Visitors always welcome!

Just 15 mi. south
of I-94 Exit 123

- Volume discounts!
- Ultrasound and performance data along with current EPDs will be available!
- Majority homozygous polled!
- All reds are non-diluters!
- All blacks will be homozygous- or heterozygous-black verified!
- All are pedigree-free or tested-free for genetic defects.

Lynette and Kevin

Hello from the TNT Ranch!

Welcome to our 29th annual bull sale. Life is good here south of Almont. It is one of the few times I can remember where we stayed lush and green from June until freeze up. In May many were already selling replacement heifers and cows because it was so dry and they were concerned about a drought... and then it started to rain. We are so thankful that the drought has improved for so many that were hit hard in the past few years. Our hearts also go out to those who suffered the devastating losses from the early October storm. It was not only a huge financial loss, but also very emotional. On the positive side, it is a wonderful time to be in agriculture, and especially for those of us in the cattle business.

We had a very good calving season. We started calving a little later, and really like not having to deal with as much cold weather. We did not creep the calves. We weaned on September 25 and started them with free choice hay for 5 days, and then right into a total mixed ration. We worked them up to what

they are currently receiving; 1 pound liquid supplement, 12 pounds of cracked corn, 8 pounds of chopped hay and 17 pounds of silage, which is half corn silage and half haylage. Our bulls are a little lighter than in the past. Normally we would have fed 4 pounds of dry distillers in the ration as well. This year we had more protein in our home grown feed, so we decided not to feed the distillers. The bulls really look good and stout, but probably have a little less condition. With less energy in the ration our gains are down a little as well. We have been told our bulls are a little too fat in the past, but have had real nice compliments on how well they have held up. We really like this ration and they consume it well. It is a high roughage growing ration, insuring soundness, longevity and fertility. Disposition has always been important, but as we age, it seems even more valuable. We have been culling for temperament for years and we are certainly seeing the benefits.

The past several years we have been selling around 100 cows and keeping that many replacements back into our herd. This keeps our cowherd young, with some of the most up to date genetics. Our entire cowherd is now several generations solid colored, smaller framed, and even easier fleshing. Normally we graze our cows out until mid December. This has all been done without sacrificing performance. This is something we are very proud of. We want cows that can calve easy, hold their condition, breed back early, and still raise a big calf. We have had many favorable comments from customers on the excellent daughters they are getting out of our bulls.

We have grown our Sim-Angus program, on both the sire and the dam side, long enough to get a feel for their value. We were concerned about how consistent and predictable they would be. If you cut me I'd bleed Simmental blood and feel there will always be a demand for the purebreds. We have spent a lot of time researching the Angus and Red Angus breeds and truly feel when you cross the best of both breeds; Simmental with Angus or Red Angus, very few purebreds of either breed can compete. We are every bit impressed with our ¼ bloods and ¾ bloods. They are proving to be extremely predictable and consistent.

With the uncertainty in our economy and the extreme movements in our markets it's nice to know we are producing a product that's in demand. Sim influenced, primarily Sim-Angus black or red, are some of the most sought after in sale barns and by order buyers, not only for placements in feedlots but also for replacements in cowherds. This is the strongest demand that we have seen since we have been in business. Simmental heifers and cows x Angus or Red Angus cattle can and do deliver a higher percentage of choice yield grade 1 and 2 carcasses than any other popular crossbred or straight bred. We have had lot of calls from commercial cattlemen looking for bred heifers and heifer calves to buy from our commercial customers. Feel free to give us a call if you are looking to market females and we will try to help you out. We are excited to be one of the owners of Allied Genetic Resources. Our goal through AGR is to help our customers by assisting them with marketing and other services after the purchase of TNT Genetics.

The Simmental Association has now joined forces with the Red Angus Association enabling us to take advantage of Red Angus' very successful commercial marketing program. This can be done through a new green tag program called Allied Access, which is a USDA PVP program. This works the same as the ongoing yellow tag program for Red Angus. This allows for Red and Black Sim-Angus to be marketed through the same program. If we can be of any help in your marketing needs, just give us a call. The two Associations are also now using the same genetic evaluations and common base for EPD calculations.

