Annual Production Sale

Wednesday,

## April 4, 2012

Farmers Livestock Exchange

Bismarck, ND

### Six Mile Wind Chill 828W

Wind Chill has an exceptional set of sons selling in our 2012 Production Sale. He is an outcross bull to the Red Angus Breed. He is sired by a black bull tracing back to TC Freedom 104. We are really excited about his sons as they exhibit the same characteristics that attracted us to Wind Chill. They are long and deep with extra muscle packed on a moderate frame with lots of eye appeal and very clean lines. His numbers show calving ease and his daughters are truly beautiful.

### Six Mile King Ranch 721W

King is a real calving ease son of 5L Norseman King that has performance written all over him. If you want to add pounds the King Ranch sons will do it. He is extra thick, long and deep sided. Our first set of sons sell on April 4th in Bismarck at our Production Sale. They look just like their sire and have that extra performance you are looking for. Lots of maternal power in this pedigree.

**selling** Powerful  
**65** Red Angus  
Bulls

Plus,

- Registered Red Angus Heifers
- Powerful Group of Commercial Heifers

# Quality Genetics Built on a Heritage of Commitment.

We have developed our genetics – both red and black – over the years by using bloodlines that fit our environment and produce both bulls and females that earn their keep.

We are stringent in selecting for sound structure, correct feet and legs, and superior udders – traits that are essential for our cowherd to function and survive in our rough terrain.

We recognize performance is essential for profitability in the sale barn, feedlot and on the rail. Our commitment to efficiency, gainability, quality and yield is substantiated by carcass data from our own commercial herd as well as that of our customers'.

Our dedication to producing quality performance cattle is a continuing commitment to our customers ... and our heritage.
