Welcome,

We would like to welcome you to our production sale. What a change this winter has been from last year. We had two waterers freeze up the day of our 2014 sale and it took until June before one of them thawed out. Hopefully sale day this year is a little milder.

Again the bulls are bucket fed oats & CHS pellets twice a day with free-choice grass hay. They are not fed for the show but to go to work for you and keep growing. We shoot for a 3-lb. daily gain on test and we know these bulls could gain a lot more but would only hurt them in the long run. We feel this is one of our best set of bulls top to bottom. Many of these bulls are suitable to use on heifers.

For those of you that can't make it to the sale, you'll be able to watch & bid on DVAuction.com. Videos of the bulls will be available a couple of weeks before the sale at the DVAuction.com website but remember that the video was shot a month before the sale and the younger bulls are still pretty green. If you have any questions don't hesitate to call us.

Also bulls will be delivered free to U.S. central locations within 500 miles and we will work with you on further distances.

You are welcome to come look at the bulls at the ranch before the sale. We would be happy to show you the sires & dams. Give us a call – we'd be glad to assist you in finding the right bull to fit your fit your herd.

Thank you and God Bless, *The Kuefflers*

Scrotal Measurements and Ultrasound Data:

Scrotal measurements and carcass ultrasound data will be available sale day.

Semen Interest:

DK Red Angus is retaining 1/3 semen interest in all bulls. The retained semen interest allows us to collect semen, use semen in our herd, and share in revenue of semen sales. Full possession and full salvage value sells on all bulls.

Delivery:

Delivery is free to U.S. central locations within 500 miles. We will work with you on further distances. \$50 refund per bull picked up within one week of the sale, or \$25 refund per bull picked up after April 20 at the ranch.

Feeding:

We will feed the yearling bulls free of charge until April 20 and have the bulls semen tested at our expense, but we will not be responsible for sickness or injury. After April 20, there will be a \$2-per-day charge.

Genetic Defects:

We have collected DNA samples on every bull in the sale with any known genetic defect carrier in the first three generations. The bull tested negative unless otherwise noted.

- Osteopetrosis (OS) “Marble-Bone Disease”
- OSF – Tested “free” of the genetic defect
- OSC – Tested positive as an Osteopetrosis “carrier”

Calving-Ease Recommendations:

Each bull has been designated with a star rating to assist you in determining the calving-ease of each bull. We have based our recommendations on EPDs, performance, phenotype and bloodlines, but please use your judgement as well.

- ★★★ Recommended for heifers
- ★★ Recommended for larger heifers and cows
- ★ Recommended for cows only

Bidding:

All animals sell to the highest bidder. Any dispute or challenges regarding bids will be settled by the auctioneer and his decision will be final.

Terms:

Terms of the sale are cash or check payable immediately upon conclusion of the sale and before animals will be moved. Seller will reserve the right to require a certified check as settlement before releasing any cattle. All animals are the owner's risk prior to their sale and become the property of the purchaser as soon as declared sold by the auctioneer.

Guarantee:

The bulls are guaranteed to be sound breeders. You may semen test or test breed them prior to breeding season and make your own evaluation. Any bull sold that fails to prove himself a breeder may be returned to the seller after notification by the buyer of the condition within five months of sale date. If a bull is proven unable to breed, the buyer will be given a full refund of purchase price; or a replacement bull as acceptable to the buyer; or credit in next year's sale.

In no case will the seller be responsible for more than actual purchase price. The seller's guarantee does not apply if the animal in question has developed to be a problem breeder due to negligence or improper management by the buyer.

Announcements:

Announcements from the auction block will take precedence over printed matter in this catalog.

Liability:

All persons who attend the sale do so at their own risk and the owner and sale manager assume no liability, legal or otherwise, for accidents which may occur.

NS Bronson was the \$25,000 high selling Red Angus bull at the 2011 Midland Bull Test. In 2011, we traveled a lot of mile looking for a powerhouse bull that was equally impressive in maternal traits. Bronson was our #1 choice that year. His second set of daughters are calving now and we're 110% pleased. They are excellent mothers with a lot of milk. He ranks in the top 10% for HB.

Trojan was our pick and the high seller at the 2008 Heart River Ranch Sale. His sire is a Canadian-bred bull that is well known for his maternal traits and for having many sale toppers throughout Canada. His individual ultrasound ratios were 128%IMF and 107 for REA. In 2013 he sired the Grand Champion Market Steers at both the Williams County Fair and McKenzie County Fair. He ranks in the top 10% for MB.

Ranchers' Guide to EPDs

HB HerdBuilder Index – Need bulls for developing a profitable cowherd and maximizing the value of marketed progeny? Select a bull with a high HB value.

GM GridMaster Index – If you market all of your calf crop and want to increase the value of that calf crop, select a bull with a high GM value to maximize your profit.

CED Calving Ease Direct – Breeding Heifers? Select bulls with a high CED to increase the probability that the heifers will calve unassisted.

BW..... Birth Weight – Predicts differences in birth weight. BW is included in the CED EPD, so simplify your decisions by selecting bulls based on CED instead of BW.

WW Weaning Weight and **YW** Yearling Weight – Predicts differences in weight at weaning and yearling. While selection based on these growth measures can increase your payweight, be cautious what the bull's other EPDs are.

Milk Milk – Predicts differences in weaning weight of daughter's progeny due to milk production.

ME Maintenance Energy – Selecting bulls with a lower ME EPD will decrease the amount of feed his daughters will require to maintain body weight.

HPG..... Heifer Pregnancy – Retaining heifers? Select bulls with a high HPG to increase the percentage of exposures that result in a calving observation.

CEM Calving Ease Maternal – Another number to pay attention to if you are retaining heifers. Selecting bulls with a high CEM will increase the probability of those daughters calving unassisted.

STAY.... Stayability – The most important trait if your goal is developing cows that stay productive, thus increasing your profitability. Bulls that have a high Stay EPD are expected to sire daughters that remain productive in the herd until at least 6 years of age.

MARB .. Marbling Score – Select bulls with high MARB EPD to increase the number of progeny that grade Choice or Prime.

YG Yield Grade – Marketing calves on a grid? Placing selection pressure on YG EPD will decrease the number of YG discounts on grid-marketed progeny.

CW..... Carcass Weight – Selecting bulls with a high CW EPD will increase the weight of the hanging carcass, which directly impacts revenue.

REA Rib Eye Area – Need to add muscle? Select bulls with a high REA EPD to increase rib eye area, which favorably increases Yield Grade.

FAT Backfat – Need to reduce waste in carcasses? Select bulls with a low FAT EPD to reduce backfat, which favorably increases Yield Grade.
