## Welcome to our 2016 Production Sale!

All of us at Klain Simmental Ranch would like to welcome you to our 34th Annual Production Sale. After nearly three decades of thorough selection of Simmental genetics, we are excited to offer this unique and powerful set of bulls and females!

Our cow herd here at KSR are raised on native grass with no grain supplement. We adhere to very strict culling practices for convenience. Traits such as polled, moderate frame size, quality udder structure, disposition and calving ease are on the top of our list of expectations. We also put emphasis on profit traits, growth, milk, marbling, feed efficiency, tenderness, rate of gain, fertility and longevity. With the commercial producer in mind, we offer entirely polled, powerful, balanced, traits for a useful and efficient set of cattle. This offering of cattle are the most balanced and complete set of cattle with emphasis on fertility, performance and balanced EPDs that we have ever produced.

We invite you to view this offering at the farm any time prior to February 4th. The cattle will be in the Turtle Lake Weigh Station on Friday, February 5th for viewing. We look forward to seeing you on Saturday, Feb. 6, come have dinner and view this tremendous sale offering. Remember, visitors to the farm are always welcome!
