# Welcome

Valnes Ranch Red Angus  
W

Welcome to our 7th Annual Bull Sale!

What an exciting time to be in the cattle industry! With all-time record prices being set, and consumers still buying beef, it just goes to show that there is a shortage of beef and the demand for good beef is strong!

We at Valnes Ranch Red Angus are anxious to show you the set of bulls that we have raised this year. I have been in the registered Red Angus business since 1992 and am a fourth generation rancher. We have been working hard to keep improving the quality of our bulls that we have to offer to you and feel that these bulls will help you to reach the rising demand for beef within your herds by using our genetics. Our bulls are very feed efficient, easy fleshing, with good bone and feet. They have excellent dispositions, which makes it really nice to work with them. All this is as result of our selections in bulls and females that we use within our herds. We have put a lot of time into our research of which herd bulls to use and select for use within our program. They all have excellent feet, good depth of rib and strong top lines, as well as all come from proven cows with great udders. They have done a great job for us, and we are certain that their sons will do a good job for you also!

The herd bulls that we have raised out of some of our best cows and proven A.I. sires have certainly surpassed our expectations this year as their sons have outperformed the sons of other proven A.I. sires. We feel this is a real testament as to what our bulls will be able to do for you in your herds. We hope that you are as pleased with them as we are.

With last winter being such a cold and harsh winter on the cows, it seemed to have an effect on the birth weights of our calves some. This is a result of the cow's blood flowing a little faster to keep warm which adds a little more to the calf. Their weights are not too out of line but we did have more calves around that 95 lbs. to 105 lbs., making our birth weights 10 to 15 lbs. heavier than normal. They were all born unassisted and we are certain that this will not be an issue for you, so buy them with confidence.

We want to thank all our customers for supporting us as we moved our sale to the ranch last year and felt that it was a lot nicer for all involved. We look forward to seeing you at the ranch again this year and hope you will bring a friend and or neighbor along. We always enjoy meeting new people and visiting with our past customers that we view as friends. If you have any questions please feel free to give me (605-228-8857) or David (605-881-7933) a call at anytime and we will help you in any way possible. With that we hope to see you all at the sale!

