Dear Friends,

Welcome to our 9th annual Heart River Ranch/Open A Angus production sale. We certainly appreciate your interest in this years' offering of bulls and the loyal buyers of our genetics over the years. We can all be grateful for 2014 for the abundant moisture and hay crop to the good cattle prices and fairly mild winter thus far. I recall at some point this fall someone said that a year like this could make anyone look like a great manager. However it is years like this that should require us to take a harder look at all management aspects and prepare for what we know is a certainty....a return to less conducive weather and economic conditions. With that in mind, our goal is to bring to our customers... *Balanced and Sustainable Genetics for Profit, Productivity and Performance.*

Over the years we have paid attention to details with the focus on providing sustainable genetics by providing balanced seed stock grown and developed in as natural an environment as possible; no creep, no silage and no supplementation that would mask the genetic merit or lack of it in any animal. Our cows and bulls run in large pastures on nature's grass and water. Consequently, we have tried to keep what you see on sale day as much as possible what you get down the road to eliminate meltdown of bulls in the breeding pastures, promoting longevity and pregnancy rates. 50K testing also gives you more accuracy in the animals' genetic value , as much as the equivalent to the accuracy you can expect after producing a dozen calves in some cases. We also strive to include as much performance and EPD information coupled with carcass ultrasound, fertility testing, and strict selection on the cow side to "take the guess work" out of the bull selection process.

We will have a video of the bulls and carcass ultrasound information available near sale day. Check on line at www.openaangus.com and www.heartrivergenetics.com for periodic updates. Bulls will be on display at the development lot 4 miles south of Belfield on Highway 85 and then ½ mile west on 40th St SW. You are welcome to come out and inspect them at any time.

We invite you to join us on Tuesday evening for a complimentary supper at a new location, the feedlot where the bulls are developed on March 10th, 2015 with an informative program provide by Zoetis Animal Health. Let us know if we can provide any assistance or answer any questions you have concerning the bulls. Our goal is to know that you, our customers, are getting a sustainable return to your operation by investing in our bulls. We look forwarding to having you as our guest on March 10 and 11th, 2014. Thank you for your consideration and past patronage.

Directions to Heart River Ranch

Cows are located 13 miles west of Buffalo, SD and 7 miles south of Harding, SD. Stop by our home anytime 7 miles south of Belfield right off US Highway 85 or 52 miles north of Bowman, ND on US Highway 85 and look for the Heart River Genetics sign or 43rd St SW.

Directions to Open A Angus

Cows are located 16 miles north of Belfield, ND on US Hwy 85 and west on Frank's Creek.

Offering

39 Yearling Red Angus Bulls
51 Yearling Black Angus Bulls

Cattle Viewing

A cattle viewing is available at any time. Please call any of the contact numbers to make arrangements if you need to see cows or bulls before March 1 so that we are available and you have ample time to see the cows or bulls.

Schedule of Events

Tuesday, March 10, 2015

Open A Angus/Heart River Ranch Feedlot Belfield, ND

Cattle available for viewing through late evening

No-Host Social 6:00 p.m. (MT)

Complimentary Beef Dinner 6:30 p.m. (MT)

Sponsored by Zoetis • Guest Speaker: Andy Roberts, Beef Research Scientist,
 Fort Keogh Research Station, Miles City, MT

Wednesday, March 11, 2015

Open A Angus/Heart River Ranch Feedlot Belfield, ND

Complimentary Coffee and Rolls, Bars, Cookies All Day

Complimentary Lunch 11:00 a.m. (MT)

Sale 1:00 p.m. (MT)

Complimentary Buyer's Supper 5:30 p.m. (MT)

Sale Location

Open A Angus/Heart River Ranch Feedlot, Belfield, ND

The bulls will be on display in pens outside of the barn. The sale itself will be a video auction in the warmth and comfort of the barn.

A DVD will be available upon request and bulls can be viewed online at heartrivergenetics.com and openaangus.com after Feb. 25, 2015.

Sale Order The sale order will be catalog order.

DV Auction The sale will be available online on DVAuction.

Phone Numbers

If you would like to bid on the telephone please call 701-290-6424 or 701-290-9745 to make arrangements to be on the telephone for bidding or to have someone look at the cattle for you. The main office phone number to call us on sale day is 701-290-9745. Please call in advance to make arrangements to call in during the sale.

Internet and Absentee Bids

We would prefer to visit with our customers in person but realize that not everyone can be at the sale; therefore we have made arrangements to bid through telephone or internet. Bids will be handled in strict confidence by any of the publication representatives or the respective ranches. If you would like to discuss the sale offering call us preferably several days before the sale, and we can help select your genetics. Keep in mind that we are sure that we have a bull that will fit your needs. After the sale you will need to contact Annette at 701-575-8145 or 701-290-9745 to make arrangements for payment of telephone purchases.

