Welcome

We would like to take this opportunity to thank you for taking an interest in our program and welcome you to our second female sale. What a time to be involved in the cattle industry! None of us in the cattle business have seen a cattle market like the one that we have observed in the past six months. All classes of cattle have been through the roof with record prices being broken daily. The demand for Red Angus cattle has continued to increase in this high market with many groups of cattle topping sales on the video and at the sale barns.

It is easy in a high market to relax selection criteria to make a profit, but we believe that it is very important not to deviate from the selection pressure that made this breed what it has become. In our 25-plus years of being involved in this breed, we have found that every time we have deviated from our criteria of developing a better cow we may have realized a short term gain but it came with a long term cost.

We feel that we have assembled a group of females in this offering that possess the needed attributes of which the Red Angus breed was founded upon. These attributes began with functionality. This includes good udder structure, good feet and legs, longevity, fertility and fleshing ability. Included above the basic functional traits are good dispositions, performance and phenotype.

The mature cows that we are dispersing have proven their functionality over the years. Most of our cows will be trailed 5-7 miles at least twice a year and, if they can't make the trek because of feet and leg problems, they don't stick around.

We believe that functionality of the udder includes teat diameter, length and placement along with udder suspension but, more importantly, it is not that they are picture perfect but that we won't assist a calf to get started on an udder because of structure problems. The best thing to do is to eliminate the problem regardless of the cow's credentials and paperwork.

None of the cows in the sale have missed calving on time, with the exception of two cows that we have flushed, which speaks for their longevity, fertility and fleshing ability because they had to perform and breed in our environment with limited feed inputs. Many of these cows are bred A.I. this year as they have been in the past which also attests to their ability to work in the environment that we challenge them in.

The bred heifers in this offering have been selected through a process that we feel will produce the best cows down the road. We began with 131 heifers and went through their registration papers looking at their weaning ratio, their dam's MPPA and their granddam's MPPA. A majority of these heifers will have a minimum of two out of these three ratios at 100 or better.

There are a few that don't meet that criteria but because their dam or granddam have other exceptional traits they made it in the selection. The majority of these heifers' dams and granddams are still in production and many are offered in this sale.

The open heifers were selected on a basis similar to the bred heifers in that we looked at heifers whose dam and or granddam had a good production history, and we looked at the heifers that we felt would index well. We also tried to go through the different sire groups that we are using and offer some heifers from each sire group. Some of these heifers could be considered show prospects but in the end, all of them should be very functional highly productive cows with longevity.

We hope that selection criteria for this group of females that we have assembled for this sale will prove to allow their future owners to be profitable with their purchases as well as pleased with their functionality, performance and phenotype. More importantly, we hope that through this offering we will be able to establish new friendships with those of you that would participate in the sale because at the end of the day, it's the people that we get to meet that make this business worth while.

God Bless You,
Milk Creek Reds –Bruce, Tena, Cele & Jaclyn Ketchum

As servants of the Lord, we are striving to be stewards of the land and cattle that He created and allowed us to manage so that we may glorify Him.

PHONE ORDERS

If you are unable to attend the sale and do not have access to the internet, we will take phone orders prior to the sale. If there are several people needing to use this method for the sale we will set up a conference call for you to call into during the sale. Please call a few days in advance if this is needed so that we may set this up and get you the necessary phone number and information ahead of sale time.

TERMS

The terms of the sale are cash. All settlements will be made with clerks of the sale immediately following the conclusion of the sale and before any cattle will be released. We will follow the Terms and Conditions set forth by the Red Angus Association of America. Announcements made by seller on sale day take precedence over any statements printed in this catalog or advertisement.

DELIVERY

For those bringing trailers sale day we will arrange to have the cattle delivered to the Fallon County Fairgrounds immediately after the sale so that you may load your purchases. Please let the registration table know that you would like to load after the sale when you pick up your buyer's number. We will work with customers to arrange for delivery with trucking firms of the buyer's choice. If possible, we will try to pool cattle together going similar directions to conserve transportation expenses for buyers.

