Visitors always welcome!

Just 15 mi. south
 of I-94 Exit 123

- Volume discounts!
- Ultrasound and performance data along with current EPDs will be available!
- Majority homozygous polled!
- All reds are non-diluters!
- All blacks will be homozygous- or heterozygous-black verified!

Our Family

Hello from the TNT Ranch!

Welcome to our 30th Annual Bull Sale! It is really hard to believe 30 years can go by so fast. I can remember well, after our first sale at the ranch, I promised Lynette that our 25th sale would be our last. Having the sale at our place is way easier on me, and a whole lot more work for her.

Well, 2010 came way quicker than I was ready, so after a little begging and pleading and a major compromise of selling 250 cows the fall of 2009, she let me have another five sales. Now here we are again. Lynette has been a huge support for me for all these years,

and there is no way I can do this without her. She has now come to a point where she wants to slow down and find more time; time for family, friends, fun and most of all the grandkids, and I can't disagree with her.

We lost my dad this last fall, and that definitely made me realize that time with family and friends is time remembered, and there is always time for work. I love what we do and feel I am so fortunate. Very few people get to make a living doing what they truly love to do. I guess I am trying to say is that this could be our last sale. If it is, we will continue to sell bulls in a different way, we are just not sure how yet.

Words cannot express how happy we are that our son Justin has come back to work with us. There is nothing like family and a lot will depend on what he wants to see happen. Also our daughter Shanon and her husband Gabe have started up in the cow business. They have two bulls in the sale this year. They also raised most of our ET calves for us and did an excellent job. They bought 30 registered cows from us this fall. Their whole family has really enjoyed having cows. Our daughter Kendra and husband Scott also moved back to the Almont area. So in some ways things are looking up to continue to have bull sales, but transferring more of the work and cattle to the kids. I guess time will tell.

We had another very good year here, with lots of rain, grass and feed. We did have a bad hail storm come through the 5th of July, but we were able to make silage out of the corn and ended up with tremendous grazing clear through Christmas. We continue to start calving in mid-March and really like not having to deal with as much cold weather. We did not creep the calves, however Shanon and Gabe did creep feed the ET calves they raised, but their two bulls were not.

We weaned the end of September, started them on free-choice grass hay and 40-60 medicated Accuration, which limited them to about 6# of grain a day, for about 10 days. Then we put them on a total mixed ration. We slowly worked them up to what they are currently being fed...9# corn, 4# DDG, chopped hay and silage. The bulls have done very well, I think partially due to the nice December we had. We really like this ration and they consume it well. It is a high-roughage ration, which insures soundness, longevity and fertility. Disposition has always been important, but as we age it seems even more important. We have been breeding and culling for temperament for years and we are certainly seeing the benefits.

Somehow our herd has been slowly growing since 2009. We culled the bulls down to 130 excellent bulls for the sale, but then decided about 110 would just be much easier and it is nice to have some excellent spares. This is truly one of the thickest, deepest, set of bulls, with some real outstanding heifer bulls in the offering as well. Unfortunately we have a lot less Red Angus than normal. We AI'd to a few new bulls and the calves just did not make the cut.

We invite you to come to the ranch and view the cattle and see the way we manage our herd. We are very proud of our cattle and feel you will be proud of "The Explosive Difference" they will make for you. I truly have a passion for this business, and love breeding cattle and the never-ending pursuit to try to make them better. Some of the greatest blessings over the past 30 years are the wonderful people we have met and the dear friends we have made in this business. Thanks so much for your interest. Hope to see you Friday the 13th!

Sincerely, Kevin, Lynette & Family

TNT Simmental Sale – Friday, February 13, 2015

1 p.m. CST – At the Ranch, Almont N.D.

We will be serving coffee & rolls in the morning and a complimentary lunch from 11 a.m. to 1:00 p.m.

DIRECTIONS TO THE RANCH

Coming from the North – From I 94 take the Almont exit # 123, go south 15 miles (10 miles on pavement and 5 miles on gravel) on County Road #86 to 53rd St. and then 1/4 mile west.

Coming from the South – Just east of Carson, take County Road #86 and go north 16 miles (all gravel) to 53rd St. and then 1/4 mile west.

DISCOUNTS

We are offering \$50.00 off each bull that you haul home sale day, and we are also offering a volume discount. The first bull purchased will be full price, the second bull we will deduct 2.5% off that bull, the third bull we will deduct 5% off that bull, the fourth bull we will deduct 7.5% off that bull. Any additional bulls will have a 10% discount.