Storm Date

In case of postponement please listen to the Northern Ag Network, KLTC 1460 AM or go to northernag.net, ndstockmen.org, heartrivergenetics.com or openaangus.com for any postponement announcement. Postponement sale date is set for pre-sale activities: March 11, 2015, 6:00 p.m. and sale March 12, 2015, 1:00 p.m.

Transportation

Belfield, ND and Dickinson, ND are both served by bus. Dickinson, ND is also served by United, Delta and Frontier Airlines. Please call 701-575-8145 or 701-290-9745 if you need transportation from the bus or airport.

Lodging

Lodging is available in Belfield, ND.

Announcements

Errors discovered in the catalog will be corrected by announcements from the auction block at sale time and such corrections will take precedence over the printed matter in the catalog.

Liability

All persons who attend the sale do so at their own risk. Neither the owners, management, sales staff, facility or any person connected with this sale assume liability, legal nor otherwise, for property loss or for any accidents that may occur.

Delivery

Free Delivery to central points up to 500 miles. Balance will be at cost. We will make every effort to assist in deliveries of greater distance or by private arrangements and volume purchases. Delivery will be made at our convenience and efforts will be made to have bulls delivered by April 1.

Feeding and Development of Bulls

All bulls of HRR and Open A were weaned in late October and did not receive creep feed with the exception of a few Open A bulls that were ET calves produced at a recipient herd. Calves received their pre-weaning and weaning vaccinations and were handled in every respect as all natural. Bulls were fed to gain 2.5lb per head per day on a 1% grain and by product rotation. Bulls were fed free choice mineral, salt, and hay. We took yearling weights at approximately 105 days post weaning with no post weaning adjustment period or warm up period. Our intent was to grow out the bulls for maximum longevity and integrity of the bull.

Historic Photos

Most of the historic photos in this catalog were taken by Inez Kessler, Annette's great grandmother between 1905 and 1908 in the Gaylord, ND area. Inez was the only person to have a camera in the area and as a result she took pictures of many people and events. The town of Gaylord was located about 13 miles south of Belfield, ND along US Highway 85. The Gaylord Post Office and store was a stop for travelers going south. This building still stands at the Curt Molm place.

Sale Terms & Conditions

The terms of the sale are cash. No release will be given until satisfactory settlement has been made. All settlements will be made with the clerks of the sale immediately after the sale. We reserve the right to withhold animals from shipment for whom payments have not been received prior to departure date. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. All Sales are subject to an acceptable semen examination. Semen evaluation certificates will be furnished to the buyer at delivery.

Bulls were carcass ultrasounded on February 25, 2015.

Updated EPD information, carcass ultrasound, and 50K data will be provided at the sale and available at www.heartrivergenetics.com or www.openangus.com. This information will be available as soon as it is received from the Red Angus Association of America or the American Angus Association.

All bulls have been tested using the Zoetis 50k genomic test and parent verified.

Health certificates and brand releases will be furnished for shipment anywhere in the United States.

Each animal carries a readable tattoo or freeze brand.

Insurance

Ownership risk to purchaser commences when the auctioneer's hammer falls. Insurance will be available sale day. It is recommended that buyers insure their purchases for safe delivery. Purchaser assumes the risk of death or injury to their livestock immediately after the sale.

Heart River Ranch and Open A Angus

Loss of Use Policy

2015 optional loss of use policy: Heart River Ranch and Open A Angus are striving to offer the best options not only in beef animal genetics but also loss of use protection for bulls and/or females we offer to our customers. We would like to introduce our customers to the Stockman's Insurance Policy which to the best of our knowledge and research offers the best protection to you, our customers.

Heart River Ranch/Open A Angus will pay 4% of sale price toward the Stockman's Insurance policy. The balance of the policy will be paid by the customer. If the customer chooses to decline the policy, Heart River Ranch or Open A Angus has no obligation to cover any losses due to injury, sickness or death. Heart River Ranch/Open A Angus does guarantee all cattle to be sound the day of the sale. All bulls will be semen tested by the Wibaux Vet Clinic in March/April 2015.

Breeder's Guarantee: All bulls are guaranteed to be breeders. All claims for adjustment or refund must be made in writing within six months of the sale date. In the event a bull is claimed to be a non-breeder, the purchaser may return the animal to the ranch of the seller if in good condition and complying with the health requirements of the Seller's state. The Seller will be entitled to six months trial following the return of the animal in which to prove that the animal is a breeder. If at the end of six months, the Seller shall be obligated to replace the animal with another of equal value or to refund the purchase price. The return of the full purchase price shall in any case be deemed full satisfaction and settlement. If the Seller proved the animal to be a breeder, it shall be the obligation of the purchaser to take delivery of the animal at the purchaser's expense.

