KEY RANCH

Top-Cut, Turn-Out Bull Sale

Wednesday, May 8, 2013

Kist Livestock, Mandan, ND • 2:00 pm CDT

Offering **43** Bulls - All semen tested and ready to go to work!
31 Charolais Yearlings • 12 Salers x Angus Optimizer Yearlings

239Z has worlds of style and muscle in a May Lad son. He looks like he would sire nice show calves and he is a TT for Leptin.

Crossbreed for more profit!

Hybrid vigor yields \$145 more per crossbred calf over their straight-bred calves by cattlemen who retain ownership and feed out at Decatur County Feeders in Kansas. Why? More in weight. Higher gains. Less days on feed and more pay weight! \$70 dollars more at the ranch, another \$75 dollars more on the rail. That's \$145 more dollars per crossbred calf that you can't afford to miss.

181Z is a long sided Bronson bull who is out of a good Tenacious daughter. He's a TT for leptin.

198Z is a big, strong made son of Specialist out of a McHenry dam. He's got the power, the length and the good looks of a real herd bull.

194Z, - Just look at the stretch of this clean-fronted, smooth-shouldered Specialist son out of a Mark It dam.

185Z - Check out this stout-topped, upheaded red Charolais Clyde son out of a long sided Tenacious daughter. He's a TT for leptin.

192Z has a moderate 85# BW and a low 0.8 BW EPD. He's a stout Specialist son out of a Peugeot dam - lots of loin and hip in this good boned bull.

197Z is a big-bodied, deep-sided Cardinal's Lad son who favors his big-bodied Peugeot dam. They are some of the easiest doing cows in the herd.

208Z is a low-birthweight Specialist son that goes back to a daughter of the Duke bull that we used on our heifers for years. Real good calving ease genetics!