This is truly one of the thickest, deepest, best set of bulls we have ever offered from end to end. You'll see our high standard of quality from the first to the very last bull in the sale. We invite everyone to come to the ranch to view the cattle and see the way we manage our herd. We are very proud of our cattle, and feel you will be proud of "The Explosive Difference" they will make for you. I truly have a passion for this business, and love breeding cattle and the never ending pursuit to try to make them better. One of our greatest blessings over the past 29 years is the wonderful people we have met, and the dear friends we have made in this business. Thanks so much for your interest. Hope to see you Friday the 14th! Come and buy your sweetheart a bull for Valentine's Day!

Sincerely, Kevin, Lynette & Family

TNT Simmental Sale – Friday, February 14, 2014

1 p.m. CST – At the Ranch, Almont N.D.

We will be serving coffee & rolls in the morning and a complimentary lunch from 11 a.m. to 1:00 p.m.

DIRECTIONS TO THE RANCH

Coming from the North – From I 94 take the Almont exit # 123, go south 15 miles (10 miles on pavement and 5 miles on gravel) on County Road #86 to 53rd St. and then 1/4 mile west.

Coming from the South – Just east of Carson, take County Road #86 and go north 16 miles (all gravel) to 53rd St. and then 1/4 mile west.

DISCOUNTS

We are offering \$50.00 off each bull that you haul home sale day, and we are also offering a volume discount. The first bull purchased will be full price, the second bull we will deduct 2.5% off that bull, the third bull we will deduct 5% off that bull, the fourth bull we will deduct 7.5% off that bull. Any additional bulls will have a 10% discount.

INSPECTION

We invite you to come and inspect the cattle at our ranch 6 miles south and 1/4 mile west of Almont anytime.

TRUCKING

If the purchaser requests at the time of settlement, we will assist in making delivery. Trucking will be free within a 300 mile radius of Almont, to central locations. Long distance will either get hired and we will pay for half, or we are willing to meet at central locations, if there is a full load going to your area, for free.

CANADIAN SALES

We will cover the health papers, semen test, and Canadian delivery to the North Portal or Dunseith, Port of Entries. We will help you in making arrangements to any other Ports of Entry. Border costs are at your expense.

HEALTH

All the bulls were vaccinated with BoviShield Gold 5, One Shot, Ultrabac 7/Somubac, and treated with Dectomax pour on.

FEEDING ARRANGEMENTS

If purchaser requests, we will feed your bull and also have it fertility tested in early April. We would like to have all bulls picked up or delivered no later than May 1. The fee will be \$75 per bull. The bulls ration will be the same or very similar to what they are receiving now. We are not responsible for accidents of cattle kept at the ranch. We strongly encourage insurance.

TERMS & CONDITIONS

They will be the same as those recommended by the National Associations. If you have any questions, please contact us. In no instance shall the seller be responsible for more than the purchase price of the bull. The bulls are 100% guaranteed. We guarantee to provide you with a sound breeding bull, capable of passing a semen test within 14 months of age. Should any bull fail, we will refund your money, or we will supply you with a bull for the upcoming breeding season, plus you will receive full credit at the next year's sale. We have always prided ourselves with satisfied customers.

REGISTRATION PAPERS & INSURANCE

Registration papers will be transferred on all animals. Please leave all information, plus your ASA or RA number in the office. Let us know within one week if you have a name preference for your bull. An Insurance salesperson will also be available at the sale.

OPTIONS FOR THOSE UNABLE TO ATTEND THE SALE

Those with high speed internet may view and bid on DVAuction (see details on the following page). We also have a phone conference line in place for phone bidding. Please be in a quiet room when on the conference line. Contact Kevin for a bidder number and the conference line passcode if using this option. Kevin is also more than happy to go over the bulls and recommend ones that best fit your needs. A bid can be placed with any of the sales reps. Our dealings are all handled in a 100% honest manner.

MOTEL RESERVATIONS

Some motels conveniently located near I-94 are:

Comfort Inn, Bismarck (pool, breakfast, airport shuttle)..... 701-223-1911
Seven Seas Inn, Mandan (pool, airport shuttle) 701-663-7401
Arrowhead Inn, New Salem 701-843-7100
Comfort Inn, Dickinson (pool, breakfast, airport shuttle) ... 701-264-7300
El Rancho Motel, Carson 701-622-3495

AUCTIONEER:

Marlin Kapp 701-475-2427

SALES REPRESENTATIVES:

Mason Lautenschlager, American Simmental Assn. 701-509-3251
Marty Ropp, Allied Genetic Resources 406-581-7835
Kirby Goettsch, Farm and Ranch Guide 605-380-3939
Scott Ressler, ND Stockmen Association 701-391-7310
Steve Koester, Special Assignment 701-400-1611
Kris Petersen, Cattle Business Weekly 701-339-0305
Lyle Steinmetz, Conference-Call Line 701-622-3286

LIABILITIES

We are not responsible for any accidents, or damaged or stolen items, the day of our sale.