TRUCKING

Woosly Trucking.....406-670-1877
Lathrup Trucking847-426-5009

LIABILITY

All persons who attend the sale and cattle viewing do so at their own risk. The owners assume no liability, legal or otherwise, for any accidents that occur on the sale or viewing premises.

HERD HEALTH PROGRAM

Heifer calves are vaccinated with Vision 7 at branding, Bovishield 5 Gold, One Shot and Vision 7 Somnus in September, and will be poured with Dectomax prior to the sale. All sale females will be Bangs vaccinated and will have readable tags and tattoos for shipment. The bred heifers are vaccinated as calves similar to the heifer calves. This spring they were vaccinated with PregGuard 10 and boosted with Pfizer VL5. They will be poured with Dectomax prior to the sale. The mature cows are vaccinated with PregGuard 10 in the spring and will be poured with Dectomax prior to the sale. All bred females were ultrasounded for pregnancy by Fallon County Vet Service and that data is available in this catalog on each lot.

WATCH AND BID ONLINE AT DVAUCTION.COM

Can't make the sale?

We are pleased to bring you real-time Internet bidding and a live broadcast of this sale through DV Auction. To watch or bid online, simply complete the following steps:

- Visit the DVAuction web site at www.dvauction.com
- Click on the "Register" tab
- Enter a user name, password and your contact information.
- Click on "Apply for Bidding."
- Select the sale from the list of other auctions and click "Apply".
- Complete the process by filling out the Banking & Lending information requested.

Be sure to include a personal contact at your bank, we will contact them in order to get a credit reference.

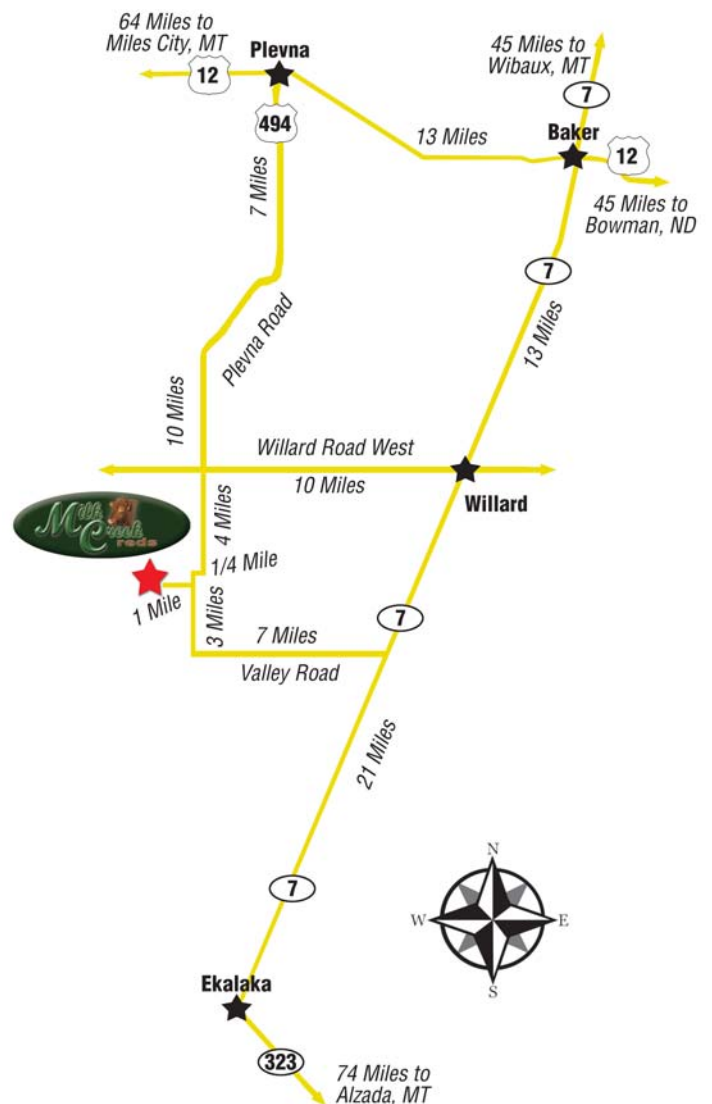

If you would prefer to be approved using your credit card, call (402) 474-5557.

