Real time bidding & proxy bidding available.

Quality Red Angus Cattle Bred to Function Efficiently

Welcome

Welcome to our 2015 sale offering and Thank You for your consideration of our program. We hope that as you view our information that we have compiled in this catalog that you will find it to be informative for your selection process. If you come across questions along the way please give us a call or email us so that we can give you all the information that you need.

December 2014 we marked twenty-five years as Milk Creek Reds. Bruce purchased two Red Angus percentage cows from Paul Haugen and joined the Red Angus Association in 1986 while also beginning a partnership called The Red Dimension. In December 1989, we purchased Paul's share of 36 head of females and branched out on our own. Twenty-five years ago we set goals for our cattle operation, over the years many of those goals have changed due to how we run our business and the type of cattle it takes to function in the environment we raise them in.

The offering this year continues to have some of the sires that are the mainstay for the type of cattle that we are striving to produce but also introduces you to 5 new sires that we are very pleased with the type and kind that they have left us with. Our goal, that we hope is achievable someday, is to have numerous different sire groups in the offering that can't be identified because of the uniformity of their type and kind.

Our main goal continues to center around producing the cow that will perform within the environment we challenge them in by limiting our inputs to a minimum. We feel by challenging the genetics through environmental constraints it will allow us to produce more profitable cattle for the industry. Even though we place a lot of emphasis on the cow side of the equation of our business we don't ignore the economic importance of feeding and packing side of our industry. We market our steer calves from our Red Angus commercial herd to a feeder in Kanas and get feedback on how the cattle gain and grade. This year the feedlot has implemented a computerized tracking system so that we will be able to get individual carcass data back. Most importantly, our steer calves are profitable for the feeding segment of our beef industry without sacrificing the type of cow that we need to have to be profitable in the cow/calf segment of the beef industry.

Red Angus continues to grow as a breed of choice in the commercial segment of our industry. With this growth our breed association has added staff to accommodate the growing needs to secure more markets for our Red Angus commercial customers. We don't know of another breed that places as much emphasis on the commercial segment of the business. If you are in need of assistance in marketing Red Angus cattle of any type let us know and we will do our best to assist you in the process as well as getting you in contact with other people and programs that can assist also.

We look forward to visiting with you in the near future and hope that you can continue to enjoy this upside of our cattle cycle.

Milk Creek Reds
Bruce, Tena, Cele & Jaclyn Ketchum

*As servants of the Lord,
we are striving to be
stewards of the land and
cattle that He created and
allowed us to manage so
that we may glorify Him.*

Sale Information

Milk Creek Reds Bull Sale

Saturday, March 21, 2015

1 p.m. MDT • Milk Creek Reds Ranch • Plevna, MT

Selling:

100 Yearling Red Angus Bulls

SALE DAY LUNCH:

Complimentary lunch and pie will be served at 11:30 a.m.

SALE LOCATION:

At the Ranch (see map on page 2 for directions)
2093 Plevna Road South, Plevna, Mont. 406-778-3819

CATTLE VIEWING:

The bulls can be viewed at Bruce & Eric Bowman's feed 1 mile south of Rhame, N.D., until March 18th. After this time the bulls will be at the ranch.

SALE VIDEO

The video of the sale cattle will be available to view at www.milkcreekreds.com or www.billpelton.com by March 1, 2015. If you don't have high speed internet or are unable to view the video over the internet contact us for a DVD on the sale cattle.

SALE FORMAT:

Once again we will be offering the bulls through a rancher's auction. We will have an auctioneer that will auction the sale in a relaxed atmosphere. Each interested buyer will be able to bid on the bull of their choice with low pressure and the ability to be comfortable.

PHONE ORDERS

Buyers unable to attend the sale may call or send their bids to the owners, Bruce or Tena Ketchum. If you would like to discuss the sale offering, call us and describe your needs and budget and we can select your genetics for you. We can bid on the animal for you and you pay only the bid price established by the auction. Bids are handled in confidence on all orders. If there are several people needing to use this method for the sale we will set up a conference call for you to call into during the sale. Please call a few days in advance if this is needed so that we may set this up and get you the necessary phone number and information ahead of sale time.

