# Welcome

Valnes Ranch Red Angus  
W

Greetings to all,

We want to welcome you to our 6th Annual Bull Sale. We have moved our sale to a new location and a new date. This year it will be at the Emit and Jayme Valnes Ranch on April 14, 2014, at 1 p.m.. We will announce the date and location of our production sale for our horses later in the season.

We have been really excited watching this group of calves grow right from the day they were born. We think that this is probably the most powerful set of bulls we have raised in all the years we have been in the cattle business.

The group of bulls we raised for this year's sale has been extremely feed efficient. In addition to their individual actual performance, 90% of these bulls fall into the very low ME EPD category, which means that same feed efficiency and performance should pass on to their offspring.

With the tough calving spring of 2013, and our extremely cold winter, these calves have really been put to the test. Even though these bulls have not been pampered, we noticed even on the coldest of days that the majority of the Cash2R sons were lying down, content in chewing their cud, while a few of the other bulls stayed at the bunks. These Cash 2R sons have been easy keepers and good converters. If you talk to Kevin Blair from Canada's Blair Ag, where we purchased the Cash 2R semen package, he will tell you the same thing. He would also tell you how successful this bull's sons and daughters have been in the show ring, including the Denver Stock Show, with a Grand Champion daughter, and a \$32,000 daughter selling at a Red Roundup sale!

Some of the genetics we have used is the powerhouse female maker, Red Towaw Indeed 104H, Lazy MC Smash 41N, Mulberry 26P, Rustler 62P, Beckton Epic R397 K, LSF JBOB Expectation and, of course, the powerhouse bull, Red Corner Creek Cash2R. We can't leave out our tough and rugged ranch-raised herd bulls who have always been able to weather any South Dakota winter that was thrown at them – T95, 2T, 5T and the New Generation 909 bull. They have truly left their marks in our cowherd.

In an effort to give our customers better bulls, we believe our cows need the same quality genetics as the herd bulls we use. We strive for good feet, good udders, feed efficiency, and, just as importantly, good dispositions. We have been striving to produce feed-efficient cattle and we will continue to strive to produce the best for our costumers.

We want to thank our customers for their support in the past and we are looking forward to meeting new ones as well.

We also want to give a special thanks to a good friend, Kevin Brooks, for all the help he has given us. It has truly been appreciated. It would be hard to run a good ranching outfit without the help of good friends and a good family.

With that being said, we are looking forward to seeing you all at the sale on April 14th.

If you have any questions or would like to view the bulls before the sale, please give us a call. We would be happy to accommodate you. All of us here at Valnes Ranch Red Angus thank you again for your kind support.

**David and Debra Valnes • 605-881-7933 – cell • 605-698-7300 – home**  
**Emit and Jayme Valnes • 605-228-8857 – cell • 605-698-6596 – home**

**90% of the bulls offered on sale day  
have low maintenance EPDs.  
Less feed means more money left in your pocket.**

*Annual Production Sale*

**Monday, April 14, 2014 • 1 p.m. CDT**

**Emit & Jayme Valnes Ranch • 12310 447th Ave • Eden, SD 57232**

(Map and directions on page 2)

*Selling* **59 Yearling Bulls • 5 Open Heifers**

Including excellent heifer-bull prospects!

**SALE HOSTS:**

**VALNES RANCH RED ANGUS**

Emit and Jayme Valnes ..... 605-228-8857 or 605-698-6596  
David and Debby Valnes..... 605-698-7300 or 605-881-7933

**SALE DAY CONTACTS:**

We guarantee sight unseen purchase satisfaction. Contact us.

**Sale day phone numbers:**

Emit..... 605-228-8857  
David..... 605-881-7933

Or contact the auctioneer or ringmen. Your bids will be handled confidentially.

**AUCTIONEER:**

Kyle Shobe, Lewistown, MT ..... 406-366-0472

**RINGMEN:**

Jim Scheel, Cattle Business Weekly ..... 605-545-1521  
Jeff Kapperman, Tri-State Neighbor ..... 605-940-5104  
Dan Piroutek, Tri-State Livestock News..... 605-544-3316

**SALE DAY LUNCH:**

A complimentary lunch will be served on sale day.