Please be sure to apply for bidding at least a day in advance of the sale-every effort will be made to process your application in a timely manner.

DVAuction will contact you once you have been approved to bid. We do not provide buyer numbers until you have purchased a lot in the sale, and that number is only usable for that auction. After the sale contact the sale owner or manager to make arrangements for payment and delivery of your online purchases.

Please Note: High speed Internet access (DSL, T-1, or Broadband) is required to be able to bid successfully during the sale. If you have any questions, please contact DVAuction at (402) 474-5557 or email support@dvauction.com.

Proxy Bidding: If you can't access a computer during the sale, you can now place a "proxy bid" through DVAuction. Simply follow the instructions listed above, and as the sale date nears there will be a "Proxy Bidding" link under the sale listing on the main page of DVAuction. You can then place the maximum amount that you'd like to bid, and our system will represent your bid just as if you were there.

Epic is a bull that won't go out of style on our operation anytime soon. We have 7-year-old daughters in production and are still using 50 units of semen a year AI because of all the things that he does well in. The depth of body, thickness as well as performance that he puts into his progeny in a moderate frame package is hard to come by. The daughters that we have in production are the dams to many of higher selling bulls in our sales. Look for us to continue to use this bull in the future until we find other genetics that will match or exceed what he offers.

Service sire to some of the cows and bred heifers. We have his first calf crop on the ground and weaned and we are pleased with what we see. We used him this year on both cows and heifers after seeing how he calved out of cows this past spring. Red Cow Relocators selected a Fusion daughter out of our 130+ heifer calves for our NILE sales entry.

1162 is the sire to some of the heifer calves in the sale. He is an attractive thick made bull that adds quite a bit of performance to his progeny. We kept him out of our 2011 calf crop to carry on the Blazing Trail line of his sire who was an OS carrier because 1162 is OS Free. We think that he will leave daughters in our herd that will not only be moderate and thick but will be the keeping type of cow like his dam.

229z is the sire to some of the heifer calves in the sale and was our pick of the 5L bulls in the 2013 spring sale. He is backed by a cow that Larry Melhoff is very impressed with and has kept a son out of to use in their own program. Secret Agent sires lower birth weight calves with above average performance in a moderate frame package.

9127 is the sire to some of the bred heifers in the sale and will sire the right type of cattle for environments that require fleshing ability. He produces that soft made type of cattle that are easy calving, perform well and are making nice young females in our herd.

We selected 3411 out of the 2014 Flat Water Gang's sale for his fleshing ability, moderation of frame, and muscle pattern. He was turned in with 55 head of cows and first calf heifers and did a good job covering ground to get the cows bred. More importantly, he came out of pasture looking like he had been on feed during the breeding season. We are excited to see how his first progeny will look like and if he can pass on his fleshing ability to his offspring.

3107A was selected out of Crowfoot's dispersion sale in Alberta, Canada last November. We selected him for his moderation in frame and low birth weight as well as his dam and the cow family behind her. Dallas Jensen owner of Crowfoot stated that his dam was his favorite Moonshine daughter and we could see why. He was turned out with 98 head of heifers that we Alad and did a great job of breeding and came out of pasture looking great for the work he performed.

2069 was the high selling bull in the 2013 Flat Water Gang's sale. We really like how this bull is put together and how he has maintained his condition throughout the breeding season. We put him with 98 head of heifers that were time bred and we were pleased with his conception rates.