SALE CONTACTS:

Milk Creek Reds

Bruce and Tena Ketchum 406-778-3819 (Home)
406-978-3819 (Cell)

Bismark, N.D. 230 miles

LIABILITY

All persons who attend the sale or view the cattle do so at their own risk. The owners assume no liability, legal or otherwise, for any accidents that occur on the sale or viewing premises.

ACCOMODATIONS:

Baker, Mont.

(If planning to stay please reserve early as the oil field activity can cause room shortages.)

Montana Motel 406-778-3315 or 800-779-8353

Red River Inn 406-778-3321

Sagebrush Inn 406-778-3341

Miles City, Mont.

Comfort Inn 406-234-3141

Holiday Inn Express 406-234-1000

TERMS

The terms of the sale are cash. All settlements will be made with clerks of the sale immediately following the conclusion of the sale and before any cattle will be released. We will follow the Terms and Conditions set forth by the Red Angus Association of America. Announcements made by seller on sale day take precedence over any statements printed in this catalog or advertisement.

DELIVERY

We will provide delivery up to 300 miles. Over 300 miles we will work with the buyer to make arrangements on delivery. **A \$100 credit per bull will be applied to the purchase price of the bull if the new owner picks up the bull(s) on the day of the sale.** Delivery of the bulls will start the week after the sale.

BULL HEALTH PROGRAM

The bulls received Vision 7 at branding and then are pre-conditioned in September with Pfizer One Shot Ultra 7, Bovishield 5 Gold. The bulls were poured with Ivermax in October and boosted with Bovishield 5 Gold. The Fusiguard was boosted in December and they were poured with Dectomax in January. Semen evaluations are performed by Don Beck of the Fallon Co. Vet Service prior to the sale with all evaluations available sale day.

BULL DEVELOPMENT

The bulls are fed on a ration to develop them into sound functional useable bulls for big country. They are fed to gain 2.5 lb per day. The ration consists of whole kernel corn (7.5 lbs), distiller's grain (1.5 lbs), and a mix of ground grass/alfalfa hay and corn silage. This ration is developed to use 1% of the feed base being grain to reach our goal of 2.5 lb gain. They have been developed at Bruce & Eric Bowman's feedlot which is located 1 mile south of Rhame, N.D.

SEMEN INTEREST

Milk Creek Reds is retaining one-half revenue-sharing semen interest in all bulls in the sale. The retained semen interest by Milk Creek Reds allows us to collect semen, use semen on the bull in our herd, as well as share in semen revenue if the bull would develop interest to be used in other herds or semen marketing companies. Any semen collection would be at the buyer's convenience in the off-season use. Full possession and full salvage value sells on all bulls in this sale..

Sale Information

WATCH AND BID ONLINE AT DVAuction.com

Can't make the sale?

We are pleased to bring you real-time Internet bidding and a live broadcast of this sale through DV Auction. To watch or bid online, simply complete the following steps:

- Visit the DVAuction web site at www.dvauction.com
- Click on the "Register" tab
- Enter a user name, password and your contact information.
- Click on "Apply for Bidding."
- Select the sale from the list of other auctions and click "Apply".
- Complete the process by filling out the Banking & Lending information requested.

Be sure to include a personal contact at your bank, we will contact them in order to get a credit reference.

If you would prefer to be approved using your credit card, call (402) 474-5557.

Please be sure to apply for bidding at least a day in advance of the sale-every effort will be made to process your application in a timely manner.

DVAuction will contact you once you have been approved to bid. We do not provide buyer numbers until you have purchased a lot in the sale, and that number is only usable for that auction. After the sale contact the sale owner or manager to make arrangements for payment and delivery of your online purchases.

Please Note: High speed Internet access (DSL, T-1, or Broadband) is required to be able to bid successfully during the sale. If you have any questions, please contact DVAuction at (402) 474-5557 or email support@dvauction.com.

Proxy Bidding: If you can't access a computer during the sale, you can now place a "proxy bid" through DVAuction. Simply follow the instructions listed above, and as the sale date nears there will be a "Proxy Bidding" link under the sale listing on the main page of DVAuction. You can then place the maximum amount that you'd like to bid, and our system will represent your bid just as if you were there.