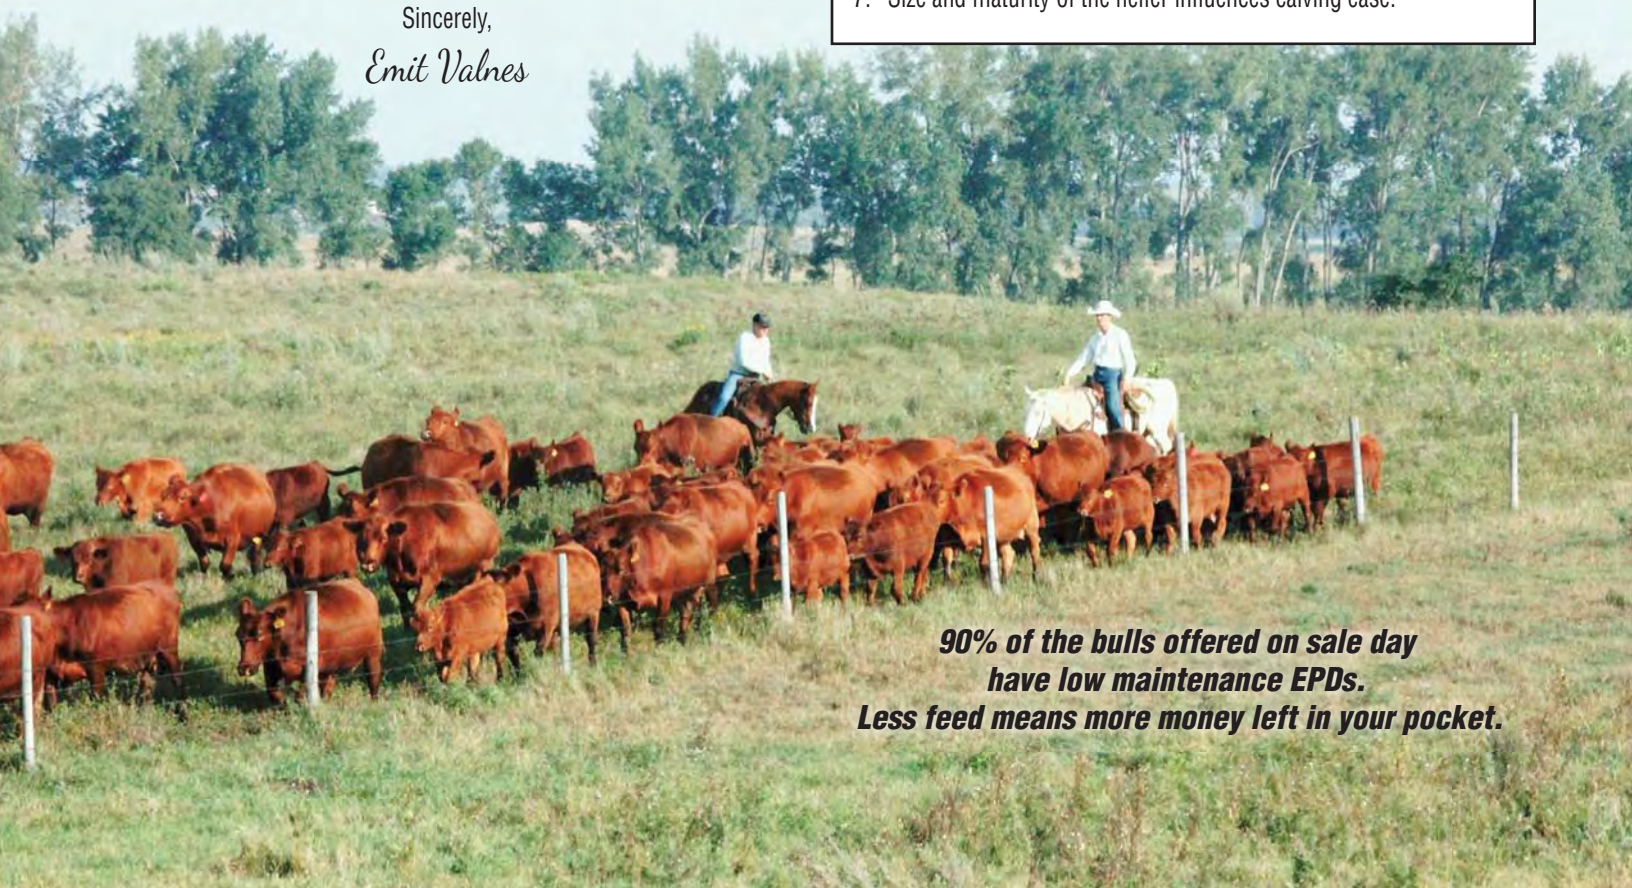

Sincerely,

*Emit Valnes*

## **What about birth weight and calving ease?**

University studies in Wyoming and data from Montana and Colorado lend credence to the following conclusions:

1. The birth weight itself influences calving ease by 65%.
2. The female has 60% to 70% influence on the birth weight of her calf.
3. The bull has 30% to 40% influence on the birth weight of his progeny.
4. Pelvic measurement and angle, as well as the shape of the calf has 35% to 40% influence on calving ease.
5. Length of gestation greatly affects birth weight. A fetus can gain over 1 pound per day in the last days of gestation.
6. Weather and temperature the last 30 days affect the length of gestation.
7. Size and maturity of the heifer influences calving ease.

**90% of the bulls offered on sale day  
have low maintenance EPDs.  
Less feed means more money left in your pocket.**

*Annual Production Sale*

**Monday, April 13, 2015 • 1 p.m. CDT**

**Emit & Jayme Valnes Ranch • 12310 447th Ave • Eden, SD 57232**

(Map and directions on page 2)

*Selling* **59 Yearling Bulls • 12 Open Heifers**

Including excellent heifer-bull prospects!

**SALE HOSTS:**

**VALNES RANCH RED ANGUS**

Emit and Jayme Valnes ..... 605-228-8857 or 605-698-6596  
David and Debby Valnes..... 605-698-7300 or 605-881-7933

**SALE DAY CONTACTS:**

We guarantee sight-unseen purchase satisfaction. Contact us or the auctioneer or ringmen. Your bids will be handled confidentially.

**Sale day phone numbers:**

Emit..... 605-228-8857  
David..... 605-881-7933

**AUCTIONEER:**

Kyle Shobe, Lewistown, MT ..... 406-366-0472

**RINGMEN:**

Speed Siegfred, Special Assignment..... 605-868-9266  
Dan Piroutek, Tri-State Livestock News..... 605-685-4556  
Gary Fike, RAAA Director of Commercial Marketing.... 785-410-2608

**SALE DAY LUNCH:**

A complimentary lunch will be served on sale day.