We selected Dominor out of Beckton's 2014 sale as a new line of genetics that we are going to introduce. As we studied the cattle in the offering this bull rose to the top based on his phenotype and feet and leg structure. He bred 46 head of cows and first calf heifers during the breeding season so we will have a good idea how his progeny will perform by this time next year.

9141 is the sire to heifer calves and bred heifers in this sale and sells as lot 33 in this sale. He sires very attractive cattle that perform well at weaning, yearling and as young females in our herd. To date he has sired over 130 progeny with an average 86-lb. BW, WW Ratio 101 and YW ratio of 100. He is heavy muscled, attractive, good footed and a tremendous breeding bull. We have turned him in with 100 cows clean up after time AI breeding and he can cover the country and get the cows bred.

We purchased Lacy King from Dale and Kay Lacy in Missouri. We really liked his Dam and her half sisters as young cows in the Lacy herd as well as his sire's daughters that were in production. We are very pleased with the calving ease and phenotype of the 9240 progeny but his biggest attribute will be the females that we have and will continue to have in production on the ranch.

Redstone sires the type and kind of progeny that work for the cow calf operator as well as the feeder. His dark red progeny perform well at weaning and yearling and include good carcass traits as a bonus. He has sired 100 plus progeny with an 81-lb. BW average, 102 WW ratio and 104 YW ratio. He also has young daughters in production that I really like. His only drawback is that we don't have enough of them at this point.

We have used Impressive for 5 breeding seasons AI on both heifers and cows. We like his ability to produce progeny that come easy and grow well but also have above average thickness over the top in the lower quarter. His progeny have been very well accepted in our bull sales and his daughters in production are the right type of cows.

8 – Milk Creek Reds Female Sale

Select Sire's **MLK CRK Epic 8171**, son of Lot 2

This outstanding cow is the dam of **MLK CRK Epic 8171** standing at stud at Select Sires. All of her daughters are still producing and are very highly regarded in the Milk Creek herd with one daughter (600) being in this sale. Her carcass data is of particular interest, posting an IMF 4.06 to ratio 123, and a REA 12.50 to ratio 105. Sheba 403 ranks in the top 6% of the breed for CEM.

Bred AI on 5/10/14 to RED CROWFOOT MOONSHINE 8081U for an expected calving date of 2/19/15.

Here's another mega-star in this Mature Cow Dispersal with an attention-grabbing 105 MPPA, 106 AWR and a 105 AYR. She is a very good, deep-bodied cow with loads of volume and capacity. She ranks in the top 7% of the breed for WW and top 9% CW. Shoco Data x Cornerstone from the Aster cow family originating in the legendary Bootjack Ranch program of Montana.

Oh boy! Get ready for this one! MLK CRK Blockanna 459 is a maternal sister to arguably one of the greatest Red Angus female makers of all time – MLK CRK Capstone 901! Bruce and Tena's daughter, Jaclyn, selected this cow as a heifer 10 years ago and she was a many-times a champion for her. If you like superb, maternal breed characteristics in your cattle, come to Baker, Mont., October 29 and take a look at this amazing Red Angus female.

Bred natural service to RIDGE ADMIRAL 3411 for an expected calving date of 4/2/15.

Feature donor dam. We are retaining a future flush at our expense and purchaser's convenience. She is the dam of the NILE selection in 2011 and 970, pictured at right.

Without question this is one of the top females in the offering and has been a flush cow for the Milk Creek program. She has a herd dominating 110.7 MPPA with a 113 AWR and a 107 AYR on seven head of progeny. The Milk Creek program also have a tremendous set of ET calves from this great cow. She ranks in the top 9% of the breed for Milk, top 4% for TM and top 3% HPG. She also posts progeny averages of 3.38 IMF to ratio 113!

Bred AI on 5/10/14 to BECKTON EPIC R397 K for an expected calving date of 2/19/15, bull.

