# Welcome

Welcome!

We would like to take this opportunity to Thank You for your interest in our program and taking the time to look at this catalog. We welcome you to view the information that we have assembled through this catalog as well as additional material on our website such as videos of the bulls and carcass ultrasound information. The additional information was not available at the time that this catalog was printed so we are attempting to get that information to you as easy as possible. We want to make any information that will help you in your selection of genetics available to you.

We are so thankful for the 2012 drought ending in the middle of May of this past year. When it ended the Lord made up for the lack of moisture in 2012 with an abundance of moisture that fell from May through October. Grass continued growing and regrew through September and October which is far from normal in Eastern Montana. That late green grass added to the performance of the cattle which shows how much environment determines weaning weights from year to year on the same ranch.

Seldom do good grass years combine with good market years but in 2013 we were able to see records in both areas. Most people would have never believed that Red Angus heifer calves would be bringing more money than what bred heifers were selling for five years ago. The demand for quality cattle is still growing but it seems that the demand for Red Angus cattle is exceeding the average. As we look ahead the future appears to be bright for the cattle industry given the national cattle inventory and the regional weather related challenges preventing producers from rebuilding the nation's herd.

We are always searching to find new genetics to bring into our herd through AI and natural service. Finding genetics that work in our environment and the way that we run our cattle is not always easy. Sometimes the next new genetics that are highly publicized won't work in a setting where the nutritional requirements are challenged but wading through what is available and trying to determine what will work provides that extra spice in life that keeps you getting up and putting your boots on every morning.

We are continuing to help our commercial customers by connecting buyers and sellers together when it comes to marketing feeder calves, open heifers and bred females. The Montana Red Angus Association began an effort to put together a state wide commercial Red Angus female sale in 2013. Weather hindered our efforts somewhat but we are going to move forward with trying to make it better in 2014. Special Feeder calf sales through video auction and live auction is still providing marketing avenues for many commercial Red Angus producers which are sponsored by both our national and Montana Red Angus Associations. The Red Angus Stockyards is a free cattle listing service provided on the national associations website which provides marketing opportunities for both purebred and commercial cattle.

We look forward to visiting with you in the future about your operation and how Red Angus can begin or continue to keep your operation profitable. If you have any questions feel free to contact us.

God Bless You!  
Milk Creek Reds

# Sale Information

## Milk Creek Reds Bull Sale

### Saturday, March 15, 2014

1 p.m. MDT • Milk Creek Reds Ranch • Plevna, MT

Selling:

## 79 Yearling Red Angus Bulls

### SALE DAY LUNCH:

Complimentary lunch and pie will be served at 11:30 a.m.

### SALE LOCATION:

At the Ranch (see map on page 2 for directions)  
2093 Plevna Road South, Plevna, Mont. .... 406-778-3819

### CATTLE VIEWING:

The bulls can be viewed at Bruce & Eric Bowman's feedlot 1 mile south of Rhame, N.D., until March 12th. After this time the bulls will be at the ranch.

### SALE VIDEO

The video of the sale cattle will be available to view at [www.milkcreekreds.com](http://www.milkcreekreds.com) or [www.billpelton.com](http://www.billpelton.com) by March 1, 2014. If you don't have high speed internet or are unable to view the video over the internet contact us for a DVD on the sale cattle.

### SALE FORMAT:

Once again we will be offering the bulls through a rancher's auction. We will have an auctioneer that will auction the sale in a relaxed atmosphere. Each interested buyer will be able to bid on the bull of their choice with low pressure and the ability to be comfortable.

### PHONE ORDERS

Buyers unable to attend the sale may call or send their bids to the owners, Bruce or Tena Ketchum. If you would like to discuss the sale offering, call us and describe your needs and budget and we can select your genetics for you. We can bid on the animal for you and you pay only the bid price established by the auction. Bids are handled in confidence on all orders. If there are several people needing to use this method for the sale we will set up a conference call for you to call into during the sale. Please call a few days in advance if this is needed so that we may set this up and get you the necessary phone number and information ahead of sale time.