INSPECTION

We invite you to come and inspect the cattle at our ranch 6 miles south and 1/4 mile west of Almont anytime.

TRUCKING

If the purchaser requests at the time of settlement, we will assist in making delivery. Trucking will be free within a 300 mile radius of Almont, to central locations. Long distance will either get hired and we will pay for half, or we are willing to meet at central locations, if there is a full load going to your area, for free.

CANADIAN SALES

We will cover the health papers, semen test, and Canadian delivery to the North Portal or Dunseith, Port of Entries. We will help you in making arrangements to any other Ports of Entry. Border costs are at your expense.

HEALTH

All the bulls were vaccinated with BoviShield Gold 5, One Shot, Ultrabac 7/Somubac, and treated with Dectomax pour on. Fertility tests and health papers provided by Mandan Veterinary Clinic.

FEEDING ARRANGEMENTS

If purchaser requests, we will feed your bull and have him fertility tested in early April. We would like to have all bulls picked up or delivered no later than May 1. The fee will be \$75 per bull. The bull's ration will be the same or very similar to what they are receiving now. We are not responsible for accidents of cattle kept at the ranch. We strongly encourage insurance.

TERMS & CONDITIONS

They will be the same as those recommended by the National Associations. If you have any questions, please contact us. In no instance shall the seller be responsible for more than the purchase price of the bull. The bulls are 100% guaranteed. We guarantee to provide you with a sound breeding bull, capable of passing a semen test within 14 months of age. Should any bull fail, we will refund your money, or we will supply you with a bull for the upcoming breeding season, plus you will receive full credit at the next year's sale. We have always prided ourselves with satisfied customers.

REGISTRATION PAPERS & INSURANCE

Registration papers will be transferred on all animals. Please leave all information, plus your ASA or RA number in the office. Let us know within one week if you have a name preference for your bull. An Insurance salesperson will also be available at the sale.

OPTIONS FOR THOSE UNABLE TO ATTEND THE SALE

Those with high speed internet may view and bid on DVAuction (see details on the following page). We also have a phone conference line in place for phone bidding. Please be in a quiet room when on the conference line. Contact Kevin for a bidder number and the conference line passcode if using this option. Kevin is also more than happy to go over the bulls and recommend ones that best fit your needs. A bid can be placed with any of the sales reps. Our dealings are all handled in a 100% honest manner.

MOTEL RESERVATIONS

Some motels conveniently located near I-94 are:

Comfort Inn, Bismarck (pool, breakfast, airport shuttle).....	701-223-1911
Seven Seas Inn, Mandan (pool, airport shuttle)	701-663-7401
Arrowhead Inn, New Salem	701-843-7100
Comfort Inn, Dickinson (pool, breakfast, airport shuttle) ...	701-264-7300
El Rancho Motel, Carson	701-622-3495

AUCTIONEER:

Marlin Kapp	701-475-2427
-------------------	--------------

SALES REPRESENTATIVES:

Russ Danielson American Simmental Assn.	701-282-6897
Marty Ropp, Allied Genetic Resources.....	406-581-7835
Kirby Goettsch, Farm and Ranch Guide	605-380-3939
Scott Ressler, ND Stockmen Association.....	701-391-7310
Steve Koester, Special Assignment	701-400-1611
Kris Petersen, Cattle Business Weekly	701-339-0305
Lyle Steinmetz, Conference-Call Line	701-622-3286

LIABILITIES

We are not responsible for any accidents, or damaged or stolen items, the day of our sale.

SEMEN RIGHTS

We are selling full possession, full salvage, plus 2/3 semen revenue. This means any semen sold on any of the bulls, TNT Simmentals will receive 1/3 the selling price per unit. We also reserve the right to collect up to 100 units of semen on any of the bulls, for our own use. This semen will be collected at our expense and the buyer's convenience. Please contact us if you have any questions.

SCROTAL CIRCUMFERENCE

Each bull was measured to the nearest .5 centimeter and adjusted to 365 days using a daily adjustment of .033 centimeters. Only bulls with a minimum of 30cm were selected. The ratings for 12 14 month bulls are 30cm and less = poor; 30 35cm = good; and 35cm and over = very good.

HOMOZYGOUS BLACK

Will only sire black calves when used on black or nondiluter red cows. You will get mostly gray calves when used on yellow cows or red cows that have the dilution gene.