**TRAVEL:**

The nearest airports are Fargo, N.D., and Sioux Falls, S.D.

**ACCOMODATIONS:**

Super 8, Sisseton, S.D. .... 605-742-0808  
I-29 Motel, Sisseton, S.D. .... 605-698-4314

**TERMS:**

Terms of sale are cash or check. Settlement must be made in full immediately following the sale before animals can be loaded or delivered. Every animal sells to the highest bidder. Any dispute will be settled by the auctioneer. Any corrections from auction block take precedence over printed material in catalog.

**HEALTH/CATTLE MANAGEMENT:**

All cattle are on a complete vaccination program as recommended by our veterinarian. We have a BVD-free herd. All bulls were fed together on a high roughage diet.

**RETAINED SEMEN INTEREST:**

We are retaining a 1/3 semen interest in all the sale bulls unless otherwise indicated. Full possession sells on all bulls.

**BREEDING GUARANTEE:**

We guarantee all bulls to be breeders, although we recommend you have the bulls semen tested a couple of weeks before turn-out time. If after two tests a bull is found to be a non-breeder, we will replace the bull or allow credit toward next year's sale. This guarantee is void if there is any evidence of improper management in caring for the animal, or the bull's inability to breed is due to sickness or injury which was incurred after being sold. The bull shall be returned by the purchaser or other arrangements made with us.

**LIABILITIES:**

All persons who attend the sale do so at their own risk. The owners assume no liability, legal or otherwise, for any accidents which may occur.

**DELIVERY:**

If you haul your own bull home sale day you will receive \$50 off the purchase price. We can assist you in delivering the bulls either to your ranch or to central locations on major highways up to 300 miles at the least cost possible to the new purchaser, within the next week or so. If you need special arrangements please give us a call.

**LIVE BROADCAST:**

The sale will be broadcast live over the internet. See directions to register to bid on page 5.

This is a great young bull that we raised and sold 1/2 interest in to Namken Red Angus. He is very thick and soggy with lots of eye appeal and out of one of my favorite cows. She has a perfect udder and always raises one of the best calves. The calves out of this young sire are proving to be outstanding. They are moderate framed, easy fleshing calves with exceptional phenotype.

**Lot 1**

This calf has the herdbull look to him. He is a very attractive, well-made bull out of an exceptional, moderate-framed cow with a beautiful udder. He has very balanced EPDs and is very easy fleshing just like his sire, whom we raised and sold half interest in to Namken Red Angus.

**Retaining 1/2 semen interest.**

Cash 2R offspring continue to demand attention across the world. They are early maturing with high performance and great hair. Known for extreme early growth (WW EPD 82, top 4%), extreme low maintenance (ME EPD -12, top 5%) and Rib Eye Area (0.73, top 3%). Cash has sired many champions in the U.S. and Canada including a Grand Champion female in Denver, and a \$32,000 daughter at the Red Roundup. We are very impressed with not only the bull calves sired by Cash 2R, but also his daughters. The bulls we are offering in this sale are the result of the exclusive semen package purchased in 2012.

Lot 2

*Herd Bull Caliber!* This calf has lots of eye appeal and a good set of balanced EPDs. His dam, 814S, was purchased from the Six Mile Ranch in one of their fall female sales. She was bred to the Red Towaw Indeed 104H, so that shows that they thought enough of her to use some costly semen. She is moderate framed and has a very good, level udder and a unique pedigree. This calf's sire "Cash 2R" is known for early growth, low maintenance and rib eye area, and he has sired many champions in the States and Canada including the Grand Champion female in Denver. This bull calf is definitely Herd Bull Caliber all the way.

**Retaining 1/2 semen interest.**

Herd Bull Caliber all the way! What a power house, but behind every good bull is a good cow family. This bull is out of a cow family that truly has lasted the test of time. He is backed by generations of great cows. His dam, 43U, is out of 592M (flush cow) bought for me by Bryan Mckenzie in the Spareman Dispersal Sale. When I had Bryan buy this cow I told him if they are not good enough for you, don't buy them for me. Boy, has she been good, with a perfect foot and one of the best udders you will find anywhere, and she comes with a 114 weaning index. 592M has two ET calves herself in the sale, A228 and A234. Her daughters, 43U and R378, are the same kind of cows, with perfect udders and feet and always bring home a good calf. With a sire like "Cash2R" and a -11 ME EPD, A216 should convert grass into \$\$\$\$\$. A216 gained 5# a day right after weaning. His dam, 43U, has an MPPA of 106.3. We are selling 1/2 interest and full possession of this bull. We would like to collect him as soon as possible after the sale for in-herd use.