SEMEN RIGHTS

We are selling full possession, full salvage, plus 2/3 semen revenue. This means any semen sold on any of the bulls, TNT Simmentals will receive 1/3 the selling price per unit. We also reserve the right to collect up to 100 units of semen on any of the bulls, for our own use. This semen will be collected at our expense and the buyer's convenience. Please contact us if you have any questions.

SCROTAL CIRCUMFERENCE

Each bull was measured to the nearest .5 centimeter and adjusted to 365 days using a daily adjustment of .033 centimeters. Only bulls with a minimum of 30cm were selected. The ratings for 12 14 month bulls are 30cm and less = poor; 30 35cm = good; and 35cm and over = very good.

HOMOZYGOUS BLACK

Will only sire black calves when used on black or nondiluter red cows. You will get mostly gray calves when used on yellow cows or red cows that have the dilution gene.

HETEROZYGOUS BLACK

Will sire both black and red calves when used on nondiluter red cows. When used on yellow or red cows that have the dilution gene you will get roughly half red and the rest will be gray, with some blacks.

HOMOZYGOUS POLLED

All calves will be polled and requires both parents to be polled and both to pass on the polled gene to their offspring. The majority of our bulls are polled for several generations. Every bull in the sale is sired by a Homozygous Polled bull and a polled cow.

HETEROZYGOUS POLLED

Approximately half the calves will be polled out of horned cows. All single polled animals will be heterozygous.

POLLED/SCURRED

A polled/scurred animal is genetically polled.

Broadcasting Real-Time Auctions

Watch and Bid Online at DVAuction.com

Can't make the sale?

We are pleased to bring you real-time Internet bidding and a live broadcast of this sale through DVAuction. To watch or bid online, simply complete the following steps:

- Visit the DVAuction web site at www.dvauction.com
- Click on the "Creat New Account" tab
- Enter a user name, password and your contact information.
- Complete the Banking Information. (If you are only interested in viewing you can skip this section)
- Select your Time Zone, Accept the Terms and Conditions and click "Create Account"
- Complete the process by answering a few questions, selecting your subscription choices
- Click on "Apply for Bidding" in the upper left corner of your screen to select the sales you wish to bid on
- Be sure to include a personal contact at your bank, we will contact them in order to get a credit reference.
- If you would prefer to be approved using your credit card, call (402) 316-5460.
- Please be sure to apply for bidding at least a day in advance of the sale-every effort will be made to process your application in a timely manner.

DVAuction will contact you once you have been approved to bid. We do not provide buyer numbers until you have purchased a lot in the sale, and that number is only usable for that auction. After the sale contact the sale owner or manager to make arrangements for payment and delivery of your online purchases.

Please Note: High speed Internet access (DSL, T-1, or Broadband) is required to be able to bid successfully during the sale. If you have any questions, please contact DVAuction at (402) 316-5460 or email support@dvauction.com.

Proxy Bidding: If you can't access a computer during the sale, you can now place a "proxy bid" through DVAuction. Simply follow the instructions listed above, and as the sale date nears there will be a "Proxy Bidding" link under the sale listing on the main page of DVAuction. You can then place the maximum amount that you'd like to bid, and our system will represent your bid just as if you were there.

If you want something you have never had, You must do something you have never done!

- **Your Seedstock source can now also be your Superior Marketing Representative.**
- Great genetics should come with great service.
- Allied/Superior partnership gives identity to your higher value genetics.
- Nationwide exposure to more than **7,000 registered** buyers on the Superior network.
- Use the Country Page option to sell at the price and speed you are comfortable with or choose the traditional Superior Video Auction for optimum competition.
- Experienced marketing consulting and representation puts your interest first.

Talk to your seedstock producer today about this opportunity or contact Marty Ropp at Allied directly by e-mail mropp@alliedgeneticresources.com or at 406-581-7835.