TheLma 331 is a solid 102.5 MPPA cow (not sure what Tena was drinking when she numbered her, yes she is a 2005 model) in the 9-year-old section of the Milk Creek Mature Cow Dispersal. Her 2015 Epic bull calf should make a calving-ease sire for the ever growing heifer market – invest with confidence.

Lot 17 with heifer calf at side

Feature donor dam. We are retaining a future flush at our expense and purchaser's convenience.

If you are like me, you like to buy cows that make you anxious for calving season. Well, this one certainly will. Just imagine what a high-performing Milk Creek cow mated to one of the most-talked-about bulls in the industry – Crowfoot Moonshine – will produce? And it is a HEIFER! This is one of the top Shoco Data daughters in the offering with progeny averages of 108 AWR, 109 AYR and 106.7 MPPA! DONOR COW ALERT!

Bred AI on 5/10/14 to RED CROWFOOT MOONSHINE 8081U for an expected calving date of 2/19/15, heifer.
 Lot 19 is a maternal sister to MLK CRK Foundation 110 that was a strong component of the ABS Global Red Angus lineup for many years. And here comes another exciting Moonshine daughter in the spring of 2015! If you like extraordinary Red Angus females, mark your calendar for October 29 and make plans to be in Baker, Mont., at one of the greatest Red Angus auctions of the season.

Bred natural service to BECKTON DOMINOR A038 J7 for an expected calving date of 2/19/15, heifer.
 This high-performing, 106-MPPA female is a moderate-framed, dark-red cow and is very unique within the Red Angus industry. She ranks in the top 1% of the breed for both BW and MILK EPDs! As U.S. cattle producers try to repopulate herds from drastic reductions the past several years, could you imagine a set of daughters from this extraordinary cow? This is another that deserves a flush program.

Bred AI on 5/10/14 to BECKTON EPIC R397 K for an expected calving date of 2/19/15, heifer.
 In my travels so far this summer and fall, the Beckton Epic calves have been dominant in the pastures and contemporary groups they are in. Lot 21 offers a heifer calf that should be exceptional, combining her Val maternal bloodlines. This is another solid 9-year-old cow in the Milk Creek Mature Cow Dispersal.

Bred AI on 5/10/14 to BECKTON EPIC R397 K for an expected calving date of 2/19/15, heifer.
 Lot 22 is very similar to Lot 21. The value of older cows that are sound footed, sound uddered and with a great disposition cannot be overlooked. With many programs today chasing fads and the latest-greatest hotshot, it is very refreshing to sell cattle from a proven, long-time program like the Milk Creek Red Angus operation. Buy with confidence - these girls are superior building blocks.

Bred natural service to MLK CRK EXPRESS 9141 for an expected calving date of 3/9/15, bull.

Lakota 559 produces deep, thick bull calves. Her first bull topped the Milk Creek sale to Dukart Red Angus of Manning, N.D. With the added bonus of calving ease (top 1% CEM) is offered from this solid producing cow, her bulls will continue to return a consistent income. Express bull calf due in March 2015!

Bred natural service to HRR IMPRESSIVE 227 for an expected calving date of 3/11/15, bull.

Kicking off the 8-year-old cows is this sensational Hobo 1961 daughter with a 101.8 MPPA, AWR 102 and AYR 102 on seven calves. She also ranks in the top 8% of the breed for BW and top 1% for CEM. These 2006 model females offer several calves from a proven, predictable source in their productive lifetime. Again, don't overlook the power of older females that are sound and proven.

Bred AI on 5/10/14 to ANDRAS FUSION R236 for an expected calving date of 2/19/15, twin bulls.

Lot 25 offers a double income from twin bulls in 2015. I don't know about you, but those extra calves can certainly come in handy when you lose one during the calving season. Lakota 601 ranks in the top 6% of the breed for CED, top 3% for BW and top 1% for CEM. A rare Red Knight daughter, they have been highly regarded as "super phenotype" cattle among Red Angus circles for years.

Bred AI on 5/10/14 to 5L LEGEND 1553-425V for an expected calving date of 2/19/15, heifer.