Esther Elsie Wagner Enkerud

October 27, 1931 - January 2, 2015

A Glimpse of "My Mom"

She had a heart of gold

A wonderful grandma - truly there is such a word as de-grammatize for she tended to spoil her granddaughters

She gave guidance in a nonchalant way

She taught me to believe in myself (she drove the pickup while I roped the calves from the back) cause I knew we could do it

She had the patience of Job

She taught me how to sew and told me it was never good unless you had to rip out a seam at least once

She led by example through perseverance and hard work

She was my irrigating buddy through mud and mosquitoes

Compassion that made her a wonderful nurse

She would pack me a snack and tuck it in my coat because she knew I would be hungry on the long days we spent trailing cows to summer pasture when I was a kid

She always served with a grateful heart

Many of you will remember her as one of the "MILK CREEK REDS" cooks: she truly enjoyed helping at the lunch but seeing everyone was what it was all about

But most importantly, she was "My Mom" and for that I have God to "Thank"

For I know that God has Mom in his hands

And I will always have her in my heart!

Bull Selection – Simplified.

Red Angus stakeholders have enjoyed the capability of selecting bulls based on economically relevant traits (ERTs), such as Heifer Pregnancy or Stayability, that truly impact their operations profitability. While these ERTs allow for efficient selection decisions, the growing number of ERTs and EPDs has resulted in confusion as producers attempt to estimate a sire's overall impact. In response, RAAA has developed the HerdBuilder and GridMaster indices, which answer the question:

“What impact will each potential sire have on my operation's profitability?”

HERDBUILDER

Producers selecting bulls to develop profitable replacement females and maximize the value of non-replacement marketed progeny should incorporate the HerdBuilder Index into their selection decisions.

The HerdBuilder Index is built using the following scenario:

- Red Angus bulls mated to cows and heifers
- Replacement heifers retained from within the herd
- All remaining progeny sold on a quality-based carcass grid

Given that replacement heifers are retained, significant influence is placed on the obvious maternal ERTs of Stayability, Heifer Pregnancy and Calving Ease. Additionally, with all remaining progeny sold on a quality-based carcass grid, Marbling, Yield Grade and growth EPDs also impact the HerdBuilder Index.

GRIDMASTER

Use the GridMaster Index if your operation's primary goal is maximizing profitability of feeders in the feedyard and on the rail.

The GridMaster Index is built using the following scenario:

- Red Angus bulls mated to cows
- All progeny sold on a quality-based carcass grid

Marbling, Yield Grade and growth EPDs are the traits of primary importance in the GridMaster Index.

While the process of calculating an index is very complex, the resulting selection tool is very simple to implement.

HerdBuilder and GridMaster are expressed as differences in profitability per exposure.

HerdBuilder Example:

30 cows x 5 years breeding = 150 exposures

Bull A has a HerdBuilder Index of 175: $175 \times 150 = \$26,250$

Bull B has a HerdBuilder Index of 100: $100 \times 150 = \$15,000$

\$11,250 Difference in Profitability

Ranch Tested. Rancher Trusted.

Epic is a bull that won't go out of style on our operation anytime soon. We have 7-year-old daughters in production and are still using 50 units of semen a year AI because of all the things that he does well in. The depth of body, thickness as well as performance that he puts into his progeny in many of higher selling bulls in our sales. Look for us to continue to use this bull in the future until we find other genetics that will match or exceed what he offers.

Fusion sires attractive progeny that have above average muscle and shape. We have his first calf crop on the ground and weaned and we are pleased with what we see. We used him this year on both cows and heifers after seeing how he calved out of cows this past spring. Red Cow Relocators selected a Fusion daughter out of our 130+ heifer calves for our NILE sales entry.

Redstone sires the type and kind of progeny that work for the cow calf operator as well as the feeder. His dark red progeny perform well at weaning and yearling and include good carcass traits as a bonus. He has sired 100 plus progeny with an 81-lb. BW average, 102 WW ratio and 104 YW ratio. He also has young daughters in production that I really like. His only drawback is that we don't have enough of them at this point.