**TRAVEL:**

The nearest airports are Fargo, N.D., and Sioux Falls, S.D.

**ACCOMODATIONS:**

Super 8, Sisseton, S.D. .... 605-742-0808  
I-29 Motel, Sisseton, S.D. .... 605-698-4314

**TERMS:**

Terms of sale are cash or check. Settlement must be made in full immediately following the sale before animals can be loaded or delivered. Every animal sells to the highest bidder. Any dispute will be settled by the auctioneer. Any corrections from auction block take precedence over printed material in catalog.

**HEALTH/CATTLE MANAGEMENT:**

All cattle are on a complete vaccination program as recommended by our veterinarian. We have a BVD-free herd. All bulls were fed together on a high roughage diet, though Emit and David fed their own bulls separately this year.

**RETAINED SEMEN INTEREST:**

We are retaining a 1/3 semen interest in all the sale bulls unless otherwise indicated. Full possession sells on all bulls.

**BREEDING GUARANTEE:**

We guarantee all bulls to be breeders. We intend to have all bulls tested before the sale and a breeding soundness exam done. If for some reason we are unable to, we recommend you have the bull's semen tested a couple of weeks before turnout time. If after two tests a bull is found to be a non-breeder, we will replace the bull or allow credit toward next year's sale. This guarantee is void if there is any evidence of improper management in caring for the animal, or the bull's inability to breed is due to sickness or injury that was incurred after being sold. The bull shall be returned by the purchaser or other arrangements made with us.

**LIABILITIES:**

All persons who attend the sale do so at their own risk. The owners assume no liability, legal or otherwise, for any accidents which may occur.

**DELIVERY:**

If you haul your own bull home sale day you will receive \$50 off the purchase price. We can assist you in delivering the bulls either to your ranch or to central locations on major highways up to 300 miles at the **least cost possible** to the new purchaser, within the next week or so. If you need special arrangements please give us a call.

**LIVE BROADCAST:**

The sale will be broadcast live over the internet. See directions to register to bid on page 3.

**Bull Selection – Simplified.**

Red Angus stakeholders have enjoyed the capability of selecting bulls based on economically relevant traits (ERTs), such as Heifer Pregnancy or Stayability, that truly impact their operations profitability. While these ERTs allow for efficient selection decisions, the growing number of ERTs and EPDs has resulted in confusion as producers attempt to estimate a sire's overall impact. In response, RAAA has developed the HerdBuilder and GridMaster indices, which answer the question:

**"What impact will each potential sire have on my operation's profitability?"**

While the process of calculating an index is very complex, the resulting selection tool is very simple to implement.

HerdBuilder and GridMaster are expressed as differences in profitability per exposure.

For more information, visit [RedAngus.org](http://RedAngus.org).

**Ranch Tested. Rancher Trusted.**

**Red Angus**

**HERDBUILDER**

Producers selecting bulls to develop profitable replacement females and maximize the value of non-replacement marketed progeny should incorporate the HerdBuilder Index into their selection decisions.

The HerdBuilder Index is built using the following scenario:

- Red Angus bulls mated to cows and heifers
- Replacement heifers retained from within the herd
- All remaining progeny sold on a quality-based carcass grid

Given that replacement heifers are retained, significant influence is placed on the obvious maternal ERTs of Stayability, Heifer Pregnancy and Calving Ease. Additionally, with all remaining progeny sold on a quality-based carcass grid, Marbling, Yield Grade and growth EPDs also impact the HerdBuilder Index.

**GRIDMASTER**

Use the GridMaster Index if your operation's primary goal is maximizing profitability of feeders in the feedyard and on the rail.

The GridMaster Index is built using the following scenario:

- Red Angus bulls mated to cows
- All progeny sold on a quality-based carcass grid

Marbling, Yield Grade and growth EPDs are the traits of primary importance in the GridMaster Index.

This is a great young bull that we raised and sold 1/2 interest in to Namken Red Angus. He is very thick and soggy with lots of eye appeal and out of one of my favorite cows. She has a perfect udder and always raises one of the best calves. The calves out of this young sire are proving to be outstanding. They are moderate framed, easy fleshing calves with exceptional phenotype.