Check out this Hobo 1961 daughter from the Lana cow family ranking in the top 1% of the breed for both CED and BW! Many commercial cattlemen consider Red Angus to be the ultimate in calving-ease sires so why not invest in one that will definitely fit the bill? This cow and her 2015 heifer calf will produce heifer bulls for an industry trying to rebuild the cowherd in the next five years. Lot 26 will be a great investment opportunity on October 29.

Bred AI on 5/10/14 to ANDRAS FUSION R236 for an expected calving date of 2/19/15, bull.

These Shoco Data daughters absolutely cannot be overlooked in the 2014 Milk Creek Mature Cow Dispersal. Angel 615 comes heavily loaded with a 104.0 MPPA, a AWR 105 and a AYR 106. That's not all though. She also ranks in the top 1% of the entire Red Angus breed for WW, the top 3% for YW and the top 1% for CW. Factor in her bull calf by Fusion next spring and this is a "blue chip" investment if I have ever seen one.

Bred AI on 5/10/14 to MUSHRUSH IMPRESSIVE CA U236 for an expected calving date of 2/19/15, bull.

This is a signature cow from the Milk Creek program combining Hobo 1961 x MLK CRK Foundation x Rambo 502 from the Lakota cow family. Her Impressive bull calf next spring will hit the target for calving ease with lots of maternal traits. I cannot stress the opportunities that these older cows offer in a proven, long-time program of Red Angus excellence.

Bred AI on 5/10/14 to MUSHRUSH IMPRESSIVE CA U236 for an expected calving date of 2/21/15, heifer.
 The Musrush Impressive heifer calves have been sale toppers in a few of my auctions the past three years including a fantastic set of commercial heifers for Randy Meyer of Missouri. This Red Knight daughter from the Lakota family should certainly produce a top-notch Impressive daughter. The problem I see isn't whether to come to the Milk Creek auction or not – it is which cow to buy when you get there!

Lacy King 9240, service sire

Bred natural service to LACY KING 9240 for an expected calving date of 3/11/15, bull.
 A rock-solid Titleist daughter combining MLK CRK Foundation with MLK CRK Cub in the maternal pedigree. The Melody cow family originated in the legendary Bootjack Ranch program of the late Cliff Haugen. There are only two of these 8-year-old cows left in the offering so don't hesitate to invest in a proven cow with a proven track record from a stellar Red Angus program.

Bred AI on 5/10/14 to 5L LEGEND 1553-425V for an expected calving date of 2/19/15, heifer.

This is a really deep-made Titleist daughter out of the 043 cow that sold to Ross "Roscoe" Knott of Sandbur Ridge Red Angus and Paul Birnie of Birnie Red Angus in the 2011 sale. She was definitely one of the premier cows in that event. Now add to this long list of great females a heifer calf due in February by 5L Legend and it isn't hard to guess that Lot 32 could easily be a sale topper in 2014.

9141 is the sire to heifer calves and bred heifers in this sale and sells as Lot 33 in this sale. He sires very attractive cattle that perform well at weaning, yearling and as young females in our herd. To date he has sired over 130 progeny with an average 86-lb. BW, 101 WW Ratio and 100 YW ratio. He is heavy muscled, attractive, good footed and a tremendous breeding bull. We have turned him in with 100 cows cleanup after timed A.I. breeding and he can cover the country and get the cows bred.

Bred AI on 5/10/14 to MUSHRUSH IMPRESSIVE CA U236 for an expected calving date of 2/22/15, bull.

I know I constantly talk about MPPAs and progeny averages when I discuss cattle but the bottom line is, performance is where it is at in the cattle business unless you sell high-dollar show calves. This Estonia female comes from a leading cow within the Milk Creek herd as exhibited by her 104.5 MPPA. I firmly believe that the dam and cow family behind the individual is the most important component of a great cow.