### SALE CONTACTS:

**Milk Creek Reds**  
Bruce and Tena Ketchum ..... 406-778-3819 (Home)  
406-978-3819 (Cell)

**Auctioneer:**  
Scott Weishaar ..... 701-872-5299

**Sale Day Video:**  
Bill Pelton Livestock ..... 406-671-5100 (cell)

**DV Auction:**  
Tami McIntosh ..... 308-870-3661

### AIR TRANSPORTATION

Billings, Mont. .... 230 miles  
Rapid City, S.D. .... 190 Miles  
Bismark, N.D. .... 230 miles

### LIABILITY

All persons who attend the sale or view the cattle do so at their own risk. The owners assume no liability, legal or otherwise, for any accidents that occur on the sale or viewing premises.

### ACCOMODATIONS:

#### Baker, Mont.

(If planning to stay please reserve early as the oil field activity can cause room shortages.)

Montana Motel ..... 406-778-3315 or 800-779-8353  
Roys Motel ..... 406-778-3321  
Sagebrush Inn ..... 406-778-3341

#### Miles City, Mont.

Comfort Inn ..... 406-234-3141  
Holiday Inn Express ..... 406-234-1000

### TERMS

The terms of the sale are cash. All settlements will be made with clerks of the sale immediately following the conclusion of the sale and before any cattle will be released. We will follow the Terms and Conditions set forth by the Red Angus Association of America. Announcements made by seller on sale day take precedence over any statements printed in this catalog or advertisement.

### DELIVERY

We will provide delivery up to 300 miles. Over 300 miles we will work with the buyer to make arrangements on delivery. A \$50 credit per bull will be applied to the purchase price of the bull if the new owner picks up the bull(s) on the day of the sale. Delivery of the bulls will start the week after the sale.

### BULL HEALTH PROGRAM

The bulls received Vision 7 at branding and then are pre-conditioned in September with Pfizer One Shot Ultra 7, Bovishield 5 Gold. The bulls were poured with Ivermax in October and boosted with Bovishield 5 Gold. The Fusiguard was boosted in January and they were poured with Dectomax at this time. Semen evaluations are performed by Don Beck of the Fallon Co. Vet Service prior to the sale with all evaluations available sale day.

### BULL DEVELOPMENT

The bulls are fed on a ration to develop them into sound functional useable bulls for big country. They are fed to gain 2.5 lb per day. The ration consists of whole kernel corn (7.5 lbs), distiller's grain (1.5 lbs), and a mix of ground grass/alfalfa hay and ground hay barley. This ration is developed to use 1% of the feed base being grain to reach our goal of 2.5 lb gain. They have been developed at Bruce & Eric Bowman's feedlot which is located 1 mile south of Rhame, N.D.

### SEMEN INTEREST

Milk Creek Reds is retaining one-half revenue-sharing semen interest in all bulls in the sale. The retained semen interest by Milk Creek Reds allows us to collect semen, use semen on the bull in our herd, as well as share in semen revenue if the bull would develop interest to be used in other herds or semen marketing companies. Any semen collection would be at the buyer's convenience in the off-season use. Full possession and full salvage value sells on all bulls in this sale..

# Sale Information

## WATCH AND BID ONLINE AT [DVAuction.com](http://DVAuction.com)

### Can't make the sale?

We are pleased to bring you real-time Internet bidding and a live broadcast of this sale through DV Auction. To watch or bid online, simply complete the following steps:

- Visit the DVAuction web site at [www.dvauction.com](http://www.dvauction.com)
- Click on the "Register" tab
- Enter a user name, password and your contact information.
- Click on "Apply for Bidding."
- Select the sale from the list of other auctions and click "Apply".
- Complete the process by filling out the Banking & Lending information requested.

Be sure to include a personal contact at your bank, we will contact them in order to get a credit reference.