HETEROZYGOUS BLACK

Will sire both black and red calves when used on nondiluter red cows. When used on yellow or red cows that have the dilution gene you will get roughly half red and the rest will be gray, with some blacks.

HOMOZYGOUS POLLED

All calves will be polled and requires both parents to be polled and both to pass on the polled gene to their offspring. The majority of our bulls are polled for several generations. Every bull in the sale is sired by a Homozygous Polled bull and a polled cow.

HETEROZYGOUS POLLED

Approximately half the calves will be polled out of horned cows. All single polled animals will be heterozygous.

POLLED/SCURRED

A polled/scurred animal is genetically polled.

DVA Rep. Justin Dikoff (605) 290-0635 - email: jdikoff@dvauction.com
Please feel free to contact me with questions about the sale or to view the cattle for you.

THANK YOU ALL SO MUCH!

Wow, when we look back over the past 30 years, this has been an amazing life! Thank you so much for what you have done for us. We have customers who supported us in beginning and are still buying from us today and we have made many wonderful friends in this business. We thank all of you over the years, for making the TNT Ranch what it is. We could never have done this without the support of our very dedicated customers. Our bull sale has gone way above what we ever dreamed.

There are also so many people to thank that help us put the sale together. We truly appreciate all the help from friends, family and neighbors. Special thanks to the clerking and office crew, the crew out back for cleaning and bringing in the bulls, and the kitchen crew. They all do a great job!

Thank YOU so much for attending our sale. Our customers are very important to us and we like hearing how our cattle work out for you. You are always welcome to come and visit us at the ranch and view our cattle any time. Thanks again!

Sincerely, Kevin, Lynette and Family

Here is a long bodied, high performance bull ranking 14th for WW. His dam was one of the high sellers at NLC's female sale. Her dam has a WW ratio of 118 on 5 calves and her granddam has a WW ratio of 118 on 8 calves. His EPD's rank him in the top 10% for WW, YW, MCE, MWW and CW. This is a performance bull with exceptional maternal backed by a tremendous cow family. He is homozygous polled and heterozygous black.

This is a thick, deep bodied bull with added eye appeal. His sire Lotto, is an outcross pedigree known for adding thickness and depth with extra performance. His dam is a very attractive, deep bodied 2nd calver with excellent udder quality. Her dam is an ET daughter of Black PerfeCTOR x Full Figures x 600U, back to Tizzy. This is a strong cow family! Here is a very nice mating bred for performance, from a strong maternal line. He is heterozygous black and homozygous polled.

Here is a very attractive, light birth weight bull ratioing 126 for BW. He is an outcross black bull, sired by our exceptional red herd sire DCR Moonshine, that has worked great for us on heifers. His dam is a deep bodied, very attractive daughter of ASR Substance, who ranks in the top 3% for CE, going back to a tremendous Gunner daughter. This a very nice mating stacked with CE, backed by an excellent cow family. He is homozygous polled and heterozygous black.

This is a thick, deep bodied bull with the A+ disposition we get from his great sire Punch. His dam is a daughter of Tanker, a huge performance sire with breed leading maternal and docility, a current 6 way trait leader. His cow family continues back to R87, a HC Hummer daughter, another maternal great. This is a very high growth, high maternal mating with a double shot of Tanker. He tested homozygous black and is four generations polled, so he should be homozygous polled but was not tested.

Here is a thick, deep bodied bull that is one of our top gainers, stacked with calving ease, both his sire and dam's sire are CE trait leaders. His sire, TNT Scholar, is a tremendous Tuition son, out of an In Focus x Hummer daughter. His dam is a daughter of the very popular Ellingson Legacy "Ollie" out of our R77 donor, the dam to the highly proven CE sire Dual Focus. She is a very attractive, easy keeping first calf heifer with an ideal udder, with two tremendous full brothers selling in our 2013 sale. He is both homozygous black and polled.

Here is a long bodied, high performance bull that was our 7th high for WW and continues on with exceptional gain. His sire, Tuition, is a WW and YW trait leader, and one of the heaviest used sires in the Simmental breed. His dam is one of our favorites, an ET daughter of Tanker, out of our R77 Donor. She has a WW ratio of 109 on her 3 calves, with an outstanding son in our 2013 sale and a beautiful full sister in our bred heifer group. This is a sure bet, high performance, high maternal mating. He is both homozygous polled and black.

