Welcome

Sam, Emily, Nora and Brynn Twedt

Cattlemen,

Welcome to our second annual production sale! With cattle numbers soaring to all-time highs, there has never been a more exciting time to be in the cattle business. This year we will be joining up with good friends and neighbors, Ryan and Meghan Ressler to offer you an outstanding set of Red Angus and Angus genetics.

The bulls are an impressive group again this year. They offer performance, calving ease and incredible dispositions, and are backed by some the breed's leading A.I. sires. These bulls were weaned on Sept. 23 without creep feed. They have been on a growing diet of corn silage, grass hay, corn and dry distillers with a Vigortone mineral. These bulls are not pushed to help promote longevity in both condition and feet.

Due to the harsh conditions of last year's winter, I believe my birth weights were higher. Please refer to the Calving Ease Direct (CED) and Birth Weight (BW) EPDs to help assist you in looking for calving-ease bulls.

Once again the sale will be broadcast on DVAuction. If you are looking to bid on DVAuction, please register ahead of time and make sure you are approved to bid. We also will have people available sale day if you prefer to be on the phone instead.

We would like to thank all of you for your interest and past business! Know that we will serve you with the utmost honesty and integrity. If you have any questions, please call or stop in anytime! We hope to see you Feb. 3 at the ranch!

◆◆◆◆◆ Commercial Heifers

Commercial Red Angus Heifers

68 20 Commercial Red Angus x Simmental Open Heifers

These heifers were handpicked out of a 120 heifers from my dad, Gerald Twedt's herd. They are Simmental-Red Angus cross heifers. The Simmental bulls used are mostly Kjelgaard Simmental bulls and the Red Angus are Twedt Red Angus bulls. This is one awesome pen of heifers. The heifers are Bangs vaccinated and guaranteed open.

The 100 open heifers that were left over were purchased by Jason Topp of Grace City, ND, and will be Aled and cleaned up by Twedt Red Angus bulls. These heifers will be for sale this fall. For more information Contact Twedt Red Angus or Jason Topp at (701) 307-0132.

Commercial Angus Heifers

69 20 Commercial Purebred Angus Open Heifers

This complete set of stylish heifers is from the top of our commercial herd. We kept very few replacements out of the commercial herd this year. Putting these heifers in the sale was a tough decision to make because we have seen what their dams have produced, a consistent type year after year. They yield heifers that are fertile and steers that weigh up. These heifers are out of moderately framed cows with quality udders, breeding longevity, and phenotypically stand out. This group of heifers had an average weaning weight of 550 lbs. on October 1st. In the beginning of January, they averaged 760 lbs. They were fed corn screenings, silage, hay, distillers and a complete mineral package. This custom ration allowed for these heifers to slowly mature in order to insure longevity and more milk capacity. The genetics behind these heifers will allow them produce growing type of calves and outstanding replacements.

This complete set of stylish Mentor, New Standard and Spickler Baldrige Rock Daughters are from the top of our commercial herd.
