bred Ed Artz on the bottom side. If you didn't know him that may not mean much, but to me it means that this dam will be a top producer for year's to come. Sired by the Gold Trust bull, you will have an efficient solid cow producer.

Another Gold Trust heifer calf off from a first-calf heifer. This pedigree and heifer will go to work for you with some of the foundation seedstock behind it. We finally decided to flush her great granddam - for the first time at 13 years old - to Performance 2772Z this spring and are anxiously waiting to see what we get from that mating.

This calf's dam is one of Jacob's favorite cows. He calls her dam "Snoofer" because she was always following them around at tagging time and sniffing on Jacob's arm. It is fun to watch how a 6-year-old can pick a red cow out of a herd and know which one it is without ever looking at a tag, or when you say the number then he knows what he called her. Another calf sired by the Highlight bull sold to Jordan Rhodes. Her paternal granddam has awesome udder structure as an 11-year-old cow.

I will be excited to see how this heifer grows out and what she will do in your herd. Sired by Performance and with the set of EPDs she has, she will make a great brood cow. Don't let her milk numbers scare you off. Her dam has always had more than enough milk. One of our top cows has a low EPD on milk and she has raised top herd bulls and females in the past and she is 11 years old and still here so sometimes the history outweighs the numbers.

One of the Performance heifers that I hate to part with. Really wanted to have her in the Performance choice pen but when we started looking at cow families I decided to let her go. Not because they aren't good but because we have numerous cattle that trace back to her granddam in the herd already. That doesn't mean that it still doesn't hurt to watch her leave!

Not sure why she isn't being kept in the keeper pen. Her dam has raised awesome females. She has been a solid producer even at 12 years of age. I guess I can always go to Jerry Kaup's and buy one of the many maternal sibs he has stacked up.

This little April heifer gets better and better every day. She was originally in the Performance keeper pen but since we still have her mother I knew I could make more of them. Her cow is doing a super job of raising babies and has a 110.9 MPPA. Ten traits in the top 25% and eye appeal as well. You guessed it – we are retaining the right to flush/IVF this heifer at our expense and the buyer's convenience.

The artist

BRED COWS

We are offering the following bred cows out of our herd. The older cows are being offered simply because they are getting up there in age and we thought they could still be of benefit to you. They have stayed here this long because they are solid producers. The others that are offered are simply out of our calving window. We had a bull get hurt in pasture a couple years ago and ended up with quite a few April and May calvers. If you have visited our place you realize that this flat land and spring snow/rain create mud that makes it very hard to deal with. We would rather calve when it is cold than when we have mud up to our knees, which I know also means we have moisture for grass and we are thankful for that. Some of the cows caught back up to our calving window but a few of these did not. We are offering them to you and hope that you will be as impressed with them that we are.

Purchased from the Ed Olson family for \$21,000 a few years ago. Gold Trust has done a tremendous job for us and is an easy keeper. We bought him to use on heifers and as you can see he is too heavy for that job now. We have used him on cows but retained some of his daughters so thought we would offer him for sale. We have been pleased with his calves and think you will be

too! These bulls will be semen and Trich tested by sale day, and ready to go home with you after the sale. We can feed them until March 1st for a \$4-per-day feed charge until they are picked up.

Pursuance – a name so fitting for this bull. Since they day we bought Performance I couldn't wait to see the progeny of him and Copperqueen. He was the only embryo calf we got and boy, is he a dandy. Phenotypically and on paper this bull is pretty darn good. We brought him in to show him so he didn't get any creep feed during the summer. He was fed a grain mix until October then put on a TMR. He was Reserve Red Angus Calf Champion at our State Fair and was Champion Red Angus Bull at the Brown County Fair and the Western Junior Livestock Show. Brad Arrowsmith even had to look twice at him this summer. Copperqueen never lets us down and if we didn't own the sire, I think this guy may just be in our herd bull line up.

This tank will start off the black division. He is a massive herd bull for any operation. He is a black red carrier, halfblood Simmental out of the famed CopperQueen cow family. If you want to start using a little outcross Simmental or if you already use SimAngus bulls, don't miss the opportunity to buy this guy. He will move your program forward with his good REA numbers, milk and growth. Selling calves by the pound will be fun in a couple years when selling this guy's calves. Heck, we may even buy a commercial set of cattle just to use him ourselves. Co-Owned with Gary Jacobson.

Here is a prospect that will add extra length and style to a calf crop. He has a super hair coat for our cold Dakota winters. His dam got sick during the summer and his weaning weight suffered a little, but he sure has made up for it. Owned by Kale.

Watch the video of the sale lots at www.lazyjbarranch.com

SALE TERMS & CONDITIONS

TERMS: Terms of the sale are cash, check, sight draft or other terms agreed to in writing between seller, buyer, and sale manager payable immediately upon conclusion of the sale and before animals will be moved. Sale manager reserves the right to require a certified check as settlement before releasing any cattle.

PURCHASER'S RISK: All animals are the owner's risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer.

BIDDING: Any disputes or challenges regarding bids or tie bids will be settled by the auctioneer and his decision will be final.

ANNOUNCEMENTS: Any errors or changes in information contained in the catalog will be announced from the auction block and such announcements shall take precedence over information contained herein.

HEALTH: All animals are eligible for interstate shipment. Interstate health papers prepared by an accredited veterinarian will be furnished on each animal sold. Arrangements for International Shipments should be made with the sale manager prior to the auction. All efforts for the exportation of cattle can be arranged through sale management.

BREEDING GUARANTEE: All animals are guaranteed by the seller as outlined in the Red Angus Association of America Code of Ethical Sale Practices. Guarantees will be handled on an individual basis, with credit towards another animal.

LIABILITIES: All persons who attend the sale do so at their own risk. The seller and sale manager assume no liability for any accidents that may occur. Neither does the seller or sale manager

assume any liability for loss or injury to livestock due to theft, mysterious disappearance, sickness, improper handling or Act of God. It is to be clearly understood that the sale manager and its representatives act only as a medium between the buyer and seller.

They are not responsible in any way for the failure on the part of the buyer and seller to live up to his obligations or for the truth of any warranties or representation, express or implied. Neither does the sale manager assume any financial obligations to collect or enforce collection of monies between parties. Any legal action, that may in exceptional cases be taken, must be between the buyer and seller. This catalog has been prepared by the Sale Manager from pedigrees and information supplied to them by sources deemed reliable; however, the sale manager will in no way guarantee the pedigree, percentage of the animals selling, or data included in this catalog. Any exceptions taken are between buyer and seller.

CONTRACT: The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction.

MAIL BIDS: Mail or wire bids may be furnished. Bids must be in the hands of the sale manager in ample time prior to sale date and will be handled in strict confidence.

PHONE BIDS: Telephone bids will be taken by the bids will be taken by sale consultants listed on page 1 and will be treated in strict confidence.

SALE DAY PHONE NUMBERS: Listed on page 1.