Bred natural service to RED CROWFOOT REDMAN 3107A for an expected calving date of 3/14/15, heifer.

Another top Lakota bred heifer from a superior producing dam (MPPA 103.1). 380 will have a heifer calf in the spring of 2015 so you can count on two females making an impact on your future Red Angus program with the purchase of Lot 48. With the cattle market looking very good for the next several years, investments in Red Angus genetics like this are waaaaaay better than money in the bank!

Bred natural service to RED CROWFOOT REDMAN 3107A for an expected calving date of 3/14/15, heifer.

I love the performance and "cow power" backing this terrific bred heifer. Her dam's 105.6 MPPA certainly cannot go unnoticed or her added bonus of a -4.0 BW EPD. Her Redman heifer calf will be as good of addition to the herd as this great bred heifer herself - plan to be in the bidding mood October 29 in Baker, Mont. Your astute attention to this auction could reap huge rewards in your financial future.

Bred AI on 5/10/14 to LACY KING 9240 for an expected calving date of 2/22/15, bull.

I have always dreamed of having a buyer in an auction of this caliber buy all the cows carrying bull calves and then call me to manage their bull sale. Well my number is 641-919-1077 if you are that person. In more realistic terms, the bull calf from heifers like Red Top 382 will certainly make their mark on bull sales across the country. Buy with confidence (or keep my phone number handy).

Bred natural service to RIDGE LEGEND 2069 for an expected calving date of 3/26/15.

New to the Milk Creek offering are a handful of 50% Red Angus x 50% Simmental bred heifer and coming 3-year-olds. These are all ET progeny that were a result of flushing two top cows. With the sharing of database information between the American Simmental Association and the Red Angus Association of America, comparisons are fairly easy to make. What is not so easy in the beef industry is finding a set of "true" F1 halfbloods. The 50% cattle in this auction will offer that first genetic cross to take your program any direction you want to go. This Lakota x Top Gun female will be the first-ever offered by Milk Creek Reds. The 3-year-old halfbloods are Lots 87-91.

Bred AI on 5/10/14 to LACY KING 9240 for an expected calving date of 2/22/15, heifer.

Lot 53 is a highly maternal Lakota female by 5L Trailblazer. With feed costs being a huge concern the past few years, females bred like Lakota 395 will not go out of style with their moderate size and high feed efficiency. Even though crops and feed are bountiful this year, as a cattleman you must plan for the future and years ahead that may not be as plentiful.

Bred AI on 5/10/14 to MUSHRUSH IMPRESSIVE CA U236 for an expected calving date of 2/22/15, bull.

This Bonnell female mated to Mushrush Impressive could really "ring the bell" in 2015 with her February bull calf. This should be a superb combination, backed by a 102.6 MPPA cow and bringing together the stature of the Bonnell with the style and calving ease of Impressive. Remember to watch Lot 54 and don't let her be a "sleeper."

10 units – MLK CRK Capstone 901 was a bull that added as much volume to cattle as I have seen. He produced many great females in herds around the country and his daughters here were attractive, big-barreled females that were very easy fleshing.

10 units – Giuliani was a great breeding bull that was out with 100 cows cleanup when he was 8 years of age and only left three open. Two younger bulls ganged up on him after we had pulled bulls and knocked a hip down on him so we had to ship him. If that accident hadn't happened he would have been out with cows when he was nine and ten. He was very good footed, fluid in his motion, easy fleshing, and left us with a lot of great daughters which some are offered in this sale.

Rounding out the 1A heifer calves for the day is this astounding Epic x Lakina daughter. She ranks in the top 10% of the breed for eight traits! A future donor prospect from the Lot 4, 105.0 MPPA cow selling in this offering. I don't think it is by accident that Bruce placed this terrific heifer as a "grand finale" for the 1A 100% Red Angus heifer calves! Cock the hammer and come to Baker, Mont., October 29 for some once-in-a-lifetime opportunities at buying great Red Angus genetics.