Implied warranty: Except for those stated in the terms and conditions, there are no warranties or implies, as to merchantability or fitness for a particular purpose with respect to the cattle being sold in this auction. The warranties set forth in the terms and condition are in lieu of all other warranties, either expressed or implied and the remedies provided therein shall be the sole and exclusive remedy of the buyer, or any party claiming through the buyer, for any breach of warranty or guarantee therein provided and all other obligations or liabilities.

Health

Bulls and heifers were treated with Enforce at birth and branding and were calfhound vaccinated with 4-way and 7-way. At weaning, calves were given a 5-way, 7-way and One Shot, boosters were also given. Calves and cows were poured with Dectomax in the spring, fall and late winter. All bulls will be vaccinated and wormed prior to delivery. All females are bangs vaccinated and on a fall vaccination program.

Semen Tests: Bulls will be semen tested after the sale.

Semen Interests:

Heart River Ranch and Open A Angus are each respectively retaining 50 percent revenue-sharing semen interest in every bull selling in this sale. Full possession and full salvage value sells on all bulls. If a buyer chooses to collect and market semen, the seller will share proportionately in the collection costs and revenues earned. In the event that the seller chooses to collect semen for "in herd" use, it will be done at the seller's expense and at buyer convenience. Semen will be made available to buyer at cost.

Volume Discounts

We are pleased to give a volume buyer discount. You will receive 5% off of purchases of 5 to 9 bulls, and 10% off of 10 or more bulls. Please notify the clerk when you check out to receive your discount. This is another way to say "Thank You" for your trust in our program.

Southwest Business Machines: Technical support

Buy a Bull – We'll Buy Your Tags!

If you purchase a bull from us, we will purchase one bag of FCCP or Allied Access tags per bull for you.

All you need to do is call the Red Angus Marketing Department, answer a few management questions, and enroll your calf crop for free. Then start reaping the premiums through Red Angus' marketing programs!

Feeder Calf Certification Program (FCCP) "yellow tags" are for bull customers using ONLY Red Angus bulls. FCCP cattle are accepted into the Choice+ Grid and Pro-Cow Program. Cattle enrolled in FCCP are USDA genetic, source and age verified.

Allied Access "green tags" verify source and age for bull customers utilizing halfblood bulls in their planned crossbreeding program.

RedAngus.org • (940) 387-3502

Bull Selection – Simplified.

Red Angus stakeholders have enjoyed the capability of selecting bulls based on economically relevant traits (ERTs), such as Heifer Pregnancy or Stayability, that truly impact their operations profitability. While these ERTs allow for efficient selection decisions, the growing number of ERTs and EPDs has resulted in confusion as producers attempt to estimate a sire's overall impact. In response, RAAA has developed the HerdBuilder and GridMaster indices, which answer the question:

"What impact will each potential sire have on my operation's profitability?"

HERDBUILDER

Producers selecting bulls to develop profitable replacement females and maximize the value of non-replacement marketed progeny should incorporate the HerdBuilder Index into their selection decisions.

The HerdBuilder Index is built using the following scenario:

- Red Angus bulls mated to cows and heifers
- Replacement heifers retained from within the herd
- All remaining progeny sold on a quality-based carcass grid

Given that replacement heifers are retained, significant influence is placed on the obvious maternal ERTs of Stayability, Heifer Pregnancy and Calving Ease. Additionally, with all remaining progeny sold on a quality-based carcass grid, Marbling, Yield Grade and growth EPDs also impact the HerdBuilder Index.

GRIDMASTER

Use the GridMaster Index if your operation's primary goal is maximizing profitability of feeders in the feedyard and on the rail.

The GridMaster Index is built using the following scenario:

- Red Angus bulls mated to cows
- All progeny sold on a quality-based carcass grid

Marbling, Yield Grade and growth EPDs are the traits of primary importance in the GridMaster Index.

Ranch Tested. Rancher Trusted.

We had been hunting for a Right Kind son and were fortunate to be able to acquire semen on Loosli Right Kind 205 after he was purchased by Crossaint Red Angus. As a young sire, he posts 9 traits in the top 30% or better, all of them being in areas we feel are important to sustainable cattle. We think Right Kind 205 is one of the most consistent bulls we have used. His progeny are moderate framed, easy keeping, and suitable for operations with limited feed resources.

sire, he posts 9 traits in the top 30% or better, all of them being in areas we feel are important to sustainable cattle. We think Right Kind 205 is one of the most consistent bulls we have used. We continue to use Boaz for his daughter's production capacity. Boaz is an udder improver with the ability of his daughter's to wean off a high percent of their body weight. In the top 9% of the breed for HB and a bull that provides value for convenience traits for the maternally focused operation.