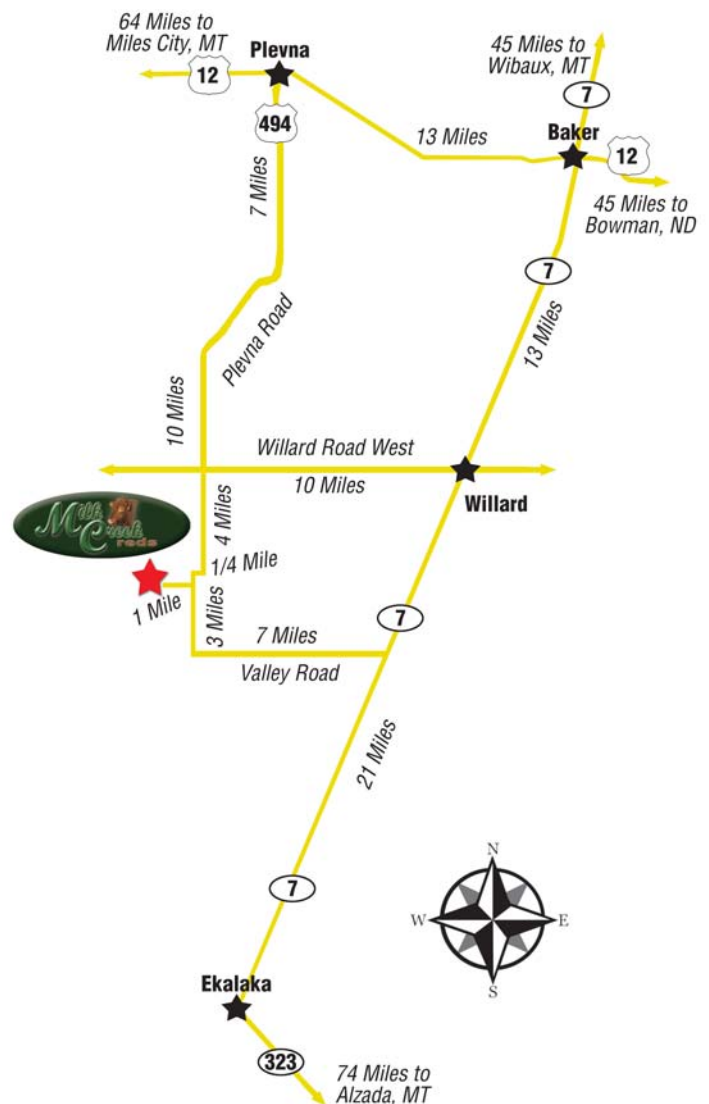

If you would prefer to be approved using your credit card, call (402) 474-5557.

Please be sure to apply for bidding at least a day in advance of the sale-every effort will be made to process your application in a timely manner.

DVAuction will contact you once you have been approved to bid. We do not provide buyer numbers until you have purchased a lot in the sale, and that number is only usable for that auction. After the sale contact the sale owner or manager to make arrangements for payment and delivery of your online purchases.

**Please Note:** High speed Internet access (DSL, T-1, or Broadband) is required to be able to bid successfully during the sale. If you have any questions, please contact DVAuction at (402) 474-5557 or email [support@dvauction.com](mailto:support@dvauction.com).

**Proxy Bidding:** If you can't access a computer during the sale, you can now place a "proxy bid" through DVAuction. Simply follow the instructions listed above, and as the sale date nears there will be a "Proxy Bidding" link under the sale listing on the main page of DVAuction. You can then place the maximum amount that you'd like to bid, and our system will represent your bid just as if you were there.

Trailblazer was our pick of the calving-ease bulls in 5L's 2009 sale. We have used in as a cleanup bull on heifers since his purchase but lost him this past breeding season due to a fighting injury. We appreciate the moderate framed easy keeping daughters that he has left in the herd.

9240 was purchased in the fall of 2010 from Dale and Kay Lacy of Lacy Red Angus in Missouri. When we visited the Lacy's ranch, there were two sire groups of young cows that we really liked (moderate framed, easy fleshing, good feet and udders). 9240 combines those two sires and follows with the moderate frame and above average muscle.

9141 is a bull that we retained out of the 2009 calf crop to replace his sire 5L Grand Express. He is a very attractive, moderate-framed bull that packs a lot of muscle and depth. He is also very easy fleshing and this picture was taken one month after he came out of pasture with 80 head of cows.

Redstone has been used as a cleanup sire for our heifers two years and then on cows for two years. This past year we used Redstone both AI and cleanup which has given us a larger group of progeny to offer. His progeny are dark red in color and have performed very well throughout. He balances the numbers very well but I think his daughters will be his most noted attribute.

0002 was purchased from Sandbur Ridge Red Angus in Nebraska in the Spring of 2011. He offers a good lower quarter and wide top with above average depth of rib and flank. He came out pasture the last two years looking as good as he went in which speaks to his easy-fleshing ability.

