Saturday
April 12, 2014

1:00 p.m. CDT
Lake Region Livestock
Devils Lake, ND

Selling 72 Lots

44 Angus Yearling Bulls
1 Angus 2-Year-Old Bull
7 Polled Hereford Yearling Bulls
20 Angus Yearling Heifers

This sale will be broadcast live on the internet.
DVAuction
Broadcasting Real-Time Auctions
Real time bidding & proxy bidding available.

Dear Friends and Cattlemen,

The biggest excitement for the family came 10 days after last year's sale when Troy and Jeri welcomed the newest member to the family. Harlee Carter was born April 23, 2013. Harlee and the rest of the family would like to welcome you to our 2014 production sale!

We would like to extend a heartfelt thank you to everyone who has supported us in the past years. It is a privilege to be your source for seedstock whether you're in the market for a new herd bull or a replacement heifer. We thank you for your past support and look forward to your future success with our program.

Times are as exciting as they have ever been in the cow calf operation. Beef cattle producers are in the driver's seat, and are being rewarded handsomely with the markets. Now is the time to keep pushing performance and updating genetics. The hard work and dedication everyone has put into their cow herds is truly paying off.

We have always strived to offer you the most performance oriented cattle possible. We believe in live calves and pay-weight. Our customers make a living on selling live calves that weigh. We do our best to offer cattle that are the right kind. Sound structured cattle with length, muscle, and rib. You need length to get weight. You need muscle to sell beef. Just as importantly you need capacity in your cow herd. We feel this offering excels in those basic traits.

Our cow herd gets stronger every year. We have always emphasized udder quality and longevity in our females. If they can't do it in our herd we feel you don't need it in yours. Every breeding season is an opportunity to improve your genetic base, and each spring we do our absolute best to use bulls either AI or naturally that will improve the female they are servicing. Just getting cows bred isn't enough anymore. Bulls need to breed cows, but they need to add value as well.

The bulls were developed on a TMR ration consisting of chopped hay, silage, corn, protein supplement from JR Feeds, and a mineral supplement. The ration never got above 48 mcal. It's not a "hot" ration. We develop bulls to express their genetic potential in addition to providing soundness and structural integrity. The adjusted 205 and 365 day weights were all adjusted through AHIR (Angus Herd Improvement Records). Birth weights are all recorded with a hand held scale. We believe in the importance of an actual birth weight instead of relying on a tape measure to guess on birth weight.

The heifers in the offering were cut right out of the replacement pen. All the heifers we retained on the farm were in the same pen all year. They were fed free choice BMR sorghum and supplemented with a silage ration. We don't like fat heifers. These heifers are in their working clothes and ready to go. We know heifers look better with more cover, but we don't believe in that. Fat heifers have trouble breeding after they get turned out on grass. These heifers are an excellent set. We hear a lot of success stories on how well our heifers have done for our customers in the past. This is another excellent opportunity.

The bulls will be scrotal measured and fertility tested prior to the sale. As always our cattle come fully guaranteed. If you have any problems with them let us know as soon as possible and we will do everything and anything we can to make it right with you. We take pride in customer service.

Sincerely,

The Carters

DISCOUNTS:

Haul your own bull sale day and receive \$50 off per bull.

LOYALTY DISCOUNT:

Purchase a bull from us at this sale and be eligible for a 1% discount next year with another purchase. Buying 3 consecutive years will ensure you a 3% discount off your total purchase, with the maximum being 5%, one for each CONSECUTIVE year. If a buyer fails to purchase a bull one year his discount level moves back down to zero. This discount is available for BULLS only. Discounts will come as rebate checks after the bull sale.

DELIVERY:

Free delivery up to 300 miles on a total purchase price of \$2500.

FEEDING:

Bulls kept after the sale will be charged \$2.50 per head per day.

VIDEO SALE:

The sale will be a video format on large-screen monitors. The bulls will be on display in the pens, but not run through the ring.

ONLINE BIDDING:

The sale will be broadcast live on dvauction.com. For information on how to register to bid online, see page 2.

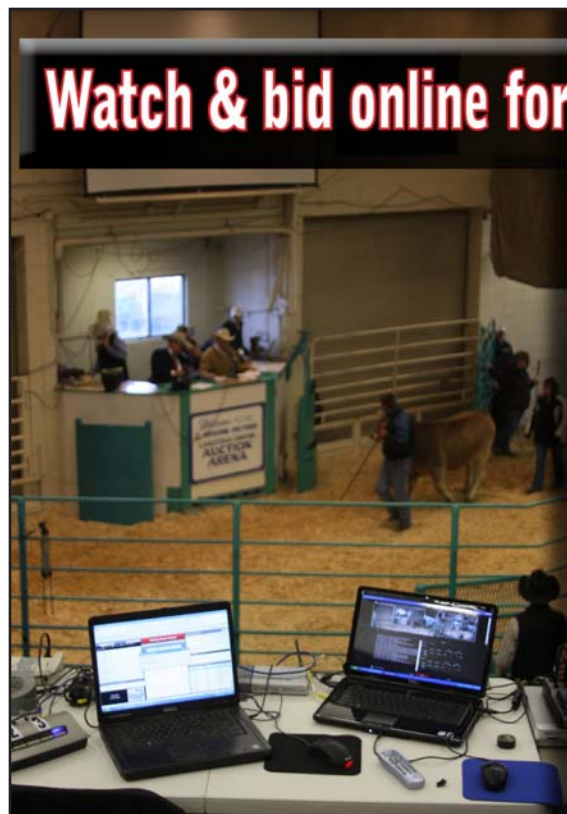

Announcements made from the auction block shall take precedence over printed material in the catalog.

View the Auction Live!
Bid Online... you're ringside
right at your desk!

Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make your purchases!

High speed internet is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

Please feel free to contact me with questions about the sale or to view the cattle for you.

ANGUS BULLS

Developmental Duplication Carrier (DDC)

Newly identified simple recessive genetic defect. DD is not a lethal genetic defect, but may cause extra skin folds or additional limbs. For more information ask us or contact AAA Regional Representative Vern Frey or the Association.

Cattle identified as DDC are known carriers of the defect, but if bred to cattle free of the defect you will never have a calf that expresses the trait. The animals identified as DDP are potential carriers and have not yet been tested.

302

Retaining 1/3 semen interest in all bulls.

High performing son of 321. He's an extremely attractive bull with a lot of base width, shape, and stretch. He was born unassisted out of a 2 year old Impression daughter that is an absolute standout in our herd. He's smooth enough shouldered and nice headed to work on heifers, but his EPDs say otherwise. You be the judge. Genomically enhanced EPDs.

What's one more calf worth?

VitaFerm®
Concept•Aid™

with the AMAFERM® advantage

"Before using Concept-Aid, we had a terrible scour problem.
We haven't had any since we started feeding VitaFerm.
We appreciate the lack of retained placentas and
how well the cows breed back!"

— Terry Carter

The Concept-Aid line from VitaFerm contains vitamins, minerals and trace minerals formulated to match conception demands and forage quality.

For more information on Concept•Aid or VitaFerm,
