Dear Friends and Cattlemen,

Welcome to our 2016 production sale! We would like to extend a sincere thank you to everyone that has supported us along the way. It means a great deal to us that you take the time out of your schedule to look through our sale offering! We take great pride in being your source for seedstock, and we strive to raise the best set we can for our customers year after year.

For the first time, we will be having the bull sale at the farm south of Rocklake. It has been our goal to have the sale on the farm - less stress on the animals and less susceptibility for health issues. We hope you can come enjoy some hospitality following the sale!

This year's offering is as strong as ever. I encourage you to come early and take a good look through the sale offering. The Angus bulls averaged 777 and the Hereford bulls 618 on their adjusted weaning weights, and have continued to do very well through the early part of winter. At last check the entire group was averaging 4.11 for an average daily gain. We been very pleased with this group top to bottom all year. I feel strongly that you will agree.

The bulls are grown out on a high roughage total mixed ration consisting of chopped alfalfa and millet hay along with corn silage, whole corn, a protein supplement through J&R Feeds, and mineral. We raise these bulls with their futures in mind. We do our best to let them express their genetic potential without sacrificing structural integrity. You will find a sound set of bulls.

There are a lot of high performing bulls in the offering some of which are also calving ease bulls. We have a wide range of genetics to suit your needs. If there's anything in particular you would like help in finding we would love the opportunity to help you sort through them. If you are searching for a performance bull or calving ease bull we have what you're looking for.

Sincerely,

The Carters and Penners