This herd bull is one that we feel represents his sire Red Towaw Indeed as good as any son out there. He is extremely deep bodied and really thick and deep hindquarters, he is thick and wide all the way across his back and he has a good straight top line, with a nice head. He has excellent feet and is very correct.

He is the result of a flush out of one of my favorite cow, P60 Eucla. On the first flush with only one straw of semen in her she had 27 eggs and 21 #1s and 3 #2s. We sold one bull brother to Crump Red Angus and we put four full brothers in our commercial herd and we put Z18 in the registered herd. He may not have the big, high EPD numbers but neither did Indeed himself and look what he did for the breed and how sought after he is. This herd bull (Z18) is very balanced, no super highs, no super lows, and he is phenotypically flawless. His sons are absolute studs! Come check them out.

This is another bull that we raised. He has a little more frame than most but he really adds the power to his sons. They have a look about them that catches your eye and holds your attention. We really like what this bull is passing on and we used him really hard last summer. We are expecting a lot of calves from him this year. So far the birth weights are lower on him this year with more cows being bred to him. We really like the calves and we think you will too.

Cash 2R offspring continue to demand attention across the world. They are early maturing with high performance and great hair. Known for extreme early growth (WW EPD 82, top 4%), extreme low maintenance (ME EPD -12, top 5%) and Rib Eye Area (0.73, top 3%). Cash has sired many champions in the U.S. and Canada including a Grand Champion female in Denver, and a \$32,000 daughter at the Red Roundup. We are very impressed with not only the bull calves sired by Cash 2R, but also his daughters. The bulls we are offering in this sale are the result of the exclusive semen package purchased in 2012.

Copper 127 is a bull we bought from Prairie Pride Red Angus to use on heifers. He has turned out better than even expected. The calves come nice and easy, and hit the ground running. They all look the same and are made with a very attractive look to them. Just wait till you see them and then you will understand. He passes on the same calving-ease and easy-keeping ability to his sons and they have good growth as well, yet maintaining a moderate frame.

Freedom was leased from 5L Red Angus in Montana and like his sire BUF CRK The Right Kind U199, his calves came with ease. His daughter's have been easy-fleshing, deep-bodied females. We are looking forward to seeing what they will produce.

Vintage 437U is an own son of the great Red Towaw Indeed bull that we purchased from the Six Mile Ranch in Canada in 2009. He is moderately framed yet still has growth, and his daughters have great udders and really milk. His sons have been very consistent the past few years and they will pass on these same great traits in your herds.

All sire with lots of length and frame and his offspring still calved with ease.

# Yearling Bulls

Lot 1

This big guy is my favorite calf this year. He has tons of eye appeal in a cherry red color, very deep ribbed and a big hind end, wide over the back, very correct, with excellent bone and feet, yet smooth made and built the way a herd bull should be. He is very balanced in both his EPDs and his actual weights. All the sons out of our Z18 Indeed herd bull will have daughters with exceptional udders that will really milk and their sons will definitely have tons of eye appeal and push the scales down at weaning. His dam has a very nice udder and good feet.

Remember when looking at his EPDs that his grandsire, Indeed, did not have the highest EPDs either but look what he did for the Red Angus breed. This calf will do the same, and just take a look at the rest of Z18's sons through out the sale catalog and you will see lots of power, growth, and style in these calves. These calves will out do other calves with big EPDs and numbers any day! Actual performance and eye appeal should still out-weigh EPDs any day. I feel that is very true for these Z18 sons! Just come take a look and you will probably agree.

Lot 2

Red Towaw Indeed 104H, grandsire

A big, stout, thick herd bull with some extra length and eye appeal. Good feet and bone and well balanced on his numbers. His dam has a very nice udder. Another Z18 son that really stands out.

Lots 1, 2 and 3 are all 3/4 brothers. They all possess the same stud look to them and are just flat-out good! They all have incredible mothers that really raise good calves and this cross is just hard to beat. They can do a lot of good for any program registered or commercial!

Lot 4

This is one outstanding herd bull prospect here. He has extra thickness, extra length and lots of eye appeal. His dam has a perfect udder and always raises one of the good ones. I think we should have named him "extra indeed," – I should have put more thought into his name, I guess.

This bull's dam is flawless in every way – perfect udder, deep ribbed, long bodied, and always raises a good one, with a 104.8 MPPA. This is quite the calf. He would fit any type of program. Come take a look!