1162 is an attractive thick made bull that adds quite a bit of performance to his progeny. We kept him out of our 2011 calf crop to carry on the Blazing Trail line of his sire who was an OS carrier because 1162 is OS Free. We think that he will leave daughters in our herd that will not only be moderate and thick but will be the keeping type of cow like his dam.

He sires very attractive cattle that perform well at weaning, yearling and as young females in our herd. To date he has sired over 130 progeny with an average 86-lb. BW, WW Ratio 101 and YW ratio of 100. He is heavy muscled, attractive, good footed and a tremendous breeding bull. We have turned him in with 100 cows cleanup after time AI breeding and he can cover the country and get the cows bred.

We purchased Lacy King from Dale and Kay Lacy in Missouri. We really liked his Dam and her half sisters as young cows in the Lacy herd as well as his sire's daughters that were in production. We are very pleased with the calving ease and phenotype of the 9240 progeny but his biggest attribute will be the females that we have and will continue to have in production on the ranch.

We have used Impressive for 5 breeding seasons AI on both heifers and cows. We like his ability to produce progeny that come easy and grow well but also have above average thickness over the top in the lower quarter. His progeny have been very well accepted in our bull sales and his daughters in production are the right type of cows.

We have used Legend the past two years AI after seeing and purchasing progeny out of him. He offers an attractive pattern to his offspring with moderate birth weights and good performance. He is owned by Choat Cattle Company, Sandbur Ridge Red Angus and 5L Ranch.

BEEF BREEDERS SHOW IN MILES CITY, MONTANA

8 - Milk Creek Reds Bull Sale

Cody McPherson, almost 4 years old, attended the Beef Breeders Show in Miles City the first part of February. Cody came up to our pen of bulls and told Bruce that he would like to buy that bull and pointed at a bull that was in our pen. Bruce having noticed that Cody's grandpa was at the pen to the left of us that had Black Limousin, asked Cody, "What about one of these bulls?" Cody replied, "No, I want a red bull for my red cows so I can have red calves."

Bruce inquisitively asked Cody, "What about one of those bulls?" which were on our right side and were Horned Herefords. Cody replied, "I might buy one of those to buck them out." Cody proceeded to put his hand in his pocket and brought out a dollar bill to give to Bruce to buy the bull. Cody then said, "I want two bulls," and reached in his pocket for another dollar bill. As you can see from the expression on Bruce's face he was certainly impressed with this little boy and his determination.

Bruce asked Cody, "So how are you going to get the bulls home?" Cody replied, "We will go to the ranch and get the trailer and back it up to this panel and load the bulls in the trailer."

Cody McPherson, you are one of the reasons that we are blessed in raising Red Angus cattle for this picture is "PRICELESS!"

4221 has stood out all summer long. Anyone who came to look at cattle this summer and fall seemed to find him. I think part of the attention he received came from the comparison of his size to his very moderate Trailblazer daughter that has produced 3 progeny @ 100 BW ratio, 104 WW ratio and 108 YW ratio. When you study his EPD profile you will find that he ranks in the top 25 % for 10 out of the 16 traits posted on the RAA website.

4290 is the first of three Redstone ET brothers out of the Lakota 523 cow that sold to Sandbur Ridge in our Fall female sale. He is joined by 4312 and 4321 to combine some of the highest weaning and yearling weights in this offering. The females from these bulls should make excellent cows.

We have used Lacy King AI on heifers and cleanup in a group of our cows. He consistently sires lower birth weight calves like 4339 that are moderate in their frame and grow well. His dam is one of those picture-perfect uddered cows along with a moderate frame and a lot of rib shape.

Choice⁺

Tyson Fresh Meats' Red Angus grid focuses on the strengths of Red Angus cattle verified through the FCCP "Yellow Tag" program.

"The Choice+ Grid has really worked for our cattle. 168 head of our Red Angus FCCP-tagged steers have averaged \$60.33/head in premiums."

*Clay Anderson
Anderson Land & Cattle Co. - Oberlin, KS*