Here is a moderate framed, extremely thick, deep bodied bull. His sire TNT Bullet Proof, is a moderate, very easy keeping son of Final Answer, out of an exceptional Superior daughter that we kept for a herd sire. His dam is a moderate, deep bodied Knock Out with an A+ disposition. This is a mating designed to improve disposition and add fleshing ability. He is heterozygous black and six generations polled.

This is one of Shanon & Gabe's bulls. His dam is a daughter of Tanker, a highly proven performance, huge maternal sire, and a current six way trait leader. She was the high seller at the Northwest Select Sale where they bought her with this excellent TC Aberdeen son at side. Aberdeen is a CE, BW, Milk, MWW and REA trait leader, with DOC in the top 1%. He is a little larger framed Sim-Angus from highly proven genetics and an inherited A+ disposition, powerful growth and strong maternal traits. He is both homozygous black and polled.

This is a 4th generation Sim-Angus bull sired by TNT Punch, a heavily used sire for ABS. He started small and took off, as one of our top gainers. His dam is a Final Answer, who ranks in the top 1% for CE and BW and top 10% for WW, YW, MCE, and MB, crossed to Dual Focus, who is a CE and MB trait leader, back to HC Hummer, another CE, MCE, and MB trait leader. The pedigree continues with greats like Bon View and TNT Black American. This is a mating stacked with leaders from both breeds. We thought we sent him in for polled and color test, but he got missed, so if you purchase him and want him tested, we can do that for you. He should be both homozygous.

This is an outstanding red purebred that has stood out since birth. This is the first calf crop out of his sire, TNT Bootlegger, our high seller from 2013, whose semen is only available in Canada. His donor dam is a very productive, ideally made solid black Gunner daughter with six outstanding sons in previous sales, with two being our high selling black bulls. She has a milk EPD in the top 1% with MCE in the top 4%, and CE in the top 10%. She has a WW ratio of 106 on six calves. He is homozygous polled.

The next three lots are ET full brothers, sired by Rushmore, a sire that has worked very well for us on heifers. We liked him so much as a yearling that we were contending bidders when he sold. He is a trait leader for MCE and DOC, with YG and REA in the top 2%, with CE, BW, WW and YW in the top 20%. Their donor dam is our very influential L9, who is the dam or granddam to several leaders in the breed, like Gunner, Top Gun, Tanker and many other herd sires. This is a very complementary mating crossing some of the breeds finest. They are all homozygous polled.

This is a flawless phenotype bull with added thickness and depth, one of our top gainers. He is sired by our exceptional herd sire DCR Moonshine and is out of a model Conquest daughter. Conquest is a highly proven calving ease sire. She is easy keeping with an excellent udder and an A+ disposition. This is a very nice, well balanced mating with lots to offer. He is homozygous polled.

Here is a thick, deep bodied, very attractive son out of our outstanding outcross red herd sire Moonshine. His dam is an easy keeping daughter of Beckton Hustler, who ranks in the top 1% for CE, WW, YW, DOC and CW. Her dam is a tremendous ET Gunner daughter who had an exceptional Moonshine son in last years sale, and the cow family continues to a tremendous LCC Marias daughter. This is a high growth mating backed by an excellent cow family with inherited docility. He is homozygous polled.

Here is a thick, deep bodied, attractive son of our red herd sire DCR Moonshine, who has been exceptional for use with his first daughters caving this spring, with excellent udder quality and they held their condition very well. I wish we had more. His dam is a very easy keeping daughter of Beckton Lancer S281, who was the high seller at Messmer Red Angus's dispersal where his daughters were exceptional. We are very happy with the Lancer daughters, they are easy keeping with excellent udder quality. This is a very nice mating crossing Moonshine with Lancer. He is homozygous polled.

Here is a thick, heavy muscled bull that weaned heavy and took off with exceptional gain. His sire was the high seller at the RA Brown ranch in 2012, that has seen heavy use nation wide, with CE and BW EPD's in the top 1% and YW, DOC and MB in the top 15%. His dam is a deep bodied, easy keeping heifer out of Substance. We love our Substance daughters and his grand dam is and ET Norseman King out of Top Gun's dam. This is a very nice mating with some of the finest from both breeds. He is homozygous polled.

Here is a very attractive, thick, deep made bull that we feel would be an excellent choice for heifers. His sire is an ET son of Packer, out of Bank Statement's dam, that was extremely easy calving for us. His dam is a beautiful easy keeper out of Substance, a CE, BW and MCE trait leader, back to Gunner and Hustler who were both CE trait leaders. This is a very nice mating stacked for CE, with positive growth EPD's.