Lot 6

Here is a deep, thick herd bull, really easy fleshing, very correct with good feet and bone, out of a perfect-uddered cow, that happens to be one of my favorite cows. She is moderate-framed and packs the calves out. She is a no-miss cow. His full brother was our Lot 1 bull last year that sold to Grant Appleton of Texas.

This bull has all three of our best cow families in his pedigree – P19, 008 and the Minerva 3399 – you put that with the Indeed line and you are sure to have greatness. His dam has a 101.5 MPPA.

Lot 7

This is one big, stout, good-looking herd bull. He is dark cherry red, as long as you can make one, really deep ribbed, very correct and super easy fleshing. His dam has a perfect udder, is really deep ribbed and just a powerhouse of a cow. Don't let the birth weight scare you – he is smooth made. He was just so long when he was born it added some weight, but he will be an easy calver. He will sire both some great females and herd bulls or some big stout steers that will really feed well.

His pedigree is stacked with greatness, from the Indeed bull, to the BHR Duke bull, to the old Ed Artz cow that produced many of our top females such as this line right here. This bull has really low maintenance numbers and yet has tons of growth with tons of eye appeal. His dam has a 102.5 MPPA. Herd bull quality here!

This is a very straight and correct calf, with nice length of skull and length of back. He also has a big base tail which some old timers will tell you is also an indication of growth. He is out of our best cow with an MPPA of 111. She has a perfect foot and a good udder with perfect teat size and placement. This cow stays in the same body condition year round regardless what she is fed. The sire, Red Corner Creek Cash 2R, is known for his growth and easy fleshing ability. His progeny has done very well in many herds and all seem to be look-a-likes.

This is a very straight and correct calf, with nice length of skull and length of back. He also has a big base tail which some old timers will tell you is also an indication of growth. He is out of our best cow with an MPPA of 111. She has a perfect foot and a good udder with perfect teat size and placement. This cow stays in the same body condition year round regardless what she is fed. The sire, Red Corner Creek Cash 2R, is known for his growth and easy fleshing ability. His progeny has done very well in many herds and all seem to be look-a-likes.

Here is an ET son out of Red Corner Creek Cash 2R and our T204 cow that has done a terrific job for us. The dam has a good udder and perfect feet, and is an easy keeper that is very docile. Phil Bernie thinks that this cow could maintain her body condition just eating snowballs! Once again, a larger birth weight but out of a larger recip cow.

This is also an ET calf out of our T204 cow and Mulberry 26P. He is darker red with tremendous length and a perfect foot. His sire, Mulberry26P, could have a book written about him since he has been used successfully worldwide. The dam to B213 is a very easy-fleshing cow that stays in same body condition year round. She has a perfect foot, good udder and she is also the dam of Top Star Y236, a herd sire at WRAZ Red Angus in Sask., Canada, who produces moderate-framed calves that are structurally correct with definite eye appeal. This calf also had a big birth weight, but the recip. dam was a heavy dry cow.

This is a Badlands Net Worth 23U calf out of our extremely good 13-year-old 592M cow that came from the John Spaerman Ranch. We have successfully flushed this cow several times. She still has a perfect, level udder and good foot. We have a number of natural and ET daughters out of her in the herd. B203 should also add some frame and length to your calves.

This calf may be a little younger but certainly is not much smaller. He is put together really well and out of a great cow family.

This calf was a twin and is not as big as the others but he is out of a great cow and has the genetics to be good. He just didn't get as much opportunity as some of the others, but he is catching up and he will sire some good steers.

2014 Sale

Lots 51-57

These are all commercial bulls and will sell without papers. They are all 99% Red Angus and are all half brothers out of cows that had multiple Red Angus sires and didn't get DNA tested or were some of our best cows out of the commercial herd. They will do a great job for you and sire some great steers and heifers. Don't pass them up – they are pretty darn good!

All these heifers were selected right out of our replacement pen! We just picked a few from each sire group to give you some different pedigrees to pick from. All these heifers come from good mothers and will make excellent cows. Videos of the heifers will be available one week before the sale on our website so you can take a look at them. They have just been feed with and treated the same as our other replacement heifers, and are in good breeding condition, but not fat or over-fed. Most of these will be moderate-framed, really easy-fleshing kind of heifers, with good udders.

*Paywood rides exceptional, has been used on the ranch behind cattle. He is very quiet, quick on his feet, smooth as glass and has lots of speed. He throws 100% color on solid-colored mares. Call if you would like some progeny or are interested in breeding to him.*
