Welcome

Welcome,

We would like to invite you to our annual production sale. We are very excited about this sale because of the genetic package, superior quality, great disposition and the overall uniformity and eye appeal of these animals. To top it all off, we have decided to add 13 yearling replacement heifers to the sale! We will be sad to see them go!

The calves were all weaned on September 9, 2013. We started them on a total mixed ration consisting of millet silage, alfalfa hay, grass hay, dried corn distillers for protein, grain corn and a complete mineral package. It is a 46 mega-cal ration which is a grower ration. They are on this ration from weaning until delivery. This balanced ration will ensure in a good-footed, free-moving bull that will maintain a condition without eating you out of house and home. They are also on the Select Vac vaccination program.

The animals that are for sale this year were all born on the ranch with the exception of the ones with the WCR prefix. We purchased cows in April with calves at side from Wildcat Creek Ranch in Newton, Kansas. The TMR prefix are out of cows that we ran on shares.

We have an extensive A.I. program on the ranch and this year we started to do some flushing.

The bulls will be kept free of charge until May 1st or when delivery is arranged. We will be taking the bulls home on sale day so they can receive their soundness exam by the Steele Veterinary Clinic in March.

Rohrich's Cutting Edge Ranch would like to thank you for your time and interest in our program.

Sincerely,

Rick, Amber, Kaden, Kylee and Kolden Rohrich