Lots 1, 2, and 3 are full brothers to one of the breeds most popular and heaviest used sires, TNT Tanker. Tanker is a genetic trait leader for WW, YW, MCE, and MWW, with YW, MCE and REA in the top 1%, WW, MWW and CW in the top 3%, and YG and docility in the top 10% and milk in the top 30%! Their dam has been exceptional, with a WW ratio of 118 and a YW ratio of 119 on her maternal calves. She is a TNT Five Star, out of L9, who is TNT Gunner's dam. Our Tanker daughters are some of our best, easy fleshing, excellent uddered cows, which wean heavy calves every year. All 3 Lots are homozygous polled and Lots 1 and 2 are homozygous black and Lot 3 is heterozygous black.

Here is a light birth weight, thick, deep bodied son of TNT Punch, who is a heavy used sire for ABS. His dam is a moderate, easy fleshing Superior daughter, out of our L9 donor that is one of our favorite young cows. This is a very nice mating, stacking some our best cow families. He is homozygous polled and tested homozygous black.

Here is a 3rd generation Sim-Angus bull with a pedigree stacked with some of the most popular, highly proven genetics from both breeds, sired by TNT Scholar, who is a tremendous, easy calving Tuition son out of an In Focus x Hummer. His dam is a 1st calf heifer out of the highly proven calving ease sire Bismarck. He was the #1 Angus sire for registrations in 2012 going back to Final Answer, who was the #1 in 2013, going back to a full sister to Tanker's Dam. This is a rich heritage with EPD's in the top 10% or higher for CE, WW, YW, MCE, MWW, YG, marbling, API and TI. He is homozygous polled and homozygous black.

This is a real special red purebred, sired by Moon Shine and our S17 donor, Tanker's dam. He is a moderate framed, extremely thick, powerful made bull with lots of eye appeal and excellent temperament. He was born off season due to his dam being in embryo transplant. He is a twin, more than likely due to residual FSH. She raised both calves with no creep. They were weaned and then was on pasture until fall. We planned on keeping him for a herd sire but decided to use him in our AI program and make him available. He is homozygous polled.

Here is an extremely thick, powerful, high performance bull that was our #1 WW Red Angus bull. His sire, Fritz Justice, ranks in the top 1% for both WW and YW with total maternal in the top 10%. His dam is sired by Beckton Hustler, who also ranks in the top 1% for WW and YW. This is a powerful mating stacked with growth! He has been a standout since birth!

This is a thick, heavy muscled bull with a pedigree stacked with performance! Both his sire and dams sire rank in the top 1% for weaning and yearling weight. His dam is a very easy keeping, perfect uddered cow with a weaning weight ratio of 102 on her 1st 3 calves and her dam has a 104 weaning weight ration on her calves. She was the high selling heifer at Messmer's sale in 2006.

This is a thick, deep bodied bull with an A+ disposition. His sire has been exceptional for us, and is a Simmental trait leader for CE and WW, with docility in the top 1%. His dam was one of the high selling bred heifers at Broken Heart in 2011. She is an easy keeping, perfect uddered, high performance daughter of Pie Cartright. She had an excellent bull in last years sale. She has a 104 MPPA with a WW ratio of 107 on her calves.

This is an eye-catching bull with added length. His sire, Big League, has been excellent for us. He is a trait leader in the Simmental breed for CE and WW and ranks in the top 1% for docility. His dam is an ET daughter of the very popular Mission Statement, whose full brother was our high selling Red Angus in 2009. Her dam was the high selling donor at Leachman's in Colorado that has been very productive for us.

THANK YOU ALL SO MUCH!

We would like to thank all of our customers over the past 29 years. You are the ones that have done so much for us. One of the best things about being in the cattle business is all the wonderful people we have met and the good friends we have made. We wish we had more time to spend with each of you. We really appreciate all you have done for us. The progress we have made has been due to your excellent support.

There are also so many people to thank that help us put the sale together. With the sale at the ranch, it really takes a crew to get set up and make it all work on sale day. We truly appreciate all the help from friends, family and neighbors. Special thanks to the clerking and office crew, the crew out back for cleaning and bringing in the bulls, and the kitchen crew. They all do a great job!

Thank YOU so much for attending our sale. We hope to see you again next year. Our customers are very important to us and we like hearing how our cattle work out for you. You are always welcome to come and visit us at the ranch and view our cattle any time. Thanks again!

*Sincerely,
Kevin, Lynette and Family*