Lot 3

Retaining 1/2 semen interest.

HD 50K tested – results available by sale day.

Another Cash calf with some length to him. They all seem to have lots of grow and be very stylish. They will certainly sire some calves that will have the pounds and catch the buyer's eye on sale day.

This bull is out of 36W, a big-ribbed cow that is really an easy keeper (90% of our bulls fell into the low maintenance EPD range which means less feed to gain more and that means a savings for you). John Spaerman from Wood Mountain Sask., bought 36W's calf last year sired by "SMASH" and he says he is GOOD! This year's calf sire by "CASH 2R" has 73 WW, 98 YW, 47 TM and, with a Stay of 11, should give you some females that last. His dam has an MPPA of 108.

Here is a more moderate-framed Cash calf with lots of thickness. He is wide over the top, deep sided, big hipped and has that herdbull look to him. He really travels out nice and should sire some excellent females. His mother is one of our donor cows. She has an excellent udder and is a moderate-framed, easy-keeping cow that never misses, and she certainly didn't miss with this calf. Last year she raised our high-selling bull going to Crump Red Angus in Wyoming.

This calf fits his name very well. He is probably the largest framed Cash calf and the longest as well. If you want to add pounds, then this is the guy for you. His dam is a dark cherry red, big-framed cow with a good udder and really milks. These Cash calves can really do it. They are soooooo easy keeping and really grow, and they all seem to be stamped the same way. If you want consistency, then you want to buy one of these Cash calves!

Lots 13 and 14 are ET calves out of the flush cow 592M who is also the granddam to A216, Lot 5. She is 12 years old this spring and still doing a great job. We have a herd bull out of 592M and Red Towaw Indeed 104H that we are using ourselves. If someone is looking to add some great maternal genetics to their herd, here are two bulls that can to it. With an ME of -11 and a Stay of 10, their daughters should last a long time and be easy keepers. 592M has an MPPA of 110.9.

Here is an ET calf out of my favorite cow out of all my ranching days – T382 – with an MPPA of 117.1!!! Her pedigree goes back to my 909 New Generation bull and a top Sodak cow. Current Asset A229 should really make some great females. We think so much of this bull's dam that we are keeping a full ET brother to A229, Lot 15, for our next herd sire. She never disappoints us no matter who we breed her to.

Here is a meat wagon! A very thick, deep-sided calf with a good hindquarter to him. His is also out of one of our donor cows. She has never missed a calf and raises a herd bull every time! We have used several of her sons in our commercial herd and her bulls have topped two of our sales! He does have a short tail and short ears on him because I forgot that she is an earlier gestation cow and he was born out in the pasture in a snow storm (I didn't forget this year), but he was up an going when I found him. Don't let that scare you away from the genetics combined into this great package. The cows won't care if his ears and tail are shorter, and I assure you his calves will have those added pounds and style you are looking for.

Red Towaw Indeed 104H, grandsire

Vintage 437U is an own son of the great Red Towaw Indeed bull that we purchased from the Six Mile Ranch in Canada in 2009. He is moderately framed yet still has growth, and his daughters have great udders and really milk. His sons have been very consistent the past few years and they will pass on these same great traits in your herds.

This bull's birth weight of 72# and his -4.4 BW EPD, CED of 7, CEM of 6 and -17 ME EPD along with the fact that he is a grandson of Towaw Indeed 104H and also comes from a cow family of low birth weights, should make him work great for heifers. Plus his daughters should be keepers.

Epic has been known as an impact sire you can breed across the entire herd. They call him a curve bender deluxe with a negative BW and top 10% growth EPDs. His calves exhibit excellent volume, muscle and solid growth, with high carcass merit genetics. We have been quite pleased with his sons' development. We are looking forward to seeing how his daughters perform in our breeding program.