Bred natural service to **RIDGE ADMIRAL 3411** for an expected calving date of 3/13/15, heifer.
 The final ET flushmate sister to Lots 88, 89 and 90. With combined data sharing between the Simmental and Red Angus associations, these halfblood heifers will feel right at home in either circle.

Commercial Females

These commercial lots will be located at the commercial breeders' locations until delivery is arranged within two weeks after this sale. Delivery will be F.O.B. the consigner's ranch load out area. Any interested buyers who want to view the cattle can contact the consigner or Milk Creek Reds to arrange for a tour of the cattle.

92 50 HEAD OF A.I.-BRED HEIFERS

CONSIGNOR: **REG AND LANA HOFF**
FORSYTH, MONTANA • 406-356-7576

Offering 50 head of home-raised, one-iron, A.I.-bred heifers. These heifers are mates to Reg and Lana's steers that won the 2014 Red Association's Prestigious Grid Master Award. The heifers were A.I. bred to the Andras Fusion sire at ABS on June 4 with an expected calving date around the 10th of March. These heifers, along with all of Hoff's cows, are run on short, hard grass country north of Forsyth, Mont., where they have to earn their keep. The cattle are gentle and have been handled on foot as well as horseback with dogs. Heifers have been vaccinated with Preguard 10 FP in the spring and boosted with Novartis Virashield 6 VL 5 and poured with Dectomax at ultrasound time. Heifers were ultrasound pregnancy tested by Fallon County Vet Clinic. Heifers are located 10 miles northwest of Forsyth, Mont. These heifers sell as one semi-load lot.

94 50 HEAD OF BRED HEIFERS

CONSIGNOR: **TIM AND TORI DWYER**
SIDNEY, MONTANA • 701-565-2256

Offering 50 head of home-raised, one-iron Red Angus bred heifers. These heifers are bred to calving-ease Red Angus bulls sired by sons of Code Red purchased from Barenthsen Red Angus. These are all the cleanup bred heifers as Tim and Tori are keeping only the A.I. heifers. The heifers are due to calve from April 20 to May 15. Heifers have been vaccinated with Preg Guard 10 this spring and were boosted this fall with Virashield 4 VL5 breeding shots and given their first round of Scour Bos 9 as well as poured with Promectin - B. Heifers were ultrasound pregnancy tested by Wibaux Vet Clinic. These heifers will be sold as a semi-load lot only. Heifers are located 15 miles southeast of Sidney, Mont.

93 15 HEAD OF BULL-BRED HEIFERS

CONSIGNOR: **REG AND LANA HOFF**
FORSYTH, MONTANA • 406-356-7576

15 head of bull-bred heifer mates of Lot 92. Heifers were bred to low birth weight sons of Mushrush Impressive and HCX Conquest that were purchased from the Milk Creek and Feddes Red Angus programs. Heifers will be due to calve approximatel April 10 for 26 days according to the ultrasound.

95 70 HEAD OF BRED 3-YEAR-OLDS

CONSIGNOR: **JACK AND ROSINA OWEN**
ALZADA, MONTANA • 406-775-6750

Offering 70 head of home-raised, solid-red, one-iron coming 3-year-olds. These moderate-framed young cows are easy to be around yet are not pampered. They have been raised in an environment that will test their ability to raise a good calf, breed back and be functionally sound. Milk Creek and Hammel Red Angus low birth weight bulls along with one home-raised bull were turned out on July 2 and left in for 45 days. Jack says that with this date he will always expect his first calves around the 5th of April. A neighbor's black bull climbed in with a group of these cows for a few days so there is a chance of a black calf or two. The cows have been given PregGuard 10 as yearlings and have been boosted with Virashield 6 each fall after. They will be poured and pregnancy tested prior to delivery. Cows are located 35 miles north of Alzada, Mont., or 40 miles south of Ekalaka, Mont. Winning bidder will have the option of selecting in groups of 10 gate cut or will be able to select the entire group.