This Epic son mimics his sire in that he is wide based, wide topped, wide hiped, deep ribbed and long bodied. He also characterizes the Epic progeny in above-average growth posting the second-highest yearling weight and finishing in the top five for gain. His 5L Grand Express dam is an ET daughter from a Bootjack donor cow that we purchased in Bootjack's dispersion that stayed in our herd until the age of 15.

Redstone stamps his progeny with a dark cherry red color with above-average length of body. 3209's dam is a Red Knight daughter out of Ole Oscar's mother and is also dark red and has an exceptional udder and a body type and size that we are breeding towards. She has a 104 MPPA with a 106 weaning and 102 yearling ratio on her progeny.

Our Grand Statement progeny this year are larger framed than what we experienced in last year's progeny. 3210 is a 6+ framed bull that has a lot of length, width and depth in an attractive package. He is the highest yearling weight and WDA bull in this year's offering. His dam is an attractive Shoco Data daughter out of Cub 722's mother.

3216 has some numbers that need to be explained to prevent confusion. When you look at his ratios you will discover he is a 100 at weaning and yearling which is a result from being in his own contemporary group. When we gathered to precondition and take weaning weights his dam was dried up and we couldn't find the calf anywhere. The neighbors had moved cows earlier and but didn't discover this calf until later. I feel this calf did quite well for not having a mother.

When looking through the bulls, 3219 keeps catching my attention from many different angles. When he walks away the first thing I notice is his width of base and width over the top and in the quarter. When viewed from the side his very moderate frame with a lot of depth of rib and fleshing ability jumps out at me. I have to remind myself that he is out of a first-calf heifer that has done a great job on her first calf.

3223 is an attractive Express 9141 son that has excelled on test posting the second-highest gain of all the bulls. As you evaluate his ratios you will notice a lower weaning ratio than what you would expect which I attribute to a touch of pneumonia prior to preconditioning. We did not treat the bull but his performance at weaning reflects it

3233 is a long-spined, deep-ribbed Impressive son that offers a nice phenotype with a lot of calving ease. When you study his pedigree, he has three generations of calving ease bulls that we have used in our heifer program successfully. His 10-year-old dam posted a 96 birth ratio while maintaining a 105 weaning and 102 yearling ratios along with a 104 MPPA.

Grand Statement crossed with Beckton Epic produces a very balanced package which includes phenotype, performance and EPDs. 3249 packages a moderate birth weight with above-average weaning, yearling and gain ratios. His depth of side and muscle expression tends to complete the package very nicely. His dam has posted an 88 birth ratio with a 101 weaning and 107 yearling ratio on her progeny.

Cele spent the month of July baling and stacking hay

This moderate framed Trailblazer son offers good thickness and depth of rib with fleshing ability. I really like the Trailblazer daughter that we have in production and I think this bull will leave a lot of good daughters that are the right size and type.

812 pair (dam of 3258)

3262 has performed very well throughout his life posting the highest gain of all the bulls combined with a 105 and 110 weaning and yearling ratios respectively. He is a smooth-made calf that offers a lot of length of side along with an attractive pattern. His dam is a 5-year-old Grand Express daughter is a moderate-framed, dark-red cow with a beautiful udder.

This Blazing Trail son offers as much red meat in a moderate-framed package that you will find in this offering. He is deep and thick and easy keeping and ranks at the top of the breed in growth as well as heifer pregnancy and stayability. His Beckton Epic dam posts a 102 MPPA with a 104 weaning ratio and 105 yearling ratio.

3266

3266 offers a balanced package of calving ease with above average growth. His dam did very well on her first try in the cow world and is backed by a line of cows that include her dam and granddam which are still in production in our herd. Not only are they in production but they both have bulls in this offering (3200 and 3262).

3281 has a lot to offer with a moderate birth weight and growth ratios that are near the top of this offering. He has four generations of sires that we have used successfully on heifers but he offers a phenotype that is long and deep. If you study EPDs, he balances the numbers very well.

Bred heifers earning their keep

This 9141 bull stood out all summer and fall offering as much quarter and hip with a very attractive phenotype. As one of the younger calves in the offering he can hold his own in the performance arena posting one of the highest weight-per-day-of-age. He is backed by a moderate-framed Giuliani daughter that has a 103 MPPA.
