Welcome to Cedarflo Angus Ranch's annual production sale. Thank you for giving us this opportunity to showcase our work from the past year. In the coming pages you will find a diverse set of genetics that have the ability to achieve your intended goals.

Every year is unique, never is one just like the last. With an ever changing environment, we can draw confidence from the little things that maintain their consistency. As always our animals are raised on mother's milk and grass, not creep fed. Upon weaning, they are fed a growing ration, high in roughage. We prefer to grow and maintain an athletic animal that will be ready to work when time comes. These are the staples of animal health and nutrition at Cedarflo Angus, and hopefully you will be able to depend upon this consistent and proven formula.

Yearling and ultrasound information will be available sale day, along with sale order. If you have any questions regarding the content in the coming pages, please don't hesitate to call, text, e-mail or swing by the ranch. Visitors are always welcome.

The animals will be at the ranch until Monday February 22 at which time they will be taken to Lemmon Livestock. Unable to make it sale day? You can watch and bid online by visiting www.lemmonlivestock.com and register with CattleUSA.com, their online bidding service. Bids will also be taken by phone. Please contact us ahead of time if we can help with any part of the process.

In closing we would like to acknowledge the passing of Stanley Laufer. Stan was a man of faith and family, we were just lucky to have him as a friend and neighbor. Thanks for everything, you are missed.

Cedarflo Angus Ranch

Annual Production Sale

Wed., February 24, 2016

Registered Angus Since 1948 • Performance Tested Since 1968

We are not responsible for accidents or injury. All persons attending the sale do so at their own risk, legal or otherwise.

Auctioneer:

Scott Weishaar, Sentinel Butte, ND (701) 872-5299

Lemmon Livestock Inc.:

Paul Huffman (605) 374-3877 • (800) 822-8853

Ring Service:

Rowdy Benson, Tri-State Livestock News (605) 430-2942

Mason Deitterle (605) 788-2927

Sale Day Phone:

Lemmon Livestock Inc. (605) 374-3877 • (800) 822-8853

PRE-SALE INSPECTION:

At ranch until Feb. 22. Directions: 13 miles north of Highway 8 and 12 Junction to 14th Ave. NE; or 13 miles south of Highway 8 and 21 Junction to 14th Ave. NE, then 3 miles west and 1/2 mile south. Bulls will be at Lemmon Livestock from Feb. 22 on.

HEALTH:

All animals have gone through a comprehensive health program. Health papers will be furnished for cattle as needed.

FEMALES:

All females sell as purebred, unregistered animals. Registration papers are available at an additional cost.

ULTRASOUND AND YEARLING DATA:

Available sale day or on our website as soon as the information is available.

DELIVERY:

Free delivery of bulls up to 250 miles or deduct \$100 if you take possession sale day. Free keep on bulls until April 1 at which time we will start deliveries.

DEVELOPMENTAL DUPLICATION (DD):

Developmental Duplication is a genetic condition inherited as a simple recessive trait. Animals with the potential to carry this gene have been tested. Any carrier of the gene will be noted with DDC.

Complimentary Lunch Before the Sale
Please bring this catalog with you sale day.

Thank you and see you at the sale!

TERMS AND CONDITIONS:

Terms of the sale are cash. All animals sell under the terms and conditions as adopted by the American Angus Association. Statements made sale day take precedence over printed information.

CEDARFLO GUARANTEE:

Each bull sold is guaranteed to pass a breeding test administered by a licensed vet. We adhere to our vet's recommendation that if an animal should fail a breeding exam, we do ask that it be retested. The retest is done to prevent external factors, such as weather, from influencing the sample taken. If the animal fails the subsequent test, we offer you two options. Sell the animal under your name and we will provide you with another bull, if available. Or sell the animal under your name and we refund you the difference between pound price and sale price this year. We do not guarantee against injury. Unfortunately there are too many factors out of our control that may influence the health of an animal. If you have any questions regarding this policy, please don't hesitate to contact us. Thank you.

Set up an account

Setting up an account is a simple two-minute process.

1. Look for the log-in area on the upper left portion of the screen.
2. Find the blue button labeled "Register to View"
3. Fill in the form with your name, email, state, username and password.
4. Press the proceed button at the bottom of the page.

Any time you come back to CattleUSA just enter your username and password to log-in and watch auctions.

Get approved to buy

Each auction approves its own buyers, no buyers are approved by CattleUSA. This is done for your privacy and security. Your buyers information is kept private and is only released to the auctions you choose. In order to obtain approval to buy at an auction you will need to submit your contact information to each auction you wish to buy from.

1. Log in to CattleUSA.
2. Push the Submit button next the auction you wish to be approved at. The first time you do this, a form will pop-up for you to fill out your contact information. Fill out your information then push the button at the bottom of the form to continue.
3. You have now sent your information to that auction. The auction will now be able to find you in their data base and approve you to buy. If you would like to be approved at other auctions push the submit button next to each auction you wish to be approved at. Your information will be forwarded to those auctions only.

Auctions do not have access to your information until you send it to them.

Comrade is the definition of calving ease. A Consensus 7229 son that improves upon his sire with a smoother shoulder and longer length. Couple those characteristics with a short gestation and a moderate frame and you get a heifer bull deluxe. Comrade has proven to be extremely feed efficient (+6 EN\$), while still producing excellent marbling.

All In is a performance bloodline with a virtually unheard of +13 CED (Calving Ease Direct). Cleaner fronted, tighter sheathed and squarer hipped than Ten X, he eliminates all of his sires downfalls. His progeny express more frame size that is accentuated by their eye appeal. All In encompasses what we should expect from the Angus breed.

Basin Excitement is a clean-fronted, deep-bodied performance sire that was chosen for his outcross pedigree. One of the few Angus sires to register a negative birth epd with a YW of over 120, a true curve bender. Progeny are moderate framed, heavily muscled with capacity for growth. Excitement is stamping his place in our herd, we feel confident his offspring will work in yours.

Chores with Olivia

American Angus Association \$Value Indexes

\$Values are multi-trait selection indexes expressed in dollars per head, to assist commercial beef producers by adding simplicity to genetic selection decisions. A \$Value has meaning only when used in comparison to the \$Value of another animal. For example, just as with EPDs, variation in \$Values between animals indicates average expected differences in the relative value of progeny if random mating is assumed and the calves are exposed to the same environment.

\$Values			
\$W	\$F	\$G	\$B
+21.28	+13.60	+12.53	+25.32

Weaned Calf Value (\$W): an index expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

Feedlot Value (\$F): an index expressed in dollars per head, is the expected average difference in future progeny performance for postweaning performance compared to progeny of other sires.

Grid Value (\$G): an index expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

Beef Value (\$B): an index expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires. The \$B value combines the contributions of \$F and \$G.

How do I use them?

\$Values should be used to complement the criteria that producers already use when selecting bulls.

The \$Values are not designed to be driven by a single trait, as an index is multi-trait by design. These selection tools are the result of the application of industry-relevant market values to Angus genetics for preweaning, feedlot, and carcass merit.

The \$W, \$F, \$G and \$B values on individual animals and the Sire Evaluation Report may be viewed at www.angus.org.

All females sell as purebred, unregistered animals. Registration papers will be available at an additional cost by contacting us after the sale.

The American Angus Association's policy of not providing EPDs for unregistered animals prevents us from supplying EPD information for them. Further information will be provided, including EPDs, if the buyer(s) choose to purchase registrations.