He is out of the carcass power house Epic 379K. We have talked a lot about our 592M cow. Well, she is the granddam to A205. This bull's dam, S749, is a granddaughter of the Indeed 104H bull and the Indeed cattle really work. A205 is a good, deep-bodied calf and his dam carries the perfect udder passed on not only from 592M but from Indeed 104H whose daughters are known for good udders. Here is another cow maker.

He is a meat wagon! His dam, 12W, has a level udder with little, finger-sized teats. His granddam came from the Gayle Ingram Ranch in Texas. He should sire calves that feed well.

Here is a herdbull – a big, rugged, thick-made bull. He has the length, thickness and style, out of a perfect-uddered dam. These Summit calves will all have lots of hair and lots of bone, and will convert the feed to pounds very easily. This is the kind of bull you want to take a close look at! He can match any of the A.I.-sired calves we have!

He is out of another first-calf heifer with a 70# BW and a -2.3 birth EPD. Expectation gives him a great Marbling EPD and his dam, Y221, out of our good 3U cow is not only calving ease but her body condition (easy keeper) stays the same year round.

WOW!!! He has Expectation, Mulberry26P and Indeed104H in his pedigree and the 395H cow that was an Elite Dam at Spaerman Red Angus. Dam is a first-calf heifer with an MPPA of 100. Calf ratios: WW 100 and YW 102.

A big thanks to Grant and Kym Appleton for purchasing two loads of our replacement heifers last spring and one load of heifers this last fall off the cows. They gained 2.51 lbs. a day over a 105 days on winter wheat grass right off the cows with no sickness and no death loss, even after being shipped from South Dakota all the way to Texas!  
WOW now that is adaptability and low maintenance kind of cattle!

Copper 127 is a bull we bought from Prairie Pride Red Angus to use on heifers. He has turned out better than even expected. The calves come nice and easy, and hit the ground running. They all look the same and are made with a very attractive look to them. Just wait till you see them and then you will understand. He passes on the same calving-ease and easy-keeping ability to his sons and they have good growth as well, yet maintaining a moderate frame.

This is quite a calf here. He has that herdbull look and the EPDs and the pedigree to back him up! With Indeed and Dakota Copper on his pedigree, he is sure to sire some great females and, as proud as he is, he should sire some great bulls as well. His dam did an awesome job on her first one. We are looking forward to more great ones like this from her.

This bull goes back to the good L131 cow, a black-hided, red-gene carrier with a Sodak pedigree. This cow stays in good flesh year round even though she is 13 years old. She has an udder just like when she had her first calf. This bull's sire, 2T, was out of the Elite cow, 395H. This bull should make some daughters that will last a long time and be some easy keepers with his ME EPD of -8.

His dam produced one of our top calves a few years back. She always does a good job. With the combination of the dam's MPPA of 104 and his 2T sire, this bull should produce calves that top the market.

Lot 48

This is another bull that we raised. He has a little more frame than most but he really adds the power to his sons. They have a look about them that catches your eye and holds your attention. We really like what this bull is passing on and we used him really hard last summer. We are expecting a lot of calves from him this year. So far the birth weights are lower on him this year with more cows being bred to him. We really like the calves and we think you will too.

This bull's sire, Red Lazy MC Smash 41, a grandson of Rambo 502, has produced many top bulls in the industry. His dam's sire, 87U, has a full brother, Bold Edition (a son of Mulberry 26P) at stud for Genex. Now look at his maternal genetics, like S749, who has an Epic son in the sale, A205, and her dam 592M, who has two ET calves in the sale, A228 and A234. There are good genetics behind this guy. He is out of a first-calf heifer, born unassisted with a 78# BW and he has a nice low ME EPD of -9.

Here is a very nice Indeed granddaughter, that even has the good flush cow, 592M, as a grandmother. Indeed was a powerhouse female maker, so this girl should do a good job for you.

A KBJ Boomer 908Y daughter and look at the cow family that backs up this heifer! The Syringa cow family from the great Geis Angus herd in Canada, was a sound, productive cow family. Two of the first red cows to have earned the honor of being flushed at Geis Angus were Syringa females.

## 64 VVRA MS MARIA A280