This dark red bull is sire to many of the daughters in our herd and a few of the calving ease bulls. He ranks in the top 1% for CED and BW yet has a 102 WW ratio. His daughters consistently have beautiful, balanced udders with small teats and are above average in milk. He then moderates mature size.

Right Time has been one of the mainstream sires in the Angus breed for over a decade. On Feb 20, 2003, he was laid to rest on the Vermilion Ranch. His service to the beef industry was one of the most influential of any Angus bull. Right Time was the high-selling

bull in the breed in the 1993 sale season bringing \$160,000 from Pat Goggins for the Vermilion Ranch in Billings, MT. Right Time has sired some of the highest valued females of the breed as they continue to be some of the most valuable and sought after in the world.

American Angus Association \$Value Indexes

\$Values are multi-trait selection indexes expressed in dollars per head, to assist commercial beef producers by adding simplicity to genetic selection decisions. A \$Value has meaning only when used in comparison to the \$Value of another animal. For example, just as with EPDs, variation in \$Values between animals indicates average expected differences in the relative value of progeny if random mating is assumed and the calves are exposed to the same environment.

How do I use them?

\$Values should be used to complement the criteria that producers already use when selecting bulls.

The \$Values are not designed to be driven by a single trait, as an index is multi-trait by design. These selection tools are the result of the application of industry-relevant market values to Angus genetics for preweaning, feedlot, and carcass merit.

The \$W, \$F, \$G and \$B values on individual animals and the Sire Evaluation Report may be viewed at www.angus.org.

American Angus Association
 3201 Frederick Avenue ■ St. Joseph, MO 64506
 816-383-5100
ahir@angus.org ■ www.angus.org

\$Values			
\$W	\$F	\$G	\$B
+21.28	+13.60	+12.53	+25.32

Weaned Calf Value (\$W): an index expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

Feedlot Value (\$F): an index expressed in dollars per head, is the expected average difference in future progeny performance for postweaning performance compared to progeny of other sires.

Grid Value (\$G): an index expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

Beef Value (\$B): an index expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires. The \$B value combines the contributions of \$F and \$G.

This is a 5L Legend son is a herd bull prospect to start the sale. He is out of a first calf Grand Statement daughter and has been a stand out in the pasture all summer. He is neat in his head and shoulder, smooth in confirmation, and brings as much growth and performance to in a combination package as we have produced. His light birth weight could qualify him for use on heifers with monitoring and has enough gas be a front pasture herd sire. His 2 year old dam weaned him off with a 118 WW ratio and bred back to calve AI.

A 5L Legend son with a 67# birth weight and a performance kick to boot. HRR Legend 4100 is a nice dark red bull with CED is the top 10% of the breed. We feel that he could be used on heifers with confidence. His young dam, a Ridge S005-0099 daughter, HRR Inatexxi 296 presented a 110 WWR and MPPA of 104 on her first try.

HRR Impressive 4113 is an ET calf, whose dam, HRR Colleen 429, is a cow that we raised and sold to Gary Jacobson as a calf in the Santa Sale. She raised the top selling open heifer calf in Gary's first cow sale and then this past fall, HRR Colleen 429 topped Gary's cow sale. We had a chance to flush her and here is the result with HRR Impressive 4113. He is a performance bull for cows. Dam's BWR 98 WWR 104 YWR 100 MPPA 103.

Open A 158W Tombstone B247 is a bull that you will like when you see him in the bull pen. He has an interesting pedigree with Sitz Upward 307R on the topside and a Sitz Traveler 8180 on the bottom. His dam, Open A 004 Eileen 158W goes back to the Jaynbee Eileen 468F cow, which was the first cow Open A flushed. The Eileen 158W cow is a really nice, moderate framed, big volume cow with a great disposition. Tombstone B247 is extremely well balanced with a nice birth to yearling EPD spread. He is in the top 10% for WW, YW and SC. Top 15% for \$W and \$F. Here is a HERD BULL that will add to your bottom line.

This bull is a son of Rito 6EM3 of 4L1 Emblazon who has impressive functional ranch kind of performance orientated cattle. His dam is a first calf Sitz Traveler 8180 daughter

For the seventh year in a row, Home On The Range is participating in the embryo transfer program. Home On The Range has entered into a contract with Open A Ranch (Jim Arthaud) and Heart River Genetics (Annette Steffan). The staff and children bring in the cows, implant the CIDRs (a progesterone impregnated devise), inject a shot of GnRH (gonadotropin hormone), remove the CIDRs and, finally, the embryologist transfers the frozen embryo into the cow's uterus.

The children are a little apprehensive at first, never really being around cattle and such a procedure, but once they get comfortable and know what their job is, they take responsibility. They put in ear tags and even learn how to palpate the cow later to see if she is pregnant.

It's a great program for Home On The Range and teaching children about cattle reproductions.
