1:00 p.m. CST
At the Ranch • Rocklake, ND

Selling 68 Lots

51 Angus Yearling Bulls
2 Angus 2-Year-Old Bulls
9 Polled Hereford Yearling Bulls

DVAuction Broadcasting
Real-time Auctions

Dear Friends and Cattlemen,

Welcome to our 2016 production sale! We would like to extend a sincere thank you to everyone that has supported us along the way. It means a great deal to us that you take the time out of your schedule to look through our sale offering! We take great pride in being your source for seedstock, and we strive to raise the best set we can for our customers year after year.

For the first time, we will be having the bull sale at the farm south of Rocklake. It has been our goal to have the sale on the farm - less stress on the animals and less susceptibility for health issues. We hope you can come enjoy some hospitality following the sale!

This year's offering is as strong as ever. I encourage you to come early and take a good look through the sale offering. The Angus bulls averaged 777 and the Hereford bulls 618 on their adjusted weaning weights, and have continued to do very well through the early part of winter. At last check the entire group was averaging 4.11 for an average daily gain. We been very pleased with this group top to bottom all year. I feel strongly that you will agree.

The bulls are grown out on a high roughage total mixed ration consisting of chopped alfalfa and millet hay along with corn silage, whole corn, a protein supplement through J&R Feeds, and mineral. We raise these bulls with their futures in mind. We do our best to let them express their genetic potential without sacrificing structural integrity. You will find a sound set of bulls.

There are a lot of high performing bulls in the offering some of which are also calving ease bulls. We have a wide range of genetics to suit your needs. If there's anything in particular you would like help in finding we would love the opportunity to help you sort through them. If you are searching for a performance bull or calving ease bull we have what you're looking for.

Sincerely,

The Carters and Penners

*Keely Rae Penner,

SALE INFORMATION

Developmental Duplication Carrier (DDC)

Newly identified simple recessive genetic defect. DD is not a lethal genetic defect, but may cause extra skin folds or additional limbs. For more information ask us or contact the American Angus Association.

Cattle identified as DDC are known carriers of the defect, but if bred to cattle free of the defect you will never have a calf that expresses the trait. The animals identified as DDP are potential carriers and have not yet been tested.

Retaining 1/3 semen interest in all bulls.

BREED EPD AVERAGES

2016 AAA Avg. EPDs of Non-Parent Bulls:

CED: +6 BW: +1.4 WW: +49 YW: +88 M: +23

2015 AHA Avg. EPDs of 2013 & 2014 Calves:

BW: +3.3 WW: +49 YW: +80 M: +21 M&G: +46

Birth Weight Information

When looking at birth weights a lot of people shy away from the 4 and 5 BW EPD Angus bulls. As a reference to compare a few other breeds a Charolais bull with a 1 BW EPD would compare to a 9.8 EPD in the Angus breed. The largest in our offering is a 5.1.

In the Simmental breed a 1 BW EPD would compare to a 4.4 EPD in the Angus breed.

We are careful when suggesting a bull is a calving-ease bull suitable for use on heifers, but there isn't a bull in the offering we feel would give trouble on mature cows.

Watch & bid online for FREE at

DVAuction
Broadcasting Real-Time Auctions

View the Auction Live!
Bid Online... you're ringside
right at your desk!

Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make your purchases!

High speed internet is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

One of our top Earnan sons from the 2014 calf crop. He has not been offered for sale until now. He's a really long-sided, well-constructed bull that is sure to make friends with anyone in the market for a 2-year-old. He's got a tremendous amount of performance and a tabulation of EPDs that are sure to impress.

Super docile Tiger son with muscle and mass. He's a rancher kind of a bull with an abundance of shape and dimension. You will really appreciate his type and structure. He really puts together an EPD tabulation in the upper percentile of the breed for calving ease through yearling. He reads like a calving-ease bull with a 10 CED and .2 BW, but with this type of thickness and width, you be the judge.

One of the very best bulls we have to offer. In terms of performance he stands alone. Weaned off his 2-year-old dam at 952 lbs. You can put on a lot of miles looking for a spread bull with this type of phenotype and data. He's tremendously long with extension all the way through his front end. He's sound structured with a lot of width, shape, and rib. You need to find him sale day.

He may be young, but he's full of PERFORMANCE. Made big and stout and his dam is a donor potential. His dam is super correct, big framed and one you pick out in the pasture every year because she raises a good one. I expect his calves to do the same.

Kenzy's second entry to the annual bull sale. He's young, but made nice and his dam has done a great job every year. Don't overlook him!
